

State Regulations – Electronic Second Opinions

The Medical Board in each state independently sets rules governing the availability of electronic second opinions.

The following states currently have regulations that limit or exclude electronic second opinion services from e-Cleveland Clinic: Louisiana, North Dakota and Oregon.

Residents from the following states are excluded from using Partners Online Specialty Consultations due to state regulatory constraints: Iowa, Louisiana, Oregon, South Carolina and Tennessee.

State regulations are subject to change. If you live in one of the states listed above, please contact the service provider to confirm the availability of these electronic second opinion services:

e-Cleveland Clinic

1-800-223-2273, ext. 43223

Partners Online Specialty Consultations

1-866-669-7954

Non-US Options – Electronic Second Opinion

Both eCC and Partners Online Specialty Consultations do offer this service outside of the USA. GE only covers this service for US based employees and dependents that are currently enrolled in a GE Medical Care Option. You would be responsible for payment in full. For more information visit:

www.eclevelandclinic.org. The cost of an eCleveland Clinic MyConsult Remote Second Opinion is \$565, payable at the time of the request with a major credit card or by certified bank check or money order (from a U.S. bank payable in U.S. funds). If a pathology review (reading) is required to complete your MyConsult Remote Second Opinion—as in most cancer-related diagnoses—there is an additional charge of \$180 for that review and report.
