

Dear valued GE Supplier,

GE Gas Power has a new sourcing tool for eRFQs (no costs for suppliers imposed). All GAS Business suppliers will require access to the RFQ platform **SourceGate** for their eRFQs going forward. At the same time please also register for STC (Supplier Technical Collaboration Training) to gain access to PGPLM / Engineering documentation. This is the only compliant method for sharing of GE technical Documentation.

Please register today and follow these steps to get access to SourceGate & STC – else you will not be able to participate in GEs RFQ process anymore. Emails will not be shared anymore.

<https://registration.gepower.com/registration/>

Click on the link.

Create your B2B SSO or Login with your B2B SSO if you already have one.

Go to “Click here to register” if you do not yet have a GE B2B SSO

Go to “Sign In” if you already have a GE B2B SSO

Registration

Request Access Submit

Next step is to sign in and select your apps.

Look for **Supplier Technical Collaboration (STC) - Gas Power** and **SourceGate** and click on “Add” for both applications.

Then click on “Request Access” – a new form will open.

Please answer the following questions to request access to your selected applications.

Questions for:
SourceGate

Enter your company 6-digit GSL and 3-digit company Site ID (preferred format: xxxxxx-xxx).
If you do not know your GSL please reach out to your GE sourcing representative or refer to your purchase order. *

Enter your primary GE sourcing representative who will authorize your request to access SourceGate *

Submit

Cancel

Please answer the following questions to request access to your selected applications.

Questions for:
Supplier Technical Collaboration (STC) - Gas Power

Enter your company 6-digit GSL and 3-company Site ID *

Enter your primary GE sourcing representative who will authorize your request to access *

Enter your (USER) primary work Country *

Submit

Cancel

Fill in the entire form(s) for SourceGate and STC.

If you do not know your GSL ID, fill in N/A.

The USER primary work country would be the country where the user will be working from which could be different than the location of the suppliers company.

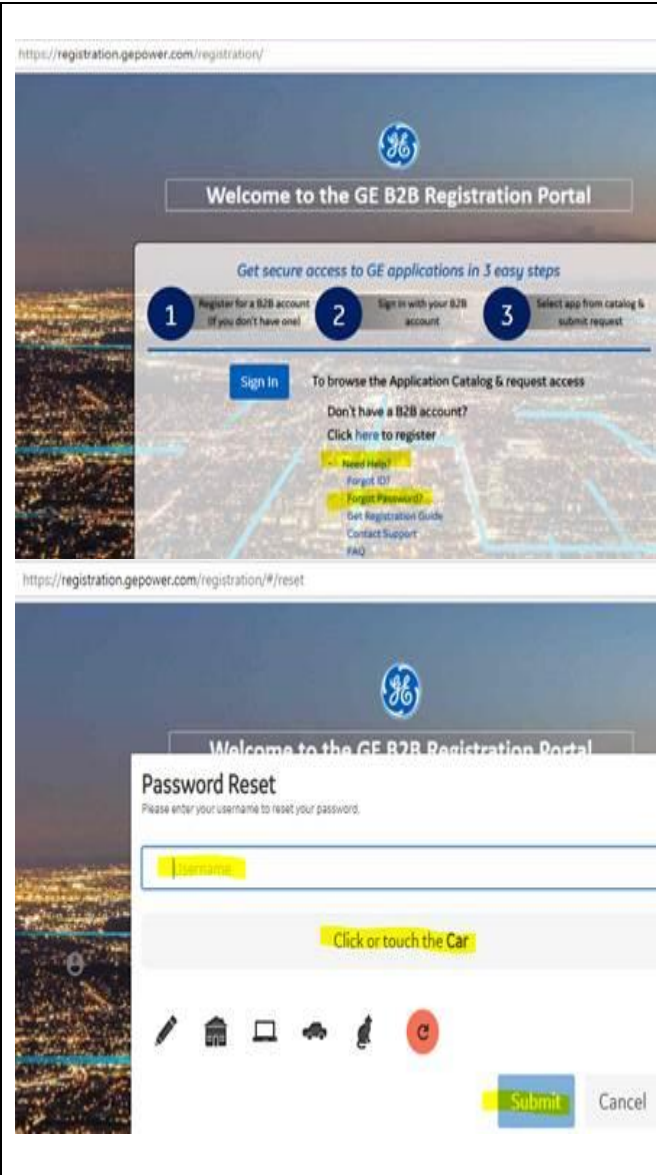

After clicking "submit" - all steps will be completed and we will be creating your accounts for selected target applications.
