0 Introduction
This document outlines the policy of the ALGLIB Project regarding the use of its trademarks. "ALGLIB" is a trademark of the ALGLIB Project registered under the Madrid Protocol/Agreement. All trademarks, even those that apply to open source software, must be used according to certain legal requirements. If these requirements are not met, the trademark may be endangered or lost. One of these requirements is for the trademark owner to maintain standards for using its trademarks, and to enforce acceptable use of the trademarks by taking action against parties that violate those standards.
Trademark law is a way to protect both the trademark holder and the public. This means that uses of trademarks that confuse consumers are not permitted under law. Trademark law allows our users to be sure that we are the source of the products that bear the trademark.
Underlying ALGLIB trademark policy is a set of guidelines for what is - and is not - acceptable use of ALGLIB Project's trademarks. This policy describes the uses generally approved by ALGLIB Project for its trademarks. However, if you violate this policy, or otherwise take actions that are considered confusing/abusive by ALGLIB Project, we may require you to cease all use of any ALGLIB trademark, regardless of the uses allowed in this policy.

1 Uses that Never Require Approval
All trademarks are subject to "nominative use rules" that allow use of the trademark to name the trademarked entity in a way that is minimal and does not imply a sponsorship relationship with the trademark holder. As such, stating that software is written using ALGLIB, is a wrapper for ALGLIB, is compatible in some way with ALGLIB, is always allowed. This is true both for non-commercial and commercial uses.
You can use word mark "ALGLIB" when you distribute original, unmodified ALGLIB sources.
I.e. if for some reason you want to redistribute ALGLIB source from your site (or to include it into your repository), you can use "ALGLIB" in the name of the archive.

2 Uses that Always Require Approval

Generally, all uses not covered by [1] are always require approval. In particular, any use of the trademarks in product or company names must be approved first by the ALGLIB Project. Some uses, like calling a company "ALGLIB consulting" or a product "Another ALGLIB" will be refused.

In case you've made modifications to ALGLIB and want to use "ALGLIB" word mark in the modified distribution name, you should contact us and ask for approval. We will review your application and, in case your modifications do not break package functionality, will give you permission to use word mark "ALGLIB".

3 License for this Policy

This Policy is based on the similar policy published by Python Software Foundation (PSF) under Creative Commons CC0 license. Following original publisher, we release ALGLIB Trademark Usage Policy under Creative Commons CC0 license too.

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software—to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.
For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by
the copyright holder saying it may be distributed under the terms of this General Public
License. The "Program", below, refers to any such program or work, and a "work based
on the Program" means either the Program or any derivative work under copyright law:
that is to say, a work containing the Program or a portion of it, either verbatim or with
modifications and/or translated into another language. (Hereinafter, translation is
included without limitation in the term "modification".) Each licensee is addressed as
"you".

Activities other than copying, distribution and modification are not covered by this
License; they are outside its scope. The act of running the Program is not restricted, and
the output from the Program is covered only if its contents constitute a work based on
the Program (independent of having been made by running the Program). Whether that
is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you
receive it, in any medium, provided that you conspicuously and appropriately publish on
each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the
notices that refer to this License and to the absence of any warranty; and give any other
recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your
option offer warranty protection in exchange for a fee.
2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

   a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
   b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.
   c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.
Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)
The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on
the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.
It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any

later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES,
INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

Copyright (C) yyyy name of author

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either Version 2 of the License, or (at your option) any later version.
This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA. Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'. This is free software, and you are welcome to redistribute it under certain conditions; type `show c' for details.

The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

Page 14 of 122
Yoyodyne, Inc., hereby disclaims all copyright interest in the program `Gnomovision' (which makes passes at compilers) written by James Hacker.

Ty Coon, President of Vice
This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Lesser General Public License instead of this License.

The GNU General Public License is a free, copyleft license for software and other kinds of works.

The licenses for most software and other practical works are designed to take away your freedom to share and change the works. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change all versions of a program--to make sure it remains free software for all its users. We, the Free Software Foundation, use the GNU General Public License for most of our software; it applies also to any other work released this way by its authors. You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for them if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs, and that you know you can do these things.

To protect your rights, we need to prevent others from denying you these rights or asking you to surrender the rights. Therefore, you have certain responsibilities if you distribute copies of the software, or if you modify it: responsibilities to respect the freedom of others.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must pass on to the recipients the same freedoms that you received. You must make sure that they, too, receive or can get the source code. And you must show them these terms
so they know their rights. Developers that use the GNU GPL protect your rights with two steps: (1) assert copyright on the software, and (2) offer you this License giving you legal permission to copy, distribute and/or modify it.

For the developers' and authors' protection, the GPL clearly explains that there is no warranty for this free software. For both users' and authors' sake, the GPL requires that modified versions be marked as changed, so that their problems will not be attributed erroneously to authors of previous versions.

Some devices are designed to deny users access to install or run modified versions of the software inside them, although the manufacturer can do so. This is fundamentally incompatible with the aim of protecting users' freedom to change the software. The systematic pattern of such abuse occurs in the area of products for individuals to use, which is precisely where it is most unacceptable. Therefore, we have designed this version of the GPL to prohibit the practice for those products. If such problems arise substantially in other domains, we stand ready to extend this provision to those domains in future versions of the GPL, as needed to protect the freedom of users.

Finally, every program is threatened constantly by software patents. States should not allow patents to restrict development and use of software on general-purpose computers, but in those that do, we wish to avoid the special danger that patents applied to a free program could make it effectively proprietary. To prevent this, the GPL assures that patents cannot be used to render the program non-free.

The precise terms and conditions for copying, distribution and modification follow.
TERMS AND CONDITIONS

0. Definitions.
“This License” refers to version 3 of the GNU General Public License.

“Copyright” also means copyright-like laws that apply to other kinds of works, such as semiconductor masks.

“The Program” refers to any copyrightable work licensed under this License. Each licensee is addressed as “you”. “Licensees” and “recipients” may be individuals or organizations.

To “modify” a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a “modified version” of the earlier work or a work “based on” the earlier work.

A “covered work” means either the unmodified Program or a work based on the Program.

To “propagate” a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on a computer or modifying a private copy. Propagation includes copying, distribution (with or without modification), making available to the public, and in some countries other activities as well.

To “convey” a work means any kind of propagation that enables other parties to make or receive copies. Mere interaction with a user through a computer network, with no transfer of a copy, is not conveying.
The “source code” for a work means the preferred form of the work for making modifications to it. “Object code” means any non-source form of a work.

A “Standard Interface” means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming language, one that is widely used among developers working in that language.

The “System Libraries” of an executable work include anything, other than the work as a whole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that Major Component, or to implement a Standard Interface for which an implementation is available to the public in source code form. A “Major Component”, in this context, means a major essential component (kernel, window system, and so on) of the specific operating system (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it.
The “Corresponding Source” for a work in object code form means all the source code needed to generate, install, and (for an executable work) run the object code and to modify the work, including scripts to control those activities. However, it does not include the work's System Libraries, or general-purpose tools or generally available free programs which are used unmodified in performing those activities but which are not part of the work. For example, Corresponding Source includes interface definition files associated with source files for the work, and the source code for shared libraries and dynamically linked subprograms that the work is specifically designed to require, such as by intimate data communication or control flow between those subprograms and other parts of the work.

The Corresponding Source need not include anything that users can regenerate automatically from other parts of the Corresponding Source.

The Corresponding Source for a work in source code form is that same work.
2. Basic Permissions.

All rights granted under this License are granted for the term of copyright on the Program, and are irrevocable provided the stated conditions are met. This License explicitly affirms your unlimited permission to run the unmodified Program. The output from running a covered work is covered by this License only if the output, given its content, constitutes a covered work. This License acknowledges your rights of fair use or other equivalent, as provided by copyright law.

You may make, run and propagate covered works that you do not convey, without conditions so long as your license otherwise remains in force. You may convey covered works to others for the sole purpose of having them make modifications exclusively for you, or provide you with facilities for running those works, provided that you comply with the terms of this License in conveying all material for which you do not control copyright. Those thus making or running the covered works for you must do so exclusively on your behalf, under your direction and control, on terms that prohibit them from making any copies of your copyrighted material outside their relationship with you.

Conveying under any other circumstances is permitted solely under the conditions stated below. Sublicensing is not allowed; section 10 makes it unnecessary.
3. Protecting Users' Legal Rights From Anti-Circumvention Law.
No covered work shall be deemed part of an effective technological measure under any applicable law fulfilling obligations under article 11 of the WIPO copyright treaty adopted on 20 December 1996, or similar laws prohibiting or restricting circumvention of such measures.

When you convey a covered work, you waive any legal power to forbid circumvention of technological measures to the extent such circumvention is effected by exercising rights under this License with respect to the covered work, and you disclaim any intention to limit operation or modification of the work as a means of enforcing, against the work's users, your or third parties' legal rights to forbid circumvention of technological measures.

You may convey verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice; keep intact all notices stating that this License and any non-permissive terms added in accord with section 7 apply to the code; keep intact all notices of the absence of any warranty; and give all recipients a copy of this License along with the Program.

You may charge any price or no price for each copy that you convey, and you may offer support or warranty protection for a fee.
5. Conveying Modified Source Versions.
You may convey a work based on the Program, or the modifications to produce it from the Program, in the form of source code under the terms of section 4, provided that you also meet all of these conditions:

a) The work must carry prominent notices stating that you modified it, and giving a relevant date.
b) The work must carry prominent notices stating that it is released under this License and any conditions added under section 7. This requirement modifies the requirement in section 4 to “keep intact all notices”.
c) You must license the entire work, as a whole, under this License to anyone who comes into possession of a copy. This License will therefore apply, along with any applicable section 7 additional terms, to the whole of the work, and all its parts, regardless of how they are packaged. This License gives no permission to license the work in any other way, but it does not invalidate such permission if you have separately received it.
d) If the work has interactive user interfaces, each must display Appropriate Legal Notices; however, if the Program has interactive interfaces that do not display Appropriate Legal Notices, your work need not make them do so.

A compilation of a covered work with other separate and independent works, which are not by their nature extensions of the covered work, and which are not combined with it such as to form a larger program, in or on a volume of a storage or distribution medium, is called an “aggregate” if the compilation and its resulting copyright are not used to limit the access or legal rights of the compilation’s users beyond what the individual works permit. Inclusion of a covered work in an aggregate does not cause this License to apply to the other parts of the aggregate.
6. Conveying Non-Source Forms.
You may convey a covered work in object code form under the terms of sections 4 and 5, provided that you also convey the machine-readable Corresponding Source under the terms of this License, in one of these ways:

a) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by the Corresponding Source fixed on a durable physical medium customarily used for software interchange.

b) Convey the object code in, or embodied in, a physical product (including a physical distribution medium), accompanied by a written offer, valid for at least three years and valid for as long as you offer spare parts or customer support for that product model, to give anyone who possesses the object code either (1) a copy of the Corresponding Source for all the software in the product that is covered by this License, on a durable physical medium customarily used for software interchange, for a price no more than your reasonable cost of physically performing this conveying of source, or (2) access to copy the Corresponding Source from a network server at no charge.

<td>d)</td>
<td>Convey the object code by offering access from a designated place (gratis or for a charge), and offer equivalent access to the Corresponding Source in the same way through the same place at no further charge. You need not require recipients to copy the Corresponding Source along with the object code. If the place to copy the object code is a network server, the Corresponding Source may be on a different server (operated by you or a third party) that supports equivalent copying facilities, provided you maintain clear directions next to the object code saying where to find the Corresponding Source. Regardless of what server hosts the Corresponding Source, you remain obligated to ensure that it is available for as long as needed to satisfy these requirements.</td>

</tbody>
</table>
A separable portion of the object code, whose source code is excluded from the
Corresponding Source as a System Library, need not be included in conveying the object
code work.

A “User Product” is either (1) a “consumer product”, which means any tangible personal
property which is normally used for personal, family, or household purposes, or (2)
anything designed or sold for incorporation into a dwelling. In determining whether a
product is a consumer product, doubtful cases shall be resolved in favor of coverage. For
a particular product received by a particular user, “normally used” refers to a typical or
common use of that class of product, regardless of the status of the particular user or of
the way in which the particular user actually uses, or expects or is expected to use, the
product. A product is a consumer product regardless of whether the product has
substantial commercial, industrial or non-consumer uses, unless such uses represent the
only significant mode of use of the product.
“Installation Information” for a User Product means any methods, procedures, authorization keys, or other information required to install and execute modified versions of a covered work in that User Product from a modified version of its Corresponding Source. The information must suffice to ensure that the continued functioning of the modified object code is in no case prevented or interfered with solely because modification has been made.

If you convey an object code work under this section in, or with, or specifically for use in, a User Product, and the conveying occurs as part of a transaction in which the right of possession and use of the User Product is transferred to the recipient in perpetuity or for a fixed term (regardless of how the transaction is characterized), the Corresponding Source conveyed under this section must be accompanied by the Installation Information. But this requirement does not apply if neither you nor any third party retains the ability to install modified object code on the User Product (for example, the work has been installed in ROM).

The requirement to provide Installation Information does not include a requirement to continue to provide support service, warranty, or updates for a work that has been modified or installed by the recipient, or for the User Product in which it has been modified or installed. Access to a network may be denied when the modification itself materially and adversely affects the operation of the network or violates the rules and protocols for communication across the network.

Corresponding Source conveyed, and Installation Information provided, in accord with this section must be in a format that is publicly documented (and with an implementation available to the public in source code form), and must require no special password or key for unpacking, reading or copying.
7. Additional Terms.

“Additional permissions” are terms that supplement the terms of this License by making exceptions from one or more of its conditions. Additional permissions that are applicable to the entire Program shall be treated as though they were included in this License, to the extent that they are valid under applicable law. If additional permissions apply only to part of the Program, that part may be used separately under those permissions, but the entire Program remains governed by this License without regard to the additional permissions.

When you convey a copy of a covered work, you may at your option remove any additional permissions from that copy, or from any part of it. (Additional permissions may be written to require their own removal in certain cases when you modify the work.) You may place additional permissions on material, added by you to a covered work, for which you have or can give appropriate copyright permission.

Notwithstanding any other provision of this License, for material you add to a covered work, you may (if authorized by the copyright holders of that material) supplement the terms of this License with terms:

<tr>

<td></td>
<td>b) Requiring preservation of specified reasonable legal notices or author attributions in that material or in the Appropriate Legal Notices displayed by works containing it; or</td>

<td>f) Requiring indemnification of licensors and authors of that material by anyone who conveys the material (or modified versions of it) with contractual assumptions of liability to the recipient, for any liability that these contractual assumptions directly impose on those licensors and authors.</td>
</tr>
</tbody>
</table>
All other non-permissive additional terms are considered “further restrictions” within the meaning of section 10. If the Program as you received it, or any part of it, contains a notice stating that it is governed by this License along with a term that is a further restriction, you may remove that term. If a license document contains a further restriction but permits relicensing or conveying under this License, you may add to a covered work material governed by the terms of that license document, provided that the further restriction does not survive such relicensing or conveying.

If you add terms to a covered work in accord with this section, you must place, in the relevant source files, a statement of the additional terms that apply to those files, or a notice indicating where to find the applicable terms.

Additional terms, permissive or non-permissive, may be stated in the form of a separately written license, or stated as exceptions; the above requirements apply either way.
8. Termination.
You may not propagate or modify a covered work except as expressly provided under this License. Any attempt otherwise to propagate or modify it is void, and will automatically terminate your rights under this License (including any patent licenses granted under the third paragraph of section 11).

However, if you cease all violation of this License, then your license from a particular copyright holder is reinstated (a) provisionally, unless and until the copyright holder explicitly and finally terminates your license, and (b) permanently, if the copyright holder fails to notify you of the violation by some reasonable means prior to 60 days after the cessation.

Moreover, your license from a particular copyright holder is reinstated permanently if the copyright holder notifies you of the violation by some reasonable means, this is the first time you have received notice of violation of this License (for any work) from that copyright holder, and you cure the violation prior to 30 days after your receipt of the notice.

Termination of your rights under this section does not terminate the licenses of parties who have received copies or rights from you under this License. If your rights have been terminated and not permanently reinstated, you do not qualify to receive new licenses for the same material under section 10.
You are not required to accept this License in order to receive or run a copy of the Program. Ancillary propagation of a covered work occurring solely as a consequence of using peer-to-peer transmission to receive a copy likewise does not require acceptance. However, nothing other than this License grants you permission to propagate or modify any covered work. These actions infringe copyright if you do not accept this License. Therefore, by modifying or propagating a covered work, you indicate your acceptance of this License to do so.

|                                  |         | **10. Automatic Licensing of Downstream Recipients.**<br>Each time you convey a covered work, the recipient automatically receives a license from the original licensors, to run, modify and propagate that work, subject to this License. You are not responsible for enforcing compliance by third parties with this License.  

An “entity transaction” is a transaction transferring control of an organization, or substantially all assets of one, or subdividing an organization, or merging organizations. If propagation of a covered work results from an entity transaction, each party to that transaction who receives a copy of the work also receives whatever licenses to the work the party's predecessor in interest had or could give under the previous paragraph, plus a right to possession of the Corresponding Source of the work from the predecessor in interest, if the predecessor has it or can get it with reasonable efforts.  

You may not impose any further restrictions on the exercise of the rights granted or affirmed under this License. For example, you may not impose a license fee, royalty, or other charge for exercise of rights granted under this License, and you may not initiate litigation (including a cross-claim or counterclaim in a lawsuit) alleging that any patent claim is infringed by making, using, selling, offering for sale, or importing the Program or any portion of it. |
11. Patents.

A “contributor” is a copyright holder who authorizes use under this License of the Program or a work on which the Program is based. The work thus licensed is called the contributor's “contributor version”.

A contributor's “essential patent claims” are all patent claims owned or controlled by the contributor, whether already acquired or hereafter acquired, that would be infringed by some manner, permitted by this License, of making, using, or selling its contributor version, but do not include claims that would be infringed only as a consequence of further modification of the contributor version. For purposes of this definition, “control” includes the right to grant patent sublicenses in a manner consistent with the requirements of this License.
Each contributor grants you a non-exclusive, worldwide, royalty-free patent license under the contributor's essential patent claims, to make, use, sell, offer for sale, import and otherwise run, modify and propagate the contents of its contributor version.

In the following three paragraphs, a “patent license” is any express agreement or commitment, however denominated, not to enforce a patent (such as an express permission to practice a patent or covenant not to sue for patent infringement). To “grant” such a patent license to a party means to make such an agreement or commitment not to enforce a patent against the party.

If you convey a covered work, knowingly relying on a patent license, and the Corresponding Source of the work is not available for anyone to copy, free of charge and under the terms of this License, through a publicly available network server or other readily accessible means, then you must either (1) cause the Corresponding Source to be so available, or (2) arrange to deprive yourself of the benefit of the patent license for this particular work, or (3) arrange, in a manner consistent with the requirements of this License, to extend the patent license to downstream recipients. “Knowingly relying” means you have actual knowledge that, but for the patent license, your conveying the covered work in a country, or your recipient’s use of the covered work in a country, would infringe one or more identifiable patents in that country that you have reason to believe are valid.

<td>If, pursuant to or in connection with a single transaction or arrangement, you convey, or propagate by procuring conveyance of, a covered work, and grant a patent license to some of the parties receiving the covered work authorizing them to use, propagate, modify or convey a specific copy of the covered work, then the patent license you grant is automatically extended to all recipients of the covered work and works based on it.</td>
</tr>
</tbody>
</table>

A patent license is “discriminatory” if it does not include within the scope of its coverage, prohibits the exercise of, or is conditioned on the non-exercise of one or more of the rights that are specifically granted under this License. You may not convey a covered work if you are a party to an arrangement with a third party that is in the business of distributing software, under which you make payment to the third party based on the extent of your activity of conveying the work, and under which the third party grants, to any of the parties who would receive the covered work from you, a discriminatory patent license (a) in connection with copies of the covered work conveyed by you (or copies made from those copies), or (b) primarily for and in connection with specific products or compilations that contain the covered work, unless you entered into that arrangement, or that patent license was granted, prior to 28 March 2007.

Nothing in this License shall be construed as excluding or limiting any implied license or other defenses to infringement that may otherwise be available to you under applicable patent law.
If conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot convey a covered work so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not convey it at all. For example, if you agree to terms that obligate you to collect a royalty for further conveying from those to whom you convey the Program, the only way you could satisfy both those terms and this License would be to refrain entirely from conveying the Program.

13. Use with the GNU Affero General Public License.
Notwithstanding any other provision of this License, you have permission to link or combine any covered work with a work licensed under version 3 of the GNU Affero General Public License into a single combined work, and to convey the resulting work. The terms of this License will continue to apply to the part which is the covered work, but the special requirements of the GNU Affero General Public License, section 13, concerning interaction through a network will apply to the combination as such.
14. Revised Versions of this License.
The Free Software Foundation may publish revised and/or new versions of the GNU General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies that a certain numbered version of the GNU General Public License “or any later version” applies to it, you have the option of following the terms and conditions either of that numbered version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of the GNU General Public License, you may choose any version ever published by the Free Software Foundation.

If the Program specifies that a proxy can decide which future versions of the GNU General Public License can be used, that proxy's public statement of acceptance of a version permanently authorizes you to choose that version for the Program.

Later license versions may give you additional or different permissions. However, no additional obligations are imposed on any author or copyright holder as a result of your choosing to follow a later version.
15. Disclaimer of Warranty.
THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM “AS IS” WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. Limitation of Liability.
IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
### 17. Interpretation of Sections 15 and 16.
If the disclaimer of warranty and limitation of liability provided above cannot be given local legal effect according to their terms, reviewing courts shall apply local law that most closely approximates an absolute waiver of all civil liability in connection with the Program, unless a warranty or assumption of liability accompanies a copy of the Program in return for a fee.

NXP SOFTWARE LICENSE AGREEMENT

This is a legal agreement between your employer ("Licensee") and NXP Semiconductors, Inc. ("NXP"). It concerns Licensee’s rights to use this file and any accompanying written materials ("Software"). In consideration for NXP allowing Licensee to access the Software, Licensee is agreeing to be bound by the terms of this Agreement. If Licensee does not agree to all of the terms of this Agreement, Licensee must not download the Software. If Licensee does not agree to all of the terms of this Agreement after downloading the Software, Licensee must stop using the Software and delete all copies of the Software in its possession or control. Any copies of the Software that Licensee has already distributed, where permitted, and does not destroy will continue to be governed by this Agreement. Licensee's prior use will also continue to be governed by this Agreement.

LICENSE GRANT. NXP grants to Licensee, free of charge, the royalty-free, non-exclusive, non-transferable right (1) to use the Software, (2) to reproduce the Software, (3) to prepare derivative works of the Software, (4) to distribute the Software and derivative works thereof in object (machine-readable) form only as part of, or embedded within, an Authorized System; and (5) to sublicense to others the right to use the distributed Software as part of, or embedded within, the
Authorized System. “Authorized System” means a value added product, which includes all or part of the Software in object code form, an NXP 802.15.4 Radio Frequency (RF) transceiver product (“Target Hardware”), has material and substantial value added functionality and circuitry other than the Software and the Target Hardware, sold by Licensee directly or indirectly to consumers under Licensee’s own brand name or OEM brand name and where the price of the Authorized System is higher than the fair market value of the Software and Target Hardware to reflect the additional value added functionality. Licensee must prohibit its sublicensees from translating, reverse engineering, decompiling, or disassembling the Software except to the extent applicable law specifically prohibits such restriction. If Licensee violates any of the terms or restrictions of this Agreement, NXP may immediately terminate this Agreement, and require that Licensee stop using and delete all copies of the Software in its possession or control.

PATENT COVENANT NOT TO SUE. Licensee covenants not to sue or otherwise assert a Patent Claim against NXP®, an NXP subsidiary, an NXP licensee or an NXP customer because of NXP’s, an NXP subsidiary’s, an NXP licensee’s or an NXP customer’s reproduction, use, marketing, selling, distribution, licensing, sub-licensing, importation or other disposition of the Software. “Patent Claim” means a claim that all or part of the Software delivered by NXP to Licensee under this Agreement infringes a Licensee Patent whereby such claim relies on or is otherwise based upon (a) any of the Software delivered by NXP or (b) information regarding the Software by an employee of Licensee who had access to the Software delivered by NXP. “Licensee Patent” means any patent or patent application owned or controlled by Licensee.

**COPYRIGHT.** The Software is licensed, not sold. NXP owns the Software, and United States copyright laws and international treaty provisions protect the Software. Licensee must treat the Software like any other copyrighted material (e.g., a book or musical recording). Licensee may not use or copy the Software for any other purpose than what is described in this Agreement. Except as expressly provided herein, NXP does not grant to Licensee any express or implied rights under any NXP or third party patents, copyrights, trademarks, or trade secrets. Additionally, Licensee must reproduce and apply any copyright or other proprietary rights notices included on or embedded in the Software to any copies or derivative works made thereof, in whole or in part, if any.

**SUPPORT.** NXP is NOT obligated to provide any support, upgrades or new releases of the Software. Licensee may contact NXP and report problems and provide suggestions regarding the Software. NXP has no obligation whatsoever to respond in any way to report of such a problem or suggestion, and Licensee grants to NXP, under Licensee’s intellectual property rights, a nonexclusive, nontransferable, irrevocable, perpetual, worldwide, royalty-free license to use, reproduce, create derivative work of and distribute any such suggestion that Licensee reports to NXP. NXP may make changes to the Software at any time, without any obligation to notify or provide updated versions of the Software.

COMPLIANCE WITH LAWS; EXPORT RESTRICTIONS. Licensee must use the Software in accordance with all applicable U.S. laws, regulations and statutes. Neither Licensee nor Licensee’s sublicensees(if any) intend to or will, directly or indirectly, export or transmit the Software to any country in violation of U.S. export restrictions.
GOVERNMENT USE. Use of the Software and any corresponding documentation, if any, is provided with RESTRICTED RIGHTS. Use, duplication or disclosure by the Government is subject to restrictions as set forth in subparagraph (c)(1)(ii) of The Rights in Technical Data and Computer Software clause at DFARS 252.227-7013 or subparagraphs (c)(1) and (2) of the Commercial Computer Software--Restricted Rights at 48 CFR 52.227-19, as applicable. Manufacturer is NXP Semiconductors, Inc., 6501 William Cannon Drive West, Austin, TX, 78735.

HIGH RISK ACTIVITIES. Licensees acknowledge that the Software is not fault tolerant and is not designed, manufactured or intended by NXP for incorporation into products intended for use or resale in on-line control equipment in hazardous, dangerous to life or potentially life-threatening environments requiring fail-safe performance, such as in the operation of nuclear facilities, aircraft navigation or communication systems, air traffic control, direct life support machines or weapons systems, in which the failure of products could lead directly to death, personal injury or severe physical or environmental damage (“High Risk Activities”). Licensee specifically represents and warrants that it will not use the Software or any derivative work of the Software for High Risk Activities.

CHOICE OF LAW; VENUE; LIMITATIONS. The statutes and laws of the United States and the State of Texas, USA, without regard to conflicts of laws principles, will apply to all matters relating to this Agreement or the Software, and any litigation will be subject to the exclusive jurisdiction of the state or federal courts in Texas, USA. Regardless of any statute or law to the contrary, any claim or cause of action arising out of or related to this Agreement or the Software must be filed within one (1) year after such claim or cause of action arose or be forever barred.
PRODUCT LABELING. Licensee will not use any NXP trademarks, brand names, or logos.

ENTIRE AGREEMENT. This Agreement constitutes the entire agreement between Licensee and NXP regarding the subject matter of this Agreement, and supersedes all prior communications, negotiations, understandings, agreements or representations, either written or oral, if any. This Agreement may only be amended in written form, signed by Licensee and NXP.

SEVERABILITY. If any provision of this Agreement is held for any reason to be invalid or unenforceable, then the remaining provisions of this Agreement will be unimpaired and, unless a modification or replacement of the invalid or unenforceable provision is further held to deprive Licensee or NXP of a material benefit, in which case the Agreement will immediately terminate, the invalid or unenforceable provision will be replaced with a provision that is valid and enforceable and that comes closest to the intention underlying the invalid or unenforceable provision.

NO WAIVER. The waiver by NXP of any breach of any provision of this Agreement will not operate or be construed as a waiver of any other or a subsequent breach of the same or a different provision.

RESTRICTED RIGHTS LEGEND

This Specification is provided with Restricted Rights. Use, duplication or disclosure by the U.S. government is subject to restrictions as set forth in (a) this Agreement pursuant to DFARs 227.7202-3(a); (b) subparagraph (c)(1)(i) of the Rights in Technical Data and Computer Software clause at DFARs 252.227-7013; or (c) the Commercial Computer Software Restricted Rights clause at FAR 52.227-19 subdivision (c)(1) and (2), as applicable. Contractor / manufacturer are the OPC Foundation, 16101 N. 82nd Street, Suite 3B, Scottsdale, AZ, 85260-1830

COMPLIANCE

The OPC Foundation shall at all times be the sole entity that may authorize developers, suppliers and sellers of hardware and software to use certification marks, trademarks or other special designations to indicate compliance with these materials. Products developed using this specification may claim compliance or conformance with this specification if and only if the software satisfactorily meets the certification requirements set by the OPC Foundation. Products that do not meet these requirements may claim only that the product was based on this specification and must not claim compliance or conformance with this specification.

TRADEMARKS

Most computer and software brand names have trademarks or registered trademarks. The individual trademarks have not been listed here.
GENERAL PROVISIONS

Should any provision of this Agreement be held to be void, invalid, unenforceable or illegal by a court, the validity and enforceability of the other provisions shall not be affected thereby.
This Agreement shall be governed by and construed under the laws of the State of Minnesota, excluding its choice or law rules.
This Agreement embodies the entire understanding between the parties with respect to, and supersedes any prior understanding or agreement (oral or written) relating to, this specification.

ISSUE REPORTING

The OPC Foundation strives to maintain the highest quality standards for its published specifications, hence they undergo constant review and refinement. Readers are encouraged to report any issues and view any existing errata here:

### OPC FOUNDATION SOFTWARE LICENSE TERMS

#### OPC FOUNDATION REDISTRIBUTABLES

These license terms are an agreement between the OPC Foundation and you. Please read them. They apply to the software named above, which includes the media on which you received it, if any. The terms also apply to any OPC Foundation

* updates,
* supplements,
* Internet-based services, and
* support services

for this software, unless other terms accompany those items. If so, those terms apply.

BY USING THE SOFTWARE, YOU ACCEPT THESE TERMS. IF YOU DO NOT ACCEPT THEM, DO NOT USE THE SOFTWARE.

If you comply with these license terms, you have the rights below.

#### 1. INSTALLATION AND USE RIGHTS.

a. Installation and Use. You may install and use any number of copies of the software on your devices.

b. Included OPC Foundation Programs. The software may contains other OPC Foundation programs. The license terms with those programs apply
2. ADDITIONAL LICENSING REQUIREMENTS AND/OR USE RIGHTS.
   a. Distributable Code. The software contains code that you are permitted to distribute in programs you develop if you comply with the terms below.
   i. Right to Use and Distribute. The code and text files listed below are “Distributable Code.”
      * REDIST.TXT Files. You may copy and distribute the object code form of code listed in REDIST.TXT files.
      * Sample Code. You may modify, copy, and distribute the source and object code form of code marked as “sample”, as well as those marked as follows: [applicable file directories go here]
      * Third Party Distribution. You may permit distributors of your programs to copy and distribute the Distributable Code as part of those programs.
   ii. Distribution Requirements. For any Distributable Code you distribute, you must
      * add significant primary functionality to it in your programs;
      * require distributors and external end users to agree to terms that protect it at least as much as this agreement;
      * display your valid copyright notice on your programs; and
      * indemnify, defend, and hold harmless the OPC Foundation from any claims, including attorneys’ fees, related to the distribution or use of your programs.
### Distribution Restrictions

You may not
* alter any copyright, trademark or patent notice in the Distributable Code;
* use the OPC Foundation’s trademarks in your programs’ names or in a way that suggests your programs come from or are endorsed by the OPC Foundation;
* include Distributable Code in malicious, deceptive or unlawful programs; or
* modify or distribute the source code of any Distributable Code so that any part of it becomes subject to an Excluded License. An Excluded License is one that requires, as a condition of use, modification or distribution, that
  * the code be disclosed or distributed in source code form; or
  * others have the right to modify it.

### 3. SCOPE OF LICENSE

The software is licensed, not sold. This agreement only gives you some rights to use the software. The OPC Foundation reserves all other rights. Unless applicable law gives you more rights despite this limitation, you may use the software only as expressly permitted in this agreement. In doing so, you must comply with any technical limitations in the software that only allow you to use it in certain ways.

You may not
* disclose the results of any benchmark tests of the software to any third party without OPC Foundation’s prior written approval;
* work around any technical limitations in the software;
* reverse engineer, decompile or disassemble the software, except and only to the extent that applicable law expressly permits, despite this limitation;
* make more copies of the software than specified in this agreement or allowed by applicable law, despite this limitation;
* publish the software for others to copy;
* rent, lease or lend the software;
4. **BACKUP COPY.** You may make one backup copy of the software. You may use it only to reinstall the software.

5. **DOCUMENTATION.** Any person that has valid access to your computer or internal network may copy and use the documentation for your internal, reference purposes.

6. **EXPORT RESTRICTIONS.** The software is subject to United States export laws and regulations. You must comply with all domestic and international export laws and regulations that apply to the software. These laws include restrictions on destinations, end users and end use.

7. **SUPPORT SERVICES.** Because this software is “as is,” we may not provide support services for it.

8. **ENTIRE AGREEMENT.** This agreement, and the terms for supplements, updates, Internet-based services and support services that you use, are the entire agreement for the software and support services.

9. **APPLICABLE LAW.**
   a. United States. If you acquired the software in the United States, Minnesota state law governs the interpretation of this agreement and applies to claims for breach of it, regardless of conflict of laws principles. The laws of the state where you live govern all other claims, including claims under state consumer protection laws, unfair competition laws, and in tort.
   b. Outside the United States. If you acquired the software in any other country, the laws of that country apply.

10. **LEGAL EFFECT.** This agreement describes certain legal rights. You may have other rights under the laws of your country. You may also have rights with respect to the party from whom you acquired the software. This agreement does not change your rights under the laws of your country if the laws of your country do not permit it to do so.
11. DISCLAIMER OF WARRANTY. THE SOFTWARE IS LICENSED “AS-IS.” YOU BEAR THE RISK OF USING IT. THIS OPC FOUNDATION GIVES NO EXPRESS WARRANTIES, GUARANTEES OR CONDITIONS. YOU MAY HAVE ADDITIONAL CONSUMER RIGHTS UNDER YOUR LOCAL LAWS WHICH THIS AGREEMENT CANNOT CHANGE. TO THE EXTENT PERMITTED UNDER YOUR LOCAL LAWS, THE OPC FOUNDATION EXCLUDES THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT.

12. LIMITATION ON AND EXCLUSION OF REMEDIES AND DAMAGES. YOU CAN RECOVER FROM THE OPC FOUNDATION AND ITS SUPPLIERS ONLY DIRECT DAMAGES UP TO U.S. $5.00. YOU CANNOT RECOVER ANY OTHER DAMAGES, INCLUDING CONSEQUENTIAL, LOST PROFITS, SPECIAL, INDIRECT OR INCIDENTAL DAMAGES.

This limitation applies to
* anything related to the software, services, content (including code) on third party Internet sites, or third party programs; and
* claims for breach of contract, breach of warranty, guarantee or condition, strict liability, negligence, or other tort to the extent permitted by applicable law.

It also applies even if the OPC Foundation knew or should have known about the possibility of the damages. The above limitation or exclusion may not apply to you because your country may not allow the exclusion or limitation of incidental, consequential or other damages.
Please note: As this software is distributed in Quebec, Canada, some of the clauses in this agreement are provided below in French.

Remarque : Ce logiciel étant distribué au Québec, Canada, certaines des clauses dans ce contrat sont fournies ci-dessous en français.

EXONÉRATION DE GARANTIE. Le logiciel visé par une licence est offert « tel quel ». Toute utilisation de ce logiciel est à votre seule risque et péril. OPC Foundation n’accorde aucune autre garantie expresse. Vous pouvez bénéficier de droits additionnels en vertu du droit local sur la protection des consommateurs, que ce contrat ne peut modifier. La ou elles sont permises par le droit locale, les garanties implicites de qualité marchande, d’adéquation à un usage particulier et d’absence de contrefaçon sont exclues.

LIMITATION DES DOMMAGES-INTÉRÊTS ET EXCLUSION DE RESPONSABILITÉ POUR LES DOMMAGES. Vous pouvez obtenir de OPC Foundation et de ses fournisseurs une indemnisation en cas de dommages directs uniquement à hauteur de 5,00 $ US. Vous ne pouvez prétendre à aucune indemnisation pour les autres dommages, y compris les dommages spéciaux, indirects ou accessoires et pertes de bénéfices.

Cette limitation concerne :

* tout ce qui est relié au logiciel, aux services ou au contenu (y compris le code) figurant sur des sites Internet tiers ou dans des programmes tiers ; et
* les réclamations au titre de violation de contrat ou de garantie, ou au titre de responsabilité stricte, de négligence ou d’une autre faute dans la limite autorisée par la loi en vigueur.

Elle s’applique également, même si OPC Foundation connaissait ou devrait connaître l’éventualité d’un tel dommage. Si votre pays n’autorise pas l’exclusion ou la limitation de responsabilité pour les dommages indirects, accessoires ou de quelque nature que ce soit,
il se peut que la limitation ou l’exclusion ci-dessus ne s’appliquera pas à votre égard. 
EFFET JURIDIQUE. Le présent contrat décrit certains droits juridiques. Vous pourriez avoir 
d’autres droits prévus par les lois de votre pays. Le présent contrat ne modifie pas les 
droits que vous confèrent les lois de votre pays si celles-ci ne le permettent pas.

RECIPROCAL COMMUNITY LICENSE 1.00 (RCL1.00)

Reciprocal Community License (RCL)
Version 1.00, June 24, 2009
Copyright (C) 2008,2009 OPC Foundation, Inc., All Rights Reserved.

PREAMBLE
The Reciprocal Community License (RCL) is based on the concept of reciprocity or, if you 
prefer, fairness.
The RCL is adapted from the Open Source Reciprocal Public License (RPL) where the “Public” in the Open Source RPL license is replaced by the “Community” in the RCL License. In short, the RPL license grew out of a desire to close loopholes in previous open source licenses, loopholes that allowed parties to acquire open source software and derive financial benefit from it without having to release their improvements or derivatives to the community which enabled them. This occurred any time an entity did not release their application to a "third party". While there is a certain freedom in this model of licensing, it struck the authors of the RPL as being unfair to the open source community at large and to the original authors of the works in particular. After all, bug fixes, extensions, and meaningful and valuable derivatives were not consistently faster, growth and expansion of the overall open source software base.

While you should clearly read and understand the entire license, the essence of the RCL is found in two definitions: "Deploy" and "Required Components".

Regarding deployment, under the RCL your changes, bug fixes, extensions, etc. must be made available to the community when you Deploy in any form -- either internally or to an outside party. Once you start running the software you have to start sharing the software. Further, under the RCL all derivative work components you author including schemas, scripts, source code, documentation, etc. -- must be shared. You have to share the whole pie, not an isolated slice of it. The authored components you must share are confined to the original module licensed (e.g. SDK, stack, wrapper, proxy, utility, etc.). You do not need to share any additional authored components that you create that utilize the licensed component. This license is meant to be friendly to commercial software vendors that must protect the IP in their code. You are not expected to share your proprietary source code that makes use of the module(s) licensed under this agreement.

The specific terms and conditions of the license are defined in the remainder of this document.
1. LICENSE TERMS
1.1 General; Applicability & Definitions. This Reciprocal Community License Version 1.00 ("License") applies to any programs or other works as well as any and all updates or maintenance releases of said programs or works ("Software") not already covered by this License which the Software copyright holder ("Licensor") makes available containing a License Notice (hereinafter defined) from the Licensor specifying or allowing use or distribution under the terms of this License. As used in this License:
1.2 "Contributor" means any person or entity who created or contributed to the creation of an Extension.
1.3 "Deploy" means to use, Serve, sublicense or distribute Licensed Software other than for Your internal Research and/or Personal Use, and includes without limitation, any and all internal use or distribution of Licensed Software within Your business or organization other than for Research and/or Personal Use, as well as direct or indirect sublicensing or distribution of Licensed Software by You to any third party.
1.4 "Derivative Works" as used in this License is defined under U.S. copyright law. For the avoidance of doubt, dynamic or static linking of the Licensed Software (modified or unmodified) with proprietary code does not create a Derivative Work according to this License.
1.5 "Extensions" means any Modifications, Derivative Works, or Required Components as those terms are defined in this License.
1.6 "License" means this Reciprocal Community License.
1.7 "License Notice" means any notice contained in EXHIBIT A.
1.8 "Licensed Software" means any Software licensed pursuant to this License. Licensed Software also includes all previous Extensions from any Contributor that You receive.

You may also sublicense and distribute Licensed Software and Your Extensions as an executable program. OPC Foundation Corporate Members may also sublicense and distribute Licensed Software and Your Extensions in Source Code form. 3.2 Create Derivative Works (as that term is defined under U.S. copyright law) of Licensed Software. 3.3 Under claims of patents now or hereafter owned or controlled by Licensor, to make, use, have made, and/or otherwise dispose of Licensed Software or portions thereof, but solely to the extent that any such claim is necessary to enable You to make, use, have made, and/or otherwise dispose of Licensed Software or portions thereof. 3.4 Licensor reserves the right to release new versions of the Software with different features, specifications, capabilities, functions, licensing terms, general availability or other characteristics. Title, ownership rights, and intellectual property rights in and to the Licensed Software shall remain in Licensor and/or its Contributors.</td>

4.0 Grant of License From Contributor. By application of the provisions in Section 6 below, each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license, subject to said Contributor's intellectual property rights, and any third party intellectual property claims derived from the Licensed Software under this License, to do the following:

4.1 Use, reproduce, modify, display and perform any Extensions Deployed by such Contributor or portions thereof, in both Source Code form or as an executable program, either on an unmodified basis or as part of Derivative Works. You may also sublicense and distribute Extensions Deployed by such Contributor or portions thereof, as an executable program. OPC Foundation Corporate Members may also sublicense and distribute Extensions Deployed by such Contributor or portions thereof, in Source Code form.

4.2 Under claims of patents now or hereafter owned or controlled by Contributor, to make, use, have made, and/or otherwise dispose of Extensions or portions thereof, but solely to the extent that any such claim is necessary to enable You to make, use, have made, and/or otherwise dispose of Licensed Software or portions thereof.
5.0 Exclusions From License Grant. Nothing in this License shall be deemed to grant any rights to trademarks, copyrights, patents, trade secrets or any other intellectual property of Licensor or any Contributor except as expressly stated herein. Except as expressly stated in Sections 3 and 4, no other patent rights, express or implied, are granted herein. Your Extensions may require additional patent licenses from Licensor or Contributors which each may grant in its sole discretion. No right is granted to the trademarks of Licensor or any Contributor even if such marks are included in the Licensed Software. Nothing in this License shall be interpreted to prohibit Licensor from licensing under different terms from this License any code that Licensor otherwise would have a right to license.

5.1 You expressly acknowledge and agree that although Licensor and each Contributor grants the licenses to their respective portions of the Licensed Software set forth herein, no assurances are provided by Licensor or any Contributor that the Licensed Software does not infringe the patent or other intellectual property rights of any other entity. Licensor and each Contributor disclaim any liability to You for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, You hereby assume sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow You to distribute the Licensed Software, it is Your responsibility to acquire that license before distributing the Licensed Software.
6.0 Your Obligations And Grants. In consideration of, and as an express condition to, the licenses granted to You under this License You hereby agree that any Modifications, Derivative Works, or Required Components (collectively Extensions) that You create or to which You contribute are governed by the terms of this License including, without limitation, Section 4. Any Extensions that You create or to which You contribute must be Deployed under the terms of this License or a future version of this License released under Section 7. You hereby grant to Licensor and all third parties a world-wide, non-exclusive, royalty-free license under those intellectual property rights You own or control to use, reproduce, display, perform, modify, create derivatives, sublicense, and distribute Licensed Software, in any form. Any Extensions You make and Deploy must have a distinct title so as to readily tell any subsequent user or Contributor that the Extensions are by You. You must include a copy of this License or directions on how to obtain a copy with every copy of the Extensions You distribute. You agree not to offer or impose any terms on any Source Code or executable version of the Licensed Software, or its Extensions that alter or restrict the applicable version of this License or the recipients' rights hereunder. Additionally, you hereby grant to the Original Licensor the right to use, reproduce, display, perform, modify, create derivatives, sublicense, and distribute Licensed Software, in any form, under the terms of this license and/or any other license terms it sees fit.

6.1 Availability of Source Code. You must make available, under the terms of this License, the Source Code of any Extensions that You Deploy, by uploading the Source Code directly to the website of the Original Licensor. The Source Code for any version that You Deploy must be made available within one (1) month of when you Deploy. You may not charge a fee for any copy of the Source Code distributed under this Section. At the sole discretion of the Original Licensor, some or all of Your contributed Source Code may be
6.2 Description of Modifications. You must cause any Modifications that You create or to which You contribute to be documented in the Source Code, clearly describing the additions, changes or deletions You made. You must include a prominent statement that the Modifications are derived, directly or indirectly, from the Licensed Software and include the names of the Licensor and any Contributor to the Licensed Software in (i) the Source Code and (ii) in any notice displayed by the Licensed Software You distribute or in related documentation in which You describe the origin or ownership of the Licensed Software. You may not modify or delete any pre-existing copyright notices, change notices or License text in the Licensed Software without written permission of the respective Licensor or Contributor.

6.3 Intellectual Property Matters.
   a. Third Party Claims. If You have knowledge that a license to a third party's intellectual property right is required to exercise the rights granted by this License, You must include a human-readable file with Your distribution that describes the claim and the party making the claim in sufficient detail that a recipient will know whom to contact.
   b. Contributor APIs. If Your Extensions include an application programming interface ("API") and You have knowledge of patent licenses that are reasonably necessary to implement that API, You must also include this information in a human-readable file supplied with Your distribution.
   c. Representations. You represent that, except as disclosed pursuant to 6.3(a) above, You believe that any Extensions You distribute are Your original creations and that You have sufficient rights to grant the rights conveyed by this License.
6.4 Required Notices.

a. License Text. You must duplicate this License or instructions on how to acquire a copy in any documentation You provide along with the Source Code of any Extensions You create or to which You contribute, wherever You describe recipients' rights relating to Licensed Software.

b. License Notice. You must duplicate any notice contained in EXHIBIT A (the "License Notice") in each file of the Source Code of any copy You distribute of the Licensed Software and Your Extensions. If You create an Extension, You may add Your name as a Contributor to the Source Code and accompanying documentation along with a description of the contribution. If it is not possible to put the License Notice in a particular Source Code file due to its structure, then You must include such License Notice in a location where a user would be likely to look for such a notice.

c. User-Visible Attribution. You must duplicate any notice contained in EXHIBIT B (the "User-Visible Attribution Notice") in each user-visible display of the Licensed Software and Your Extensions which delineates copyright, ownership, or similar attribution information. If You create an Extension, You may add Your name as a Contributor, and add Your attribution notice, as an equally visible and functional element of any User-Visible Attribution Notice content. To ensure proper attribution, You must also include such User-Visible Attribution Notice in at least one location in the Software documentation where a user would be likely to look for such notice.
6.5 Additional Terms. You may choose to offer, and charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Licensed Software. However, You may do so only on Your own behalf, and not on behalf of the Licensor or any Contributor except as permitted under other agreements between you and Licensor or Contributor. You must make it clear that any such warranty, support, indemnity or liability obligation is offered by You alone, and You hereby agree to indemnify the Licensor and every Contributor for any liability plus attorney fees, costs, and related expenses due to any such action or claim incurred by the Licensor or such Contributor as a result of warranty, support, indemnity or liability terms You offer.

6.6 Conflicts With Other Licenses. Where any portion of Your Extensions, by virtue of being Derivative Works of another product or similar circumstance, fall under the terms of another license, the terms of that license should be honored however You must also make Your Extensions available under this License. If the terms of this License continue to conflict with the terms of the other license you may write the Licensor for permission to resolve the conflict in a fashion that remains consistent with the intent of this License. Such permission will be granted at the sole discretion of the Licensor.

**7.0 Versions of This License.** Licensor may publish from time to time revised versions of the License. Once Licensed Software has been published under a particular version of the License, You may always continue to use it under the terms of that version. You may also choose to use such Licensed Software under the terms of any subsequent version of the License published by Licensor. No one other than Licensor has the right to modify the terms applicable to Licensed Software created under this License.

7.1 If You create or use a modified version of this License, which You may do only in order to apply it to software that is not already Licensed Software under this License, You must rename Your license so that it is not confusingly similar to this License, and must make it clear that Your license contains terms that differ from this License. In so naming Your license, You may not use any trademark of Licensor or of any Contributor. Should Your modifications to this License be limited to alteration of a) Section 13.8 solely to modify the legal Jurisdiction or Venue for disputes, b) EXHIBIT A solely to define License Notice text, or c) to EXHIBIT B solely to define a User-Visible Attribution Notice, You may continue to refer to Your License as the Reciprocal Community License or simply the RCL.
8.0 Disclaimer of Warranty. LICENSED SOFTWARE IS PROVIDED UNDER THIS LICENSE ON AN "AS IS" BASIS, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, WARRANTIES THAT THE LICENSED SOFTWARE IS FREE OF DEFECTS, MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT. FURTHER THERE IS NO WARRANTY MADE AND ALL IMPLIED WARRANTIES ARE DISCLAIMED THAT THE LICENSED SOFTWARE MEETS OR COMPLIES WITH ANY DESCRIPTION OF PERFORMANCE OR OPERATION, SAID COMPATIBILITY AND SUITABILITY BEING YOUR RESPONSIBILITY. LICENSOR DISCLAIMS ANY WARRANTY, IMPLIED OR EXPRESSED, THAT ANY CONTRIBUTOR'S EXTENSIONS MEET ANY STANDARD OF COMPATIBILITY OR DESCRIPTION OF PERFORMANCE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LICENSED SOFTWARE IS WITH YOU. SHOULD LICENSED SOFTWARE PROVE DEFECTIVE IN ANY RESPECT, YOU (AND NOT THE LICENSOR OR ANY OTHER CONTRIBUTOR) ASSUME THE COST OF ANY NECESSARY SERVICING, REPAIR OR CORRECTION. UNDER THE TERMS OF THIS LICENSOR WILL NOT SUPPORT THIS SOFTWARE AND IS UNDER NO OBIGATION TO ISSUE UPDATES TO THIS SOFTWARE. LICENSOR HAS NO KNOWLEDGE OF ERRANT CODE OR VIRUS IN THIS SOFTWARE, BUT DOES NOT WARRANT THAT THE SOFTWARE IS FREE FROM SUCH ERRORS OR VIRUSES. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS LICENSE. NO USE OF LICENSED SOFTWARE IS AUTHORIZED HEREUNDER EXCEPT UNDER THIS DISCLAIMER.
9.0 Limitation of Liability. UNDER NO CIRCUMSTANCES AND UNDER NO LEGAL THEORY, WHETHER TORT (INCLUDING NEGLIGENCE), CONTRACT, OR OTHERWISE, SHALL THE LICENSOR, ANY CONTRIBUTOR, OR ANY DISTRIBUTOR OF LICENSED SOFTWARE, OR ANY SUPPLIER OF ANY OF SUCH PARTIES, BE LIABLE TO ANY PERSON FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY CHARACTER INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF GOODWILL, WORK STOPPAGE, COMPUTER FAILURE OR MALFUNCTION, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, EVEN IF SUCH PARTY SHALL HAVE BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. THIS LIMITATION OF LIABILITY SHALL NOT APPLY TO LIABILITY FOR DEATH OR PERSONAL INJURY RESULTING FROM SUCH PARTY'S NEGLIGENCE TO THE EXTENT APPLICABLE LAW PROHIBITS SUCH LIMITATION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION AND LIMITATION MAY NOT APPLY TO YOU.
10.0 Restricted Rights Legend. This Specification is provided with Restricted Rights. Use, duplication or disclosure by the U.S. government is subject to restrictions as set forth in (a) this Agreement pursuant to DFARs 227.7202-3(a); (b) subparagraph (c)(1)(i) of the Rights in Technical Data and Computer Software clause at DFARs 252.227-7013; or (c) the Commercial Computer Software Restricted Rights clause at FAR 52.227-19 subdivision (c)(1) and (2), as applicable. Contractor / manufacturer are the OPC Foundation, 16101 N. 82nd Street, Suite 3B, Scottsdale, AZ, 85260-1830.

11.0 Responsibility for Claims. As between Licensor and Contributors, each party is responsible for claims and damages arising, directly or indirectly, out of its utilization of rights under this License which specifically disclaims warranties and limits any liability of the Licensor. This paragraph is to be used in conjunction with and controlled by the Disclaimer Of Warranties of Section 8, the Limitation Of Damages in Section 9, and the disclaimer against use for High Risk Activities in Section 10. The Licensor has thereby disclaimed all warranties and limited any damages that it is or may be liable for. You agree to work with Licensor and Contributors to distribute such responsibility on an equitable basis consistent with the terms of this License including Sections 8, 9, and 10. Nothing herein is intended or shall be deemed to constitute any admission of liability.
12.0 Termination. This License and all rights granted hereunder will terminate immediately in the event of the circumstances described in Section 13.6 or if applicable law prohibits or restricts You from fully and or specifically complying with Sections 3, 4 and/or 6, or prevents the enforceability of any of those Sections, and You must immediately discontinue any use of Licensed Software.

12.1 Automatic Termination Upon Breach. This License and the rights granted hereunder will terminate automatically if You fail to comply with the terms herein and fail to cure such breach within thirty (30) days of becoming aware of the breach. All sublicenses to the Licensed Software that are properly granted shall survive any termination of this License. Provisions that, by their nature, must remain in effect beyond the termination of this License, shall survive.

12.2 Termination Upon Assertion of Patent Infringement. If You initiate litigation by asserting a patent infringement claim (excluding declaratory judgment actions) against Licensor or a Contributor (Licensor or Contributor against whom You file such an action is referred to herein as "Respondent") alleging that Licensed Software directly or indirectly infringes any patent, then any and all rights granted by such Respondent to You under Sections 3 or 4 of this License shall terminate prospectively upon sixty (60) days notice from Respondent (the "Notice Period") unless within that Notice Period You either agree in writing (i) to pay Respondent a mutually agreeable reasonably royalty for Your past or future use of Licensed Software made by such Respondent, or (ii) withdraw Your litigation claim with respect to Licensed Software against such Respondent. If within said Notice Period a reasonable royalty and payment arrangement are not mutually agreed upon in writing by the parties or the litigation claim is not withdrawn, the rights granted by Licensor to You under Sections 3 and 4 automatically terminate at the expiration of said Notice Period.

### 13.0 Miscellaneous.

13.2 Relationship of Parties. This License will not be construed as creating an agency, partnership, joint venture, or any other form of legal association between or among You, Licensor, or any Contributor, and You will not represent to the contrary, whether expressly, by implication, appearance, or otherwise.

13.3 Independent Development. Nothing in this License will impair Licensor's right to acquire, license, develop, subcontract, market, or distribute technology or products that perform the same or similar functions as, or otherwise compete with, Extensions that You may develop, produce, market, or distribute.

13.4 Consent To Breach Not Waiver. Failure by Licensor or Contributor to enforce any provision of this License will not be deemed a waiver of future enforcement of that or any other provision.

13.5 Severability. This License represents the complete agreement concerning the subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable.

13.6 Inability to Comply Due to Statute or Regulation. If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Licensed Software due to statute, judicial order, or regulation, then You cannot use, modify, or distribute the software.
13.7 Export Restrictions. You may be restricted with respect to downloading or otherwise acquiring, exporting, or reexporting the Licensed Software or any underlying information or technology by United States and other applicable laws and regulations. By downloading or by otherwise obtaining the Licensed Software, You are agreeing to be responsible for compliance with all applicable laws and regulations.

13.8 Arbitration, Jurisdiction & Venue. This License shall be governed by Minnesota law provisions (except to the extent applicable law, if any, provides otherwise), excluding its conflict-of-law provisions. You expressly agree that any dispute relating to this License shall be submitted to binding arbitration under the rules then prevailing of the American Arbitration Association. You further agree that Minnesota USA is proper venue and grant such arbitration proceeding jurisdiction as may be appropriate for purposes of resolving any dispute under this License. Judgment upon any award made in arbitration may be entered and enforced in any court of competent jurisdiction. The arbitrator shall award attorney's fees and costs of arbitration to the prevailing party. Should either party find it necessary to enforce its arbitration award or seek specific performance of such award in a civil court of competent jurisdiction, the prevailing party shall be entitled to reasonable attorney's fees and costs. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. You and Licensor expressly waive any rights to a jury trial in any litigation concerning Licensed Software or this License. Any law or regulation that provides that the language of a contract shall be construed against the drafter shall not apply to this License.

13.9 Entire Agreement. This License constitutes the entire agreement between the parties with respect to the subject matter hereof.
EXHIBIT A

The License Notice below must appear in each file of the Source Code of any copy You distribute of the Licensed Software or any Extensions thereto:

Unless explicitly acquired and licensed from Licensor under another license, the contents of this file are subject to the Reciprocal Community Binary License ("RCBL") Version 1.00, or subsequent versions as allowed by the RCBL, and You may not copy or use this file in either source code or executable form, except in compliance with the terms and conditions of the RCBL.

All software distributed under the RCBL is provided strictly on an "AS IS" basis, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, AND LICENSOR HEREBY DISCLAIMS ALL SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, QUIET ENJOYMENT, OR NON-INFRINGEMENT. See the RCBL for specific language governing rights and limitations under the RCBL.

EXHIBIT B

The User-Visible Attribution Notice below, when provided, must appear in each user-visible display as defined in Section 6.4 (c):
OPC FOUNDATION MIT LICENSE 1.00

OPC Foundation MIT License 1.00

Copyright (c) 2008, 2009 OPC Foundation, Inc.

Permission is hereby granted, free of charge, to any person obtaining a copy of this software and associated documentation files (the "Software"), to deal in the Software without restriction, including without limitation the rights to use, copy, modify, merge, publish, distribute, sublicense, and/or sell copies of the Software, and to permit persons to whom the Software is furnished to do so, subject to the following conditions:

The above copyright notice and this permission notice shall be included in all copies or substantial portions of the Software.

THE SOFTWARE IS PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT. The following license applies to all OPC .NET 3.0 deliverables

Express Interface (Xi) Public License (Xi-PL)

**AGREEMENT OF USE**

This license governs use of the accompanying OPC Express Interface software. No right or license is granted whatsoever if this license is not accepted. Any use of the software will be deemed as an acceptance of the terms of this license. If you do not accept the license, do not use the Express Interface software.

**1. Definitions**

The terms “reproduce,” “reproduction,” “derivative works,” and “distribution” have the same meaning here as under U.S. copyright law.

A “contribution” shall include the original Express Interface software (source code and/or object code) and any additions or changes to the Express Interface software. This Express Interface software shall also include the interface contracts and the Express Interface software used to support the development of clients and servers that use this interface.

A “contributor” is any person that distributes its contribution under this license.

“Licensed patents” are a contributor’s patent claims that read directly on its contribution.
2. Grant of Rights

(A) Copyright Grant- Subject to the terms of this license, including the license conditions and limitations in section 3, each contributor grants you a non-exclusive, worldwide, royalty-free copyright license to reproduce its contribution, prepare derivative works of its contribution, and distribute its contribution or any derivative works that you create.

This license grants you a copyright license to make unlimited copies of the Express Interface software in source or object code form, as well as to create derivative works (as that term is defined under US copyright law). This means that in addition to making unlimited copies of the Express Interface software, you have a copyright license to modify the Express Interface software and to use all or part of the Express Interface software to create a derivative work that implements or uses the Express Interface software.

This license expressly prohibits using the Express Interface software or any derivatives of it outside its intended use. In other words, no right or license is granted for the use of the Express Interface software or its derivatives outside the use of implementing the communications between a client and a server over a network or using it to implement the Express Interface client or server. Further, all contributions must maintain the existing interface contracts interoperability with the Express Interface.
### 3. Conditions and Limitations

(A) No Trademark License - This license does not grant you rights to use any contributors’ name, logo, or trademarks.

(B) If you bring an action of infringement under a patent claim against any contributor for the use or implementation of the Express Interface software, any and all rights granted under this License Agreement may be subject to termination.

(C) If you distribute any portion of the Express Interface software, you must retain all copyright, patent, trademark, and attribution notices that are present in the Express Interface software.

(D) If you distribute any portion of the Express Interface software in source code form, you may do so only under this license and by including a complete copy of this license with your distribution. If you distribute any portion of the Express Interface software in compiled or object code form, you may only do so under a license that complies with this license.

(E) The Express Interface software is licensed “as-is.” You bear the risk of using it. The contributors give no express warranties, guarantees or conditions. You may have additional consumer rights under your local laws which this license cannot change. To the extent permitted under your local laws, the contributors exclude the implied warranties of merchantability, fitness for a particular purpose and non-infringement.
(F) Security Mechanisms are defined explicitly for Express Interface implementations only. The Following agreement applies to all other deliverables (Classic COM):

**NON-EXCLUSIVE LICENSE AGREEMENT**

The OPC Foundation, a non-profit corporation (the "OPC Foundation"), has established a set of specifications intended to foster greater interoperability between automation/control applications, field systems/devices, and business/office applications in the process control industry.

The OPC specifications define standard interfaces, objects, methods, and properties for servers of real-time information like distributed process systems, programmable logic controllers, smart field devices and analyzers. The OPC Foundation distributes specifications, prototype software examples and related documentation (collectively, the "OPC Materials") to its members in order to facilitate the development of OPC compliant applications.

The OPC Foundation will grant to you (the "User"), whether an individual or legal entity, a license to use, and provide User with a copy of, the current version of the OPC Materials so long as User abides by the terms contained in this Non-Exclusive License Agreement ("Agreement"). If User does not agree to the terms and conditions contained in this Agreement, the OPC Materials may not be used, and all copies (in all formats) of such materials in User’s possession must either be destroyed or returned to the OPC Foundation. By using the OPC Materials, User (including any employees and agents of User) agrees to be bound by the terms of this Agreement.
All OPC Materials, unless explicitly designated otherwise, are only available to currently registered members of the OPC Foundation (an "Active Member"). If the User is not an employee or agent of an Active Member then the User is prohibited from using the OPC Materials and all copies (in all formats) of such materials in User’s possession must either be destroyed or returned to the OPC Foundation.

PUBLIC USE DECLARATION:

The public is granted non-exclusive, royalty-free, limited license to download, use and redistribute the following deliverables. (The OPC Foundation retains ownership and full copyright)

"OPC Core Components x.xx SDK"
"OPC Core Components x.xx Redistributable"
"OPC COM ProxyStub Merge Module"
"OPC .NET API x.xx Redistributables (x86)"
"OPC .NET API x.xx Merge Module (x86)"
CORPORATE MEMBER USE DECLARATION:

OPC Foundation Corporate Members are granted non-exclusive, royalty-free, limited license to download, use and redistribute the following deliverables. (The OPC Foundation retains ownership and full copyright)

"OPC DA x.xx Sample Binaries"
"OPC XMLDA x.xx Sample Binaries"
"OPC HDA x.xx Sample Binaries"
"OPC AE x.xx Sample Binaries"
"OPC DX x.xx Sample Binaries"
"OPC DX x.xx Sample Binaries"
"OPC .NET API x.xx Source Code"
"OPC .NET API x.xx Source Code"
"OPC DA Auto 2.02 Source Code"
WARRANTY AND LIABILITY DISCLAIMERS:

User acknowledges that the OPC Foundation has provided the OPC Materials for informational purposes only in order to help User understand the relevant OPC specifications. THE OPC MATERIALS ARE PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF PERFORMANCE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT. USER BEARS ALL RISK RELATING TO QUALITY, DESIGN, USE AND PERFORMANCE OF THE OPC MATERIALS. The OPC Foundation and its members do not warrant that the OPC Materials, their design or their use will meet User’s requirements, operate without interruption or be error free.

IN NO EVENT SHALL THE OPC FOUNDATION, ITS MEMBERS, OR ANY THIRD PARTY BE LIABLE FOR ANY COSTS, EXPENSES, LOSSES, DAMAGES (INCLUDING, BUT NOT LIMITED TO, DIRECT, INDIRECT, CONSEQUENTIAL, INCIDENTAL, SPECIAL OR PUNITIVE DAMAGES) OR INJURIES INCURRED BY USER OR ANY THIRD PARTY AS A RESULT OF THIS AGREEMENT OR ANY USE OF THE OPC MATERIALS.
GENERAL PROVISIONS:

This Agreement and User’s license to the OPC Materials shall be terminated (a) by User ceasing all use of the OPC Materials, (b) by User obtaining a superseding version of the OPC Materials, or (c) by the OPC Foundation, at its option, if User commits a material breach hereof. Upon any termination of this Agreement, User shall immediately cease all use of the OPC Materials, destroy all copies thereof then in its possession and take such other actions as the OPC Foundation may reasonably request to ensure that no copies of the OPC Materials licensed under this Agreement remain in its possession.

User shall not export or re-export the OPC Materials or any product produced directly by the use thereof to any person or destination that is not authorized to receive them under the export control laws and regulations of the United States.

The Software and Documentation are provided with Restricted Rights. Use, duplication or disclosure by the U.S. government is subject to restrictions as set forth in (a) this Agreement pursuant to DFARs 227.7202-3(a); (b) subparagraph (c)(1)(i) of the Rights in Technical Data and Computer Software clause at DFARs 252.227-7013; or (c) the Commercial Computer Software Restricted Rights clause at FAR 52.227-19 subdivision (c)(1) and (2), as applicable. Contractor/manufacturer is the OPC Foundation, 16101 N. 82nd Street, Suite 3B, Scottsdale, AZ 85260-1830, USA.

Should any provision of this Agreement be held to be void, invalid, unenforceable or illegal by a court, the validity and enforceability of the other provisions shall not be affected thereby.

This Agreement shall be governed by and construed under the laws of the State of Minnesota, excluding its choice or law rules.

This Agreement embodies the entire understanding between the parties with respect to, and supersedes any prior understanding or agreement (oral or written) relating to, the OPC Materials.

Unified Automation Software License Agreement (2.3)

UNIFIED AUTOMATION IS WILLING TO LICENSE THE ACCOMPANYING SOFTWARE AND ASSOCIATED DOCUMENTATION INCLUDING AUTHORIZED COPIES OF EACH (THE "SOFTWARE") TO YOU ("LICENSEE") ONLY ON THE CONDITION THAT LICENSEE ACCEPTS ALL OF THE TERMS IN THIS AGREEMENT.

The licensed Software is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. The licensed Software is licensed, not sold. Unified Automation shall own all right, title and interest including the intellectual property rights in and to the information on bug fixes or error corrections relating to the licensed Software that are submitted by Licensee to Unified Automation as well as any intellectual property rights to the correction of any errors, if any.

PLEASE READ THE TERMS CAREFULLY BEFORE INSTALLING THE SOFTWARE. BY INSTALLING THE SOFTWARE, LICENSEE ACKNOWLEDGES THAT LICENSEE HAS READ AND UNDERSTANDS THIS AGREEMENT AND AGREES TO BE BOUND BY ITS TERMS AND CONDITIONS. THE EFFECTIVE DATE OF THIS AGREEMENT SHALL BE THE DATE UPON THE SOFTWARE WAS FIRST DELIVERED TO YOU OR FIRST DOWNLOADED BY YOU.

IF LICENSEE DOES NOT ACCEPT THESE LICENSE TERMS, THEN UNIFIED AUTOMATION DOES NOT GRANT ANY LICENSE TO THE SOFTWARE, AND LICENSEE MUST NOT DOWNLOAD OR INSTALL THE SOFTWARE.
### 1. Grant of License

#### 1.1 Evaluation License

If you downloaded a trial or evaluation version of the Software from Unified Automation’s website or obtained it through other means, you may install and use one copy of the Software on a single computer of your organization, solely for evaluation and testing purposes during the evaluation period. You may not use the Software for commercial purposes. You may not make accessible the Software to third parties and you must make sure that no one except your authorized employees have access to the computer where the Software is installed. The Software may contain a disabling mechanism that will prevent it from being used after the evaluation period. You must not tamper with the disabling mechanism or the Software. After the evaluation period, if you do not order the registered version of the Software, you must remove/destroy the Software and Documentation without delay.

#### 1.2 Runtime License

If you purchased runtime licenses you are permitted to use the Software according to the number of purchased licenses. For each license you are permitted to install and use one copy of the Software on a single computer, you might deploy or install the Software together with your end-user products or stand alone.

#### 1.3 Binary Developer License

A binary developer license grants the use of the Software for the purpose of software development of OPC enabled products or applications. If you have purchased a binary developer license the Software may be used within your organization by a single developer to develop applications. Multiple copies of the Software may exist on more than one computer, as long as the use of the Software is by the same developer. In addition, you are permitted to deploy the application making use of the Software. The Software might be used by being compiled into, linked or bind to your application. All use of the Software shall be solely in accordance with the documentation.

1.4 Source Code Developer License
In addition to the above 1.3; if you have purchased the source code developer license of the Software, you must use reasonable efforts to maintain the confidentiality of the source code, including ensuring that it is installed and used only on the machines belonging to Licensee’s organization and that it is used only by a single developer for development of components and applications that use the Software and that the source code is not otherwise used or copied.

2. Use Definition

2.1 Authorization of Usage
Licensee acknowledges that Unified Automation is the sole owner of all rights in the Software and in all of the know-how pertaining to this Software except those described in Appendix A. It shall forbear to attack the rights of Unified Automation, unless Unified Automation asserts such rights against Licensee or Licensee attacks a patent or patent application (or similar, patent-related rights such as utility models) of Unified Automation. It will adequately inform third parties of Unified Automation’s ownership of those rights.

Licensee shall only be granted a limited right of usage to the extent to which it is absolutely necessary for the purposes of this agreement. The provisions following hereunder are characterizations of this principle and shall be narrowly construed in cases of doubt. Unified Automation’s copyright of the Software shall not be exhausted by this agreement. Nothing in this provision shall be construed in a way as to prevent Licensee from defending its rights in case Unified Automation infringes Licensee patents, trademarks or copyrights, or misappropriates Licensee’s trade secrets.

The Software may not be leased, assigned, or sublicensed, in whole or in part if and to the extent not expressly permitted in Section 1 (“Grant of License”) above. You may not make accessible the Software to third parties and you must make sure that no one except your authorized Licensee has access to the computer(s) where the Software is installed.
2.2 Temporary Transfer of Use Authorization
On written request by Licensee and upon prior authorization by Unified Automation, Licensee may temporarily transfer the developer license granted under Section 1.3 and/or 1.4 above to another developer or to a subcontractor. Licensee’s request must indicate the name, email address and full company postal address of the new developer and the reason for the requested transfer. Only temporarily and for a particular contracted development project, for the development of a component or product of the licensee, the licensee is allowed to give external participant - of this particular development project - access to the software. The licensee must insure that the external development partner is following all rules of the SLA and that the development partner is not using the software for any other purpose than this particular development project with the licensee. The rights of the recent developer to use the Software cease upon Unified Automation’s consent to the transfer. Unified Automation remains the right to refuse such transfer for good cause. The written consent shall not be unreasonably withheld, i.e. transferring to a direct competitor of Unified Automation causes reasonable refuse.

2.3 Scope of Usage
The Software is "in use" on a computer when it is loaded into temporary memory (i.e. RAM) or installed into permanent memory (e.g. hard disk, CD-ROM, or other storage device) of that computer, except that a copy installed on a network server for the sole purpose of distribution to other computers is not "in use".

3. Restrictions
Software is confidential copyrighted information of Unified Automation and title to all copies is retained by Unified Automation and/or its licensors. Licensee shall not decompile, disassemble, decrypt, extract, or otherwise reverse engineer Software. Software is not designed or intended for use in critical safety systems including but not limited to nuclear facilities, aircraft communication and aircraft control systems or other situations in which case of failure of the Software could lead to death or personal injury.
Without limitation to any other terms and conditions of the Agreement, Licensee shall indemnify, hold harmless and defend Unified Automation and its suppliers and Unified Automation's and its suppliers respective officers, directors, employees and agents (each an "Indemnified Party") from against any damages, fines, penalties, assessments, liabilities, costs and expenses (including reasonable attorneys' fees and costs) in the event that any claim is brought against any Indemnified Party arising from your use of the Software in critical safety systems including but not limited to nuclear facilities, aircraft communication and aircraft control systems or other situations in which case of failure of the Software could lead to death or personal injury.

4. Trademarks and Logos
This Agreement does not authorize Licensee to use any Unified Automation name, trademark or logo.

5. Warranty Limitation
“General Warranties: Unified Automation represents and warrants that: (a) it has the unqualified right to grant the licenses granted in this Agreement; (b) it has not granted any conflicting rights, and no third party contractual duty will be breached by entering into this Agreement; (c) the Software (expressly excluding all Third Party components as listed in Appendix A) does not infringe or violate the intellectual property rights of any third party; (d) it will comply with, and conducts its operations according to, applicable laws, rules, codes, regulations, ordinances, and similar governmental directives of Germany and the European Union. (e) the Software (expressly excluding all Third Party components as listed in Appendix A) does not require a license for export, and if any export license is required following the effective date, Unified Automation will notify Licensee promptly in writing; (f) the Software does not contain any harmful code; (g) Software will not be infected with a virus when it is shipped to Licensee.”

The parties agree that it is not possible to develop software thus that it meets all the requirements of the application without error. Unified Automation shall make available a user documentation explaining the intended use and the using conditions of the Software, which shall always be kept up to date.
Only defects in the Software that occur within one (1) year after the download or delivery shall be remedied by Unified Automation according to the statutory provisions. Claims for damages shall be expressly excluded from this time limitation. For all damage claims, the statutory limitation period shall apply.

In the event of critical failures (Class1 and Class2) reported by Licensee within the one (1) year warranty period, Unified Automation will eliminate these failures at the request of Licensee without undue delay provided that these failures have been shown to result from failures in the Software delivered by Unified Automation (exclusive Third Party Software according to Appendix A). For this, Licensee will enable Unified Automation to access the project showing the corresponding failure, especially via a remote access or the making available of projects, which can be used in the development environment of Unified Automation in order to clearly reproduce the corresponding failure.

The parties agree that Class1 failures include the following cases:
• serious defects, massive functional limitations especially in the final product at customer installations, e.g. system crash, hang-ups, data corruption

The parties agree that Class2 failures include the following cases:
• defects, functional limitations in assured functionality that could not be bypassed or avoided, e.g. by means of auxiliary functions, as well as uncontrolled memory and/or resource consumption, which will cause functional limitations in the long term

Failures which, irrespective of their classification, are a result of incorrect use and/or use outside the conditions recommended by Unified Automation (as described in the documentation and the example code) will be eliminated by Unified Automation upon written request of Licensee and compensated using the common Unified Automation cost rates.

6. Limitation of Liability
The Software and components are not intended to replace the professional skills and judgment of Licensee and its employees, agents and consultants. Licensee alone shall be responsible for the accuracy and adequacy of information and data furnished for processing and any use made by Licensee of the output of the Software or any reliance thereon.

Unified Automation shall be liable towards Licensee to the fullest extent according to the statutory provisions.

a. in the event of damages caused by wilful misconduct or gross negligence according of Unified Automation, its representatives or employees;
b. in case of damages resulting in death or personal injury;
c. to the extent that Unified Automation have expressly given a guarantee or accepted to bear a procurement risk;
d. in the event of liability under the German Product Liability Act (“Produkthaftungsgesetz”).

Beyond a) to d) above, Unified Automation shall only be liable to Licensee in the event of damages caused by a negligent breach of a material contractual obligation. Unified Automation’s liability shall, however, in this case be limited to the typical, foreseeable damage. If possible by applicable law, Unified Automation's entire liability to Licensee and Licensee's exclusive remedy shall be, at Unified Automation's option, either (A) return of the price Licensee paid for the licensed Software, or (B) repair or replacement of the licensed Software.

All further liability shall be excluded.

The Software or the use of the Software may be subject to regulatory provisions related to products used in the Health Care Industry. Prior to using the Software, it is Licensee’s responsibility to ensure that Licensee’s use of the Software will not violate any legal or regulatory provisions nor deviate from the conditions intended for the use of the Software as explained in the user documentation.
7. Indemnification
You expressly acknowledge and agree that although Unified Automation grants the licenses to their Software set forth herein, no assurances are provided by Unified Automation that certain configuration of the Software or the use for a specific purpose does not infringe the patent or other intellectual property rights of any other entity. Unified Automation disclaims any liability to you for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, you hereby assume sole responsibility to secure any other intellectual property rights needed, if any. For example, if a third party patent license is required to allow you to use the Software for a certain purpose or specific use case, it is your responsibility to acquire that license before distributing or using the Software.

If notified promptly in writing of any action (and provided that Unified Automation has been promptly notified of all prior claims relating to such action) brought against Licensee based on a claim that the unaltered release of the Software infringes a third party patent or copyright, Unified Automation shall, upon request of Licensee, defend such action at its expense including attorneys’ fees and expert fees and pay any costs or damages finally awarded in such action which are attributable to such claim, provided that Unified Automation shall have sole control of the defense of any such action and of all negotiations for its settlement or compromise. United Automation shall not be obliged to defend such action if the infringement is based on a prior version of the Software, the infringement has been fixed in the current version and Unified Automation has offered a free-of-charge update to Licensee before the claim arose.
If a final injunction is obtained against Licensee of any of the Software by reason of infringement of a patent or copyright, or if in Unified Automation’s opinion any of the Software supplied to Licensee hereunder is likely to become the subject of a successful claim of infringement of a patent or copyright, Unified Automation shall, at its option and expense, either procure for Licensee the right to continue using such Software or replace or modify the same so that it becomes non-infringing or, if neither of the above options is commercially reasonable, Unified Automation will grant Licensee a full refund for such Software and accept their return. All rights of Licensee under the license granted according to this Agreement shall cease upon the return of the Software.

Notwithstanding the foregoing, Unified Automation shall not have any liability to Licensee under this Section if the infringement or claim is based upon the use of any of the Software in combination with other equipment or software which is not furnished by Unified Automation (if such claim would have been avoided in case the Software was not in such combination, including but not limited to the combination with Third-Party components listed in Appendix A), Software which have been modified or altered by Licensee if the Software would not infringe but for the modification or alteration or intellectual property rights owned by Licensee, the relevant Customer or any of their respective affiliate.

Nothing in the foregoing shall prevent the Licensee at its option and expense to defend itself against claims brought against his end user products that are based on or make use of the Software independent of a certain use case of such end user products or to procure the respective rights or to replace or modify the Software so that it becomes non-infringing.

8. Termination

The license shall be for a period commencing upon the date of initial download or delivery of the Software and continuing until such time this agreement is terminated in accordance with this agreement, but otherwise without limitation as to duration.

<td>Unified Automation shall have the right to terminate this agreement if Licensee fails to pay any required license fee(s) or otherwise fails to comply with the license terms and conditions described in Section 1. Unified Automation shall give written notice to Licensee of such fault, and if such fault has not been remedied within thirty (30) days after, the license granted hereunder shall terminate. Licensee’s end user products that include or are based on the Software and were already sold to customers at the time of cancellation or termination are not affected by the termination.</td>

</table>

On termination Licensee loses the rights granted in section 1 and 2 and is not allowed to actively develop new products nor enhance existing products or otherwise make use of or install the Software. If requested, License will certify in writing as to the destruction or return of the Software and all copies in its possession.

Each party’s right to terminate the agreement for due cause according to the statutory provisions remains unaffected.

9. Publicity

In the event that licensee has obtained a developer license, runtime license or source code license, Unified Automation reserves the right to reference Licensee as one of Unified Automation’s customers by mentioning Licensee’s company name in documents such as, but not limited to, web pages of Unified Automation’s website, emails originating from Unified Automation’s employees, publicity brochures and fact sheets, unless explicitly stated otherwise by Licensee. In no event shall Unified Automation publish any other information about Licensee other than the single fact that Licensee is a customer of Unified Automation.
10. Entire Agreement
This agreement shall be governed by the laws of Germany. This agreement will not be governed by the United Nations Convention of Contracts for the International Sale of Goods, or by the Uniform Commercial Code, the application of which are expressly excluded. If the Licensee is a businessperson and has general jurisdiction (legal domicile) within Germany, sole venue for all disputes arising directly or indirectly out of the contract shall be at the Defendant's place of business. If the Licensee has no general jurisdiction (legal domicile) within Germany, a court at Unified Automation’s company location in Nuremberg, Germany is the exclusive local jurisdiction and venue for any disputes arising from this agreement.

This Agreement is the parties' entire agreement relating to the Software. It supersedes all prior or contemporaneous oral or written communications, proposals, warranties, and representations with respect to its subject matter, and following Licensee’s acceptance of this license by clicking on the "Accept" Button or by installing and using the Software, will prevail over any conflicting or additional terms of any quote, order, acknowledgment, or any other communications by or between the parties. No modification to this Agreement will be binding, unless in writing and signed by an authorized representative of each party. This Agreement is the parties' entire agreement relating to the Software. It supersedes all prior or contemporaneous oral or written communications, proposals, warranties, and representations with respect to its subject matter, and following Licensee's acceptance of this license by clicking on the "Accept" Button or by installing and using the Software, will prevail over any conflicting or additional terms of any quote, order, acknowledgment, or any other communications by or between the parties. No modification to this Agreement will be binding, unless in writing and signed by an authorized representative of each party.
11. Export Control
Licensee acknowledges that the licensed Software may be subject to export control restrictions of various countries. Licensee shall fully comply with all applicable export license restrictions and requirements as well as with all laws and regulations relating to the importation of the licensed Software and/or modified Software and/or applications and shall procure all necessary governmental authorizations, including without limitation, all necessary licenses, approvals, permissions or consents, where necessary for the re-exportation of the licensed Software, modified Software or applications.

12. No Implied License
There are no implied licenses or other implied rights granted under this Agreement, and all rights, save for those expressly granted hereunder, shall remain with Unified Automation and its licensors. In addition, no licenses or immunities are granted to the combination of the licensed Software and/ modified Software, as applicable, with any other software or hardware not delivered by Unified Automation under this Agreement.

13. Surviving Sections
Any terms and conditions that by their nature or otherwise reasonably should survive a cancellation or termination of this Agreement shall also be deemed to survive. Such terms and conditions include, but are not limited to the following Sections: 3, 5, 6, 7, 8, 10, 11, 12, 13 of this Agreement. Notwithstanding the foregoing, Section 2 shall not survive if the Agreement is terminated for material breach.
On termination the Licensee loses the rights granted in section 1 and 2 and is not allowed to actively develop new products nor enhance existing products. Exception: Section 2 shall survive for the purpose minimal required for continuing sales of present end user products of the Licensee that include or are based on the Software, and for the purpose of support and bug fix of these products that were already sold to customers at the time of cancellation or termination.
14. Severability
If any of the above provisions are held to be in violation of applicable law, void, or unenforceable in any jurisdiction, then such provisions are herewith waived or amended to the extent necessary for the Agreement to be otherwise enforceable in such jurisdiction. However, if in Unified Automation’s opinion deletion or amendment of any provisions of the Agreement by operation of this paragraph unreasonably compromises the rights or increase the liabilities of Unified Automation or its licensors, Unified Automation reserves the right to terminate the Agreement.

Appendix A and B are part of the License Agreement and must be followed by the licensee.

Appendix A
Third Party Licenses and Open Source License Acknowledgment
The Unified Automation products use third-party and/or open source software as listed below. These third-party components are not part of the Unified Automation product (the Software) itself and are delivered for convenience purposes only. All third-party components are delivered “as is”. These components are subject to the following licenses of their respective copyright owners. Licensee must fully comply with these license terms or must not use these components.

3.2 Ansi C Stack Core Module
This module is released under the RCL Licence and includes following copyright notice, except where otherwise noted in the source code all the files are:

3.2.1 Copyright
Copyright (c) 2005-2009 The OPC Foundation, Inc. All rights reserved.

3.2.2 License Issues
Unless explicitly acquired and licensed from Licensor under another license, the contents of this file are subject to the Reciprocal Community License ("RCL") Version 1.00, or subsequent versions as allowed by the RCL, and You may not copy or use this file in either source code or executable form, except in compliance with the terms and conditions of the RCL.
All software distributed under the RCL is provided strictly on an "AS IS" basis, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, AND LICENSOR HEREBY DISCLAIMS ALL SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, QUIET ENJOYMENT, OR NON-INFRINGEMENT. See the RCL for specific language governing rights and limitations under the RCL.

3.2.3 License in Short
The Ansi C Stack Core Module stays under the Reciprocal Community License (RCL) which is based on the concept of reciprocity or, if you prefer, fairness.

The RCL is adapted from the Open Source Reciprocal Public License (RPL) where the “Public” in the Open Source RPL license is replaced by the “Community” in the RCL License. In short, the RPL license grew out of a desire to close loopholes in previous open source licenses, loopholes that allowed parties to acquire open source software and derive financial benefit from it without having to release their improvements or derivatives to the community which enabled them. This occurred any time an entity did not release their application to a "third party". While there is a certain freedom in this model of licensing, it struck the authors of the RPL as being unfair to the open source community at large and to the original authors of the works in particular. After all, bug fixes, extensions, and meaningful and valuable derivatives were not consistently faster, growth and expansion of the overall open source software base.

While you should clearly read and understand the entire license, the essence of the RCL is found in two definitions: "Deploy" and "Required Components".

- Regarding deployment, under the RCL your changes, bug fixes, extensions, etc. must be made available to the community when you Deploy in any form -- either internally or to an outside party. Once you start running the software you have to start sharing the software.

- Further, under the RCL all components you author including schemas, scripts, source code, etc. - regardless of whether they're compiled into a single binary or used as two halves of client/server application -- must be shared. You have to share the whole pie, not an isolated slice of it.

OPC FOUNDATION SOFTWARE LICENSE TERMS  
OPC FOUNDATION REDISTRIBUTABLES
These license terms are an agreement between the OPC Foundation and you. Please read them. They apply to the software named above, which includes the media on which you received it, if any. The terms also apply to any OPC Foundation
* updates,
* supplements,
* Internet-based services, and
* support services
for this software, unless other terms accompany those items. If so, those terms apply.

BY USING THE SOFTWARE, YOU ACCEPT THESE TERMS. IF YOU DO NOT ACCEPT THEM, DO NOT USE THE SOFTWARE.

If you comply with these license terms, you have the rights below.

1. INSTALLATION AND USE RIGHTS.
   a. Installation and Use. You may install and use any number of copies of the software on your devices.
   b. Included OPC Foundation Programs. The software may contain other OPC Foundation programs. The license terms with those programs apply to your use of them.

2. ADDITIONAL LICENSING REQUIREMENTS AND/OR USE RIGHTS.
   a. Distributable Code. The software contains code that you are permitted to distribute in programs you develop if you comply with the terms below.
      i. Right to Use and Distribute. The code and text files listed below are “Distributable Code.”
         * REDIST.TXT Files. You may copy and distribute the object code form of code listed in REDIST.TXT files.
         * Sample Code. You may modify, copy, and distribute the source and object code form of code marked as “sample”, as well as those marked as follows:
            [applicable file directories go here]
         * Third Party Distribution. You may permit distributors of your programs to copy and distribute the Distributable Code as part of those programs.
      ii. Distribution Requirements. For any Distributable Code you distribute, you must
         * add significant primary functionality to it in your programs;
         * require distributors and external end users to agree to terms that protect it at least as much as this agreement;
         * display your valid copyright notice on your programs; and

</table>
6. EXPORT RESTRICTIONS. The software is subject to United States export laws and regulations. You must comply with all domestic and international export laws and regulations that apply to the software. These laws include restrictions on destinations, end users and end use.

7. SUPPORT SERVICES. Because this software is “as is,” we may not provide support services for it.

8. ENTIRE AGREEMENT. This agreement, and the terms for supplements, updates, Internet-based services and support services that you use, are the entire agreement for the software and support services.

9. APPLICABLE LAW.
   a. United States. If you acquired the software in the United States, Minnesota state law governs the interpretation of this agreement and applies to claims for breach of it, regardless of conflict of laws principles. The laws of the state where you live govern all other claims, including claims under state consumer protection laws, unfair competition laws, and in tort.

   b. Outside the United States. If you acquired the software in any other country, the laws of that country apply.

10. LEGAL EFFECT. This agreement describes certain legal rights. You may have other rights under the laws of your country. You may also have rights with respect to the party from whom you acquired the software. This agreement does not change your rights under the laws of your country if the laws of your country do not permit it to do so.

11. DISCLAIMER OF WARRANTY. THE SOFTWARE IS LICENSED “AS-IS.” YOU BEAR THE RISK OF USING IT. THIS OPC FOUNDATION GIVES NO EXPRESS WARRANTIES, GUARANTEES OR CONDITIONS. YOU MAY HAVE ADDITIONAL CONSUMER RIGHTS UNDER YOUR LOCAL LAWS WHICH THIS AGREEMENT CANNOT CHANGE. TO THE EXTENT PERMITTED UNDER YOUR LOCAL LAWS, THE OPC FOUNDATION EXCLUDES THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT.

12. LIMITATION ON AND EXCLUSION OF REMEDIES AND DAMAGES. YOU CAN RECOVER FROM THE OPC FOUNDATION AND ITS SUPPLIERS ONLY DIRECT DAMAGES UP TO U.S. $5.00. YOU CANNOT RECOVER ANY OTHER DAMAGES, INCLUDING CONSEQUENTIAL, LOST PROFITS, SPECIAL, INDIRECT OR INCIDENTAL DAMAGES.
This limitation applies to
* anything related to the software, services, content (including code) on third party Internet sites, or third party programs; and
* claims for breach of contract, breach of warranty, guarantee or condition, strict liability, negligence, or other tort to the extent permitted by applicable law.
It also applies even if the OPC Foundation knew or should have known about the possibility of the damages. The above limitation or exclusion may not apply to you because your country may not allow the exclusion or limitation of incidental, consequential or other damages.

Please note: As this software is distributed in Quebec, Canada, some of the clauses in this agreement are provided below in French.
Remarque : Ce logiciel étant distribué au Québec, Canada, certaines des clauses dans ce contrat sont fournies ci-dessous en français.

EXONÉRATION DE GARANTIE. Le logiciel visé par une licence est offert « tel quel ». Toute utilisation de ce logiciel est à votre seule risque et péril. OPC Foundation n’accorde aucune autre garantie expresse. Vous pouvez bénéficier de droits additionnels en vertu du droit local sur la protection des consommateurs, que ce contrat ne peut modifier. La ou elles sont permises par le droit locale, les garanties implicites de qualité marchande, d’adéquation à un usage particulier et d’absence de contrefaçon sont exclues.

LIMITATION DES DOMMAGES-INTÉRÊTS ET EXCLUSION DE RESPONSABILITÉ POUR LES DOMMAGES. Vous pouvez obtenir de OPC Foundation et de ses fournisseurs une indemnisation en cas de dommages directs uniquement à hauteur de 5,00 $ US. Vous ne pouvez prétendre à aucune indemnisation pour les autres dommages, y compris les dommages spéciaux, indirects ou accessoires et pertes de bénéfices.
Cette limitation concerne :
* tout ce qui est relié au logiciel, aux services ou au contenu (y compris le code) figurant sur des sites Internet tiers ou dans des programmes tiers ; et
* les réclamations au titre de violation de contrat ou de garantie, ou au titre de responsabilité stricte, de négligence ou d’une autre faute dans la limite autorisée par la loi en vigueur.
Elle s’applique également, même si OPC Foundation connaissait ou devrait connaître l’éventualité d’un tel dommage. Si votre pays n’autorise pas l’exclusion ou la limitation de responsabilité pour les dommages indirects, accessoires ou de quelque nature que ce soit, il se peut que la limitation ou l’exclusion ci-dessus ne s’appliquera pas à votre égard.

EFFET JURIDIQUE. Le présent contrat décrit certains droits juridiques. Vous pourriez avoir d’autres droits prévus par les lois de votre pays. Le présent contrat ne modifie pas les droits que vous confèrent les lois de votre pays si celles-ci ne le permettent pas.

autoconf/copyright: 0. Definitions
autoconf/copyright:  
autoconf/copyright: "Covered Code" is the source or object code of a version of Autoconf
autoconf/copyright: that is a covered work under this License.
autoconf/copyright:  
autoconf/copyright: "Normally Copied Code" for a version of Autoconf means all parts of
autoconf/copyright: its Covered Code which that version can copy from its code (i.e., not
autoconf/copyright: from its input file) into its minimally verbose, non-debugging and
autoconf/copyright: non-tracing output.
autoconf/copyright:  
autoconf/copyright: "Ineligible Code" is Covered Code that is not Normally Copied Code.
autoconf/copyright:  
autoconf/copyright: 1. Grant of Additional Permission.
autoconf/copyright:  
autoconf/copyright: You have permission to propagate output of Autoconf, even if such
autoconf/copyright: propagation would otherwise violate the terms of GPLv3. However, if
autoconf/copyright: by modifying Autoconf you cause any Ineligible Code of the version you
autoconf/copyright: received to become Normally Copied Code of your modified version, then
autoconf/copyright: you void this Exception for the resulting covered work. If you convey
autoconf/copyright: that resulting covered work, you must remove this Exception in accordance
autoconf/copyright: with the second paragraph of Section 7 of GPLv3.
autoconf/copyright:  
autoconf/copyright: 2. No Weakening of Autoconf Copyleft.
autoconf/copyright:  
autoconf/copyright: The availability of this Exception does not imply any general presumption
autoconf/copyright: that third-party software is unaffected by the copyleft requirements of
autoconf/copyright: the license of Autoconf.

bash/copyright: The Free Software Foundation has exempted Bash from the requirement of Paragraph 2c of the General Public License. This is to say, there is no requirement for Bash to print a notice when it is started interactively in the usual way. We made this exception because users and standards expect shells not to print such messages. This exception applies to any program that serves as a shell and that is based primarily on Bash as opposed to other GNU software.

ca-certificates/copyright: 1. Definitions

ca-certificates/copyright: 1.1. "Contributor"
ca-certificates/copyright: means each individual or legal entity that creates, contributes to
ca-certificates/copyright: the creation of, or owns Covered Software.

ca-certificates/copyright: 1.2. "Contributor Version"
ca-certificates/copyright: means the combination of the Contributions of others (if any) used
ca-certificates/copyright: by a Contributor and that particular Contributor's Contribution.

ca-certificates/copyright: 1.3. "Contribution"
ca-certificates/copyright: means Covered Software of a particular Contributor.

ca-certificates/copyright: 1.4. "Covered Software"
ca-certificates/copyright: means Source Code Form to which the initial Contributor has attached
ca-certificates/copyright: the notice in Exhibit A, the Executable Form of such Source Code
ca-certificates/copyright: Form, and Modifications of such Source Code Form, in each case
ca-certificates/copyright: including portions thereof.

ca-certificates/copyright: 1.5. "Incompatible With Secondary Licenses"
ca-certificates/copyright: means
ca-certificates/copyright: (a) that the initial Contributor has attached the notice described
ca-certificates/copyright: (b) that the Covered Software was made available under the terms of

ca-certificates/copyright: 1.6. "Executable Form"
ca-certificates/copyright: means any form of the work other than Source Code Form.

ca-certificates/copyright: 1.7. "Larger Work"
ca-certificates/copyright: means a work that combines Covered Software with other material, in
ca-certificates/copyright: a separate file or files, that is not Covered Software.
From Ubuntu 16.04 LTS

certificates/copyright: 1.8. "License"
certificates/copyright: means this document.
certificates/copyright: 1.9. "Licensable"
certificates/copyright: means having the right to grant, to the maximum extent possible,
certificates/copyright: whether at the time of the initial grant or subsequently, any and
certificates/copyright: all of the rights conveyed by this License.
certificates/copyright: 1.10. "Modifications"
certificates/copyright: means any of the following:
certificates/copyright: (a) any file in Source Code Form that results from an addition to,
certificates/copyright: (b) any new file in Source Code Form that contains any Covered
certificates/copyright: 1.11. "Patent Claims" of a Contributor
certificates/copyright: means any patent claim(s), including without limitation, method,
certificates/copyright: process, and apparatus claims, in any patent Licensable by such
certificates/copyright: Contributor that would be infringed, but for the grant of the
certificates/copyright: License, by the making, using, selling, offering for sale, having
certificates/copyright: made, import, or transfer of either its Contributions or its
certificates/copyright: Contributor Version.
certificates/copyright: 1.12. "Secondary License"
certificates/copyright: means either the GNU General Public License, Version 2.0, the GNU
certificates/copyright: Lesser General Public License, Version 2.1, the GNU Affero General
certificates/copyright: Public License, Version 3.0, or any later versions of those
certificates/copyright: licenses.
certificates/copyright: 1.13. "Source Code Form"
certificates/copyright: means the form of the work preferred for making modifications.
certificates/copyright: 1.14. "You" (or "Your")
certificates/copyright: means an individual or a legal entity exercising rights under this
certificates/copyright: License. For legal entities, "You" includes any entity that
certificates/copyright: controls, is controlled by, or is under common control with You. For
certificates/copyright: purposes of this definition, "control" means (a) the power, direct
certificates/copyright: or indirect, to cause the direction or management of such entity,
certificates/copyright: whether by contract or otherwise, or (b) ownership of more than
certificates/copyright: fifty percent (50%) of the outstanding shares or beneficial
certificates/copyright: ownership of such entity.

cacertificates/copyright: 2. License Grants and Conditions

cacertificates/copyright: -----------------------------

cacertificates/copyright: 2.1. Grants

cacertificates/copyright: Each Contributor hereby grants You a world-wide, royalty-free,
cacertificates/copyright: non-exclusive license:

cacertificates/copyright: (a) under intellectual property rights (other than patent or trademark)
cacertificates/copyright: Licensable by such Contributor to use, reproduce, make available,
cacertificates/copyright: modify, display, perform, distribute, and otherwise exploit its

cacertificates/copyright: Contributions, either on an unmodified basis, with Modifications, or

cacertificates/copyright: as part of a Larger Work; and

cacertificates/copyright: (b) under Patent Claims of such Contributor to make, use, sell, offer

cacertificates/copyright: for sale, have made, import, and otherwise transfer either its

cacertificates/copyright: Contributions or its Contributor Version.

cacertificates/copyright: 2.2. Effective Date

cacertificates/copyright: The licenses granted in Section 2.1 with respect to any Contribution

cacertificates/copyright: become effective for each Contribution on the date the Contributor first

cacertificates/copyright: distributes such Contribution.

cacertificates/copyright: 2.3. Limitations on Grant Scope

cacertificates/copyright: The licenses granted in this Section 2 are the only rights granted under

cacertificates/copyright: this License. No additional rights or licenses will be implied from the

cacertificates/copyright: distribution or licensing of Covered Software under this License.

cacertificates/copyright: Notwithstanding Section 2.1(b) above, no patent license is granted by a

cacertificates/copyright: Contributor:

cacertificates/copyright: (a) for any code that a Contributor has removed from Covered Software;

cacertificates/copyright: or

cacertificates/copyright: (b) for infringements caused by: (i) Your and any other third party's

cacertificates/copyright: modifications of Covered Software, or (ii) the combination of its

cacertificates/copyright: Contributions with other software (except as part of its Contributor

cacertificates/copyright: Version); or

cacertificates/copyright: (c) under Patent Claims infringed by Covered Software in the absence of

cacertificates/copyright: its Contributions.

cacertificates/copyright: This License does not grant any rights in the trademarks, service marks,
From Ubuntu 16.04 LTS

certificates/copyright: or logos of any Contributor (except as may be necessary to comply with

certificates/copyright: the notice requirements in Section 3.4).

certificates/copyright: .

certificates/copyright: 2.4. Subsequent Licenses

certificates/copyright: .

certificates/copyright: No Contributor makes additional grants as a result of Your choice to
distribute the Covered Software under a subsequent version of this
License (see Section 10.2) or under the terms of a Secondary License (if
permitted under the terms of Section 3.3).

certificates/copyright: .

certificates/copyright: 2.5. Representation

certificates/copyright: .

certificates/copyright: Each Contributor represents that the Contributor believes its
Contributions are its original creation(s) or it has sufficient rights
to grant the rights to its Contributions conveyed by this License.

certificates/copyright: .

certificates/copyright: 2.6. Fair Use

certificates/copyright: .

certificates/copyright: This License is not intended to limit any rights You have under
applicable copyright doctrines of fair use, fair dealing, or other
equivalents.

certificates/copyright: .

certificates/copyright: 2.7. Conditions

certificates/copyright: .

Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted
in Section 2.1.

3. Responsibilities

3.1. Distribution of Source Form

All distribution of Covered Software in Source Code Form, including any
Modifications that You create or to which You contribute, must be under
the terms of this License. You must inform recipients that the Source
Code Form of the Covered Software is governed by the terms of this
License, and how they can obtain a copy of this License. You may not
attempt to alter or restrict the recipients' rights in the Source Code

3.2. Distribution of Executable Form

If You distribute Covered Software in Executable Form then:

(a) such Covered Software must also be made available in Source Code
From Ubuntu 16.04 LTS

ca-certificates/copyright: From Ubuntu 16.04 LTS
ca-certificates/copyright: 3.1. Source Code Form
ca-certificates/copyright: Form, as described in Section 3.1, and You must inform recipients of
ca-certificates/copyright: the Executable Form how they can obtain a copy of such Source Code
ca-certificates/copyright: Form by reasonable means in a timely manner, at a charge no more
ca-certificates/copyright: than the cost of distribution to the recipient; and
ca-certificates/copyright: .
ca-certificates/copyright: (b) You may distribute such Executable Form under the terms of this
ca-certificates/copyright: License, or sublicense it under different terms, provided that the
ca-certificates/copyright: license for the Executable Form does not attempt to limit or alter
ca-certificates/copyright: the recipients' rights in the Source Code Form under this License.
ca-certificates/copyright: .
ca-certificates/copyright: 3.3. Distribution of a Larger Work
ca-certificates/copyright: You may create and distribute a Larger Work under terms of Your choice,
ca-certificates/copyright: provided that You also comply with the requirements of this License for
ca-certificates/copyright: the Covered Software. If the Larger Work is a combination of Covered
ca-certificates/copyright: Software with a work governed by one or more Secondary Licenses, and the
ca-certificates/copyright: Covered Software is not Incompatible With Secondary Licenses, this
ca-certificates/copyright: License permits You to additionally distribute such Covered Software
ca-certificates/copyright: under the terms of such Secondary License(s), so that the recipient of
ca-certificates/copyright: the Larger Work may, at their option, further distribute the Covered
ca-certificates/copyright: Software under the terms of either this License or such Secondary
ca-certificates/copyright: License(s).
ca-certificates/copyright: .
ca-certificates/copyright: 3.4. Notices
ca-certificates/copyright: You may not remove or alter the substance of any license notices
ca-certificates/copyright: (including copyright notices, patent notices, disclaimers of warranty,
ca-certificates/copyright: or limitations of liability) contained within the Source Code Form of
ca-certificates/copyright: the Covered Software, except that You may alter any license notices to
ca-certificates/copyright: the extent required to remedy known factual inaccuracies.
ca-certificates/copyright: .
ca-certificates/copyright: 3.5. Application of Additional Terms
ca-certificates/copyright: You may choose to offer, and to charge a fee for, warranty, support,
ca-certificates/copyright: indemnity or liability obligations to one or more recipients of Covered
ca-certificates/copyright: Software. However, You may do so only on Your own behalf, and not on
ca-certificates/copyright: behalf of any Contributor. You must make it absolutely clear that any
ca-certificates/copyright: such warranty, support, indemnity, or liability obligation is offered by
ca-certificates/copyright: You alone, and You hereby agree to indemnify every Contributor for any
ca-certificates/copyright: liability incurred by such Contributor as a result of warranty, support,
ca-certificates/copyright: indemnity or liability terms You offer. You may include additional
ca-certificates/copyright: disclaimers of warranty and limitations of liability specific to any
ca-certificates/copyright: jurisdiction.
ca-certificates/copyright: .
ca-certificates/copyright: 4. Inability to Comply Due to Statute or Regulation
From Ubuntu 16.04 LTS

ca-certificates/copyright: ---------------------------------------------------
ca-certificates/copyright: 5. Termination
ca-certificates/copyright: 5.1. The rights granted under this License will terminate automatically
ca-certificates/copyright: if You fail to comply with any of its terms. However, if You become
ca-certificates/copyright: compliant, then the rights granted under this License from a particular
ca-certificates/copyright: Contributor are reinstated (a) provisionally, unless and until such
ca-certificates/copyright: Contributor explicitly and finally terminates Your grants, and (b) on an
ca-certificates/copyright: ongoing basis, if such Contributor fails to notify You of the
ca-certificates/copyright: non-compliance by some reasonable means prior to 60 days after You have
ca-certificates/copyright: come back into compliance. Moreover, Your grants from a particular
ca-certificates/copyright: Contributor are reinstated on an ongoing basis if such Contributor
ca-certificates/copyright: notifies You of the non-compliance by some reasonable means, this is the
ca-certificates/copyright: first time You have received notice of non-compliance with this License
ca-certificates/copyright: from such Contributor, and You become compliant prior to 30 days after
ca-certificates/copyright: Your receipt of the notice.
ca-certificates/copyright: 5.2. If You initiate litigation against any entity by asserting a patent
ca-certificates/copyright: infringement claim (excluding declaratory judgment actions,
ca-certificates/copyright: counter-claims, and cross-claims) alleging that a Contributor Version
ca-certificates/copyright: directly or indirectly infringes any patent, then the rights granted to
ca-certificates/copyright: You by any and all Contributors for the Covered Software under Section
ca-certificates/copyright: 2.1 of this License shall terminate.
ca-certificates/copyright: 5.3. In the event of termination under Sections 5.1 or 5.2 above, all
ca-certificates/copyright: end user license agreements (excluding distributors and resellers) which
ca-certificates/copyright: have been validly granted by You or Your distributors under this License
ca-certificates/copyright: prior to termination shall survive termination.
ca-certificates/copyright: * 6. Disclaimer of Warranty
ca-certificates/copyright: * ---------------------------------------------------
Covered Software is provided under this License on an "as is" basis, without warranty of any kind, either expressed, implied, or statutory, including, without limitation, warranties that the Covered Software is free of defects, merchantable, fit for a particular purpose or non-infringing. The entire risk as to the quality and performance of the Covered Software is with You. Should any Covered Software prove defective in any respect, You (not any Contributor) assume the cost of any necessary servicing, repair, or correction. This disclaimer of warranty constitutes an essential part of this License. No use of any Covered Software is authorized under this License except under this disclaimer.

Under no circumstances and under no legal theory, whether tort (including negligence), contract, or otherwise, shall any Contributor, or anyone who distributes Covered Software as permitted above, be liable to You for any direct, indirect, special, incidental, or consequential damages of any character including, without limitation, damages for lost profits, loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses, even if such party shall have been informed of the possibility of such damages. This limitation of liability shall not apply to liability for death or personal injury resulting from such party’s negligence to the extent applicable law prohibits such limitation. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so this exclusion and limitation may not apply to You.

Any litigation relating to this License may be brought only in the courts of a jurisdiction where the defendant maintains its principal place of business and such litigation shall be governed by laws of that jurisdiction, without reference to its conflict-of-law provisions.
From Ubuntu 16.04 LTS

ca-certificates/copyright: Nothing in this Section shall prevent a party's ability to bring
ca-certificates/copyright: cross-claims or counter-claims.
ca-certificates/copyright: .
ca-certificates/copyright: 9. Miscellaneous
ca-certificates/copyright: -----------
ca-certificates/copyright: .
ca-certificates/copyright: This License represents the complete agreement concerning the subject
ca-certificates/copyright: matter hereof. If any provision of this License is held to be
ca-certificates/copyright: unenforceable, such provision shall be reformed only to the extent
ca-certificates/copyright: necessary to make it enforceable. Any law or regulation which provides

GCC RUNTIME LIBRARY EXCEPTION

Version 3.1, 31 March 2009
Copyright (C) 2009 Free Software Foundation, Inc. <http://fsf.org/>

Everyone is permitted to copy and distribute verbatim copies of this
license document, but changing it is not allowed.

This GCC Runtime Library Exception ("Exception") is an additional
permission under section 7 of the GNU General Public License, version
3 ("GPLv3"). It applies to a given file (the "Runtime Library") that
bears a notice placed by the copyright holder of the file stating that
the file is governed by GPLv3 along with this Exception.
When you use GCC to compile a program, GCC may combine portions of certain GCC header files and runtime libraries with the compiled program. The purpose of this Exception is to allow compilation of non-GPL (including proprietary) programs to use, in this way, the header files and runtime libraries covered by this Exception.

0. Definitions.

A file is an "Independent Module" if it either requires the Runtime Library for execution after a Compilation Process, or makes use of an interface provided by the Runtime Library, but is not otherwise based on the Runtime Library.

"GCC" means a version of the GNU Compiler Collection, with or without modifications, governed by version 3 (or a specified later version) of the GNU General Public License (GPL) with the option of using any subsequent versions published by the FSF.

"GPL-compatible Software" is software whose conditions of propagation, modification and use would permit combination with GCC in accord with the license of GCC.

"Target Code" refers to output from any compiler for a real or virtual target processor architecture, in executable form or suitable for input to an assembler, loader, linker and/or execution phase. Notwithstanding that, Target Code does not include data in any format that is used as a compiler intermediate representation, or used for producing a compiler intermediate representation.

The "Compilation Process" transforms code entirely represented in non-intermediate languages designed for human-written code, and/or in Java Virtual Machine byte code, into Target Code. Thus, for example, use of source code generators and preprocessors need not be considered part of the Compilation Process, since the Compilation Process can be understood as starting with the output of the generators or preprocessors.

A Compilation Process is "Eligible" if it is done using GCC, alone or with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.

1. Grant of Additional Permission.
From Ubuntu 16.04 LTS

cpp-5/copyright: You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice, consistent with the licensing of the Independent Modules.

cpp-5/copyright: 2. No Weakening of GCC Copyleft.

cpp-5/copyright: The availability of this Exception does not imply any general presumption that third-party software is unaffected by the copyleft requirements of the license of GCC.

cpp-5/copyright: 2. No Weakening of GCC Copyleft.

From Ubuntu 16.04 LTS

crda/copyright: 2. Distribution: General Conditions

From Ubuntu 16.04 LTS

crda/copyright: You may Distribute Covered Works, provided that You (i) inform

From Ubuntu 16.04 LTS

crda/copyright: recipients how they can obtain a copy of this License; (ii) satisfy the

From Ubuntu 16.04 LTS

crda/copyright: applicable conditions of sections 3 through 6; and (iii) preserve all

crda/copyright: 3. Conditions for Distributing Derived Works; Outbound GPL Compatibility

From Ubuntu 16.04 LTS

crda/copyright: If You Distribute a Derived Work, You must license the entire Derived

From Ubuntu 16.04 LTS

crda/copyright: Work as a whole under this License, with prominent notice of such

From Ubuntu 16.04 LTS

crda/copyright: licensing. This condition may not be avoided through such means as

From Ubuntu 16.04 LTS

crda/copyright: separate Distribution of portions of the Derived Work. You may

From Ubuntu 16.04 LTS

crda/copyright: additionally license the Derived Work under the GPL, so that the

From Ubuntu 16.04 LTS

crda/copyright: recipient may further Distribute the Derived Work under either this

From Ubuntu 16.04 LTS

crda/copyright: License or the GPL.

From Ubuntu 16.04 LTS

crda/copyright: 4. Condition Against Further Restrictions; Inbound License Compatibility

From Ubuntu 16.04 LTS

From Ubuntu 16.04 LTS

When Distributing a Covered Work, You may not impose further restrictions on the exercise of rights in the Covered Work granted under this License. This condition is not excused merely because such restrictions result from Your compliance with conditions or obligations extrinsic to this License (such as a court order or an agreement with a third party).

However, You may Distribute a Covered Work incorporating material governed by a license that is both OSI-Approved and FSF-Free as of the release date of this License, provided that Your Distribution complies with such other license.

5. Conditions for Distributing Object Code

You may Distribute an Object Code form of a Covered Work, provided that you accompany the Object Code with a URL through which the Corresponding Source is made available, at no charge, by some standard or customary means of providing network access to source code.

If you Distribute the Object Code in a physical product or tangible storage medium ("Product"), the Corresponding Source must be available through such URL for two years from the date of Your most recent Distribution of the Object Code in the Product. However, if the Product itself contains or is accompanied by the Corresponding Source (made available in a customarily accessible manner), You need not also comply with the first paragraph of this section.

Each recipient of the Covered Work from You is an intended third-party beneficiary of this License solely as to this section 5, with the right to enforce its terms.

6. Symmetrical Licensing Condition for Upstream Contributions

If You Distribute a work to Me specifically for inclusion in or modification of a Covered Work (a "Patch"), and no explicit licensing terms apply to the Patch, You license the Patch under this License, to the extent of Your copyright in the Patch. This condition does not negate the other conditions of this License, if applicable to the Patch.

7. Nullification of Copyleft/Proprietary Dual Licensing

If I offer to license, for a fee, a Covered Work under terms other than a license that is OSI-Approved or FSF-Free as of the release date of this License or a numbered version of copyleft-next released by the
From Ubuntu 16.04 LTS

crda/copyright:  Copyleft-Next Project, then the license I grant You under section 1 is no

crda/copyright:  longer subject to the conditions in sections 2 through 5.

crda/copyright:  8. Copyleft Sunset

crda/copyright:  The conditions in sections 2 through 5 no longer apply once fifteen

crda/copyright:  years have elapsed from the date of My first Distribution of My Work

crda/copyright:  under this License.

crda/copyright:  9. Pass-Through

crda/copyright:  When You Distribute a Covered Work, the recipient automatically receives

crda/copyright:  a license to My Work from Me, subject to the terms of this License.

crda/copyright:  10. Termination

crda/copyright:  Your license grants under section 1 are automatically terminated if You

crda/copyright:  a) fail to comply with the conditions of this License, unless You cure

crda/copyright:  such noncompliance within thirty days after becoming aware of it, or

crda/copyright:  b) initiate a patent infringement litigation claim (excluding

crda/copyright:  declaratory judgment actions, counterclaims, and cross-claims)

crda/copyright:  alleging that any part of My Work directly or indirectly infringes

crda/copyright:  any patent.

crda/copyright:  Termination of Your license grants extends to all copies of Covered

crda/copyright:  Works You subsequently obtain. Termination does not terminate the

crda/copyright:  rights of those who have received copies or rights from You subject to

crda/copyright:  this License.

crda/copyright:  To the extent permission to make copies of a Covered Work is necessary

crda/copyright:  merely for running it, such permission is not terminable.

crda/copyright:  11. Later License Versions

crda/copyright:  The Copyleft-Next Project may release new versions of copyleft-next,

crda/copyright:  designated by a distinguishing version number ("Later Versions").

crda/copyright:  Unless I explicitly remove the option of Distributing Covered Works

crda/copyright:  under Later Versions, You may Distribute Covered Works under any Later

crda/copyright:  Version.

crda/copyright:  12. No Warranty

crda/copyright:  ** My Work is provided "as-is", without warranty. You bear the risk **
From Ubuntu 16.04 LTS

crda/copyright: ** of using it. To the extent permitted by applicable law, each **
crda/copyright: ** Distributor of My Work excludes the implied warranties of title, **
crda/copyright: ** merchantability, fitness for a particular purpose and **
crda/copyright: ** non-infringement. **
crda/copyright: .
crda/copyright: ** 13. Limitation of Liability **
crda/copyright: ** To the extent permitted by applicable law, in no event will any **
crda/copyright: ** Distributor of My Work be liable to You for any damages **
crda/copyright: ** whatsoever, whether direct, indirect, special, incidental, or **
crda/copyright: ** consequential damages, whether arising under contract, tort **
crda/copyright: ** (including negligence), or otherwise, even where the Distributor **
crda/copyright: ** knew or should have known about the possibility of such damages. **
crda/copyright: .
crda/copyright: 14. Severability

crda/copyright: The invalidity or unenforceability of any provision of this License

crda/copyright: does not affect the validity or enforceability of the remainder of

crda/copyright: this License. Such provision is to be reformed to the minimum extent

crda/copyright: necessary to make it valid and enforceable.

crda/copyright: 15. Definitions

crda/copyright: "Copyleft-Next Project" means the project that maintains the source

crda/copyright: code repository at <https://gitorious.org/copyleft-next/> as of the

crda/copyright: release date of this License.

crda/copyright: "Corresponding Source" of a Covered Work in Object Code form means (i)
crda/copyright: the Source Code form of the Covered Work; (ii) all scripts,
crda/copyright: instructions and similar information that are reasonably necessary for

crda/copyright: a skilled developer to generate such Object Code from the Source Code

crda/copyright: provided under (i); and (iii) a list clearly identifying all Separate

crda/copyright: Works (other than those provided in compliance with (ii)) that were

crda/copyright: specifically used in building and (if applicable) installing the

crda/copyright: Covered Work (for example, a specified proprietary compiler including

crda/copyright: its version number). Corresponding Source must be machine-readable.

crda/copyright: "Covered Work" means My Work or a Derived Work.

crda/copyright: "Derived Work" means a work of authorship that copies from, modifies,
crda/copyright: adapts, is based on, is a derivative work of, transforms, translates or

crda/copyright: contains all or part of My Work, such that copyright permission is

crda/copyright: required. The following are not Derived Works: (i) Mere Aggregation;
crda/copyright: (ii) a mere reproduction of My Work; and (iii) if My Work fails to

crda/copyright: explicitly state an expectation otherwise, a work that merely makes
From Ubuntu 16.04 LTS

crda/copyright: reference to My Work.
crda/copyright: "Distribute" means to distribute, transfer or make a copy available to someone else, such that copyright permission is required.
crda/copyright: "Distributor" means Me and anyone else who Distributes a Covered Work.
crda/copyright: "FSF-Free" means classified as 'free' by the Free Software Foundation.
crda/copyright: "GPL" means a version of the GNU General Public License or the GNU Afferro General Public License.
crda/copyright: "I"/"Me"/"My" refers to the individual or legal entity that places My Work under this License. "You"/"Your" refers to the individual or legal entity exercising rights in My Work under this License. A legal entity includes each entity that controls, is controlled by, or is under common control with such legal entity. "Control" means (a) the power to direct the actions of such legal entity, whether by contract or otherwise, or (b) ownership of more than fifty percent of the outstanding shares or beneficial ownership of such legal entity.
crda/copyright: "Licensed Patents" means all patent claims licensable royalty-free by Me, now or in the future, that are necessarily infringed by making, using, or selling My Work, and excludes claims that would be infringed only as a consequence of further modification of My Work.
crda/copyright: "Mere Aggregation" means an aggregation of a Covered Work with a Separate Work.
crda/copyright: "My Work" means the particular work of authorship I license to You under this License.
crda/copyright: "Object Code" means any form of a work that is not Source Code.
crda/copyright: "OSI-Approved" means approved as 'Open Source' by the Open Source Initiative.
crda/copyright: "Separate Work" means a work that is separate from and independent of a particular Covered Work and is not by its nature an extension or enhancement of the Covered Work, and/or a runtime library, standard library or similar component that is used to generate an Object Code form of a Covered Work.
crda/copyright: "Source Code" means the preferred form of a work for making modifications to it.

dbus/copyright:
dbus/copyright:License: AFL-2.1
dbus/copyright: The Academic Free License
dbus/copyright: v. 2.1
dbus/copyright: 
 dbus/copyright: This Academic Free License (the "License") applies to any original
dbus/copyright: work of authorship (the "Original Work") whose owner (the "Licensor")
dbus/copyright: has placed the following notice immediately following the copyright
dbus/copyright: notice for the Original Work:
dbus/copyright: 
 dbus/copyright: Licensed under the Academic Free License version 2.1
dbus/copyright: 
 dbus/copyright: 1) Grant of Copyright License. Licensor hereby grants You a
dbus/copyright: world-wide, royalty-free, non-exclusive, perpetual, sublicenseable
dbus/copyright: license to do the following:
dbus/copyright: 
 dbus/copyright: a) to reproduce the Original Work in copies;
dbus/copyright: 
 dbus/copyright: b) to prepare derivative works ("Derivative Works") based upon the
dbus/copyright: Original Work;
dbus/copyright: 
 dbus/copyright: c) to distribute copies of the Original Work and Derivative Works to
dbus/copyright: the public;
dbus/copyright: 
 dbus/copyright: d) to perform the Original Work publicly; and
dbus/copyright: 
 dbus/copyright: e) to display the Original Work publicly.
 dbus/copyright: 
 dbus/copyright: 2) Grant of Patent License. Licensor hereby grants You a world-wide,
dbus/copyright: royalty-free, non-exclusive, perpetual, sublicenseable license, under
dbus/copyright: patent claims owned or controlled by the Licensor that are embodied in
dbus/copyright: the Original Work as furnished by the Licensor, to make, use, sell and
dbus/copyright: offer for sale the Original Work and Derivative Works.
 dbus/copyright: 
 dbus/copyright: 3) Grant of Source Code License. The term "Source Code" means the
dbus/copyright: preferred form of the Original Work for making modifications to it and
dbus/copyright: all available documentation describing how to modify the Original
dbus/copyright: Work. Licensor hereby agrees to provide a machine-readable copy of the
dbus/copyright: Source Code of the Original Work along with each copy of the Original
dbus/copyright: Work that Licensor distributes. Licensor reserves the right to satisfy
dbus/copyright: this obligation by placing a machine-readable copy of the Source Code
From Ubuntu 16.04 LTS

dbus/copyright: in an information repository reasonably calculated to permit
dbus/copyright: inexpensive and convenient access by You for as long as Licensor
dbus/copyright: continues to distribute the Original Work, and by publishing the
dbus/copyright: address of that information repository in a notice immediately
dbus/copyright: following the copyright notice that applies to the Original Work.
dbus/copyright:

dbus/copyright: 4) Exclusions From License Grant. Neither the names of Licensor, nor
dbus/copyright: the names of any contributors to the Original Work, nor any of their
dbus/copyright: trademarks or service marks, may be used to endorse or promote
dbus/copyright: products derived from this Original Work without express prior written
dbus/copyright: permission of the Licensor. Nothing in this License shall be deemed to
dbus/copyright: grant any rights to trademarks, copyrights, patents, trade secrets or
dbus/copyright: any other intellectual property of Licensor except as expressly stated
dbus/copyright: herein. No patent license is granted to make, use, sell or offer to
dbus/copyright: sell embodiments of any patent claims other than the licensed claims
dbus/copyright: defined in Section 2. No right is granted to the trademarks of
dbus/copyright: Licensor even if such marks are included in the Original Work. Nothing
dbus/copyright: in this License shall be interpreted to prohibit Licensor from
dbus/copyright: licensing under different terms from this License any Original Work
dbus/copyright: that Licensor otherwise would have a right to license.
dbus/copyright:

dbus/copyright: 5) This section intentionally omitted.
dbus/copyright:

dbus/copyright: 6) Attribution Rights. You must retain, in the Source Code of any
dbus/copyright: Derivative Works that You create, all copyright, patent or trademark
dbus/copyright: notices from the Source Code of the Original Work, as well as any
dbus/copyright: notices of licensing and any descriptive text identified therein as an
dbus/copyright: "Attribution Notice." You must cause the Source Code for any
dbus/copyright: Derivative Works that You create to carry a prominent Attribution
dbus/copyright: Notice reasonably calculated to inform recipients that You have
dbus/copyright: modified the Original Work.
dbus/copyright:

dbus/copyright: 7) Warranty of Provenance and Disclaimer of Warranty. Licensor
dbus/copyright: warrants that the copyright in and to the Original Work and the patent
dbus/copyright: rights granted herein by Licensor are owned by the Licensor or are
dbus/copyright: sublicensed to You under the terms of this License with the permission
dbus/copyright: of the contributor(s) of those copyrights and patent rights. Except as
dbus/copyright: expressly stated in the immediately proceeding sentence, the Original
dbus/copyright: Work is provided under this License on an "AS IS" BASIS and WITHOUT
dbus/copyright: WARRANTY, either express or implied, including, without limitation,
 dbus/copyright: the warranties of NON-INFRINGEMENT, MERCHANTABILITY or FITNESS FOR A
dbus/copyright: PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY OF THE ORIGINAL
dbus/copyright: WORK IS WITH YOU. This DISCLAIMER OF WARRANTY constitutes an essential
dbus/copyright: part of this License. No license to Original Work is granted hereunder
dbus/copyright: except under this disclaimer.
From Ubuntu 16.04 LTS

dbus/copyright: 8) Limitation of Liability. Under no circumstances and under no legal

dbus/copyright: theory, whether in tort (including negligence), contract, or

dbus/copyright: otherwise, shall the Licensor be liable to any person for any direct,

dbus/copyright: indirect, special, incidental, or consequential damages of any

dbus/copyright: character arising as a result of this License or the use of the

dbus/copyright: Original Work including, without limitation, damages for loss of

dbus/copyright: goodwill, work stoppage, computer failure or malfunction, or any and

dbus/copyright: all other commercial damages or losses. This limitation of liability

dbus/copyright: shall not apply to liability for death or personal injury resulting

dbus/copyright: from Licensor's negligence to the extent applicable law prohibits such

dbus/copyright: limitation. Some jurisdictions do not allow the exclusion or

dbus/copyright: limitation of incidental or consequential damages, so this exclusion

dbus/copyright: and limitation may not apply to You.

dbus/copyright: 9) Acceptance and Termination. If You distribute copies of the

dbus/copyright: Original Work or a Derivative Work, You must make a reasonable effort

dbus/copyright: under the circumstances to obtain the express assent of recipients to

dbus/copyright: the terms of this License. Nothing else but this License (or another

dbus/copyright: written agreement between Licensor and You) grants You permission to

dbus/copyright: create Derivative Works based upon the Original Work or to exercise

dbus/copyright: any of the rights granted in Section 1 herein, and any attempt to do

dbus/copyright: so except under the terms of this License (or another written

dbus/copyright: agreement between Licensor and You) is expressly prohibited by

dbus/copyright: U.S. copyright law, the equivalent laws of other countries, and by

dbus/copyright: international treaty. Therefore, by exercising any of the rights

dbus/copyright: granted to You in Section 1 herein, You indicate Your acceptance of

dbus/copyright: this License and all of its terms and conditions.

dbus/copyright: 10) Termination for Patent Action. This License shall terminate

dbus/copyright: automatically and You may no longer exercise any of the rights granted

dbus/copyright: to You by this License as of the date You commence an action,

dbus/copyright: including a cross-claim or counterclaim, against Licensor or any

dbus/copyright: licensee alleging that the Original Work infringes a patent. This

dbus/copyright: termination provision shall not apply for an action alleging patent

dbus/copyright: infringement by combinations of the Original Work with other software

dbus/copyright: or hardware.

dbus/copyright: 11) Jurisdiction, Venue and Governing Law. Any action or suit relating

dbus/copyright: to this License may be brought only in the courts of a jurisdiction

dbus/copyright: wherein the Licensor resides or in which Licensor conducts its primary

dbus/copyright: business, and under the laws of that jurisdiction excluding its

dbus/copyright: conflict-of-law provisions. The application of the United Nations

dbus/copyright: Convention on Contracts for the International Sale of Goods is

dbus/copyright: expressly excluded. Any use of the Original Work outside the scope of

dbus/copyright: this License or after its termination shall be subject to the
dbus/copyright: requirements and penalties of the U.S. Copyright Act, 17 U.S.C. Â§ 101
dbus/copyright: et seq., the equivalent laws of other countries, and international
dbus/copyright: treaty. This section shall survive the termination of this License.

dbus/copyright: 12) Attorneys Fees. In any action to enforce the terms of this License
dbus/copyright: or seeking damages relating thereto, the prevailing party shall be
dbus/copyright: entitled to recover its costs and expenses, including, without
dbus/copyright: limitation, reasonable attorneys' fees and costs incurred in
dbus/copyright: connection with such action, including any appeal of such action. This
dbus/copyright: section shall survive the termination of this License.

dbus/copyright: 13) Miscellaneous. This License represents the complete agreement
dbus/copyright: concerning the subject matter hereof. If any provision of this License
dbus/copyright: is held to be unenforceable, such provision shall be reformed only to
dbus/copyright: the extent necessary to make it enforceable.

dbus/copyright: 14) Definition of "You" in This License. "You" throughout this
dbus/copyright: License, whether in upper or lower case, means an individual or a
dbus/copyright: legal entity exercising rights under, and complying with all of the
dbus/copyright: terms of, this License. For legal entities, "You" includes any entity
dbus/copyright: that controls, is controlled by, or is under common control with
dbus/copyright: you. For purposes of this definition, "control" means (i) the power,
dbus/copyright: direct or indirect, to cause the direction or management of such
dbus/copyright: entity, whether by contract or otherwise, or (ii) ownership of fifty
dbus/copyright: percent (50%) or more of the outstanding shares, or (iii) beneficial
dbus/copyright: ownership of such entity.

dbus/copyright: 15) Right to Use. You may use the Original Work in all ways not
dbus/copyright: otherwise restricted or conditioned by this License or by law, and
dbus/copyright: Licensor promises not to interfere with or be responsible for such
dbus/copyright: uses by You.

From Ubuntu 16.04 LTS

debhelper/copyright: This is the Debian GNU/Linux package debhelper.
debhelper/copyright: It is an original Debian package. Programs in it were maintained by debhelper/copyright: Guy Maor <maor@debian.org>, and are now maintained by Clint Adams debhelper/copyright: <schizo@debian.org>.
debhelper/copyright: All its programs except savelog, and which may be debhelper/copyright: redistributed under the terms of the GNU GPL, Version 2 or later, debhelper/copyright: found on Debian systems in the file /usr/share/common-licenses/GPL.
debhelper/copyright: which is in the public domain.
debhelper/copyright: savelog may be redistributed under the following terms: (The rest of debhelper/copyright: this file consists of savelog’s distribution terms.)
debhelper/copyright: #ident
debhelper/copyright: Copyright (C) 1988 Landon Curt Noll & Ronald S. Karr
debhelper/copyright: Copyright (C) 1992 Ronald S. Karr
debhelper/copyright: Copyleft (GNU) 1988 Landon Curt Noll & Ronald S. Karr
debhelper/copyright: Everyone is permitted to copy and distribute verbatim copies debhelper/copyright: of this license, but changing it is not allowed. You can also debhelper/copyright: use this wording to make the terms for other programs.
debhelper/copyright: The license agreements of most software companies keep you at the debhelper/copyright: mercy of those companies. By contrast, our general public license is debhelper/copyright: intended to give everyone the right to share SMAIL. To make sure that debhelper/copyright: you get the rights we want you to have, we need to make restrictions debhelper/copyright: that forbid anyone to deny you these rights or to ask you to surrender debhelper/copyright: the rights. Hence this license agreement.
debhelper/copyright: Specifically, we want to make sure that you have the right to give debhelper/copyright: away copies of SMAIL, that you receive source code or else can get it debhelper/copyright: if you want it, that you can change SMAIL or use pieces of it in new debhelper/copyright: free programs, and that you know you can do these things.
debhelper/copyright: To make sure that everyone has such rights, we have to forbid you to debhelper/copyright: deprive anyone else of these rights. For example, if you distribute debhelper/copyright: copies of SMAIL, you must give the recipients all the rights that you debhelper/copyright: have. You must make sure that they, too, receive or can get the
From Ubuntu 16.04 LTS

debianutils/copyright:source code. And you must tell them their rights.
debianutils/copyright:

debianutils/copyright: Also, for our own protection, we must make certain that everyone
debianutils/copyright:finds out that there is no warranty for SMAIL. If SMAIL is modified by
debianutils/copyright:someone else and passed on, we want its recipients to know that what
debianutils/copyright:they have is not what we distributed, so that any problems introduced
debianutils/copyright:by others will not reflect on our reputation.

debianutils/copyright: Therefore we (Landon Curt Noll and Ronald S. Karr) make the following
debianutils/copyright:terms which say what you must do to be allowed to distribute or change
debianutils/copyright:SMAIL.

debianutils/copyright:

debianutils/copyright: 1. You may copy and distribute verbatim copies of SMAIL source code
debianutils/copyright:as you receive it, in any medium, provided that you conspicuously and
debianutils/copyright:appropriately publish on each copy a valid copyright notice "Copyright
debianutils/copyright:(C) 1988 Landon Curt Noll & Ronald S. Karr" (or with whatever year is
debianutils/copyright:appropriate); keep intact the notices on all files that refer to this
debianutils/copyright:License Agreement and to the absence of any warranty; and give any
debianutils/copyright:other recipients of the SMAIL program a copy of this License
debianutils/copyright:Agreement along with the program. You may charge a distribution fee
debianutils/copyright:for the physical act of transferring a copy.

debianutils/copyright: 2. You may modify your copy or copies of SMAIL or any portion of it,
debianutils/copyright:and copy and distribute such modifications under the terms of
debianutils/copyright:Paragraph 1 above, provided that you also do the following:

debianutils/copyright: a) cause the modified files to carry prominent notices stating
debianutils/copyright: that you changed the files and the date of any change; and

debianutils/copyright: b) cause the whole of any work that you distribute or publish,
debianutils/copyright: that in whole or in part contains or is a derivative of SMAIL or
debianutils/copyright: any part thereof, to be licensed at no charge to all third
debianutils/copyright: parties on terms identical to those contained in this License
debianutils/copyright: Agreement (except that you may choose to grant more extensive
debianutils/copyright: warranty protection to some or all third parties, at your option).

debianutils/copyright: c) You may charge a distribution fee for the physical act of
debianutils/copyright: transferring a copy, and you may at your option offer warranty
debianutils/copyright: protection in exchange for a fee.

debianutils/copyright:Mere aggregation of another unrelated program with this program (or its
debianutils/copyright:derivative) on a volume of a storage or distribution medium does not bring
From Ubuntu 16.04 LTS

debianutils/copyright:the other program under the scope of these terms.
debianutils/copyright:
debianutils/copyright: 3. You may copy and distribute SMAIL (or a portion or derivative of it,
debianutils/copyright:under Paragraph 2) in object code or executable form under the terms of
debianutils/copyright:Paragraphs 1 and 2 above provided that you also do one of the following:
debianutils/copyright:
debianutils/copyright:    a) accompany it with the complete corresponding machine-readable
debianutils/copyright:    source code, which must be distributed under the terms of
debianutils/copyright:    Paragraphs 1 and 2 above; or,
debianutils/copyright:
debianutils/copyright:    b) accompany it with a written offer, valid for at least three
debianutils/copyright:    years, to give any third party free (except for a nominal
debianutils/copyright:    shipping charge) a complete machine-readable copy of the
debianutils/copyright:    corresponding source code, to be distributed under the terms of
debianutils/copyright:    Paragraphs 1 and 2 above; or,
debianutils/copyright:
debianutils/copyright:    c) accompany it with the information you received as to where the
debianutils/copyright:    corresponding source code may be obtained. (This alternative is
debianutils/copyright:    allowed only for non-commercial distribution and only if you
debianutils/copyright:    received the program in object code or executable form alone.)
debianutils/copyright:
debianutils/copyright:For an executable file, complete source code means all the source code for
debianutils/copyright:all modules it contains; but, as a special exception, it need not include
debianutils/copyright:source code for modules which are standard libraries that accompany the
debianutils/copyright:operating system on which the executable file runs.
debianutils/copyright:
debianutils/copyright: 4. You may not copy, sublicense, distribute or transfer SMAIL
debianutils/copyright:except as expressly provided under this License Agreement. Any attempt
debianutils/copyright:otherwise to copy, sublicense, distribute or transfer SMAIL is void and
debianutils/copyright:your rights to use the program under this License agreement shall be
debianutils/copyright:automatically terminated. However, parties who have received computer
debianutils/copyright:software programs from you with this License Agreement will not have
debianutils/copyright:their licenses terminated so long as such parties remain in full compliance.
debianutils/copyright:
debianutils/copyright: 5. If you wish to incorporate parts of SMAIL into other free
debianutils/copyright:programs whose distribution conditions are different, write to Landon
debianutils/copyright:Curt Noll & Ronald S. Karr via the Free Software Foundation at 51
debianutils/copyright:Franklin St, Fifth Floor, Boston, MA 02110-1301, USA. We have not yet
debianutils/copyright:worked out a simple rule that can be stated here, but we will often
debianutils/copyright:permit this. We will be guided by the two goals of preserving the
debianutils/copyright:free status of all derivatives of our free software and of promoting
debianutils/copyright:the sharing and reuse of software.

This package was put together by me, James Troup <james@nocrew.org>, from the GNU sources, which I obtained from:

ftp://ftp.gnu.org/pub/gnu(ed-0.7.tar.bz2

The changes were small:

o adding support for the Debian package maintenance scheme, by adding various debian/* files.

o buf.c (open_sbuf): use tmpfile() and not mktemp().

o glbl.c (exec_global), io.c (read_stream, get_stream_line), main.c (main, exec_command, get_matching_node_addr, strip_escapes), re.c (get_compiled_pattern), sub.c (extract_subst_template, substitute_matching_text): parentheses to quiet -Wall.

o ed.1: various fixes by Matt Kraai <kraai@alumni.carnegiemellon.edu>

UBUNTU FONT LICENCE Version 1.0

PREAMBLE

This licence allows the licensed fonts to be used, studied, modified redistributed freely. The fonts, including any derivative works, can bundled, embedded, and redistributed provided the terms of this are met. The fonts and derivatives, however, cannot be released any other licence. The requirement for fonts to remain under this licence does not require any document created using the fonts or derivatives to be published under this licence, as long as the purpose of the document is not to be a vehicle for the distribution of the fonts.

DEFINITIONS

"Font Software" refers to the set of files released by the Copyright Holder(s) under this licence and clearly marked as such. This may include source files, build scripts and documentation.

"Original Version" refers to the collection of Font Software as received under this licence.

"Modified Version" refers to any derivative made by adding to, or substituting -- in part or in whole -- any of the components of the Original Version, by changing formats or by porting the Font Software: a new environment.

"Copyright Holder(s)" refers to all individuals and companies who copyright ownership of the Font Software.

"Substantially Changed" refers to Modified Versions which can be identified as dissimilar to the Font Software by users of the Software comparing the Original Version with the Modified Version.

To "Propagate" a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on
**From Ubuntu 16.04 LTS**

Permissions & Conditions

This licence does not grant any rights under trademark law and all rights are reserved.

Permission is hereby granted, free of charge, to any person copy of the Font Software, to propagate the Font Software, subject the below conditions:

1) Each copy of the Font Software must contain the above copyright notice and this licence. These can be included either as stand-alone text files, human-readable headers or in the appropriate machine-readable metadata fields within text or binary files as long as those fields can be easily viewed by the user.

2) The font name complies with the following:
   (a) The Original Version must retain its name, unmodified.
   (b) Modified Versions which are Substantially Changed must be avoided use of the name of the Original Version or similar names.
   (c) Modified Versions which are not Substantially Changed must be renamed to both (i) retain the name of the Original Version and (ii) additional naming elements to distinguish the Modified Version the Original Version. The name of such Modified Versions must be the the Original Version, with "derivative X" where X represents the the new work, appended to that name.

3) The name(s) of the Copyright Holder(s) and any contributor to Font Software shall not be used to promote, endorse or advertise Modified Version, except (i) as required by this licence, (ii) to acknowledge the contribution(s) of the Copyright Holder(s) or (iii) their explicit written permission.

4) The Font Software, modified or unmodified, in part or in whole, be distributed entirely under this licence, and must not be distributed under any other licence. The requirement for fonts to remain under any other licence. The requirement for fonts to remain licence does not affect any document created using the Font except any version of the Font Software extracted from a document created using the Font Software may only be distributed under this licence.

g++-5/copyright:This is the Debian GNU/Linux prepackaged version of the GNU compiler
g++-5/copyright:collection, containing Ada, C, C++, Fortran 95, Java, Objective-C,
g++-5/copyright:Objective-C++, and Treelang compilers, documentation, and support
g++-5/copyright:libraries. In addition, Debian provides the gdc compiler, either in
g++-5/copyright:the same source package, or built from a separate same source package.
g++-5/copyright:Packaging is done by the Debian GCC Maintainers
g++-5/copyright:<debian-gcc@lists.debian.org>, with sources obtained from:

g++-5/copyright:
g++-5/copyright:  ftp://gcc.gnu.org/pub/gcc/releases/  (for full releases)
g++-5/copyright:  svn://gcc.gnu.org/svn/gcc/           (for prereleases)
g++-5/copyright:  http://bitbucket.org/goshawk/gdc     (for D)
g++-5/copyright:
g++-5/copyright:Packaging is done by the Debian GCC Maintainers

Debian splits the GNU Compiler Collection into packages for each language,
g++-5/copyright:library, and documentation as follows:

g++-5/copyright:

Language | Compiler package | Library package | Documentation
----------|-----------------|-----------------|-----------------
From Ubuntu 16.04 LTS

g++-5/copyright:C++   g++-5  libstdc++6  libstdc++6-5-doc

g++-5/copyright:D     gdc-5

g++-5/copyright:Fortran 95  gfortran-5  libgfortran3  gfortran-5-doc

g++-5/copyright:Go     gccgo-5  libgo0

g++-5/copyright:Java   gcj-5  libgcj10  libgcj-doc

g++-5/copyright:Objective C  gobjc-5  libobjc2

g++-5/copyright:Objective C++  gobjc++-5

g++-5/copyright:

For some language run-time libraries, Debian provides source files, development files, debugging symbols and libraries containing position-independent code in separate packages:

g++-5/copyright:

Language Sources  Development  Debugging  Position-Independent

g++-5/copyright:-----------------------------------------------

g++-5/copyright:C++  libstdc++6-5-dbg  libstdc++6-5-pic

g++-5/copyright:D   libphobos-5-dev

g++-5/copyright:Java  libgcj10-src  libgcj10-dev  libgcj10-dbg

g++-5/copyright:

Additional packages include:

g++-5/copyright:

All languages:

g++-5/copyright:libgcc1, libgcc2, libgcc4  GCC intrinsics (platform-dependent)

g++-5/copyright:gcc-5-base  Base files common to all compilers

g++-5/copyright:gcc-5-soft-float  Software floating point (ARM only)

g++-5/copyright:gcc-5-source  The sources with patches

g++-5/copyright:

Ada:

g++-5/copyright:libgnatvsn-dev, libgnatvsn5  GNAT version library

g++-5/copyright:libgnatprj-dev, libgnatprj5  GNAT Project Manager library

g++-5/copyright:

C:

g++-5/copyright:cpp-5, cpp-5-doc  GNU C Preprocessor

g++-5/copyright:libssp0-dev, libssp0  GCC stack smashing protection library

g++-5/copyright:libquadmath0  Math routines for the __float128 type

g++-5/copyright:fixincludes  Fix non-ANSI header files

g++-5/copyright:

Java:

g++-5/copyright:gij  The Java bytecode interpreter and VM

g++-5/copyright:libgcj-common  Common files for the Java run-time

g++-5/copyright:libgcj10-awt  The Abstract Windowing Toolkit

g++-5/copyright:libgcj10-jar  Java ARChive for the Java run-time

g++-5/copyright:

C, C++ and Fortran 95:

g++-5/copyright:libgomp1-dev, libgomp1

g++-5/copyright:libitm1-dev, libitm1
g++-5/copyright:
g++-5/copyright:Biarch support: On some 64-bit platforms which can also run 32-bit code,
g++-5/copyright:Debian provides additional packages containing 32-bit versions of some
libraries. These packages have names beginning with 'lib32' instead of 'lib', for example
lib32stdc++6. Similarly, on some 32-bit platforms which can also run 64-bit code, Debian provides additional packages with names beginning with 'lib64' instead of 'lib'. These packages contain 64-bit versions of the libraries. (At this time, not all platforms and not all libraries support biarch.) The license terms for these lib32 or lib64 packages are identical to the ones for the lib packages.

g++-5/copyright:This GCC Runtime Library Exception \"(Exception)\" is an additional

g++-5/copyright:permission under section 7 of the GNU General Public License, version

g++-5/copyright:3 (\"GPLv3\"). It applies to a given file (the \"Runtime Library\") that

g++-5/copyright:bears a notice placed by the copyright holder of the file stating that

g++-5/copyright:the file is governed by GPLv3 along with this Exception.

0. Definitions.

A file is an "Independent Module" if it either requires the Runtime
From Ubuntu 16.04 LTS

g++-5/copyright: Library for execution after a Compilation Process, or makes use of an

g++-5/copyright: interface provided by the Runtime Library, but is not otherwise based

g++-5/copyright: on the Runtime Library.

g++-5/copyright:
g++-5/copyright: "GCC" means a version of the GNU Compiler Collection, with or without

g++-5/copyright: modifications, governed by version 3 (or a specified later version) of

g++-5/copyright: the GNU General Public License (GPL) with the option of using any

g++-5/copyright: subsequent versions published by the FSF.

g++-5/copyright:
g++-5/copyright: "GPL-compatible Software" is software whose conditions of propagation,
g++-5/copyright: modification and use would permit combination with GCC in accord with

g++-5/copyright: the license of GCC.

g++-5/copyright:
g++-5/copyright: "Target Code" refers to output from any compiler for a real or virtual

g++-5/copyright: target processor architecture, in executable form or suitable for

g++-5/copyright: input to an assembler, loader, linker and/or execution

g++-5/copyright: phase. Notwithstanding that, Target Code does not include data in any

g++-5/copyright: format that is used as a compiler intermediate representation, or used

g++-5/copyright: for producing a compiler intermediate representation.

g++-5/copyright:
g++-5/copyright: The "Compilation Process" transforms code entirely represented in

g++-5/copyright: non-intermediate languages designed for human-written code, and/or in

g++-5/copyright: Java Virtual Machine byte code, into Target Code. Thus, for example,

g++-5/copyright: use of source code generators and preprocessors need not be considered

g++-5/copyright: part of the Compilation Process, since the Compilation Process can be

g++-5/copyright: understood as starting with the output of the generators or

g++-5/copyright: preprocessors.

g++-5/copyright:
g++-5/copyright: A Compilation Process is "Eligible" if it is done using GCC, alone or

g++-5/copyright: with other GPL-compatible software, or if it is done without using any

g++-5/copyright: work based on GCC. For example, using non-GPL-compatible Software to

g++-5/copyright: optimize any GCC intermediate representations would not qualify as an

g++-5/copyright: Eligible Compilation Process.

g++-5/copyright:
g++-5/copyright: 1. Grant of Additional Permission.

g++-5/copyright:
g++-5/copyright: You have permission to propagate a work of Target Code formed by

g++-5/copyright: combining the Runtime Library with Independent Modules, even if such

g++-5/copyright: propagation would otherwise violate the terms of GPLv3, provided that

g++-5/copyright: all Target Code was generated by Eligible Compilation Processes. You

g++-5/copyright: may then convey such a combination under terms of your choice,

g++-5/copyright: consistent with the licensing of the Independent Modules.

g++-5/copyright:

g++-5/copyright: 2. No Weakening of GCC Copyleft.
 From Ubuntu 16.04 LTS

The availability of this Exception does not imply any general presumption that third-party software is unaffected by the copyleft requirements of the license of GCC.

 gcc-5-base/copyright:
gcc-5-base/copyright:Everyone is permitted to copy and distribute verbatim copies of this
gcc-5-base/copyright:license document, but changing it is not allowed.
gcc-5-base/copyright:
gcc-5-base/copyright:This GCC Runtime Library Exception ("Exception") is an additional
gcc-5-base/copyright:permission under section 7 of the GNU General Public License, version
gcc-5-base/copyright:3 ("GPLv3"). It applies to a given file (the "Runtime Library") that
gcc-5-base/copyright:bears a notice placed by the copyright holder of the file stating that
gcc-5-base/copyright:the file is governed by GPLv3 along with this Exception.
gcc-5-base/copyright:
gcc-5-base/copyright:When you use GCC to compile a program, GCC may combine portions of
gcc-5-base/copyright: certain GCC header files and runtime libraries with the compiled
gcc-5-base/copyright:program. The purpose of this Exception is to allow compilation of
gcc-5-base/copyright:non-GPL (including proprietary) programs to use, in this way, the
gcc-5-base/copyright:header files and runtime libraries covered by this Exception.
From Ubuntu 16.04 LTS

A file is an "Independent Module" if it either requires the Runtime Library for execution after a Compilation Process, or makes use of an interface provided by the Runtime Library, but is not otherwise based on the Runtime Library.

"GCC" means a version of the GNU Compiler Collection, with or without modifications, governed by version 3 (or a specified later version) of the GNU General Public License (GPL) with the option of using any subsequent versions published by the FSF.

"GPL-compatible Software" is software whose conditions of propagation, modification and use would permit combination with GCC in accord with the license of GCC.

"Target Code" refers to output from any compiler for a real or virtual target processor architecture, in executable form or suitable for input to an assembler, loader, linker and/or execution phase. Notwithstanding that, Target Code does not include data in any format that is used as a compiler intermediate representation, or used for producing a compiler intermediate representation.

The "Compilation Process" transforms code entirely represented in non-intermediate languages designed for human-written code, and/or in Java Virtual Machine byte code, into Target Code. Thus, for example, use of source code generators and preprocessors need not be considered part of the Compilation Process, since the Compilation Process can be understood as starting with the output of the generators or preprocessors.

A Compilation Process is "Eligible" if it is done using GCC, alone or with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.

1. Grant of Additional Permission.

You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice, consistent with the licensing of the Independent Modules.

gcc-5/copyright:'lib', for example lib32stdc++6. Similarly, on some 32-bit platforms which

gcc-5/copyright:can also run 64-bit code, Debian provides additional packages with names

gcc-5/copyright:beginning with 'lib64' instead of 'lib'. These packages contain 64-bit

GCC RUNTIME LIBRARY EXCEPTION

Version 3.1, 31 March 2009
From Ubuntu 16.04 LTS

gcc-5/copyright:Copyright (C) 2009 Free Software Foundation, Inc. <http://fsf.org/>

gcc-5/copyright:Everyone is permitted to copy and distribute verbatim copies of this
gcc-5/copyright:license document, but changing it is not allowed.

gcc-5/copyright:This GCC Runtime Library Exception ("Exception") is an additional
gcc-5/copyright:permission under section 7 of the GNU General Public License, version
gcc-5/copyright:3 ("GPLv3"). It applies to a given file (the "Runtime Library") that
gcc-5/copyright:bears a notice placed by the copyright holder of the file stating that
gcc-5/copyright:the file is governed by GPLv3 along with this Exception.

gcc-5/copyright:When you use GCC to compile a program, GCC may combine portions of
gcc-5/copyright: Certain GCC header files and runtime libraries with the compiled
gcc-5/copyright:program. The purpose of this Exception is to allow compilation of
gcc-5/copyright:non-GPL (including proprietary) programs to use, in this way, the
gcc-5/copyright:header files and runtime libraries covered by this Exception.

gcc-5/copyright:0. Definitions.

gcc-5/copyright:A file is an "Independent Module" if it either requires the Runtime
gcc-5/copyright:Library for execution after a Compilation Process, or makes use of an
gcc-5/copyright:interface provided by the Runtime Library, but is not otherwise based
gcc-5/copyright:on the Runtime Library.

gcc-5/copyright:"GCC" means a version of the GNU Compiler Collection, with or without
gcc-5/copyright:modifications, governed by version 3 (or a specified later version) of
gcc-5/copyright:the GNU General Public License (GPL) with the option of using any
gcc-5/copyright:subsequent versions published by the FSF.

gcc-5/copyright:"GPL-compatible Software" is software whose conditions of propagation,
 gcc-5/copyright:modification and use would permit combination with GCC in accord with
gcc-5/copyright:the license of GCC.

gcc-5/copyright:"Target Code" refers to output from any compiler for a real or virtual
gcc-5/copyright:target processor architecture, in executable form or suitable for
gcc-5/copyright:input to an assembler, loader, linker and/or execution
gcc-5/copyright:phase. Notwithstanding that, Target Code does not include data in any
gcc-5/copyright:format that is used as a compiler intermediate representation, or used
gcc-5/copyright:for producing a compiler intermediate representation.

gcc-5/copyright:The "Compilation Process" transforms code entirely represented in
gcc-5/copyright:non-intermediate languages designed for human-written code, and/or in
gcc-5/copyright:Java Virtual Machine byte code, into Target Code. Thus, for example,
 gcc-5/copyright:use of source code generators and preprocessors need not be considered
gcc-5/copyright:part of the Compilation Process, since the Compilation Process can be
From Ubuntu 16.04 LTS

gcc-5/copyright:understood as starting with the output of the generators or

gcc-5/copyright:preprocessors.

gcc-5/copyright:

gcc-5/copyright:A Compilation Process is "Eligible" if it is done using GCC, alone or

gcc-5/copyright:with other GPL-compatible software, or if it is done without using any

gcc-5/copyright:work based on GCC. For example, using non-GPL-compatible Software to

gcc-5/copyright:optimize any GCC intermediate representations would not qualify as an

gcc-5/copyright:

gcc-5/copyright:1. Grant of Additional Permission.

gcc-5/copyright:

gcc-5/copyright:You have permission to propagate a work of Target Code formed by

gcc-5/copyright:combining the Runtime Library with Independent Modules, even if such

gcc-5/copyright:propagation would otherwise violate the terms of GPLv3, provided that

gcc-5/copyright:all Target Code was generated by Eligible Compilation Processes. You

gcc-5/copyright:may then convey such a combination under terms of your choice,

gcc-5/copyright:consistent with the licensing of the Independent Modules.

gcc-5/copyright:

gcc-5/copyright:

gcc-5/copyright:The availability of this Exception does not imply any general

gcc-5/copyright:presumption that third-party software is unaffected by the copyleft

gcc-5/copyright:requirements of the license of GCC.

gcc-6-base/copyright:
gcc-6-base/copyright: This GCC Runtime Library Exception ("Exception") is an additional

gcc-6-base/copyright: permission under section 7 of the GNU General Public License, version

gcc-6-base/copyright: 3 ("GPLv3"). It applies to a given file (the "Runtime Library") that

gcc-6-base/copyright: bears a notice placed by the copyright holder of the file stating that

gcc-6-base/copyright: the file is governed by GPLv3 along with this Exception.

gcc-6-base/copyright:
gcc-6-base/copyright: When you use GCC to compile a program, GCC may combine portions of

gcc-6-base/copyright: certain GCC header files and runtime libraries with the compiled

gcc-6-base/copyright: program. The purpose of this Exception is to allow compilation of

gcc-6-base/copyright: non-GPL (including proprietary) programs to use, in this way, the

gcc-6-base/copyright: header files and runtime libraries covered by this Exception.

gcc-6-base/copyright:
gcc-6-base/copyright: 0. Definitions.

gcc-6-base/copyright:
gcc-6-base/copyright: A file is an "Independent Module" if it either requires the Runtime

gcc-6-base/copyright: Library for execution after a Compilation Process, or makes use of an

gcc-6-base/copyright: interface provided by the Runtime Library, but is not otherwise based

gcc-6-base/copyright: on the Runtime Library.

gcc-6-base/copyright:
gcc-6-base/copyright: "GCC" means a version of the GNU Compiler Collection, with or without

gcc-6-base/copyright: modifications, governed by version 3 (or a specified later version) of

gcc-6-base/copyright: the GNU General Public License (GPL) with the option of using any

gcc-6-base/copyright: subsequent versions published by the FSF.
From Ubuntu 16.04 LTS

gcc-6-base/copyright:"GPL-compatible Software" is software whose conditions of propagation,
gcc-6-base/copyright:modification and use would permit combination with GCC in accord with
gcc-6-base/copyright:the license of GCC.
gcc-6-base/copyright:
gcc-6-base/copyright:"Target Code" refers to output from any compiler for a real or virtual
gcc-6-base/copyright:target processor architecture, in executable form or suitable for
gcc-6-base/copyright:input to an assembler, loader, linker and/or execution
gcc-6-base/copyright:phase. Notwithstanding that, Target Code does not include data in any
gcc-6-base/copyright:format that is used as a compiler intermediate representation, or used
gcc-6-base/copyright:for producing a compiler intermediate representation.
gcc-6-base/copyright:
gcc-6-base/copyright:The "Compilation Process" transforms code entirely represented in
gcc-6-base/copyright:non-intermediate languages designed for human-written code, and/or in
gcc-6-base/copyright:Java Virtual Machine byte code, into Target Code. Thus, for example,
gcc-6-base/copyright:use of source code generators and preprocessors need not be considered
gcc-6-base/copyright:part of the Compilation Process, since the Compilation Process can be
gcc-6-base/copyright:understood as starting with the output of the generators or
gcc-6-base/copyright:preprocessors.
gcc-6-base/copyright:
gcc-6-base/copyright:A Compilation Process is "Eligible" if it is done using GCC, alone or
gcc-6-base/copyright:with other GPL-compatible software, or if it is done without using any
gcc-6-base/copyright:work based on GCC. For example, using non-GPL-compatible Software to
gcc-6-base/copyright:optimize any GCC intermediate representations would not qualify as an
gcc-6-base/copyright:Eligible Compilation Process.

gcc-6-base/copyright:
gcc-6-base/copyright:1. Grant of Additional Permission.

gcc-6-base/copyright:You have permission to propagate a work of Target Code formed by
gcc-6-base/copyright:combining the Runtime Library with Independent Modules, even if such
gcc-6-base/copyright:propagation would otherwise violate the terms of GPLv3, provided that
gcc-6-base/copyright:all Target Code was generated by Eligible Compilation Processes. You
gcc-6-base/copyright:may then convey such a combination under terms of your choice,
gcc-6-base/copyright:consistent with the licensing of the Independent Modules.

gcc-6-base/copyright:
gcc-6-base/copyright:2. No Weakening of GCC Copyleft.

gcc-6-base/copyright:The availability of this Exception does not imply any general
gcc-6-base/copyright:presumption that third-party software is unaffected by the copyleft
gcc-6-base/copyright:requirements of the license of GCC.

The work (as defined below) is provided under the terms of this Creative Commons Public License ("CCPL" or "LICENSE"). The work is protected by copyright and/or other applicable law. Any use of the work other than authorized under this license or copyright law is prohibited.

By exercising any rights to the work provided here, you accept and be bound by the terms of this license. To the extent this license may be considered to be a contract, the licensor grants you the rights here in consideration of your acceptance of such terms and conditions.

1. Definitions

Adaptation: means a work based upon the Work, or upon the Work and other pre-existing works, such as a translation, adaptation, derivative work, arrangement of music or other alterations of a literary or artistic work, or phonogram or performance and includes cinematographic adaptations or any other form in which the Work may be recast, transformed, or adapted including in any form recognizably derived from the original, except that a work that constitutes a Collection will not be considered an Adaptation for the purpose of this License. For the avoidance of doubt, where the Work is a musical work, performance or phonogram, the synchronization of the Work in timed-relation with a moving image ("synching") will be considered an Adaptation for the purpose of this License.

Collection: means a collection of literary or artistic works, such as encyclopedias and anthologies, or performances, phonograms or broadcasts, or other works or subject matter other than works listed in Section 1(f) below, which, by reason of the selection and arrangement of their contents, constitute intellectual creations, in which the Work is included in its entirety in unmodified form along with one or more other contributions, each constituting separate and independent works in themselves, which together are assembled into a collective whole. A work that constitutes a Collection will not be considered an Adaptation (as defined below) for the purposes of this License.

Creative Commons Compatible License: means a license that is listed at http://creativecommons.org/compatiblelicenses that has been approved by Creative Commons as being essentially equivalent to this License, including, at a minimum, because that license: (i) contains terms that have the same purpose, meaning and effect as the License Elements of this License; and, (ii) explicitly permits the relicensing of adaptations of works made available under that license under this license.
From Ubuntu 16.04 LTS

grub2-common/copyright: License or a Creative Commons jurisdiction license with the same License

grub2-common/copyright: Elements as this License.

grub2-common/copyright: "Distribute" means to make available to the public the original and

grub2-common/copyright: copies of the Work or Adaptation, as appropriate, through sale or other

grub2-common/copyright: transfer of ownership.

grub2-common/copyright: "License Elements" means the following high-level license attributes as

grub2-common/copyright: selected by Licensor and indicated in the title of this License:

grub2-common/copyright: Attribution, ShareAlike.

grub2-common/copyright: "Licensor" means the individual, individuals, entity or entities that

grub2-common/copyright: offer(s) the Work under the terms of this License.

grub2-common/copyright: "Original Author" means, in the case of a literary or artistic work, the

grub2-common/copyright: individual, individuals, entity or entities who created the Work or if

grub2-common/copyright: no individual or entity can be identified, the publisher; and in

grub2-common/copyright: addition (i) in the case of a performance the actors, singers,

grub2-common/copyright: musicians, dancers, and other persons who act, sing, deliver, declaim,

grub2-common/copyright: play in, interpret or otherwise perform literary or artistic works or

grub2-common/copyright: expressions of folklore; (ii) in the case of a phonogram the producer

grub2-common/copyright: being the person or legal entity who first fixes the sounds of a

grub2-common/copyright: performance or other sounds; and, (iii) in the case of broadcasts, the

grub2-common/copyright: organization that transmits the broadcast.

grub2-common/copyright: "Work" means the literary and/or artistic work offered under the terms

grub2-common/copyright: of this License including without limitation any production in the

grub2-common/copyright: literary, scientific and artistic domain, whatever may be the mode or

grub2-common/copyright: form of its expression including digital form, such as a book, pamphlet

grub2-common/copyright: and other writing; a lecture, address, sermon or other work of the same

grub2-common/copyright: nature; a dramatic or dramatico-musical work; a choreographic work or

grub2-common/copyright: entertainment in dumb show; a musical composition with or without words;

grub2-common/copyright: a cinematographic work to which are assimilated works expressed by a

grub2-common/copyright: process analogous to cinematography; a work of drawing, painting,

grub2-common/copyright: architecture, sculpture, engraving or lithography; a photographic work

grub2-common/copyright: to which are assimilated works expressed by a process analogous to

grub2-common/copyright: photography; a work of applied art; an illustration, map, plan, sketch

grub2-common/copyright: or three-dimensional work relative to geography, topography,

grub2-common/copyright: architecture or science; a performance; a broadcast; a phonogram; a

grub2-common/copyright: compilation of data to the extent it is protected as a copyrightable

grub2-common/copyright: work; or a work performed by a variety or circus performer to the extent

grub2-common/copyright: it is not otherwise considered a literary or artistic work.

grub2-common/copyright: "You" means an individual or entity exercising rights under this License

grub2-common/copyright: who has not previously violated the terms of this License with respect

grub2-common/copyright: to the Work, or who has received express permission from the Licensor to

grub2-common/copyright: exercise rights under this License despite a previous violation.

grub2-common/copyright: "Publicly Perform" means to perform public recitations of the Work and

grub2-common/copyright: to communicate to the public those public recitations, by any means or

grub2-common/copyright: process, including by wire or wireless means or public digital

grub2-common/copyright: performances; to make available to the public Works in such a way that
From Ubuntu 16.04 LTS

grub2-common/copyright: members of the public may access these Works from a place and at a place
grub2-common/copyright: individually chosen by them; to perform the Work to the public by any
grub2-common/copyright: means or process and the communication to the public of the performances
grub2-common/copyright: of the Work, including by public digital performance; to broadcast and
grub2-common/copyright: rebroadcast the Work by any means including signs, sounds or images.
grub2-common/copyright: "Reproduce" means to make copies of the Work by any means including
grub2-common/copyright: without limitation by sound or visual recordings and the right of
grub2-common/copyright: fixation and reproducing fixations of the Work, including storage of a
grub2-common/copyright: protected performance or phonogram in digital form or other electronic
grub2-common/copyright: medium.
grub2-common/copyright: .
grub2-common/copyright: grub2-common/copyright: 2. Fair Dealing Rights. Nothing in this License is intended to reduce,
grub2-common/copyright: limit, or restrict any uses free from copyright or rights arising from
grub2-common/copyright: limitations or exceptions that are provided for in connection with the
grub2-common/copyright: copyright protection under copyright law or other applicable laws.
grub2-common/copyright: .
grub2-common/copyright: grub2-common/copyright: 3. License Grant. Subject to the terms and conditions of this License,
grub2-common/copyright: Licensor hereby grants You a worldwide, royalty-free, non-exclusive,
grub2-common/copyright: perpetual (for the duration of the applicable copyright) license to
grub2-common/copyright: exercise the rights in the Work as stated below:
grub2-common/copyright: .
grub2-common/copyright: grub2-common/copyright: to Reproduce the Work, to incorporate the Work into one or more
grub2-common/copyright: Collections, and to Reproduce the Work as incorporated in the
grub2-common/copyright: Collections;
grub2-common/copyright: grub2-common/copyright: to create and Reproduce Adaptations provided that any such Adaptation,
grub2-common/copyright: including any translation in any medium, takes reasonable steps to
grub2-common/copyright: clearly label, demarcate or otherwise identify that changes were made to
grub2-common/copyright: the original Work. For example, a translation could be marked "The
grub2-common/copyright: original work was translated from English to Spanish," or a modification
grub2-common/copyright: could indicate "The original work has been modified.";
grub2-common/copyright: grub2-common/copyright: to Distribute and Publicly Perform the Work including as incorporated in

grub2-common/copyright: The above rights may be exercised in all media and formats whether now
grub2-common/copyright: known or hereafter devised. The above rights include the right to make such
grub2-common/copyright: modifications as are technically necessary to exercise the rights in other
grub2-common/copyright: media and formats. Subject to Section 8(f), all rights not expressly
grub2-common/copyright: granted by Licensor are hereby reserved.

grub2-common/copyright: 4. Restrictions. The license granted in Section 3 above is expressly made
grub2-common/copyright: subject to and limited by the following restrictions:

grub2-common/copyright: You may Distribute or Publicly Perform the Work only under the terms of
grub2-common/copyright: this License. You must include a copy of, or the Uniform Resource

grub2-common/copyright: the Work that restrict the terms of this License or the ability of the
grub2-common/copyright: recipient of the Work to exercise the rights granted to that recipient
grub2-common/copyright: under the terms of the License. You may not sublicense the Work. You
grub2-common/copyright: must keep intact all notices that refer to this License and to the
grub2-common/copyright: disclaimer of warranties with every copy of the Work You Distribute or
grub2-common/copyright: Publicly Perform. When You Distribute or Publicly Perform the Work, You
grub2-common/copyright: may not impose any effective technological measures on the Work that
grub2-common/copyright: restrict the ability of a recipient of the Work from You to exercise the
grub2-common/copyright: rights granted to that recipient under the terms of the License. This
grub2-common/copyright: Section 4(a) applies to the Work as incorporated in a Collection, but
grub2-common/copyright: this does not require the Collection apart from the Work itself to be
grub2-common/copyright: made subject to the terms of this License. If You create a Collection,
grub2-common/copyright: upon notice from any Licensor You must, to the extent practicable,
grub2-common/copyright: remove from the Collection any credit as required by Section 4(c), as
grub2-common/copyright: requested. If You create an Adaptation, upon notice from any Licensor
grub2-common/copyright: You must, to the extent practicable, remove from the Adaptation any
grub2-common/copyright: credit as required by Section 4(c), as requested.

grub2-common/copyright: You may Distribute or Publicly Perform an Adaptation only under the
grub2-common/copyright: terms of: (i) this License; (ii) a later version of this License with

grub2-common/copyright: Adaptation that restrict the terms of the Applicable License or the
grub2-common/copyright: ability of the recipient of the Adaptation to exercise the rights
grub2-common/copyright: granted to that recipient under the terms of the Applicable License;
grub2-common/copyright: (III) You must keep intact all notices that refer to the Applicable
grub2-common/copyright: License and to the disclaimer of warranties with every copy of the Work
grub2-common/copyright: as included in the Adaptation You Distribute or Publicly Perform; (IV)
grub2-common/copyright: when You Distribute or Publicly Perform the Adaptation, You may not

grub2-common/copyright: restrict the ability of a recipient of the Adaptation from You to
grub2-common/copyright: exercise the rights granted to that recipient under the terms of the

grub2-common/copyright: ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

7. Termination

grub2-common/copyright: This License and the rights granted hereunder will terminate
grub2-common/copyright: automatically upon any breach by You of the terms of this License.
grub2-common/copyright: Individuals or entities who have received Adaptations or Collections

grub2-common/copyright: compliance with those licenses. Sections 1, 2, 5, 6, 7, and 8 will

Subject to the above terms and conditions, the license granted here is perpetual (for the duration of the applicable copyright in the Work). Notwithstanding the above, Licensor reserves the right to release the Work under different license terms or to stop distributing the Work at any time; provided, however that any such election will not serve to withdraw this License (or any other license that has been, or is required to be, granted under the terms of this License), and this License will continue in full force and effect unless terminated as stated above.

Each time You Distribute or Publicly Perform the Work or a Collection, the Licensor offers to the recipient a license to the Work on the same terms and conditions as the license granted to You under this License. Each time You Distribute or Publicly Perform an Adaptation, Licensor offers to the recipient a license to the original Work on the same terms and conditions as the license granted to You under this License.

If any provision of this License is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this License, and without further action by the parties to this agreement, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

No term or provision of this License shall be deemed waived and no breach consented to unless such waiver or consent shall be in writing and signed by the party to be charged with such waiver or consent.

This License constitutes the entire agreement between the parties with respect to the Work licensed here. There are no understandings, agreements or representations with respect to the Work not specified here. Licensor shall not be bound by any additional provisions that may appear in any communication from You. This License may not be modified without the mutual written agreement of the Licensor and You.

grub-common/copyright: 1. Definitions
grub-common/copyright: "Adaptation" means a work based upon the Work, or upon the Work and
grub-common/copyright: other pre-existing works, such as a translation, adaptation, derivative
grub-common/copyright: work, arrangement of music or other alterations of a literary or
grub-common/copyright: artistic work, or phonogram or performance and includes cinematographic
grub-common/copyright: adaptations or any other form in which the Work may be recast,
grub-common/copyright: transformed, or adapted including in any form recognizably derived from
grub-common/copyright: the original, except that a work that constitutes a Collection will not
grub-common/copyright: be considered an Adaptation for the purpose of this License. For the
grub-common/copyright: avoidance of doubt, where the Work is a musical work, performance or
grub-common/copyright: phonogram, the synchronization of the Work in timed-relation with a
grub-common/copyright: moving image ("synching") will be considered an Adaptation for the
grub-common/copyright: purpose of this License.
grub-common/copyright: "Collection" means a collection of literary or artistic works, such as
grub-common/copyright: encyclopedias and anthologies, or performances, phonograms or
grub-common/copyright: broadcasts, or other works or subject matter other than works listed in
From Ubuntu 16.04 LTS

grub-common/copyright: Section 1(f) below, which, by reason of the selection and arrangement of
grub-common/copyright: their contents, constitute intellectual creations, in which the Work is
grub-common/copyright: included in its entirety in unmodified form along with one or more other
grub-common/copyright: contributions, each constituting separate and independent works in
grub-common/copyright: themselves, which together are assembled into a collective whole. A work
grub-common/copyright: that constitutes a Collection will not be considered an Adaptation (as
grub-common/copyright: defined below) for the purposes of this License.
grub-common/copyright: "Creative Commons Compatible License" means a license that is listed at
grub-common/copyright: http://creativecommons.org/compatiblelicenses that has been approved by
grub-common/copyright: Creative Commons as being essentially equivalent to this License,
grub-common/copyright: including, at a minimum, because that license: (i) contains terms that
grub-common/copyright: have the same purpose, meaning and effect as the License Elements of
grub-common/copyright: this License; and, (ii) explicitly permits the relicensing of
grub-common/copyright: adaptations of works made available under that license under this
grub-common/copyright: License or a Creative Commons jurisdiction license with the same License
grub-common/copyright: Elements as this License.
grub-common/copyright: "Distribute" means to make available to the public the original and
grub-common/copyright: copies of the Work or Adaptation, as appropriate, through sale or other
grub-common/copyright: transfer of ownership.
grub-common/copyright: "License Elements" means the following high-level license attributes as
grub-common/copyright: selected by Licensor and indicated in the title of this License:
grub-common/copyright: Attribution, ShareAlike.
grub-common/copyright: "Licensor" means the individual, individuals, entity or entities that
grub-common/copyright: offer(s) the Work under the terms of this License.
grub-common/copyright: "Original Author" means, in the case of a literary or artistic work, the
grub-common/copyright: individual, individuals, entity or entities who created the Work or if
grub-common/copyright: no individual or entity can be identified, the publisher; and in
grub-common/copyright: addition (i) in the case of a performance the actors, singers,
grub-common/copyright: musicians, dancers, and other persons who act, sing, deliver, declaim,
grub-common/copyright: play in, interpret or otherwise perform literary or artistic works or
grub-common/copyright: expressions of folklore; (ii) in the case of a phonogram the producer
grub-common/copyright: being the person or legal entity who first fixes the sounds of a
grub-common/copyright: performance or other sounds; and, (iii) in the case of broadcasts, the
grub-common/copyright: organization that transmits the broadcast.
grub-common/copyright: "Work" means the literary and/or artistic work offered under the terms
grub-common/copyright: of this License including without limitation any production in the
grub-common/copyright: literary, scientific and artistic domain, whatever may be the mode or
grub-common/copyright: form of its expression including digital form, such as a book, pamphlet

grub-common/copyright: compilation of data to the extent it is protected as a copyrightable
work; or a work performed by a variety or circus performer to the extent
it is not otherwise considered a literary or artistic work.
grub-common/copyright: "You" means an individual or entity exercising rights under this License
grub-common/copyright: who has not previously violated the terms of this License with respect
grub-common/copyright: to the Work, or who has received express permission from the Licensor to
grub-common/copyright: exercise rights under this License despite a previous violation.
grub-common/copyright: "Publicly Perform" means to perform public recitations of the Work and
to communicate to the public those public recitations, by any means or
process, including by wire or wireless means or public digital performances; to make available to the public Works in such a way that
members of the public may access these Works from a place and at a place
individually chosen by them; to perform the Work to the public by any
means or process and the communication to the public of the performances
of the Work, including by public digital performance; to broadcast and
rebroadcast the Work by any means including signs, sounds or images.
grub-common/copyright: "Reproduce" means to make copies of the Work by any means including
without limitation by sound or visual recordings and the right of
fixation and reproducing fixations of the Work, including storage of a
protected performance or phonogram in digital form or other electronic
medium.
grub-common/copyright: 2. Fair Dealing Rights. Nothing in this License is intended to reduce,
limit, or restrict any uses free from copyright or rights arising from
limitations or exceptions that are provided for in connection with the
copyright protection under copyright law or other applicable laws.
grub-common/copyright: 3. License Grant. Subject to the terms and conditions of this License,
Licensor hereby grants You a worldwide, royalty-free, non-exclusive,
perpetual (for the duration of the applicable copyright) license to
exercise the rights in the Work as stated below:

to Reproduce the Work, to incorporate the Work into one or more
Collections, and to Reproduce the Work as incorporated in the
collections;
to create and Reproduce Adaptations provided that any such Adaptation,
including any translation in any medium, takes reasonable steps to
clearly label, demarcate or otherwise identify that changes were made to
the original Work. For example, a translation could be marked "The

4. Restrictions. The license granted in Section 3 above is expressly made subject to and limited by the following restrictions:

You may Distribute or Publicly Perform the Work only under the terms of this License. You must include a copy of, or the Uniform Resource Identifier (URI) for, this License with every copy of the Work You Distribute or Publicly Perform. You may not offer or impose any terms on the Work that restrict the terms of this License or the ability of the recipient of the Work to exercise the rights granted to that recipient under the terms of the License. You may not sublicense the Work. You must keep intact all notices that refer to this License and to the disclaimer of warranties with every copy of the Work You Distribute or Publicly Perform. When You Distribute or Publicly Perform the Work, You may not impose any effective technological measures on the Work that restrict the ability of a recipient of the Work from You to exercise the rights granted to that recipient under the terms of the License. This Section 4(a) applies to the Work as incorporated in a Collection, but this does not require the Collection apart from the Work itself to be made subject to the terms of this License. If You create a Collection,

Upon notice from any Licensor, you must, to the extent practicable, remove from the Collection any credit as required by Section 4(c), as requested. If you create an Adaptation, upon notice from any Licensor, you must, to the extent practicable, remove from the Adaptation any credit as required by Section 4(c), as requested.

You may distribute or publicly perform an Adaptation only under the terms of: (i) this License; (ii) a later version of this License with the same License Elements as this License; (iii) a Creative Commons jurisdiction license (either this or a later license version) that contains the same License Elements as this License (e.g., Attribution-ShareAlike 3.0 US)); (iv) a Creative Commons Compatible License. If you license the Adaptation under one of the licenses mentioned in (iv), you must comply with the terms of that license. If you license the Adaptation under the terms of any of the licenses mentioned in (i), (ii) or (iii) (the "Applicable License"), you must comply with the terms of the Applicable License generally and the following provisions: (I) You must include a copy of, or the URI for, the Applicable License with every copy of each Adaptation you distribute or publicly perform; (II) you may not offer or impose any terms on the Adaptation that restrict the terms of the Applicable License or the ability of the recipient of the Adaptation to exercise the rights granted to that recipient under the terms of the Applicable License; (III) you must keep intact all notices that refer to the Applicable License and to the disclaimer of warranties with every copy of the Work as included in the Adaptation you distribute or publicly perform; (IV) you may not impose any effective technological measures on the Adaptation that restrict the ability of a recipient of the Adaptation from you to exercise the rights granted to that recipient under the terms of the Applicable License. This Section 4(b) applies to the Adaptation as incorporated in a Collection, but this does not require the Collection apart from the Adaptation itself to be made subject to the terms of the Applicable License.

If you distribute, or publicly perform the Work or any Adaptations or Collections, you must, unless a request has been made pursuant to Section 4(a), keep intact all copyright notices for the Work and provide, reasonable to the medium or means you are utilizing: (i) the name of the Original Author (or pseudonym, if applicable) if supplied, and/or if the Original Author and/or Licensor designate another party or parties (e.g., a sponsor institute, publishing entity, journal) for attribution ("attribution Parties") in Licensor's copyright notice, terms of service or by other reasonable means, the name of such party or parties; (ii) the title of the Work if supplied; (iii) to the extent reasonably practicable, the URI, if any, that Licensor specifies to be associated with the Work, unless such URI does not refer to the

Section for the purpose of attribution in the manner set out above and,
grub-common/copyright: by exercising Your rights under this License, You may not implicitly or

endorsement by the Original Author, Licensor and/or Attribution Parties,
as appropriate, of You or Your use of the Work, without the separate,

Attribution Parties.

grub-common/copyright: Except as otherwise agreed in writing by the Licensor or as may be
otherwise permitted by applicable law, if You Reproduce, Distribute or
Publicly Perform the Work either by itself or as part of any Adaptations
or Collections, You must not distort, mutilate, modify or take other
derogatory action in relation to the Work which would be prejudicial to
the Original Author's honor or reputation. Licensor agrees that in those
jurisdictions (e.g. Japan), in which any exercise of the right granted
in Section 3(b) of this License (the right to make Adaptations) would be
deemed to be a distortion, mutilation, modification or other derogatory
action prejudicial to the Original Author's honor and reputation, the
Licensor will waive or not assert, as appropriate, this Section, to the
fullest extent permitted by the applicable national law, to enable You
to reasonably exercise Your right under Section 3(b) of this License
(right to make Adaptations) but not otherwise.

grub-pc-bin/copyright: 1. Definitions
grub-pc-bin/copyright: "Adaptation" means a work based upon the Work, or upon the Work and
grub-pc-bin/copyright: other pre-existing works, such as a translation, adaptation, derivative
grub-pc-bin/copyright: work, arrangement of music or other alterations of a literary or
grub-pc-bin/copyright: artistic work, or phonogram or performance and includes cinematographic
grub-pc-bin/copyright: adaptations or any other form in which the Work may be recast,
grub-pc-bin/copyright: transformed, or adapted including in any form recognizably derived from
grub-pc-bin/copyright: the original, except that a work that constitutes a Collection will not
grub-pc-bin/copyright: be considered an Adaptation for the purpose of this License. For the
grub-pc-bin/copyright: avoidance of doubt, where the Work is a musical work, performance or
grub-pc-bin/copyright: phonogram, the synchronization of the Work in timed-relation with a
grub-pc-bin/copyright: moving image ("synching") will be considered an Adaptation for the
grub-pc-bin/copyright: purpose of this License.
grub-pc-bin/copyright: "Collection" means a collection of literary or artistic works, such as
grub-pc-bin/copyright: encyclopedias and anthologies, or performances, phonograms or
grub-pc-bin/copyright: broadcasts, or other works or subject matter other than works listed in
grub-pc-bin/copyright: Section 1(f) below, which, by reason of the selection and arrangement of
grub-pc-bin/copyright: their contents, constitute intellectual creations, in which the Work is
grub-pc-bin/copyright: included in its entirety in unmodified form along with one or more other
grub-pc-bin/copyright: contributions, each constituting separate and independent works in
grub-pc-bin/copyright: themselves, which together are assembled into a collective whole. A work
grub-pc-bin/copyright: that constitutes a Collection will not be considered an Adaptation (as
grub-pc-bin/copyright: defined below) for the purposes of this License.
"Creative Commons Compatible License" means a license that is listed at
grub-pc-bin/copyright: http://creativecommons.org/compatiblelicenses that has been approved by
grub-pc-bin/copyright: Creative Commons as being essentially equivalent to this License,
including, at a minimum, because that license: (i) contains terms that
grub-pc-bin/copyright: have the same purpose, meaning and effect as the License Elements of
grub-pc-bin/copyright: this License; and, (ii) explicitly permits the relicensing of
grub-pc-bin/copyright: adaptations of works made available under that license under this
grub-pc-bin/copyright: License or a Creative Commons jurisdiction license with the same License
From Ubuntu 16.04 LTS

grub-pc-bin/copyright: Elements as this License.
grub-pc-bin/copyright: "Distribute" means to make available to the public the original and
copies of the Work or Adaptation, as appropriate, through sale or other
transfer of ownership.
grub-pc-bin/copyright: "License Elements" means the following high-level license attributes as
selected by Licensor and indicated in the title of this License:
Attribution, ShareAlike.
grub-pc-bin/copyright: "Licensor" means the individual, individuals, entity or entities that
offer(s) the Work under the terms of this License.
grub-pc-bin/copyright: "Original Author" means, in the case of a literary or artistic work, the
individual, individuals, entity or entities who created the Work or if
no individual or entity can be identified, the publisher; and in
addition (i) in the case of a performance the actors, singers,
musicians, dancers, and other persons who act, sing, deliver, declaim,
play in, interpret or otherwise perform literary or artistic works or
expressions of folklore; (ii) in the case of a phonogram the producer
being the person or legal entity who first fixes the sounds of a
performance or other sounds; and, (iii) in the case of broadcasts, the
organization that transmits the broadcast.
grub-pc-bin/copyright: "Work" means the literary and/or artistic work offered under the terms
of this License including without limitation any production in the
literary, scientific and artistic domain, whatever may be the mode or
form of its expression including digital form, such as a book, pamphlet
and other writing; a lecture, address, sermon or other work of the same
nature; a dramatic or dramatico-musical work; a choreographic work or
entertainment in dumb show; a musical composition with or without words;
a cinematographic work to which are assimilated works expressed by a
process analogous to cinematography; a work of drawing, painting,
architecture, sculpture, engraving or lithography; a photographic work
to which are assimilated works expressed by a process analogous to
photography; a work of applied art; an illustration, map, plan, sketch
or three-dimensional work relative to geography, topography,
arcrhitecture or science; a performance; a broadcast; a phonogram; a
compile of data to the extent it is protected as a copyrightable
work; or a work performed by a variety or circus performer to the extent
it is not otherwise considered a literary or artistic work.
"You" means an individual or entity exercising rights under this License
who has not previously violated the terms of this License with respect
to the Work, or who has received express permission from the Licensor to
exercise rights under this License despite a previous violation.
"Publicly Perform" means to perform public recitations of the Work and
to communicate to the public those public recitations, by any means or
process, including by wire or wireless means or public digital
performances; to make available to the public Works in such a way that
members of the public may access these Works from a place and at a place
From Ubuntu 16.04 LTS

individually chosen by them; to perform the Work to the public by any means or process and the communication to the public of the performances of the Work, including by public digital performance; to broadcast and rebroadcast the Work by any means including signs, sounds or images. "Reproduce" means to make copies of the Work by any means including without limitation by sound or visual recordings and the right of fixation and reproducing fixations of the Work, including storage of a protected performance or phonogram in digital form or other electronic medium.

2. Fair Dealing Rights. Nothing in this License is intended to reduce, limit, or restrict any uses free from copyright or rights arising from limitations or exceptions that are provided for in connection with the copyright protection under copyright law or other applicable laws.

3. License Grant. Subject to the terms and conditions of this License, Licensor hereby grants You a worldwide, royalty-free, non-exclusive, perpetual (for the duration of the applicable copyright) license to exercise the rights in the Work as stated below:

to Reproduce the Work, to incorporate the Work into one or more Collections, and to Reproduce the Work as incorporated in the Collections;
to create and Reproduce Adaptations provided that any such Adaptation, including any translation in any medium, takes reasonable steps to clearly label, demarcate or otherwise identify that changes were made to the original Work. For example, a translation could be marked "The original work was translated from English to Spanish," or a modification could indicate "The original work has been modified."
to Distribute and Publicly Perform the Work including as incorporated in Collections; and,
to Distribute and Publicly Perform Adaptations.

grub-pc-bin/copyright: The above rights may be exercised in all media and formats whether now

grub-pc-bin/copyright: modifications as are technically necessary to exercise the rights in other
grub-pc-bin/copyright: media and formats. Subject to Section 8(f), all rights not expressly
grub-pc-bin/copyright: granted by Licensor are hereby reserved.
grub-pc-bin/copyright: 4. Restrictions. The license granted in Section 3 above is expressly made
grub-pc-bin/copyright: subject to and limited by the following restrictions:
grub-pc-bin/copyright: You may Distribute or Publicly Perform the Work only under the terms of
grub-pc-bin/copyright: this License. You must include a copy of, or the Uniform Resource
grub-pc-bin/copyright: Identifier (URI) for, this License with every copy of the Work You
grub-pc-bin/copyright: Distribute or Publicly Perform. You may not offer or impose any terms on
grub-pc-bin/copyright: the Work that restrict the terms of this License or the ability of the
grub-pc-bin/copyright: recipient of the Work to exercise the rights granted to that recipient
grub-pc-bin/copyright: under the terms of the License. You may not sublicense the Work. You
grub-pc-bin/copyright: must keep intact all notices that refer to this License and to the
grub-pc-bin/copyright: disclaimer of warranties with every copy of the Work You Distribute or
grub-pc-bin/copyright: Publicly Perform. When You Distribute or Publicly Perform the Work, You
grub-pc-bin/copyright: may not impose any effective technological measures on the Work that
grub-pc-bin/copyright: restrict the ability of a recipient of the Work from You to exercise the
grub-pc-bin/copyright: rights granted to that recipient under the terms of the License. This
grub-pc-bin/copyright: Section 4(a) applies to the Work as incorporated in a Collection, but
grub-pc-bin/copyright: this does not require the Collection apart from the Work itself to be
grub-pc-bin/copyright: made subject to the terms of this License. If You create a Collection,
grub-pc-bin/copyright: upon notice from any Licensor You must, to the extent practicable,
grub-pc-bin/copyright: remove from the Collection any credit as required by Section 4(c), as
grub-pc-bin/copyright: requested. If You create an Adaptation, upon notice from any Licensor
grub-pc-bin/copyright: You must, to the extent practicable, remove from the Adaptation any
grub-pc-bin/copyright: credit as required by Section 4(c), as requested.
grub-pc-bin/copyright: You may Distribute or Publicly Perform an Adaptation only under the
grub-pc-bin/copyright: terms of: (i) this License; (ii) a later version of this License with
grub-pc-bin/copyright: the same License Elements as this License; (iii) a Creative Commons
grub-pc-bin/copyright: jurisdiction license (either this or a later license version) that
grub-pc-bin/copyright: contains the same License Elements as this License (e.g.,
grub-pc-bin/copyright: Attribution-ShareAlike 3.0 US)); (iv) a Creative Commons Compatible
grub-pc-bin/copyright: License. If you license the Adaptation under one of the licenses
grub-pc-bin/copyright: mentioned in (iv), you must comply with the terms of that license. If
grub-pc-bin/copyright: you license the Adaptation under the terms of any of the licenses
grub-p-c-bin/copyright: mentioned in (i), (ii) or (iii) (the "Applicable License"), you must
From Ubuntu 16.04 LTS

comply with the terms of the Applicable License generally and the following provisions: (I) You must include a copy of, or the URI for, the Applicable License with every copy of each Adaptation You Distribute or Publicly Perform; (II) You may not offer or impose any terms on the Adaptation that restrict the terms of the Applicable License or the ability of the recipient of the Adaptation to exercise the rights granted to that recipient under the terms of the Applicable License; (III) You must keep intact all notices that refer to the Applicable License and to the disclaimer of warranties with every copy of the Work as included in the Adaptation You Distribute or Publicly Perform; (IV) when You Distribute or Publicly Perform the Adaptation, You may not impose any effective technological measures on the Adaptation that restrict the ability of a recipient of the Adaptation from You to exercise the rights granted to that recipient under the terms of the Applicable License. This Section 4(b) applies to the Adaptation as incorporated in a Collection, but this does not require the Collection apart from the Adaptation itself to be made subject to the terms of the Applicable License.

If You Distribute, or Publicly Perform the Work or any Adaptations or Collections, You must, unless a request has been made pursuant to Section 4(a), keep intact all copyright notices for the Work and provide, reasonable to the medium or means You are utilizing: (i) the name of the Original Author (or pseudonym, if applicable) if supplied, and/or if the Original Author and/or Licensor designate another party or parties (e.g., a sponsor institute, publishing entity, journal) for attribution ("Attribution Parties") in Licensor's copyright notice, terms of service or by other reasonable means, the name of such party or parties; (ii) the title of the Work if supplied; (iii) to the extent reasonably practicable, the URI, if any, that Licensor specifies to be associated with the Work, unless such URI does not refer to the copyright notice or licensing information for the Work; and (iv), consistent with Section 3(b), in the case of an Adaptation, a credit identifying the use of the Work in the Adaptation (e.g., "French translation of the Work by Original Author," or "Screenplay based on original Work by Original Author"). The credit required by this Section 4(c) may be implemented in any reasonable manner; provided, however, that in the case of a Adaptation or Collection, at a minimum such credit will appear, if a credit for all contributing authors of the Adaptation or Collection appears, then as part of these credits and in a manner at least as prominent as the credits for the other contributing authors. For the avoidance of doubt, You may only use the credit required by this Section for the purpose of attribution in the manner set out above and, by exercising Your rights under this License, You may not implicitly or explicitly assert or imply any connection with, sponsorship or endorsement by the Original Author, Licensor and/or Attribution Parties,
From Ubuntu 16.04 LTS

grub-pc-bin/copyright: as appropriate, of You or Your use of the Work, without the separate,
grub-pc-bin/copyright: express prior written permission of the Original Author, Licensor and/or
grub-pc-bin/copyright: Attribution Parties.
grub-pc-bin/copyright: Except as otherwise agreed in writing by the Licensor or as may be
grub-pc-bin/copyright: otherwise permitted by applicable law, if You Reproduce, Distribute or
grub-pc-bin/copyright: Publicly Perform the Work either by itself or as part of any Adaptations
grub-pc-bin/copyright: or Collections, You must not distort, mutilate, modify or take other
grub-pc-bin/copyright: derogatory action in relation to the Work which would be prejudicial to
grub-pc-bin/copyright: the Original Author's honor or reputation. Licensor agrees that in those
grub-pc-bin/copyright: jurisdictions (e.g. Japan), in which any exercise of the right granted
grub-pc-bin/copyright: in Section 3(b) of this License (the right to make Adaptations) would be
debemed to be a distortion, mutilation, modification or other derogatory
grub-pc-bin/copyright: action prejudicial to the Original Author's honor and reputation, the
grub-pc-bin/copyright: Licensor will waive or not assert, as appropriate, this Section, to the
grub-pc-bin/copyright: fullest extent permitted by the applicable national law, to enable You

(gright to make Adaptations) but not otherwise.

grub-pc-bin/copyright: OUT OF THIS LICENSE OR THE USE OF THE WORK, EVEN IF LICENSOR HAS BEEN
grub-pc-bin/copyright: ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
grub-pc-bin/copyright: .
grub-pc-bin/copyright: 7. Termination
grub-pc-bin/copyright: This License and the rights granted hereunder will terminate
grub-pc-bin/copyright: automatically upon any breach by You of the terms of this License.
grub-pc-bin/copyright: Individuals or entities who have received Adaptations or Collections
grub-pc-bin/copyright: from You under this License, however, will not have their licenses
grub-pc-bin/copyright: terminated provided such individuals or entities remain in full
grub-pc-bin/copyright: compliance with those licenses. Sections 1, 2, 5, 6, 7, and 8 will
grub-pc-bin/copyright: survive any termination of this License.

perpetual (for the duration of the applicable copyright in the Work). Notwithstanding the above, Licensor reserves the right to release the Work under different license terms or to stop distributing the Work at any time; provided, however that any such election will not serve to withdraw this License (or any other license that has been, or is required to be, granted under the terms of this License), and this License will continue in full force and effect unless terminated as stated above.

Each time You Distribute or Publicly Perform the Work or a Collection, the Licensor offers to the recipient a license to the Work on the same terms and conditions as the license granted to You under this License. Each time You Distribute or Publicly Perform an Adaptation, Licensor offers to the recipient a license to the original Work on the same terms and conditions as the license granted to You under this License. If any provision of this License is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this License, and without further action by the parties to this agreement, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

No term or provision of this License shall be deemed waived and no breach consented to unless such waiver or consent shall be in writing and signed by the party to be charged with such waiver or consent. This License constitutes the entire agreement between the parties with respect to the Work licensed here. There are no understandings, agreements or representations with respect to the Work not specified here. Licensor shall not be bound by any additional provisions that may appear in any communication from You. This License may not be modified without the mutual written agreement of the Licensor and You. The rights granted under, and the subject matter referenced, in this License were drafted utilizing the terminology of the Berne Convention for the Protection of Literary and Artistic Works (as amended on September 28, 1979), the Rome Convention of 1961, the WIPO Copyright Treaty of 1996, the WIPO Performances and Phonograms Treaty of 1996 and the Universal Copyright Convention (as revised on July 24, 1971). These rights and subject matter take effect in the relevant jurisdiction in which the License terms are sought to be enforced according to the corresponding provisions of the implementation of those treaty provisions in the applicable national law. If the standard suite of rights granted under applicable copyright law includes additional rights not granted under this License, such additional rights are deemed to be included in the License; this License is not intended to restrict the

grub-pc/copyright: 1. Definitions
grub-pc/copyright: "adaptation" means a work based upon the work, or upon the work and other pre-existing works, such as a translation, adaptation, derivative work, arrangement of music or other alterations of a literary or artistic work, or phonogram or performance and includes cinematographic adaptations or any other form in which the work may be recast, transformed, or adapted including in any form recognizably derived from the original, except that a work that constitutes a Collection will not be considered an Adaptation for the purpose of this License. For the avoidance of doubt, where the Work is a musical work, performance or phonogram, the synchronization of the Work in timed-relation with a moving image ("synching") will be considered an Adaptation for the purpose of this License.
grub-pc/copyright: "collection" means a collection of literary or artistic works, such as encyclopedias and anthologies, or performances, phonograms or broadcasts, or other works or subject matter other than works listed in Section 1(f) below, which, by reason of the selection and arrangement of

grub-pc/copyright: included in its entirety in unmodified form along with one or more other

grub-pc/copyright: contributions, each constituting separate and independent works in

grub-pc/copyright: themselves, which together are assembled into a collective whole. A work

grub-pc/copyright: that constitutes a Collection will not be considered an Adaptation (as

grub-pc/copyright: defined below) for the purposes of this License.

grub-pc/copyright: "Creative Commons Compatible License" means a license that is listed at

grub-pc/copyright: http://creativecommons.org/compatiblelicenses that has been approved by

grub-pc/copyright: Creative Commons as being essentially equivalent to this License,

grub-pc/copyright: including, at a minimum, because that license: (i) contains terms that

grub-pc/copyright: have the same purpose, meaning and effect as the License Elements of

grub-pc/copyright: this License; and, (ii) explicitly permits the relicensing of

grub-pc/copyright: adaptations of works made available under that license under this

grub-pc/copyright: License or a Creative Commons jurisdiction license with the same License

grub-pc/copyright: Elements as this License.

grub-pc/copyright: "Distribute" means to make available to the public the original and

grub-pc/copyright: copies of the Work or Adaptation, as appropriate, through sale or other

grub-pc/copyright: transfer of ownership.

grub-pc/copyright: "License Elements" means the following high-level license attributes as

grub-pc/copyright: selected by Licensor and indicated in the title of this License:

grub-pc/copyright: Attribution, ShareAlike.

grub-pc/copyright: "Licensor" means the individual, individuals, entity or entities that

grub-pc/copyright: offer(s) the Work under the terms of this License.

grub-pc/copyright: "Original Author" means, in the case of a literary or artistic work, the

grub-pc/copyright: individual, individuals, entity or entities who created the Work or if

grub-pc/copyright: no individual or entity can be identified, the publisher; and in

grub-pc/copyright: addition (i) in the case of a performance the actors, singers,

grub-pc/copyright: musicians, dancers, and other persons who act, sing, deliver, declaim,

grub-pc/copyright: play in, interpret or otherwise perform literary or artistic works or

grub-pc/copyright: expressions of folklore; (ii) in the case of a phonogram the producer

grub-pc/copyright: being the person or legal entity who first fixes the sounds of a

grub-pc/copyright: performance or other sounds; and, (iii) in the case of broadcasts, the

grub-pc/copyright: organization that transmits the broadcast.

grub-pc/copyright: "Work" means the literary and/or artistic work offered under the terms

grub-pc/copyright: of this License including without limitation any production in the

grub-pc/copyright: literary, scientific and artistic domain, whatever may be the mode or

grub-pc/copyright: form of its expression including digital form, such as a book, pamphlet

grub-pc/copyright: and other writing; a lecture, address, sermon or other work of the same

grub-pc/copyright: nature; a dramatic or dramatico-musical work; a choreographic work or

grub-pc/copyright: entertainment in dumb show; a musical composition with or without words;

grub-pc/copyright: a cinematographic work to which are assimilated works expressed by a

grub-pc/copyright: process analogous to cinematography; a work of drawing, painting,

grub-pc/copyright: architecture, sculpture, engraving or lithography; a photographic work

grub-pc/copyright: to which are assimilated works expressed by a process analogous to

grub-pc/copyright: photography; a work of applied art; an illustration, map, plan, sketch

grub-pc/copyright: or three-dimensional work relative to geography, topography,
grub-pc/copyright: architecture or science; a performance; a broadcast; a phonogram; a
grub-pc/copyright: compilation of data to the extent it is protected as a copyrightable
grub-pc/copyright: work; or a work performed by a variety or circus performer to the extent
grub-pc/copyright: it is not otherwise considered a literary or artistic work.
grub-pc/copyright: "You" means an individual or entity exercising rights under this License
grub-pc/copyright: who has not previously violated the terms of this License with respect
grub-pc/copyright: to the Work, or who has received express permission from the Licensor to
grub-pc/copyright: exercise rights under this License despite a previous violation.
grub-pc/copyright: "Publicly Perform" means to perform public recitations of the Work and
grub-pc/copyright: to communicate to the public those public recitations, by any means or
grub-pc/copyright: process, including by wire or wireless means or public digital
grub-pc/copyright: performances; to make available to the public Works in such a way that
grub-pc/copyright: members of the public may access these Works from a place and at a place
grub-pc/copyright: individually chosen by them; to perform the Work to the public by any
grub-pc/copyright: means or process and the communication to the public of the performances
grub-pc/copyright: of the Work, including by public digital performance; to broadcast and
grub-pc/copyright: rebroadcast the Work by any means including signs, sounds or images.
grub-pc/copyright: "Reproduce" means to make copies of the Work by any means including
grub-pc/copyright: without limitation by sound or visual recordings and the right of
grub-pc/copyright: fixation and reproducing fixations of the Work, including storage of a
grub-pc/copyright: protected performance or phonogram in digital form or other electronic
grub-pc/copyright: medium.

grub-pc/copyright: 3. License Grant. Subject to the terms and conditions of this License,
grub-pc/copyright: Licensor hereby grants You a worldwide, royalty-free, non-exclusive,
grub-pc/copyright: perpetual (for the duration of the applicable copyright) license to
grub-pc/copyright: exercise the rights in the Work as stated below:
grub-pc/copyright: .
grub-pc/copyright: to Reproduce the Work, to incorporate the Work into one or more
grub-pc/copyright: Collections, and to Reproduce the Work as incorporated in the
grub-pc/copyright: Collections;
grub-pc/copyright: to create and Reproduce Adaptations provided that any such Adaptation,
grub-pc/copyright: including any translation in any medium, takes reasonable steps to
grub-pc/copyright: clearly label, demarcate or otherwise identify that changes were made to
grub-pc/copyright: the original Work. For example, a translation could be marked "The
grub-pc/copyright: original work was translated from English to Spanish," or a modification
grub-pc/copyright: could indicate "The original work has been modified.";

grub-pc/copyright: You may Distribute or Publicly Perform an Adaptation only under the

This License and the rights granted hereunder will terminate automatically upon any breach by You of the terms of this License. Individuals or entities who have received Adaptations or Collections from You under this License, however, will not have their licenses terminated provided such individuals or entities remain in full compliance with those licenses. Sections 1, 2, 5, 6, 7, and 8 will survive any termination of this License.

Subject to the above terms and conditions, the license granted here is perpetual (for the duration of the applicable copyright in the Work). Notwithstanding the above, Licensor reserves the right to release the Work under different license terms or to stop distributing the Work at any time; provided, however that any such election will not serve to withdraw this License (or any other license that has been, or is required to be, granted under the terms of this License), and this License will continue in full force and effect unless terminated as stated above.

Each time You Distribute or Publicly Perform the Work or a Collection, the Licensor offers to the recipient a license to the Work on the same terms and conditions as the license granted to You under this License.

Each time You Distribute or Publicly Perform an Adaptation, Licensor offers to the recipient a license to the original Work on the same terms and conditions as the license granted to You under this License.

If any provision of this License is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this License, and without further action by the parties to this agreement, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

No term or provision of this License shall be deemed waived and no breach consented to unless such waiver or consent shall be in writing and signed by the party to be charged with such waiver or consent.

This License constitutes the entire agreement between the parties with respect to the Work licensed here. There are no understandings, agreements or representations with respect to the Work not specified here. iptables/copyright: The intent of this document is to state the conditions under which a
iptables/copyright: Package may be copied, such that the Copyright Holder maintains some
iptables/copyright: semblance of artistic control over the development of the package,
iptables/copyright: while giving the users of the package the right to use and distribute
iptables/copyright: the Package in a more-or-less customary fashion, plus the right to make
iptables/copyright: reasonable modifications.

iptables/copyright: 1. You may make and give away verbatim copies of the source form of the
iptables/copyright: Standard Version of this Package without restriction, provided that you
iptables/copyright: duplicate all of the original copyright notices and associated disclaimers.
iptables/copyright:
iptables/copyright: 2. You may apply bug fixes, portability fixes and other modifications
iptables/copyright: derived from the Public Domain or from the Copyright Holder. A Package
iptables/copyright: modified in such a way shall still be considered the Standard Version.
iptables/copyright:
iptables/copyright: 3. You may otherwise modify your copy of this Package in any way, provided
iptables/copyright: that you insert a prominent notice in each changed file stating how and
iptables/copyright: when you changed that file, and provided that you do at least ONE of the
iptables/copyright: following:
iptables/copyright:   a) place your modifications in the Public Domain or otherwise make them
iptables/copyright:       Freely Available, such as by posting said modifications to Usenet or
iptables/copyright:       an equivalent medium, or placing the modifications on a major archive
iptables/copyright:       site such as uunet.uu.net, or by allowing the Copyright Holder to include
iptables/copyright:       your modifications in the Standard Version of the Package.
iptables/copyright:
iptables/copyright:   b) use the modified Package only within your corporation or organization.
iptables/copyright:
iptables/copyright:   c) rename any non-standard executables so the names do not conflict
iptables/copyright:       with standard executables, which must also be provided, and provide
iptables/copyright:       a separate manual page for each non-standard executable that clearly
iptables/copyright:       documents how it differs from the Standard Version.
iptables/copyright:
iptables/copyright:   d) make other distribution arrangements with the Copyright Holder.
iptables/copyright:
iptables/copyright: 4. You may distribute the programs of this Package in object code or
iptables/copyright: executable form, provided that you do at least ONE of the following:
iptables/copyright:   a) distribute a Standard Version of the executables and library files,
iptables/copyright:       together with instructions (in the manual page or equivalent) on where
iptables/copyright:       to get the Standard Version.
iptables/copyright:
iptables/copyright:   b) accompany the distribution with the machine-readable source of
iptables/copyright:       the Package with your modifications.
iptables/copyright:
iptables/copyright:   c) give non-standard executables non-standard names, and clearly
iptables/copyright:       document the differences in manual pages (or equivalent), together
iptables/copyright:       with instructions on where to get the Standard Version.
iptables/copyright: d) make other distribution arrangements with the Copyright Holder.

iptables/copyright: 5. You may charge a reasonable copying fee for any distribution of this
iptables/copyright: Package. You may charge any fee you choose for support of this
iptables/copyright: Package. You may not charge a fee for this Package itself. However,
iptables/copyright: you may distribute this Package in aggregate with other (possibly
iptables/copyright: commercial) programs as part of a larger (possibly commercial) software
iptables/copyright: distribution provided that you do not advertise this Package as a
iptables/copyright: product of your own. You may embed this Package's interpreter within
iptables/copyright: an executable of yours (by linking); this shall be construed as a mere
iptables/copyright: form of aggregation, provided that the complete Standard Version of the
iptables/copyright: interpreter is so embedded.

iptables/copyright: 6. The scripts and library files supplied as input to or produced as
iptables/copyright: output from the programs of this Package do not automatically fall
iptables/copyright: under the copyright of this Package, but belong to whoever generated
iptables/copyright: them, and may be sold commercially, and may be aggregated with this
iptables/copyright: Package. If such scripts or library files are aggregated with this
iptables/copyright: Package via the so-called "undump" or "unexec" methods of producing a
iptables/copyright: binary executable image, then distribution of such an image shall
iptables/copyright: neither be construed as a distribution of this Package nor shall it
iptables/copyright: fall under the restrictions of Paragraphs 3 and 4, provided that you do
iptables/copyright: not represent such an executable image as a Standard Version of this
iptables/copyright: Package.

iptables/copyright: 7. C subroutines (or comparably compiled subroutines in other
iptables/copyright: languages) supplied by you and linked into this Package in order to
iptables/copyright: emulate subroutines and variables of the language defined by this
iptables/copyright: Package shall not be considered part of this Package, but are the
iptables/copyright: equivalent of input as in Paragraph 6, provided these subroutines do
iptables/copyright: not change the language in any way that would cause it to fail the
iptables/copyright: regression tests for the language.

iptables/copyright: 8. Aggregation of this Package with a commercial distribution is always
iptables/copyright: permitted provided that the use of this Package is embedded; that is,
iptables/copyright: when no overt attempt is made to make this Package's interfaces visible
iptables/copyright: to the end user of the commercial distribution. Such use shall not be
iptables/copyright: construed as a distribution of this Package.

iptables/copyright: 9. The name of the Copyright Holder may not be used to endorse or promote
iptables/copyright: products derived from this software without specific prior written permission.

iputils-ping/copyright: Comment:

iputils-ping/copyright: Delete the clause 3 (the advertising clause), as per announce

iputils-ping/copyright: by the University of California, Berkeley

iputils-ping/copyright: July 22, 1999

iputils-ping/copyright: 

iputils-ping/copyright: To All Licensees, Distributors of Any Version of BSD:

iputils-ping/copyright: 

iputils-ping/copyright: As you know, certain of the Berkeley Software Distribution ("BSD") source

iputils-ping/copyright: code files require that further distributions of products containing all or

iputils-ping/copyright: portions of the software, acknowledge within their advertising materials

iputils-ping/copyright: that such products contain software developed by UC Berkeley and its

iputils-ping/copyright: contributors.

iputils-ping/copyright: 

iputils-ping/copyright: Specifically, the provision reads:

iputils-ping/copyright: " 

* 3. All advertising materials mentioning features or use of this software

* must display the following acknowledgement:

* This product includes software developed by the University of

* California, Berkeley and its contributors."

iputils-ping/copyright: 

iputils-ping/copyright: Effective immediately, licensees and distributors are no longer required to

iputils-ping/copyright: include the acknowledgement within advertising materials. Accordingly, the

iputils-ping/copyright: foregoing paragraph of those BSD Unix files containing it is hereby deleted

keyboard-configuration/copyright: This copyright file applies both to the source package console-setup and the binary Debian packages built from it.

keyboard-configuration/copyright: In short, if you use console-setup with precompiled keyboard files, then all installed files are covered by simple permissive non-copyleft free software licenses. However, several of the tools used for the compilation of the package (in particular 'ckbcomp' and 'bdf2psf') are covered by GPL, version 2 or later. The Perl program 'ckbcomp' is installed in the system when console-setup is not used with precompiled keyboard files.

keyboard-configuration/copyright: The exact copyright terms follow.

keyboard-configuration/copyright: All console fonts are public domain by nature.

keyboard-configuration/copyright: The source BDF-fonts in the directory Fonts/bdf are distributed under many different licenses, see in the file copyright.fonts for details.

keyboard-configuration/copyright: The program 'bdf2psf' used to convert the fonts from BDF format to the format used on the consoles of Linux and FreeBSD is covered by GPL.

keyboard-configuration/copyright: The keyboard files are borrowed from the XKeyboardConfig package. For the licenses of the keyboard files, see the file copyright.xkb. The XKeyboardConfig package was downloaded from http://xlibs.freedesktop.org/xkbdesc/xkeyboard-config-0.8.tar.gz

keyboard-configuration/copyright: Please notice, that Debian packages do not include the XKB files (they are provided by a separate package xkb-data). When, however, the Debian package console-setup-mini is installed, it includes precompiled version of the keyboard files, so the terms in the file keyboard-configuration/copyright.xkb.gz apply.

keyboard-configuration/copyright: The manual pages are distributed according to GNU all-permissive license:

keyboard-configuration/copyright: Copyright (C) 2007, 2011 Anton Zinoviev <anton@lml.bas.bg>

keyboard-configuration/copyright: Copying and distribution of this file, with or without modification, are permitted in any medium without royalty provided the copyright notice and this notice are preserved. This file is offered as-is, without any warranty.

From Ubuntu 16.04 LTS

Packaging is done by the Debian GCC Maintainers

<debian-gcc@lists.debian.org>, with sources obtained from:

- ftp://gcc.gnu.org/pub/gcc/releases/  (for full releases)
- svn://gcc.gnu.org/svn/gcc/           (for prereleases)
- http://bitbucket.org/goshawk/gdc   (for D)

The current gcc-5 source package is taken from the SVN gcc-5-branch.

Changes: See changelog.Debian.gz

For some language run-time libraries, Debian provides source files, development files, debugging symbols and libraries containing position-independent code in separate packages:

libasan2/copyright:Biarch support: On some 64-bit platforms which can also run 32-bit code, Debian provides additional packages containing 32-bit versions of some libraries. These packages have names beginning with 'lib32' instead of 'lib', for example lib32stdc++6. Similarly, on some 32-bit platforms which can also run 64-bit code, Debian provides additional packages with names beginning with 'lib64' instead of 'lib'. These packages contain 64-bit versions of the libraries. (At this time, not all platforms and not all libraries support biarch.) libasan2/copyright: GCC RUNTIME LIBRARY EXCEPTION

libasan2/copyright: Version 3.1, 31 March 2009

libasan2/copyright: Copyright (C) 2009 Free Software Foundation, Inc. <http://fsf.org/>
From Ubuntu 16.04 LTS

libasan2/copyright:Everyone is permitted to copy and distribute verbatim copies of this
libasan2/copyright:license document, but changing it is not allowed.
libasan2/copyright:
libasan2/copyright:This GCC Runtime Library Exception ("Exception") is an additional
libasan2/copyright:permission under section 7 of the GNU General Public License, version
libasan2/copyright:3 ("GPLv3"). It applies to a given file (the "Runtime Library") that
libasan2/copyright:bears a notice placed by the copyright holder of the file stating that
libasan2/copyright:the file is governed by GPLv3 along with this Exception.
libasan2/copyright:
libasan2/copyright:When you use GCC to compile a program, GCC may combine portions of
libasan2/copyright:the original GCC header files and runtime libraries with the compiled
libasan2/copyright:program. The purpose of this Exception is to allow compilation of
libasan2/copyright:non-GPL (including proprietary) programs to use, in this way, the
libasan2/copyright:header files and runtime libraries covered by this Exception.
libasan2/copyright:
libasan2/copyright:0. Definitions.
libasan2/copyright:
libasan2/copyright:A file is an "Independent Module" if it either requires the Runtime
libasan2/copyright:Library for execution after a Compilation Process, or makes use of an
libasan2/copyright:interface provided by the Runtime Library, but is not otherwise based
libasan2/copyright:on the Runtime Library.
libasan2/copyright:
libasan2/copyright:"GCC" means a version of the GNU Compiler Collection, with or without
libasan2/copyright:modifications, governed by version 3 (or a specified later version) of
libasan2/copyright:the GNU General Public License (GPL) with the option of using any
libasan2/copyright:subsequent versions published by the FSF.
libasan2/copyright:
libasan2/copyright:"GPL-compatible Software" is software whose conditions of propagation,
libasan2/copyright:modification and use would permit combination with GCC in accord with
libasan2/copyright:the license of GCC.
libasan2/copyright:
libasan2/copyright:"Target Code" refers to output from any compiler for a real or virtual
libasan2/copyright:target processor architecture, in executable form or suitable for
libasan2/copyright:input to an assembler, loader, linker and/or execution
libasan2/copyright:phase. Notwithstanding that, Target Code does not include data in any
libasan2/copyright:format that is used as a compiler intermediate representation, or used
libasan2/copyright:for producing a compiler intermediate representation.
libasan2/copyright:
libasan2/copyright:The "Compilation Process" transforms code entirely represented in
libasan2/copyright:non-intermediate languages designed for human-written code, and/or in
libasan2/copyright:Java Virtual Machine byte code, into Target Code. Thus, for example,
libasan2/copyright:use of source code generators and preprocessors need not be considered
libasan2/copyright:part of the Compilation Process, since the Compilation Process can be
libasan2/copyright:understood as starting with the output of the generators or
libasan2/copyright:preprocessors.
A Compilation Process is "Eligible" if it is done using GCC, alone or with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.

1. Grant of Additional Permission.

You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice, consistent with the licensing of the Independent Modules.

2. No Weakening of GCC Copyleft.

The availability of this Exception does not imply any general presumption that third-party software is unaffected by the copyleft requirements of the license of GCC.

This is the Debian GNU/Linux prepackaged version of the GNU compiler
collection, containing Ada, C, C++, Fortran 95, Java, Objective-C,
Objective-C++, and Treelang compilers, documentation, and support
libraries. In addition, Debian provides the gdc compiler, either in
the same source package, or built from a separate same source package.
Packaging is done by the Debian GCC Maintainers
with sources obtained from:

libatomic1/copyright:This GCC Runtime Library Exception ("Exception") is an additional
libatomic1/copyright:permission under section 7 of the GNU General Public License, version
libatomic1/copyright:3 ("GPLv3"). It applies to a given file (the "Runtime Library") that
libatomic1/copyright:bears a notice placed by the copyright holder of the file stating that
libatomic1/copyright:the file is governed by GPLv3 along with this Exception.
libatomic1/copyright:
libatomic1/copyright:When you use GCC to compile a program, GCC may combine portions of
libatomic1/copyright:certain GCC header files and runtime libraries with the compiled
libatomic1/copyright:program. The purpose of this Exception is to allow compilation of
libatomic1/copyright:non-GPL (including proprietary) programs to use, in this way, the
libatomic1/copyright:header files and runtime libraries covered by this Exception.
libatomic1/copyright:
libatomic1/copyright:0. Definitions.
libatomic1/copyright:
libatomic1/copyright:A file is an "Independent Module" if it either requires the Runtime
libatomic1/copyright:Library for execution after a Compilation Process, or makes use of an
libatomic1/copyright:interface provided by the Runtime Library, but is not otherwise based
libatomic1/copyright:on the Runtime Library.
libatomic1/copyright:
libatomic1/copyright:"GCC" means a version of the GNU Compiler Collection, with or without
libatomic1/copyright:modifications, governed by version 3 (or a specified later version) of
libatomic1/copyright:the GNU General Public License (GPL) with the option of using any
libatomic1/copyright:subsequent versions published by the FSF.
libatomic1/copyright:
libatomic1/copyright:"GPL-compatible Software" is software whose conditions of propagation,
libatomic1/copyright:modification and use would permit combination with GCC in accord with
libatomic1/copyright:the license of GCC.
libatomic1/copyright:
libatomic1/copyright:"Target Code" refers to output from any compiler for a real or virtual
libatomic1/copyright:target processor architecture, in executable form or suitable for
libatomic1/copyright:input to an assembler, loader, linker and/or execution
libatomic1/copyright:phase. Notwithstanding that, Target Code does not include data in any
libatomic1/copyright:format that is used as a compiler intermediate representation, or used
libatomic1/copyright:for producing a compiler intermediate representation.
libatomic1/copyright:
libatomic1/copyright:The "Compilation Process" transforms code entirely represented in
libatomic1/copyright:non-intermediate languages designed for human-written code, and/or in
libatomic1/copyright:Java Virtual Machine byte code, into Target Code. Thus, for example,
libatomic1/copyright:use of source code generators and preprocessors need not be considered
libatomic1/copyright:part of the Compilation Process, since the Compilation Process can be
libatomic1/copyright:understood as starting with the output of the generators or
libatomic1/copyright:preprocessors.
libatomic1/copyright:
libatomic1/copyright:A Compilation Process is "Eligible" if it is done using GCC, alone or
From Ubuntu 16.04 LTS

libatomic1/copyright:with other GPL-compatible software, or if it is done without using any
libatomic1/copyright:work based on GCC. For example, using non-GPL-compatible Software to
libatomic1/copyright:optimize any GCC intermediate representations would not qualify as an
libatomic1/copyright:Eligible Compilation Process.
libatomic1/copyright:
libatomic1/copyright:1. Grant of Additional Permission.
libatomic1/copyright:
libatomic1/copyright:You have permission to propagate a work of Target Code formed by
libatomic1/copyright:combining the Runtime Library with Independent Modules, even if such
libatomic1/copyright:propagation would otherwise violate the terms of GPLv3, provided that
libatomic1/copyright:all Target Code was generated by Eligible Compilation Processes. You
libatomic1/copyright:may then convey such a combination under terms of your choice,
libatomic1/copyright:consistent with the licensing of the Independent Modules.
libatomic1/copyright:
libatomic1/copyright:2. No Weakening of GCC Copyleft.
libatomic1/copyright:
libatomic1/copyright:The availability of this Exception does not imply any general
libatomic1/copyright:presumption that third-party software is unaffected by the copyleft
libatomic1/copyright:requirements of the license of GCC.

2. The origin of this software must not be misrepresented, either by explicit claim or by omission. In practice, this means that if you use PCRE in software that you distribute to others, commercially or otherwise, you must put a sentence like this somewhere reasonably visible in your documentation and in any relevant files or online help data or similar. A reference to the ftp site for the source, that is, to ftp://ftp.csx.cam.ac.uk/pub/software/programming/pcre/ should also be given in the documentation. However, this condition is not intended to apply to whole chains of software. If package A includes PCRE, it must acknowledge it, but if package B is software that includes package A, the condition is not imposed on package B (unless it uses PCRE independently).

3. Altered versions must be plainly marked as such, and must not be misrepresented as being the original software.

4. If PCRE is embedded in any software that is released under the GNU General Purpose Licence (GPL), or Lesser General Purpose Licence (LGPL), then the terms of that licence shall supersede any condition above with which it is incompatible.

libc6-dev/copyright: 2. The origin of this software must not be misrepresented, either by
libc6-dev/copyright: explicit claim or by omission. In practice, this means that if you use
libc6-dev/copyright: PCRE in software that you distribute to others, commercially or
libc6-dev/copyright: otherwise, you must put a sentence like this
libc6-dev/copyright: Regular expression support is provided by the PCRE library package,
libc6-dev/copyright: which is open source software, written by Philip Hazel, and copyright
libc6-dev/copyright: by the University of Cambridge, England.
libc6-dev/copyright: somewhere reasonably visible in your documentation and in any relevant
libc6-dev/copyright: files or online help data or similar. A reference to the ftp site for
libc6-dev/copyright: the source, that is, to
libc6-dev/copyright: should also be given in the documentation. However, this condition is not
libc6-dev/copyright: intended to apply to whole chains of software. If package A includes PCRE,
libc6-dev/copyright: it must acknowledge it, but if package B is software that includes package
libc6-dev/copyright: A, the condition is not imposed on package B (unless it uses PCRE
libc6-dev/copyright: independently).
libc6-dev/copyright: 3. Altered versions must be plainly marked as such, and must not be
libc6-dev/copyright: misrepresented as being the original software.
From Ubuntu 16.04 LTS

4. If PCRE is embedded in any software that is released under the GNU General Purpose Licence (GPL), or Lesser General Purpose Licence (LGPL), then the terms of that licence shall supersede any condition above with which it is incompatible.

Changes: See changelog.Debian.gz

Debian splits the GNU Compiler Collection into packages for each language, library, and documentation as follows:

<table>
<thead>
<tr>
<th>Language</th>
<th>Compiler package</th>
<th>Library package</th>
<th>Documentation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ada</td>
<td>gnat-5</td>
<td>libgnat-5</td>
<td>gnat-5-doc</td>
</tr>
<tr>
<td>C</td>
<td>gcc-5</td>
<td>gcc-5-doc</td>
<td></td>
</tr>
<tr>
<td>C++</td>
<td>g++-5</td>
<td>libstdc++6</td>
<td>libstdc++6-5-doc</td>
</tr>
<tr>
<td>D</td>
<td>gdc-5</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Fortran 95</td>
<td>gfortran-5</td>
<td>libgfortran3</td>
<td>gfortran-5-doc</td>

<tr>
<td>Go</td>
<td>gccgo-5</td>
<td>libgo0</td>
<td></td>
</tr>
<tr>
<td>Java</td>
<td>gcj-5</td>
<td>libgcj10</td>
<td>libgcj-doc</td>
</tr>
</tbody>
</table>

For some language run-time libraries, Debian provides source files, development files, debugging symbols and libraries containing position-independent code in separate packages:

<table>
<thead>
<tr>
<th>Language</th>
<th>Sources</th>
<th>Development</th>
<th>Debugging</th>
<th>Position-Independent</th>

<td>libphobos-5-dev</td>
</tr>
<tr>
<td>Java</td>
<td>libgcj10-src</td>
<td>libgcj10-dev</td>
<td>libgcj10-dbg</td>
<td>libgcj10-dbg</td>
</tr>
</tbody>
</table>

Additional packages include:

- All languages: libgcc1, libgcc2, libgcc4: GCC intrinsics (platform-dependent)
- gcc-5-base: Base files common to all compilers
- gcc-5-soft-float: Software floating point (ARM only)
- gcc-5-source: The sources with patches

Ada:
- libgnatvsn-dev, libgnatvsn5: GNAT version library

C:
- cpp-5, cpp-5-doc: GNU C Preprocessor
- libssp0-dev, libssp0: GCC stack smashing protection library
- libquadmath0: Math routines for the __float128 type

Linking this library statically or dynamically with other modules is making a combined work based on this library. Thus, the terms and conditions of the GNU General Public License cover the whole combination.

As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the

libcc1-0/copyright:GCC RUNTIME LIBRARY EXCEPTION
libcc1-0/copyright:
libcc1-0/copyright:Version 3.1, 31 March 2009
libcc1-0/copyright:
libcc1-0/copyright:Copyright (C) 2009 Free Software Foundation, Inc. <http://fsf.org/>
libcc1-0/copyright:
libcc1-0/copyright:Everyone is permitted to copy and distribute verbatim copies of this
libcc1-0/copyright:license document, but changing it is not allowed.
libcc1-0/copyright:
libcc1-0/copyright:This GCC Runtime Library Exception ("Exception") is an additional
libcc1-0/copyright:permission under section 7 of the GNU General Public License, version
libcc1-0/copyright:3 ("GPLv3"). It applies to a given file (the "Runtime Library") that
libcc1-0/copyright:bears a notice placed by the copyright holder of the file stating that
libcc1-0/copyright:the file is governed by GPLv3 along with this Exception.
libcc1-0/copyright:
libcc1-0/copyright:When you use GCC to compile a program, GCC may combine portions of
libcc1-0/copyright: certain GCC header files and runtime libraries with the compiled
libcc1-0/copyright: program. The purpose of this Exception is to allow compilation of
libcc1-0/copyright: non-GPL (including proprietary) programs to use, in this way, the
libcc1-0/copyright: header files and runtime libraries covered by this Exception.
libcc1-0/copyright:
libcc1-0/copyright: 0. Definitions.
libcc1-0/copyright:
libcc1-0/copyright: A file is an "Independent Module" if it either requires the Runtime
libcc1-0/copyright: Library for execution after a Compilation Process, or makes use of an
libcc1-0/copyright: interface provided by the Runtime Library, but is not otherwise based
libcc1-0/copyright: on the Runtime Library.
libcc1-0/copyright:
libcc1-0/copyright: "GCC" means a version of the GNU Compiler Collection, with or without
libcc1-0/copyright: modifications, governed by version 3 (or a specified later version) of
libcc1-0/copyright: the GNU General Public License (GPL) with the option of using any
libcc1-0/copyright: subsequent versions published by the FSF.
libcc1-0/copyright:
libcc1-0/copyright: "GPL-compatible Software" is software whose conditions of propagation,
libcc1-0/copyright: modification and use would permit combination with GCC in accord with
libcc1-0/copyright: the license of GCC.
libcc1-0/copyright:
libcc1-0/copyright: "Target Code" refers to output from any compiler for a real or virtual
libcc1-0/copyright: processor architecture, in executable form or suitable for
libcc1-0/copyright: input to an assembler, loader, linker and/or execution
libcc1-0/copyright: phase. Notwithstanding that, Target Code does not include data in any
libcc1-0/copyright: format that is used as a compiler intermediate representation, or used
libcc1-0/copyright: for producing a compiler intermediate representation.
libcc1-0/copyright:
libcc1-0/copyright: The "Compilation Process" transforms code entirely represented in
libcc1-0/copyright: non-intermediate languages designed for human-written code, and/or in
libcc1-0/copyright: Java Virtual Machine byte code, into Target Code. Thus, for example,
libcc1-0/copyright: use of source code generators and preprocessors need not be considered
libcc1-0/copyright: part of the Compilation Process, since the Compilation Process can be
libcc1-0/copyright: understood as starting with the output of the generators or
libcc1-0/copyright: preprocessors.
libcc1-0/copyright:
libcc1-0/copyright: A Compilation Process is "Eligible" if it is done using GCC, alone or
libcc1-0/copyright: with other GPL-compatible software, or if it is done without using any
libcc1-0/copyright: work based on GCC. For example, using non-GPL-compatible Software to
libcc1-0/copyright: optimize any GCC intermediate representations would not qualify as an
libcc1-0/copyright: Eligible Compilation Process.
libcc1-0/copyright:
From Ubuntu 16.04 LTS

libcc1-0/copyright: 1. Grant of Additional Permission.
libcc1-0/copyright:
libcc1-0/copyright: You have permission to propagate a work of Target Code formed by
libcc1-0/copyright: combining the Runtime Library with Independent Modules, even if such
libcc1-0/copyright: propagation would otherwise violate the terms of GPLv3, provided that
libcc1-0/copyright: all Target Code was generated by Eligible Compilation Processes. You
libcc1-0/copyright: may then convey such a combination under terms of your choice,
libcc1-0/copyright: consistent with the licensing of the Independent Modules.
libcc1-0/copyright:
libcc1-0/copyright: 2. No Weakening of GCC Copyleft.
libcc1-0/copyright:
libcc1-0/copyright: The availability of this Exception does not imply any general
libcc1-0/copyright: presumption that third-party software is unaffected by the copyleft
libcc1-0/copyright: requirements of the license of GCC.

2. The origin of this software must not be misrepresented, either by explicit claim or by omission. In practice, this means that if you use PCRE in software that you distribute to others, commercially or otherwise, you must put a sentence like this:

Regular expression support is provided by the PCRE library package, which is open source software, written by Philip Hazel, and copyright by the University of Cambridge, England.

somewhere reasonably visible in your documentation and in any relevant files or online help data or similar. A reference to the ftp site for the source, that is, to

ftp://ftp.csx.cam.ac.uk/pub/software/programming/pcre/

should also be given in the documentation. However, this condition is not intended to apply to whole chains of software. If package A includes PCRE, it must acknowledge it, but if package B is software that includes package A, the condition is not imposed on package B (unless it uses PCRE independently).

3. Altered versions must be plainly marked as such, and must not be misrepresented as being the original software.

4. If PCRE is embedded in any software that is released under the GNU General Purpose Licence (GPL), or Lesser General Purpose Licence (LGPL), then the terms of that licence shall supersede any condition above with which it is incompatible.

libcilkrts5/copyright: bears a notice placed by the copyright holder of the file stating that
libcilkrts5/copyright: the file is governed by GPLv3 along with this Exception.
libcilkrts5/copyright:
libcilkrts5/copyright: When you use GCC to compile a program, GCC may combine portions of
libcilkrts5/copyright: certain GCC header files and runtime libraries with the compiled
libcilkrts5/copyright: program. The purpose of this Exception is to allow compilation of

libcilkrts5/copyright:
libcilkrts5/copyright: 0. Definitions.
libcilkrts5/copyright:
libcilkrts5/copyright: A file is an "Independent Module" if it either requires the Runtime
libcilkrts5/copyright: Library for execution after a Compilation Process, or makes use of an
libcilkrts5/copyright: interface provided by the Runtime Library, but is not otherwise based
libcilkrts5/copyright: on the Runtime Library.
From Ubuntu 16.04 LTS

libcilkrts5/copyright:
"GCC" means a version of the GNU Compiler Collection, with or without
modifications, governed by version 3 (or a specified later version) of the GNU General Public License (GPL) with the option of using any subsequent versions published by the FSF.

libcilkrts5/copyright:
"GPL-compatible Software" is software whose conditions of propagation, modification and use would permit combination with GCC in accord with the license of GCC.

libcilkrts5/copyright:
"Target Code" refers to output from any compiler for a real or virtual target processor architecture, in executable form or suitable for input to an assembler, loader, linker and/or execution phase. Notwithstanding that, Target Code does not include data in any format that is used as a compiler intermediate representation, or used for producing a compiler intermediate representation.

libcilkrts5/copyright:
The "Compilation Process" transforms code entirely represented in non-intermediate languages designed for human-written code, and/or in Java Virtual Machine byte code, into Target Code. Thus, for example, use of source code generators and preprocessors need not be considered part of the Compilation Process, since the Compilation Process can be understood as starting with the output of the generators or preprocessors.

libcilkrts5/copyright:
A Compilation Process is "Eligible" if it is done using GCC, alone or with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.

libcilkrts5/copyright:
1. Grant of Additional Permission.

libcilkrts5/copyright:
You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice, consistent with the licensing of the Independent Modules.

libcilkrts5/copyright:
2. No Weakening of GCC Copyleft.

libcilkrts5/copyright:
The availability of this Exception does not imply any general presumption that third-party software is unaffected by the copyleft requirements of the license of GCC.

libdbus-1-3/copyright: The Academic Free License
libdbus-1-3/copyright: v. 2.1
libdbus-1-3/copyright: This Academic Free License (the "License") applies to any original
libdbus-1-3/copyright: work of authorship (the "Original Work") whose owner (the "Licensor")
libdbus-1-3/copyright: has placed the following notice immediately following the copyright
libdbus-1-3/copyright: notice for the Original Work:
libdbus-1-3/copyright: Licensed under the Academic Free License version 2.1
libdbus-1-3/copyright: 1) Grant of Copyright License. Licensor hereby grants You a
libdbus-1-3/copyright: world-wide, royalty-free, non-exclusive, perpetual, sublicenseable
libdbus-1-3/copyright: license to do the following:
libdbus-1-3/copyright: a) to reproduce the Original Work in copies;
libdbus-1-3/copyright: b) to prepare derivative works ("Derivative Works") based upon the
libdbus-1-3/copyright: Original Work;
libdbus-1-3/copyright: c) to distribute copies of the Original Work and Derivative Works to
libdbus-1-3/copyright: the public;
libdbus-1-3/copyright: From Ubuntu 16.04 LTS

libdbus-1-3/copyright: 1) Redistribution and use in source and binary forms, with or without
libdbus-1-3/copyright: modification, are permitted provided that the following conditions are
libdbus-1-3/copyright: met:

libdbus-1-3/copyright: a) Redistributions of source code must retain the above copyright
libdbus-1-3/copyright: notice, this list of conditions and the following disclaimer.
libdbus-1-3/copyright: b) Redistributions in binary form must reproduce the above copyright
libdbus-1-3/copyright: notice, this list of conditions and the following disclaimer in the
libdbus-1-3/copyright: documentation and/or other materials provided with the
libdbus-1-3/copyright: distribution.
libdbus-1-3/copyright: c) The names of the copyright holders must not be used to endorse or
libdbus-1-3/copyright: promote products derived from this software without specific prior written
libdbus-1-3/copyright: permission.

libdbus-1-3/copyright: 2) Grant of Patent License. Licensor hereby grants You a world-wide,
libdbus-1-3/copyright: royalty-free, non-exclusive, perpetual, sublicenseable license, under
libdbus-1-3/copyright: patent claims owned or controlled by the Licensor that are embodied in
libdbus-1-3/copyright: the Original Work as furnished by the Licensor, to make, use, sell and
libdbus-1-3/copyright: offer for sale the Original Work and Derivative Works.

libdbus-1-3/copyright: 3) Grant of Source Code License. The term "Source Code" means the
libdbus-1-3/copyright: preferred form of the Original Work for making modifications to it and
libdbus-1-3/copyright: all available documentation describing how to modify the Original
libdbus-1-3/copyright: Work. Licensor hereby agrees to provide a machine-readable copy of the
libdbus-1-3/copyright: Source Code of the Original Work along with each copy of the Original
libdbus-1-3/copyright: Work that Licensor distributes. Licensor reserves the right to satisfy
libdbus-1-3/copyright: this obligation by placing a machine-readable copy of the Source Code
libdbus-1-3/copyright: in an information repository reasonably calculated to permit
libdbus-1-3/copyright: inexpensive and convenient access by You for as long as Licensor
libdbus-1-3/copyright: continues to distribute the Original Work, and by publishing the
libdbus-1-3/copyright: address of that information repository in a notice immediately
libdbus-1-3/copyright: following the copyright notice that applies to the Original Work.

libdbus-1-3/copyright: 4) Exclusions From License Grant. Neither the names of Licensor, nor
libdbus-1-3/copyright: the names of any contributors to the Original Work, nor any of their
libdbus-1-3/copyright: trademarks or service marks, may be used to endorse or promote
libdbus-1-3/copyright: products derived from this Original Work without express prior written
libdbus-1-3/copyright: permission of the Licensor. Nothing in this License shall be deemed to
libdbus-1-3/copyright: grant any rights to trademarks, copyrights, patents, trade secrets or
libdbus-1-3/copyright: any other intellectual property of Licensor except as expressly stated
libdbus-1-3/copyright: herein. No patent license is granted to make, use, sell or offer to
libdbus-1-3/copyright: sell embodiments of any patent claims other than the licensed claims
libdbus-1-3/copyright: defined in Section 2. No right is granted to the trademarks of
libdbus-1-3/copyright: Licensor even if such marks are included in the Original Work. Nothing
libdbus-1-3/copyright: in this License shall be interpreted to prohibit Licensor from
libdbus-1-3/copyright: licensing under different terms from this License any Original Work
libdbus-1-3/copyright: that Licensor otherwise would have a right to license.

libdbus-1-3/copyright: 5) This section intentionally omitted.

libdbus-1-3/copyright: Derivative Works that You create, all copyright, patent or trademark

libdbus-1-3/copyright: "Attribution Notice." You must cause the Source Code for any
libdbus-1-3/copyright: Derivative Works that You create to carry a prominent Attribution
libdbus-1-3/copyright: Notice reasonably calculated to inform recipients that You have
libdbus-1-3/copyright: modified the Original Work.

libdbus-1-3/copyright: 7) Warranty of Provenance and Disclaimer of Warranty. Licensor
libdbus-1-3/copyright: warrants that the copyright in and to the Original Work and the patent
libdbus-1-3/copyright: rights granted herein by Licensor are owned by the Licensor or are
libdbus-1-3/copyright: sublicensed to You under the terms of this License with the permission
libdbus-1-3/copyright: of the contributor(s) of those copyrights and patent rights. Except as
libdbus-1-3/copyright: expressly stated in the immediately proceeding sentence, the Original
libdbus-1-3/copyright: Work is provided under this License on an "AS IS" BASIS and WITHOUT
libdbus-1-3/copyright: WARRANTY, either express or implied, including, without limitation,
libdbus-1-3/copyright: the warranties of NON-INFRINGEMENT, MERCHANTABILITY or FITNESS FOR A
libdbus-1-3/copyright: PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY OF THE ORIGINAL
libdbus-1-3/copyright: WORK IS WITH YOU. This DISCLAIMER OF WARRANTY constitutes an essential
libdbus-1-3/copyright: part of this License. No license to Original Work is granted hereunder
libdbus-1-3/copyright: except under this disclaimer.

libdbus-1-3/copyright: 8) Limitation of Liability. Under no circumstances and under no legal
libdbus-1-3/copyright: theory, whether in tort (including negligence), contract, or
libdbus-1-3/copyright: otherwise, shall the Licensor be liable to any person for any direct,
libdbus-1-3/copyright: indirect, special, incidental, or consequential damages of any
libdbus-1-3/copyright: character arising as a result of this License or the use of the
libdbus-1-3/copyright: Original Work including, without limitation, damages for loss of
libdbus-1-3/copyright: goodwill, work stoppage, computer failure or malfunction, or any and
libdbus-1-3/copyright: all other commercial damages or losses. This limitation of liability
libdbus-1-3/copyright: shall not apply to liability for death or personal injury resulting
libdbus-1-3/copyright: from Licensor's negligence to the extent applicable law prohibits such
libdbus-1-3/copyright: limitation. Some jurisdictions do not allow the exclusion or
libdbus-1-3/copyright: limitation of incidental or consequential damages, so this exclusion
libdbus-1-3/copyright: and limitation may not apply to You.

libdbus-1-3/copyright: 9) Acceptance and Termination. If You distribute copies of the
libdbus-1-3/copyright: Original Work or a Derivative Work, You must make a reasonable effort
libdbus-1-3/copyright: under the circumstances to obtain the express assent of recipients to
libdbus-1-3/copyright: the terms of this License. Nothing else but this License (or another
libdbus-1-3/copyright: written agreement between Licensor and You) grants You permission to
libdbus-1-3/copyright: create Derivative Works based upon the Original Work or to exercise
libdbus-1-3/copyright: any of the rights granted in Section 1 herein, and any attempt to do
libdbus-1-3/copyright: so except under the terms of this License (or another written
libdbus-1-3/copyright: agreement between Licensor and You) is expressly prohibited by
libdbus-1-3/copyright: U.S. copyright law, the equivalent laws of other countries, and by
libdbus-1-3/copyright: international treaty. Therefore, by exercising any of the rights
libdbus-1-3/copyright: granted to You in Section 1 herein, You indicate Your acceptance of
libdbus-1-3/copyright: this License and all of its terms and conditions.

libdbus-1-3/copyright: 10) Termination for Patent Action. This License shall terminate
libdbus-1-3/copyright: automatically and You may no longer exercise any of the rights granted
libdbus-1-3/copyright: to You by this License as of the date You commence an action,
libdbus-1-3/copyright: including a cross-claim or counterclaim, against Licensor or any
libdbus-1-3/copyright: licensee alleging that the Original Work infringes a patent. This
libdbus-1-3/copyright: termination provision shall not apply for an action alleging patent
libdbus-1-3/copyright: infringement by combinations of the Original Work with other software
libdbus-1-3/copyright: or hardware.

libdbus-1-3/copyright: 11) Jurisdiction, Venue and Governing Law. Any action or suit relating
libdbus-1-3/copyright: to this License may be brought only in the courts of a jurisdiction
libdbus-1-3/copyright: wherein the Licensor resides or in which Licensor conducts its primary
libdbus-1-3/copyright: business, and under the laws of that jurisdiction excluding its
libdbus-1-3/copyright: Convention on Contracts for the International Sale of Goods is
libdbus-1-3/copyright: expressly excluded. Any use of the Original Work outside the scope of
libdbus-1-3/copyright: this License or after its termination shall be subject to the
libdbus-1-3/copyright: requirements and penalties of the U.S. Copyright Act, 17 U.S.C. Â§ 101
libdbus-1-3/copyright: et seq., the equivalent laws of other countries, and international
libdbus-1-3/copyright: treaty. This section shall survive the termination of this License.

libdbus-1-3/copyright: 12) Attorneys Fees. In any action to enforce the terms of this License
libdbus-1-3/copyright: or seeking damages relating thereto, the prevailing party shall be
libdbus-1-3/copyright: entitled to recover its costs and expenses, including, without
libdbus-1-3/copyright: limitation, reasonable attorneys' fees and costs incurred in
libdbus-1-3/copyright: connection with such action, including any appeal of such action. This
libdbus-1-3/copyright: section shall survive the termination of this License.

libdbus-1-3/copyright: 13) Miscellaneous. This License represents the complete agreement
libdbus-1-3/copyright: concerning the subject matter hereof. If any provision of this License
libdbus-1-3/copyright: is held to be unenforceable, such provision shall be reformed only to
libdbus-1-3/copyright: the extent necessary to make it enforceable.

libdbus-1-3/copyright: 14) Definition of "You" in This License. "You" throughout this
libdbus-1-3/copyright: License, whether in upper or lower case, means an individual or a
libdbus-1-3/copyright: legal entity exercising rights under, and complying with all of the
libdbus-1-3/copyright: terms of, this License. For legal entities, "You" includes any entity
libdbus-1-3/copyright: that controls, is controlled by, or is under common control with
libdbus-1-3/copyright: you. For purposes of this definition, "control" means (i) the power,
libdbus-1-3/copyright: direct or indirect, to cause the direction or management of such
libdbus-1-3/copyright: entity, whether by contract or otherwise, or (ii) ownership of fifty
libdbus-1-3/copyright: percent (50%) or more of the outstanding shares, or (iii) beneficial
libdbus-1-3/copyright: ownership of such entity.
libdbus-1-3/copyright: From Ubuntu 16.04 LTS

libdbus-1-3/copyright: 15) Right to Use. You may use the Original Work in all ways not
libdbus-1-3/copyright: otherwise restricted or conditioned by this License or by law, and
libdbus-1-3/copyright: Licensor promises not to interfere with or be responsible for such
libdbus-1-3/copyright: uses by You.

libdbus-glib-1-2/copyright: The Academic Free License
libdbus-glib-1-2/copyright: v. 2.1
libdbus-glib-1-2/copyright: .
libdbus-glib-1-2/copyright: This Academic Free License (the "License") applies to any original
libdbus-glib-1-2/copyright: work of authorship (the "Original Work") whose owner (the "Licensor")
libdbus-glib-1-2/copyright: has placed the following notice immediately following the copyright
libdbus-glib-1-2/copyright: notice for the Original Work:
libdbus-glib-1-2/copyright: .
libdbus-glib-1-2/copyright: Licensed under the Academic Free License version 2.1
libdbus-glib-1-2/copyright: .
libdbus-glib-1-2/copyright: 1) Grant of Copyright License. Licensor hereby grants You a
libdbus-glib-1-2/copyright: world-wide, royalty-free, non-exclusive, perpetual, sublicenseable
libdbus-glib-1-2/copyright: license to do the following:
libdbus-glib-1-2/copyright: .
libdbus-glib-1-2/copyright: a) to reproduce the Original Work in copies;
libdbus-glib-1-2/copyright: .
libdbus-glib-1-2/copyright: b) to prepare derivative works ("Derivative Works") based upon the
libdbus-glib-1-2/copyright: Original Work;
libdbus-glib-1-2/copyright: .
libdbus-glib-1-2/copyright: c) to distribute copies of the Original Work and Derivative Works to
libdbus-glib-1-2/copyright: the public;
libdbus-glib-1-2/copyright: .
libdbus-glib-1-2/copyright: d) to perform the Original Work publicly; and
libdbus-glib-1-2/copyright: .
libdbus-glib-1-2/copyright: e) to display the Original Work publicly.
libdbus-glib-1-2/copyright: .
libdbus-glib-1-2/copyright: 2) Grant of Patent License. Licensor hereby grants You a world-wide,
libdbus-glib-1-2/copyright: royalty-free, non-exclusive, perpetual, sublicenseable license, under
libdbus-glib-1-2/copyright: patent claims owned or controlled by the Licensor that are embodied in
libdbus-glib-1-2/copyright: the Original Work as furnished by the Licensor, to make, use, sell and
libdbus-glib-1-2/copyright: offer for sale the Original Work and Derivative Works.
libdbus-glib-1-2/copyright: .
libdbus-glib-1-2/copyright: 3) Grant of Source Code License. The term "Source Code" means the
libdbus-glib-1-2/copyright: preferred form of the Original Work for making modifications to it and
libdbus-glib-1-2/copyright: all available documentation describing how to modify the Original
libdbus-glib-1-2/copyright: Work. Licensor hereby agrees to provide a machine-readable copy of the
libdbus-glib-1-2/copyright: Source Code of the Original Work along with each copy of the Original
libdbus-glib-1-2/copyright: Work that Licensor distributes. Licensor reserves the right to satisfy
libdbus-glib-1-2/copyright: this obligation by placing a machine-readable copy of the Source Code
libdbus-glib-1-2/copyright: in an information repository reasonably calculated to permit
libdbus-glib-1-2/copyright: inexpensive and convenient access by You for as long as Licensor
libdbus-glib-1-2/copyright: continues to distribute the Original Work, and by publishing the
libdbus-glib-1-2/copyright: address of that information repository in a notice immediately
libdbus-glib-1-2/copyright: from Ubuntu 16.04 LTS

libdbus-glib-1-2/copyright: following the copyright notice that applies to the Original Work.
libdbus-glib-1-2/copyright: .

libdbus-glib-1-2/copyright: 4) Exclusions From License Grant. Neither the names of Licensor, nor
libdbus-glib-1-2/copyright: the names of any contributors to the Original Work, nor any of their
libdbus-glib-1-2/copyright: trademarks or service marks, may be used to endorse or promote
libdbus-glib-1-2/copyright: products derived from this Original Work without express prior written
libdbus-glib-1-2/copyright: permission of the Licensor. Nothing in this License shall be deemed to
libdbus-glib-1-2/copyright: grant any rights to trademarks, copyrights, patents, trade secrets or
libdbus-glib-1-2/copyright: any other intellectual property of Licensor except as expressly stated
libdbus-glib-1-2/copyright: herein. No patent license is granted to make, use, sell or offer to
libdbus-glib-1-2/copyright: sell embodiments of any patent claims other than the licensed claims
libdbus-glib-1-2/copyright: defined in Section 2. No right is granted to the trademarks of
libdbus-glib-1-2/copyright: Licensor even if such marks are included in the Original Work. Nothing
libdbus-glib-1-2/copyright: in this License shall be interpreted to prohibit Licensor from
libdbus-glib-1-2/copyright: licensing under different terms from this License any Original Work
libdbus-glib-1-2/copyright: that Licensor otherwise would have a right to license.
libdbus-glib-1-2/copyright: .
libdbus-glib-1-2/copyright: 5) This section intentionally omitted.
libdbus-glib-1-2/copyright: .

libdbus-glib-1-2/copyright: Derivative Works that You create, all copyright, patent or trademark
libdbus-glib-1-2/copyright: notices from the Source Code of the Original Work, as well as any
libdbus-glib-1-2/copyright: notices of licensing and any descriptive text identified therein as an
libdbus-glib-1-2/copyright: "Attribution Notice." You must cause the Source Code for any
libdbus-glib-1-2/copyright: Derivative Works that You create to carry a prominent Attribution
libdbus-glib-1-2/copyright: Notice reasonably calculated to inform recipients that You have
libdbus-glib-1-2/copyright: modified the Original Work.
libdbus-glib-1-2/copyright: .

libdbus-glib-1-2/copyright: 7) Warranty of Provenance and Disclaimer of Warranty. Licensor
libdbus-glib-1-2/copyright: warrants that the copyright in and to the Original Work and the patent
libdbus-glib-1-2/copyright: rights granted herein by Licensor are owned by the Licensor or are
libdbus-glib-1-2/copyright: sublicensed to You under the terms of this License with the permission
libdbus-glib-1-2/copyright: of the contributor(s) of those copyrights and patent rights. Except as
libdbus-glib-1-2/copyright: expressly stated in the immediately proceeding sentence, the Original
libdbus-glib-1-2/copyright: Work is provided under this License on an "AS IS" BASIS and WITHOUT
libdbus-glib-1-2/copyright: WARRANTY, either express or implied, including, without limitation,
libdbus-glib-1-2/copyright: the warranties of NON-INFRINGEMENT, MERCHANTABILITY or FITNESS FOR A
libdbus-glib-1-2/copyright: PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY OF THE ORIGINAL
libdbus-glib-1-2/copyright: WORK IS WITH YOU. This DISCLAIMER OF WARRANTY constitutes an essential
libdbus-glib-1-2/copyright: part of this License. No license to Original Work is granted hereunder
libdbus-glib-1-2/copyright: except under this disclaimer.
libdbus-glib-1-2/copyright: .

libdbus-glib-1-2/copyright: 8) Limitation of Liability. Under no circumstances and under no legal
libdbus-glib-1-2/copyright: theory, whether in tort (including negligence), contract, or
libdbus-glib-1-2/copyright: otherwise, shall the Licensor be liable to any person for any direct,
From Ubuntu 16.04 LTS

libdbus-glib-1-2/copyright: indirect, special, incidental, or consequential damages of any
libdbus-glib-1-2/copyright: character arising as a result of this License or the use of the
libdbus-glib-1-2/copyright: Original Work including, without limitation, damages for loss of
libdbus-glib-1-2/copyright: goodwill, work stoppage, computer failure or malfunction, or any and
libdbus-glib-1-2/copyright: all other commercial damages or losses. This limitation of liability
libdbus-glib-1-2/copyright: shall not apply to liability for death or personal injury resulting
libdbus-glib-1-2/copyright: from Licensor's negligence to the extent applicable law prohibits such
libdbus-glib-1-2/copyright: limitation. Some jurisdictions do not allow the exclusion or
libdbus-glib-1-2/copyright: limitation of incidental or consequential damages, so this exclusion
libdbus-glib-1-2/copyright: and limitation may not apply to You.
libdbus-glib-1-2/copyright: .
libdbus-glib-1-2/copyright: 9) Acceptance and Termination. If You distribute copies of the
libdbus-glib-1-2/copyright: Original Work or a Derivative Work, You must make a reasonable effort
libdbus-glib-1-2/copyright: under the circumstances to obtain the express assent of recipients to
libdbus-glib-1-2/copyright: the terms of this License. Nothing else but this License (or another
libdbus-glib-1-2/copyright: written agreement between Licensor and You) grants You permission to
libdbus-glib-1-2/copyright: create Derivative Works based upon the Original Work or to exercise
libdbus-glib-1-2/copyright: any of the rights granted in Section 1 herein, and any attempt to do
libdbus-glib-1-2/copyright: so except under the terms of this License (or another written
libdbus-glib-1-2/copyright: agreement between Licensor and You) is expressly prohibited by
libdbus-glib-1-2/copyright: U.S. copyright law, the equivalent laws of other countries, and by
libdbus-glib-1-2/copyright: international treaty. Therefore, by exercising any of the rights
libdbus-glib-1-2/copyright: granted to You in Section 1 herein, You indicate Your acceptance of
libdbus-glib-1-2/copyright: this License and all of its terms and conditions.
libdbus-glib-1-2/copyright: .
libdbus-glib-1-2/copyright: 10) Termination for Patent Action. This License shall terminate
libdbus-glib-1-2/copyright: automatically and You may no longer exercise any of the rights granted
libdbus-glib-1-2/copyright: to You by this License as of the date You commence an action,
libdbus-glib-1-2/copyright: including a cross-claim or counterclaim, against Licensor or any
libdbus-glib-1-2/copyright: licensee alleging that the Original Work infringes a patent. This
libdbus-glib-1-2/copyright: termination provision shall not apply for an action alleging patent
libdbus-glib-1-2/copyright: infringement by combinations of the Original Work with other software
libdbus-glib-1-2/copyright: or hardware.
libdbus-glib-1-2/copyright: .
libdbus-glib-1-2/copyright: 11) Jurisdiction, Venue and Governing Law. Any action or suit relating
libdbus-glib-1-2/copyright: to this License may be brought only in the courts of a jurisdiction
libdbus-glib-1-2/copyright: wherein the Licensor resides or in which Licensor conducts its primary
libdbus-glib-1-2/copyright: business, and under the laws of that jurisdiction excluding its
libdbus-glib-1-2/copyright: Convention on Contracts for the International Sale of Goods is
libdbus-glib-1-2/copyright: expressly excluded. Any use of the Original Work outside the scope of
libdbus-glib-1-2/copyright: this License or after its termination shall be subject to the
libdbus-glib-1-2/copyright: requirements and penalties of the U.S. Copyright Act, 17 U.S.C. Â§ 101
libdbus-glib-1-2/copyright: et seq., the equivalent laws of other countries, and international
libdbus-glib-1-2/copyright: treaty. This section shall survive the termination of this License.
12) Attorneys Fees. In any action to enforce the terms of this License or seeking damages relating thereto, the prevailing party shall be entitled to recover its costs and expenses, including, without limitation, reasonable attorneys' fees and costs incurred in connection with such action, including any appeal of such action. This section shall survive the termination of this License.

13) Miscellaneous. This License represents the complete agreement concerning the subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable.

14) Definition of "You" in This License. "You" throughout this License, whether in upper or lower case, means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License. For legal entities, "You" includes any entity that controls, is controlled by, or is under common control with you. For purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

15) Right to Use. You may use the Original Work in all ways not otherwise restricted or conditioned by this License or by law, and Licensor promises not to interfere with or be responsible for such uses by You.

The FreeType Project is distributed in several archive packages; some of them may contain, in addition to the FreeType font engine, various tools and contributions which rely on, or relate to, the FreeType Project.

This license applies to all files found in such packages, and which do not fall under their own explicit license. The license affects thus the FreeType font engine, the test programs, documentation and makefiles, at the very least.

This license was inspired by the BSD, Artistic, and IJG (Independent JPEG Group) licenses, which all encourage inclusion and use of free software in commercial and freeware products alike. As a consequence, its main points are that:

- We don't promise that this software works. However, we will be interested in any kind of bug reports. (`as is' distribution)
- You can use this software for whatever you want, in parts or full form, without having to pay us. (`royalty-free' usage)
- You may not pretend that you wrote this software. If you use it, or only parts of it, in a program, you must acknowledge somewhere in your documentation that you have used the FreeType code. (`credits')

We specifically permit and encourage the inclusion of this software, with or without modifications, in commercial products. We disclaim all warranties covering The FreeType Project and assume no liability related to The FreeType Project.

Throughout this license, the terms 'package', 'FreeType Project', and 'FreeType archive' refer to the set of files originally distributed by the authors (David Turner, Robert Wilhelm, and

libfreetype6/copyright: 'You' refers to the licensee, or person using the project, where

libfreetype6/copyright: --------------
libfreetype6/copyright: .
libfreetype6/copyright: Throughout this license, the terms `Catharon Package', `package',
libfreetype6/copyright: and `Catharon Code' refer to the set of files originally
libfreetype6/copyright: distributed by Catharon Productions, Inc.
libfreetype6/copyright: .
libfreetype6/copyright: 'You' refers to the licensee, or person using the project, where
libfreetype6/copyright: 'using' is a generic term including compiling the project's source
libfreetype6/copyright: code as well as linking it to form a `program' or `executable'.
libfreetype6/copyright: This program is referred to as `a program using one of the
libfreetype6/copyright: Catharon Packages'.
libfreetype6/copyright: .
libfreetype6/copyright: This license applies to all files distributed in the original
libfreetype6/copyright: Catharon Package(s), including all source code, binaries and
libfreetype6/copyright: documentation, unless otherwise stated in the file in its
libfreetype6/copyright: original, unmodified form as distributed in the original archive.
libfreetype6/copyright: If you are unsure whether or not a particular file is covered by
libfreetype6/copyright: this license, you must contact us to verify this.

libgc1/copyright:Some code modified for Debian GNU/Linux by Ryan Murray <rmurray@debian.org>
libgc1/copyright:This is the Debian GNU/Linux prepackaged version of the GNU compiler
libgc1/copyright:collection, containing Ada, C, C++, Fortran 95, Java, Objective-C,
libgc1/copyright:Objective-C++, and Treelang compilers, documentation, and support
libgc1/copyright:libraries. In addition, Debian provides the gdc compiler, either in
libgc1/copyright:the same source package, or built from a separate same source package.
libgc1/copyright:Packaging is done by the Debian GCC Maintainers
libgc1/copyright:<debian-gcc@lists.debian.org>, with sources obtained from:
libgc1/copyright:
libgc1/copyright:ftp://gcc.gnu.org/pub/gcc/releases/ (for full releases)
libgc1/copyright:svn://gcc.gnu.org/svn/gcc/ (for prereleases)

libgc1/copyright:
libgc1/copyright:Debian splits the GNU Compiler Collection into packages for each language,
libgc1/copyright:library, and documentation as follows:
libgc1/copyright:
libgc1/copyright:Language  Compiler package  Library package    Documentation
libgc1/copyright:---------------------------------------------------------------------------
libgc1/copyright:Ada            gnat-6          libgnat-6        gnat-6-doc
libgc1/copyright:C              gcc-6                              gcc-6-doc

libgc1/copyright:Java           gcj-6            libgcj10          libgcj-doc
libgc1/copyright:Objective C    gobjc-6         libobjc2
libgc1/copyright:Objective C++  gobjc++-6
libgc1/copyright:
libgc1/copyright:For some language run-time libraries, Debian provides source files,
libgc1/copyright:development files, debugging symbols and libraries containing position-
libgc1/copyright:independent code in separate packages:
libgc1/copyright:
libgc1/copyright:Language  Sources      Development   Debugging            Position-Independent

libgc1/copyright:D         libphobos-6-dev
libgc1/copyright:Java      libgcj10-src libgcj10-dev  libgcj10-dbg
libgc1/copyright:
libgc1/copyright:Additional packages include:
libgc1/copyright:
From Ubuntu 16.04 LTS

libgcc1/copyright: All languages:
- libgcc1, libgcc2, libgcc4: GCC intrinsics (platform-dependent)
- gcc-6-base: Base files common to all compilers
- gcc-6-soft-float: Software floating point (ARM only)
- gcc-6-source: The sources with patches
- Ada:
  - libgnatvsn-dev, libgnatvsn6: GNAT version library
  - libgnatprj-dev, libgnatprj6: GNAT Project Manager library
- C:
  - cpp-6, cpp-6-doc: GNU C Preprocessor
  - libssp0-dev, libssp0: GCC stack smashing protection library
  - libquadmath0: Math routines for the __float128 type
  - fixincludes: Fix non-ANSI header files
- Java:
  - gij: The Java bytecode interpreter and VM
  - libgcj-common: Common files for the Java run-time
  - libgcj10-awt: The Abstract Windowing Toolkit
  - libgcj10-jar: Java ARchive for the Java run-time
- C, C++ and Fortran 95:
  - libgomp1-dev, libgomp1
  - libitm1-dev, libitm1
- Biarch support: On some 64-bit platforms which can also run 32-bit code,
  Debian provides additional packages containing 32-bit versions of some
  libraries. These packages have names beginning with 'lib32' instead of
  'lib', for example lib32stdc++6. Similarly, on some 32-bit platforms which
  can also run 64-bit code, Debian provides additional packages with names
  beginning with 'lib64' instead of 'lib'. These packages contain 64-bit
  versions of the libraries. (At this time, not all platforms and not all
  libraries support biarch.) The license terms for these lib32 or lib64
  packages are identical to the ones for the lib packages.

libgcc1/copyright:GCC RUNTIME LIBRARY EXCEPTION
libgcc1/copyright:
libgcc1/copyright:Version 3.1, 31 March 2009
libgcc1/copyright:
libgcc1/copyright:Copyright (C) 2009 Free Software Foundation, Inc. <http://fsf.org/>
libgcc1/copyright:
libgcc1/copyright:Everyone is permitted to copy and distribute verbatim copies of this
libgcc1/copyright:license document, but changing it is not allowed.
libgcc1/copyright:
libgcc1/copyright:This GCC Runtime Library Exception ("Exception") is an additional
libgcc1/copyright:permission under section 7 of the GNU General Public License, version
libgcc1/copyright:3 ("GPLv3"). It applies to a given file (the "Runtime Library") that
libgcc1/copyright:bears a notice placed by the copyright holder of the file stating that
libgcc1/copyright:the file is governed by GPLv3 along with this Exception.
libgcc1/copyright:
libgcc1/copyright:When you use GCC to compile a program, GCC may combine portions of
libgcc1/copyright:certain GCC header files and runtime libraries with the compiled
libgcc1/copyright:program. The purpose of this Exception is to allow compilation of
libgcc1/copyright:non-GPL (including proprietary) programs to use, in this way, the
libgcc1/copyright:header files and runtime libraries covered by this Exception.
libgcc1/copyright:
libgcc1/copyright:0. Definitions.
libgcc1/copyright:
libgcc1/copyright:A file is an "Independent Module" if it either requires the Runtime
libgcc1/copyright:Library for execution after a Compilation Process, or makes use of an
libgcc1/copyright:interface provided by the Runtime Library, but is not otherwise based
libgcc1/copyright:on the Runtime Library.
libgcc1/copyright:
libgcc1/copyright:"GCC" means a version of the GNU Compiler Collection, with or without
libgcc1/copyright:modifications, governed by version 3 (or a specified later version) of
libgcc1/copyright:the GNU General Public License (GPL) with the option of using any
libgcc1/copyright:subsequent versions published by the FSF.
libgcc1/copyright:
libgcc1/copyright:"GPL-compatible Software" is software whose conditions of propagation,
libgcc1/copyright:modification and use would permit combination with GCC in accord with
libgcc1/copyright:the license of GCC.
libgcc1/copyright:
libgcc1/copyright:"Target Code" refers to output from any compiler for a real or virtual
libgcc1/copyright:target processor architecture, in executable form or suitable for
libgcc1/copyright:input to an assembler, loader, linker and/or execution
libgcc1/copyright:phase. Notwithstanding that, Target Code does not include data in any
libgcc1/copyright:format that is used as a compiler intermediate representation, or used
libgcc1/copyright:for producing a compiler intermediate representation.
libgcc1/copyright:
From Ubuntu 16.04 LTS

The "Compilation Process" transforms code entirely represented in non-intermediate languages designed for human-written code, and/or in Java Virtual Machine byte code, into Target Code. Thus, for example, use of source code generators and preprocessors need not be considered part of the Compilation Process, since the Compilation Process can be understood as starting with the output of the generators or preprocessors.

A Compilation Process is "Eligible" if it is done using GCC, alone or with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.

1. Grant of Additional Permission.

You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice, consistent with the licensing of the Independent Modules.

2. No Weakening of GCC Copyleft.

The availability of this Exception does not imply any general presumption that third-party software is unaffected by the copyleft requirements of the license of GCC.

These packages have names beginning with 'lib32' instead of 'lib', for example lib32stdc++6. Similarly, on some 32-bit platforms which can also run 64-bit code, Debian provides additional packages with names beginning with 'lib64' instead of 'lib'. These packages contain 64-bit versions of the libraries. (At this time, not all platforms and not all libraries support biarch.) The license terms for these lib32 or lib64 packages are identical to the ones for the lib packages.

libgcc-5-dev/copyright: GCC RUNTIME LIBRARY EXCEPTION

libgcc-5-dev/copyright: Version 3.1, 31 March 2009

libgcc-5-dev/copyright: Copyright (C) 2009 Free Software Foundation, Inc. <http://fsf.org/>

libgcc-5-dev/copyright: Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

libgcc-5-dev/copyright: This GCC Runtime Library Exception ("Exception") is an additional permission under section 7 of the GNU General Public License, version 3 ("GPLv3"). It applies to a given file (the "Runtime Library") that bears a notice placed by the copyright holder of the file stating that the file is governed by GPLv3 along with this Exception.

libgcc-5-dev/copyright: When you use GCC to compile a program, GCC may combine portions of certain GCC header files and runtime libraries with the compiled program. The purpose of this Exception is to allow compilation of non-GPL (including proprietary) programs to use, in this way, the header files and runtime libraries covered by this Exception.

libgcc-5-dev/copyright: 0. Definitions.

libgcc-5-dev/copyright: A file is an "Independent Module" if it either requires the Runtime Library for execution after a Compilation Process, or makes use of an interface provided by the Runtime Library, but is not otherwise based on the Runtime Library.
From Ubuntu 16.04 LTS

libgcc-5-dev/copyright:
"GCC" means a version of the GNU Compiler Collection, with or without modifications, governed by version 3 (or a specified later version) of the GNU General Public License (GPL) with the option of using any subsequent versions published by the FSF.

libgcc-5-dev/copyright:
"GPL-compatible Software" is software whose conditions of propagation, modification and use would permit combination with GCC in accord with the license of GCC.

libgcc-5-dev/copyright:
"Target Code" refers to output from any compiler for a real or virtual target processor architecture, in executable form or suitable for input to an assembler, loader, linker and/or execution phase. Notwithstanding that, Target Code does not include data in any format that is used as a compiler intermediate representation, or used for producing a compiler intermediate representation.

libgcc-5-dev/copyright:
The "Compilation Process" transforms code entirely represented in non-intermediate languages designed for human-written code, and/or in Java Virtual Machine byte code, into Target Code. Thus, for example, use of source code generators and preprocessors need not be considered part of the Compilation Process, since the Compilation Process can be understood as starting with the output of the generators or preprocessors.

libgcc-5-dev/copyright:
A Compilation Process is "Eligible" if it is done using GCC, alone or with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.

libgcc-5-dev/copyright:
1. Grant of Additional Permission.
libgcc-5-dev/copyright:
You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice, consistent with the licensing of the Independent Modules.

libgcc-5-dev/copyright:
2. No Weakening of GCC Copyleft.
libgcc-5-dev/copyright:
The availability of this Exception does not imply any general presumption that third-party software is unaffected by the copyleft requirements of the license of GCC.
