libsvn1/copyright: merchantability or fitness for a particular purpose. THE ENTIRE
libsvn1/copyright: RISK AS TO THE QUALITY OF THE ORIGINAL WORK IS WITH YOU. This
libsvn1/copyright: DISCLAIMER OF WARRANTY constitutes an essential part of this
libsvn1/copyright: License. No license to the Original Work is granted by this
libsvn1/copyright: License except under this disclaimer.

libsvn1/copyright: 8) Limitation of Liability. Under no circumstances and under no legal
libsvn1/copyright: theory, whether in tort (including negligence), contract, or
libsvn1/copyright: otherwise, shall the Licensor be liable to anyone for any
libsvn1/copyright: indirect, special, incidental, or consequential damages of any
libsvn1/copyright: character arising as a result of this License or the use of the
libsvn1/copyright: Original Work including, without limitation, damages for loss of
libsvn1/copyright: goodwill, work stoppage, computer failure or malfunction, or any
libsvn1/copyright: and all other commercial damages or losses. This limitation of
libsvn1/copyright: liability shall not apply to the extent applicable law prohibits
libsvn1/copyright: such limitation.

libsvn1/copyright: 9) Acceptance and Termination. If, at any time, You expressly
libsvn1/copyright: assented to this License, that assent indicates your clear and
libsvn1/copyright: irrevocable acceptance of this License and all of its terms and
libsvn1/copyright: conditions. If You distribute or communicate copies of the
libsvn1/copyright: Original Work or a Derivative Work, You must make a reasonable
libsvn1/copyright: effort under the circumstances to obtain the express assent of
libsvn1/copyright: recipients to the terms of this License. This License conditions
libsvn1/copyright: your rights to undertake the activities listed in Section 1,
libsvn1/copyright: including your right to create Derivative Works based upon the
libsvn1/copyright: Original Work, and doing so without honoring these terms and
libsvn1/copyright: conditions is prohibited by copyright law and international
libsvn1/copyright: treaty. Nothing in this License is intended to affect copyright
libsvn1/copyright: exceptions and limitations (including "fair use" or "fair
This License shall terminate immediately and You may no longer exercise any of the rights granted to You by this License upon your failure to honor the conditions in Section 1(c).

10) Termination for Patent Action. This License shall terminate automatically and You may no longer exercise any of the rights granted to You by this License as of the date You commence an action, including a cross-claim or counterclaim, against Licensor or any licensee alleging that the Original Work infringes a patent. This termination provision shall not apply for an action alleging patent infringement by combinations of the Original Work with other software or hardware.

11) Jurisdiction, Venue and Governing Law. Any action or suit relating to this License may be brought only in the courts of a jurisdiction wherein the Licensor resides or in which Licensor conducts its primary business, and under the laws of that jurisdiction excluding its conflict-of-law provisions. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any use of the Original Work outside the scope of this License or after its termination shall be subject to the requirements and penalties of copyright or patent law in the appropriate jurisdiction. This section shall survive the termination of this License.

12) Attorneys' Fees. In any action to enforce the terms of this License or seeking damages relating thereto, the prevailing party shall be entitled to recover its costs and expenses, including, without limitation, reasonable attorneys' fees and costs incurred in connection with such action, including any appeal of such action. This section shall survive the termination of this License.

13) Miscellaneous. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable.

14) Definition of "You" in This License. "You" throughout this License, whether in upper or lower case, means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License. For legal entities, "You" includes any entity that controls, is controlled by, or is under common control with you. For purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership...

libsvn1/copyright:  beneficial ownership of such entity.
libsvn1/copyright:
libsvn1/copyright:  15) Right to Use. You may use the Original Work in all ways not
libsvn1/copyright:  otherwise restricted or conditioned by this License or by law, and
libsvn1/copyright:  Licensor promises not to interfere with or be responsible for such
libsvn1/copyright:  uses by You.
libsvn1/copyright:
libsvn1/copyright:  16) Modification of This License. This License is Copyright © 2005
libsvn1/copyright:  Lawrence Rosen. Permission is granted to copy, distribute, or
libsvn1/copyright:  communicate this License without modification. Nothing in this
libsvn1/copyright:  License permits You to modify this License as applied to the
libsvn1/copyright:  Original Work or to Derivative Works. However, You may modify the
libsvn1/copyright:  text of this License and copy, distribute or communicate your
libsvn1/copyright:  modified version (the "Modified License") and apply it to other
libsvn1/copyright:  original works of authorship subject to the following conditions:
libsvn1/copyright:  (i) You may not indicate in any way that your Modified License is
libsvn1/copyright:  the "Academic Free License" or "AFL" and you may not use those
libsvn1/copyright:  names in the name of your Modified License; (ii) You must replace
libsvn1/copyright:  the notice specified in the first paragraph above with the notice
libsvn1/copyright:  "Licensed under <insert your license name here>" or with a notice
libsvn1/copyright:  of your own that is not confusingly similar to the notice in this
libsvn1/copyright:  License; and (iii) You may not claim that your original works are
libsvn1/copyright:  open source software unless your Modified License has been
libsvn1/copyright:  approved by Open Source Initiative (OSI) and You comply with its
libsvn1/copyright:  license review and certification process.

libtpm-unseal1/copyright: such derivative works, in source code and object code form.
libtpm-unseal1/copyright: :
libtpm-unseal1/copyright: b) Subject to the terms of this Agreement, each Contributor hereby grants
libtpm-unseal1/copyright: Recipient a non-exclusive, worldwide, royalty-free patent license under
libtpm-unseal1/copyright: Licensed Patents to make, use, sell, offer to sell, import and otherwise
libtpm-unseal1/copyright: transfer the Contribution of such Contributor, if any, in source code and
libtpm-unseal1/copyright: object code form. This patent license shall apply to the combination of the
libtpm-unseal1/copyright: Contribution and the Program if, at the time the Contribution is added by the
libtpm-unseal1/copyright: Contributor, such addition of the Contribution causes such combination to be
libtpm-unseal1/copyright: covered by the Licensed Patents. The patent license shall not apply to any
libtpm-unseal1/copyright: other combinations which include the Contribution. No hardware per se is
libtpm-unseal1/copyright: licensed hereunder.
libtpm-unseal1/copyright: :
libtpm-unseal1/copyright: c) Recipient understands that although each Contributor grants the licenses to
libtpm-unseal1/copyright: its Contributions set forth herein, no assurances are provided by any
libtpm-unseal1/copyright: Contributor that the Program does not infringe the patent or other intellectual
libtpm-unseal1/copyright: property rights of any other entity. Each Contributor disclaims any liability
libtpm-unseal1/copyright: to Recipient for claims brought by any other entity based on infringement of
libtpm-unseal1/copyright: intellectual property rights or otherwise. As a condition to exercising the
libtpm-unseal1/copyright: rights and licenses granted hereunder, each Recipient hereby assumes sole
libtpm-unseal1/copyright: responsibility to secure any other intellectual property rights needed, if any.
libtpm-unseal1/copyright: For example, if a third party patent license is required to allow Recipient to
libtpm-unseal1/copyright: distribute the Program, it is Recipient's responsibility to acquire that

libtpm-unseal1/copyright: license before distributing the Program.
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: d) Each Contributor represents that to its knowledge it has sufficient
libtpm-unseal1/copyright: copyright rights in its Contribution, if any, to grant the copyright license
libtpm-unseal1/copyright: set forth in this Agreement.
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: 3. REQUIREMENTS
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: A Contributor may choose to distribute the Program in object code form under
libtpm-unseal1/copyright: its own license agreement, provided that:
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: a) it complies with the terms and conditions of this Agreement; and
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: b) its license agreement:
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: i) effectively disclaims on behalf of all Contributors all warranties and
libtpm-unseal1/copyright: conditions, express and implied, including warranties or conditions of title
libtpm-unseal1/copyright: and non-infringement, and implied warranties or conditions of merchantability
libtpm-unseal1/copyright: and fitness for a particular purpose;
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: ii) effectively excludes on behalf of all Contributors all liability for
libtpm-unseal1/copyright: damages, including direct, indirect, special, incidental and consequential
libtpm-unseal1/copyright: damages, such as lost profits;
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: iii) states that any provisions which differ from this Agreement are offered by
libtpm-unseal1/copyright: that Contributor alone and not by any other party; and
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: iv) states that source code for the Program is available from such Contributor,
libtpm-unseal1/copyright: and informs licensees how to obtain it in a reasonable manner on or through a
libtpm-unseal1/copyright: medium customarily used for software exchange.
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: When the Program is made available in source code form:
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: a) it must be made available under this Agreement; and
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: b) a copy of this Agreement must be included with each copy of the Program.
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: Contributors may not remove or alter any copyright notices contained within the
libtpm-unseal1/copyright: Program.
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: Each Contributor must identify itself as the originator of its Contribution, if
libtpm-unseal1/copyright: any, in a manner that reasonably allows subsequent Recipients to identify the
libtpm-unseal1/copyright: originator of the Contribution.
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: 4. COMMERCIAL DISTRIBUTION
From Ubuntu 16.04 LTS

libtpm-unseal1/copyright: Commercial distributors of software may accept certain responsibilities with
libtpm-unseal1/copyright: respect to end users, business partners and the like. While this license is
libtpm-unseal1/copyright: intended to facilitate the commercial use of the Program, the Contributor who
libtpm-unseal1/copyright: includes the Program in a commercial product offering should do so in a manner
libtpm-unseal1/copyright: which does not create potential liability for other Contributors. Therefore, if
libtpm-unseal1/copyright: a Contributor includes the Program in a commercial product offering, such
libtpm-unseal1/copyright: Contributor ("Commercial Contributor") hereby agrees to defend and indemnify
libtpm-unseal1/copyright: every other Contributor ("Indemnified Contributor") against any losses, damages
libtpm-unseal1/copyright: and costs (collectively "Losses") arising from claims, lawsuits and other legal
libtpm-unseal1/copyright: actions brought by a third party against the Indemnified Contributor to the
libtpm-unseal1/copyright: extent caused by the acts or omissions of such Commercial Contributor in
libtpm-unseal1/copyright: connection with its distribution of the Program in a commercial product
libtpm-unseal1/copyright: offering. The obligations in this section do not apply to any claims or Losses
libtpm-unseal1/copyright: relating to any actual or alleged intellectual property infringement. In order
libtpm-unseal1/copyright: to qualify, an Indemnified Contributor must: a) promptly notify the Commercial
libtpm-unseal1/copyright: Contributor in writing of such claim, and b) allow the Commercial Contributor
libtpm-unseal1/copyright: to control, and cooperate with the Commercial Contributor in, the defense and
libtpm-unseal1/copyright: any related settlement negotiations. The Indemnified Contributor may
libtpm-unseal1/copyright: participate in any such claim at its own expense.

libtpm-unseal1/copyright: 

libtpm-unseal1/copyright: For example, a Contributor might include the Program in a commercial product
libtpm-unseal1/copyright: offering, Product X. That Contributor is then a Commercial Contributor. If that
libtpm-unseal1/copyright: Commercial Contributor then makes performance claims, or offers warranties
libtpm-unseal1/copyright: related to Product X, those performance claims and warranties are such
libtpm-unseal1/copyright: Commercial Contributor’s responsibility alone. Under this section, the
libtpm-unseal1/copyright: Commercial Contributor would have to defend claims against the other
libtpm-unseal1/copyright: Contributors related to those performance claims and warranties, and if a court
libtpm-unseal1/copyright: requires any other Contributor to pay any damages as a result, the Commercial
libtpm-unseal1/copyright: Contributor must pay those damages.

libtpm-unseal1/copyright: 

libtpm-unseal1/copyright: 5. NO WARRANTY

libtpm-unseal1/copyright: EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED
libtpm-unseal1/copyright: "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER
libtpm-unseal1/copyright: IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF
libtpm-unseal1/copyright: NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.
libtpm-unseal1/copyright: Recipient is solely responsible for determining the appropriateness of using
libtpm-unseal1/copyright: and distributing the Program and assumes all risks associated with its exercise
libtpm-unseal1/copyright: of rights under this Agreement, including but not limited to the risks and
libtpm-unseal1/copyright: costs of program errors, compliance with applicable laws, damage to or loss of
libtpm-unseal1/copyright: data, programs or equipment, and unavailability or interruption of operations.

libtpm-unseal1/copyright: 6. DISCLAIMER OF LIABILITY

libtpm-unseal1/copyright: EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY
libtpm-unseal1/copyright: CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL,

libtpm-unseal1/copyright: PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN

libtpm-unseal1/copyright: If any provision of this Agreement is invalid or unenforceable under applicable
libtpm-unseal1/copyright: law, it shall not affect the validity or enforceability of the remainder of the
libtpm-unseal1/copyright: terms of this Agreement, and without further action by the parties hereto, such
libtpm-unseal1/copyright: provision shall be reformed to the minimum extent necessary to make such
libtpm-unseal1/copyright: provision valid and enforceable.
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: If Recipient institutes patent litigation against a Contributor with respect to
libtpm-unseal1/copyright: a patent applicable to software (including a cross-claim or counterclaim in a
libtpm-unseal1/copyright: lawsuit), then any patent licenses granted by that Contributor to such
libtpm-unseal1/copyright: Recipient under this Agreement shall terminate as of the date such litigation
libtpm-unseal1/copyright: is filed. In addition, if Recipient institutes patent litigation against any
libtpm-unseal1/copyright: entity (including a cross-claim or counterclaim in a lawsuit) alleging that the
libtpm-unseal1/copyright: Program itself (excluding combinations of the Program with other software or
libtpm-unseal1/copyright: hardware) infringes such Recipient's patent(s), then such Recipient's rights
libtpm-unseal1/copyright: granted under Section 2(b) shall terminate as of the date such litigation is
libtpm-unseal1/copyright: filed.
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: 8. GENERAL
libtpm-unseal1/copyright: All Recipient’s rights under this Agreement shall terminate if it fails to
libtpm-unseal1/copyright: comply with any of the material terms or conditions of this Agreement and does
libtpm-unseal1/copyright: not cure such failure in a reasonable period of time after becoming aware of
libtpm-unseal1/copyright: such noncompliance. If all Recipient’s rights under this Agreement terminate,
libtpm-unseal1/copyright: Recipient agrees to cease use and distribution of the Program as soon as
libtpm-unseal1/copyright: reasonably practicable. However, Recipient's obligations under this Agreement
libtpm-unseal1/copyright: and any licenses granted by Recipient relating to the Program shall continue
libtpm-unseal1/copyright: and survive.
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: Everyone is permitted to copy and distribute copies of this Agreement, but in
libtpm-unseal1/copyright: order to avoid inconsistency the Agreement is copyrighted and may only be
libtpm-unseal1/copyright: modified in the following manner. The Agreement Steward reserves the right to
libtpm-unseal1/copyright: publish new versions (including revisions) of this Agreement from time to time.
libtpm-unseal1/copyright: No one other than the Agreement Steward has the right to modify this Agreement.
libtpm-unseal1/copyright: IBM is the initial Agreement Steward. IBM may assign the responsibility to
libtpm-unseal1/copyright: serve as the Agreement Steward to a suitable separate entity. Each new version
libtpm-unseal1/copyright: of the Agreement will be given a distinguishing version number. The Program
libtpm-unseal1/copyright: (including Contributions) may always be distributed subject to the version of

libtpm-unseal1/copyright: the Agreement is published, Contributor may elect to distribute the Program
libtpm-unseal1/copyright: (including its Contributions) under the new version. Except as expressly stated
libtpm-unseal1/copyright: in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to
libtpm-unseal1/copyright: the intellectual property of any Contributor under this Agreement, whether
libtpm-unseal1/copyright: expressly, by implication, estoppel or otherwise. All rights in the Program not
libtpm-unseal1/copyright: expressly granted under this Agreement are reserved.

libtpm-unseal1/copyright:1. DEFINITIONS
libtpm-unseal1/copyright:.
libtpm-unseal1/copyright: "Contribution" means:
libtpm-unseal1/copyright:.
libtpm-unseal1/copyright: a) in the case of the initial Contributor, the initial code and documentation
libtpm-unseal1/copyright: distributed under this Agreement, and
libtpm-unseal1/copyright:.
libtpm-unseal1/copyright: b) in the case of each subsequent Contributor:
libtpm-unseal1/copyright:.
libtpm-unseal1/copyright: i) changes to the Program, and
libtpm-unseal1/copyright:.
libtpm-unseal1/copyright: ii) additions to the Program;
libtpm-unseal1/copyright:.
libtpm-unseal1/copyright: where such changes and/or additions to the Program originate from and are
libtpm-unseal1/copyright: distributed by that particular Contributor. A Contribution 'originates' from a
libtpm-unseal1/copyright: Contributor if it was added to the Program by such Contributor itself or anyone
libtpm-unseal1/copyright: acting on such Contributor's behalf. Contributions do not include additions to
libtpm-unseal1/copyright: the Program which: (i) are separate modules of software distributed in
libtpm-unseal1/copyright: conjunction with the Program under their own license agreement, and (ii) are
libtpm-unseal1/copyright: not derivative works of the Program.
libtpm-unseal1/copyright:.
libtpm-unseal1/copyright: "Contributor" means any person or entity that distributes the Program.
libtpm-unseal1/copyright:.
libtpm-unseal1/copyright: "Licensed Patents " mean patent claims licensable by a Contributor which are
From Ubuntu 16.04 LTS

libtpm-unseal1/copyright: necessarily infringed by the use or sale of its Contribution alone or when
libtpm-unseal1/copyright: combined with the Program.
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: "Program" means the Contributions distributed in accordance with this
libtpm-unseal1/copyright: Agreement.
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: "Recipient" means anyone who receives the Program under this Agreement,
libtpm-unseal1/copyright: including all Contributors.
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: 2. GRANT OF RIGHTS
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: a) Subject to the terms of this Agreement, each Contributor hereby grants
libtpm-unseal1/copyright: Recipient a non-exclusive, worldwide, royalty-free copyright license to
libtpm-unseal1/copyright: reproduce, prepare derivative works of, publicly display, publicly perform,
libtpm-unseal1/copyright: distribute and sublicense the Contribution of such Contributor, if any, and
libtpm-unseal1/copyright: such derivative works, in source code and object code form.
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: b) Subject to the terms of this Agreement, each Contributor hereby grants
libtpm-unseal1/copyright: Recipient a non-exclusive, worldwide, royalty-free patent license under
libtpm-unseal1/copyright: Licensed Patents to make, use, sell, offer to sell, import and otherwise
libtpm-unseal1/copyright: transfer the Contribution of such Contributor, if any, in source code and
libtpm-unseal1/copyright: object code form. This patent license shall apply to the combination of the
libtpm-unseal1/copyright: Contribution and the Program if, at the time the Contribution is added by the
libtpm-unseal1/copyright: Contributor, such addition of the Contribution causes such combination to be
libtpm-unseal1/copyright: covered by the Licensed Patents. The patent license shall not apply to any
libtpm-unseal1/copyright: other combinations which include the Contribution. No hardware per se is
libtpm-unseal1/copyright: licensed hereunder.
libtpm-unseal1/copyright: .
libtpm-unseal1/copyright: c) Recipient understands that although each Contributor grants the licenses to
libtpm-unseal1/copyright: its Contributions set forth herein, no assurances are provided by any
libtpm-unseal1/copyright: Contributor that the Program does not infringe the patent or other intellectual
libtpm-unseal1/copyright: property rights of any other entity. Each Contributor disclaims any liability
libtpm-unseal1/copyright: to Recipient for claims brought by any other entity based on infringement of
libtpm-unseal1/copyright: intellectual property rights or otherwise. As a condition to exercising the
libtpm-unseal1/copyright: rights and licenses granted hereunder, each Recipient hereby assumes sole
libtpm-unseal1/copyright: responsibility to secure any other intellectual property rights needed, if any.
libtpm-unseal1/copyright: For example, if a third party patent license is required to allow Recipient to
libtpm-unseal1/copyright: distribute the Program, it is Recipient's responsibility to acquire that
libtpm-unseal1/copyright: license before distributing the Program.

libtsan0/copyright:Debian provides additional packages containing 32-bit versions of some
libtsan0/copyright:libraries. These packages have names beginning with 'lib32' instead of
libtsan0/copyright:'lib', for example lib32stdc++6. Similarly, on some 32-bit platforms which

libtsan0/copyright: The libgcj library is licensed under the terms of the GNU General Public License, with a special exception:

libtsan0/copyright: Linking this library statically or dynamically with other modules is making a combined work based on this library. Thus, the terms and conditions of the GNU General Public License cover the whole combination.

libtsan0/copyright: As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If you do not wish to do so, delete this exception statement from your version.

libtsan0/copyright: GCC RUNTIME LIBRARY EXCEPTION
libtsan0/copyright: Version 3.1, 31 March 2009
libtsan0/copyright: Copyright (C) 2009 Free Software Foundation, Inc. <http://fsf.org/缺点
libtsan0/copyright: Everyone is permitted to copy and distribute verbatim copies of this
libtsan0/copyright: license document, but changing it is not allowed.
libtsan0/copyright: This GCC Runtime Library Exception ("Exception") is an additional
libtsan0/copyright: permission under section 7 of the GNU General Public License, version
libtsan0/copyright: 3 ("GPLv3"). It applies to a given file (the "Runtime Library") that
libtsan0/copyright: bears a notice placed by the copyright holder of the file stating that
libtsan0/copyright: the file is governed by GPLv3 along with this Exception.
libtsan0/copyright: When you use GCC to compile a program, GCC may combine portions of
libtsan0/copyright: certain GCC header files and runtime libraries with the compiled
libtsan0/copyright: program. The purpose of this Exception is to allow compilation of
libtsan0/copyright: non-GPL (including proprietary) programs to use, in this way, the
libtsan0/copyright: header files and runtime libraries covered by this Exception.
libtsan0/copyright: 0. Definitions.
libtsan0/copyright: A file is an "Independent Module" if it either requires the Runtime
libtsan0/copyright: Library for execution after a Compilation Process, or makes use of an
libtsan0/copyright: interface provided by the Runtime Library, but is not otherwise based
libtsan0/copyright: on the Runtime Library.
libtsan0/copyright: "GCC" means a version of the GNU Compiler Collection, with or without
libtsan0/copyright: modifications, governed by version 3 (or a specified later version) of
libtsan0/copyright: the GNU General Public License (GPL) with the option of using any
libtsan0/copyright: subsequent versions published by the FSF.
libtsan0/copyright: "GPL-compatible Software" is software whose conditions of propagation,
libtsan0/copyright: modification and use would permit combination with GCC in accord with
libtsan0/copyright: the license of GCC.
libtsan0/copyright: "Target Code" refers to output from any compiler for a real or virtual
libtsan0/copyright: target processor architecture, in executable form or suitable for
libtsan0/copyright: input to an assembler, loader, linker and/or execution
From Ubuntu 16.04 LTS

libtsan0/copyright:phase. Notwithstanding that, Target Code does not include data in any libtsan0/copyright:format that is used as a compiler intermediate representation, or used libtsan0/copyright:for producing a compiler intermediate representation.

libtsan0/copyright:

libtsan0/copyright:The "Compilation Process" transforms code entirely represented in libtsan0/copyright:non-intermediate languages designed for human-written code, and/or in libtsan0/copyright:Java Virtual Machine byte code, into Target Code. Thus, for example, libtsan0/copyright:use of source code generators and preprocessors need not be considered libtsan0/copyright:part of the Compilation Process, since the Compilation Process can be libtsan0/copyright:understood as starting with the output of the generators or libtsan0/copyright:preprocessors.

libtsan0/copyright:

libtsan0/copyright:A Compilation Process is "Eligible" if it is done using GCC, alone or libtsan0/copyright:with other GPL-compatible software, or if it is done without using any libtsan0/copyright:work based on GCC. For example, using non-GPL-compatible Software to libtsan0/copyright:optimize any GCC intermediate representations would not qualify as an libtsan0/copyright:Eligible Compilation Process.

libtsan0/copyright:

libtsan0/copyright:1. Grant of Additional Permission.

libtsan0/copyright:

libtsan0/copyright:You have permission to propagate a work of Target Code formed by libtsan0/copyright:combining the Runtime Library with Independent Modules, even if such libtsan0/copyright:propagation would otherwise violate the terms of GPLv3, provided that libtsan0/copyright:all Target Code was generated by Eligible Compilation Processes. You libtsan0/copyright:may then convey such a combination under terms of your choice, libtsan0/copyright:consistent with the licensing of the Independent Modules.

libtsan0/copyright:

libtsan0/copyright:2. No Weakening of GCC Copyleft.

libtsan0/copyright:

libtsan0/copyright:The availability of this Exception does not imply any general libtsan0/copyright:presumption that third-party software is unaffected by the copyleft libtsan0/copyright:requirements of the license of GCC.

Additional packages include:

- **All languages:**
  - libgcc1, libgcc2, libgcc4: GCC intrinsics (platform-dependent)
  - gcc-5-base: Base files common to all compilers
  - gcc-5-soft-float: Software floating point (ARM only)
  - gcc-5-source: The sources with patches

- **Ada:**
  - libgnatvsn-dev, libgnatvsn5: GNAT version library
  - libgnatprj-dev, libgnatprj5: GNAT Project Manager library

- **C:**
  - cpp-5, cpp-5-doc: GNU C Preprocessor
  - libssp0-dev, libssp0: GCC stack smashing protection library
  - libquadmath0: Math routines for the __float128 type
  - fixincludes: Fix non-ANSI header files

- **Java:**
  - gij: The Java bytecode interpreter and VM
  - gccj-common: Common files for the Java run-time
  - gccj10-awt: The Abstract Windowing Toolkit
  - gccj10-jar: Java ARchive for the Java run-time

- **C, C++, and Fortran 95:**
  - libgomp1-dev, libgomp1
  - libitm1-dev, libitm1

- **Biarch support:** On some 64-bit platforms which can also run 32-bit code, Debian provides additional packages containing 32-bit versions of some libraries. These packages have names beginning with 'lib32' instead of 'lib', for example lib32stdc++6. Similarly, on some 32-bit platforms which can also run 64-bit code, Debian provides additional packages with names beginning with 'lib64' instead of 'lib'. These packages contain 64-bit

The libubsan0 library is licensed under the terms of the GNU General Public License, with a special exception:

Linking this library statically or dynamically with other modules is making a combined work based on this library. Thus, the terms and conditions of the GNU General Public License cover the whole combination. As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If you do not wish to do so, delete this exception statement from your version.

libubsan0/copyright:A file is an "Independent Module" if it either requires the Runtime
libubsan0/copyright:Library for execution after a Compilation Process, or makes use of an
libubsan0/copyright:interface provided by the Runtime Library, but is not otherwise based
libubsan0/copyright:on the Runtime Library.

libubsan0/copyright:

libubsan0/copyright:"GCC" means a version of the GNU Compiler Collection, with or without
libubsan0/copyright:modifications, governed by version 3 (or a specified later version) of
libubsan0/copyright:the GNU General Public License (GPL) with the option of using any
From Ubuntu 16.04 LTS

libubsan0/copyright:subsequent versions published by the FSF.

libubsan0/copyright:

libubsan0/copyright:"GPL-compatible Software" is software whose conditions of propagation, modification and use would permit combination with GCC in accord with the license of GCC.

libubsan0/copyright:

libubsan0/copyright:"Target Code" refers to output from any compiler for a real or virtual target processor architecture, in executable form or suitable for input to an assembler, loader, linker and/or execution phase. Notwithstanding that, Target Code does not include data in any format that is used as a compiler intermediate representation, or used for producing a compiler intermediate representation.

libubsan0/copyright:

libubsan0/copyright:The "Compilation Process" transforms code entirely represented in non-intermediate languages designed for human-written code, and/or in Java Virtual Machine byte code, into Target Code. Thus, for example, use of source code generators and preprocessors need not be considered part of the Compilation Process, since the Compilation Process can be understood as starting with the output of the generators or preprocessors.

libubsan0/copyright:

libubsan0/copyright:A Compilation Process is "Eligible" if it is done using GCC, alone or with other GPL-compatible software, or if it is done without using any work based on GCC. For example, using non-GPL-compatible Software to optimize any GCC intermediate representations would not qualify as an Eligible Compilation Process.

libubsan0/copyright:

libubsan0/copyright:1. Grant of Additional Permission.

libubsan0/copyright:

libubsan0/copyright:You have permission to propagate a work of Target Code formed by combining the Runtime Library with Independent Modules, even if such propagation would otherwise violate the terms of GPLv3, provided that all Target Code was generated by Eligible Compilation Processes. You may then convey such a combination under terms of your choice, consistent with the licensing of the Independent Modules.

libubsan0/copyright:

libubsan0/copyright:2. No Weakening of GCC Copyleft.

libubsan0/copyright:

libubsan0/copyright:The availability of this Exception does not imply any general presumption that third-party software is unaffected by the copyleft requirements of the license of GCC.

libxtables11/copyright: semblance of artistic control over the development of the package,
libxtables11/copyright: while giving the users of the package the right to use and distribute
libxtables11/copyright: the Package in a more-or-less customary fashion, plus the right to make

1. You may make and give away verbatim copies of the source form of the Package without restriction, provided that you duplicate all of the original copyright notices and associated disclaimers.

2. You may apply bug fixes, portability fixes and other modifications derived from the Public Domain or from the Copyright Holder. A Package modified in such a way shall still be considered the Standard Version.

3. You may otherwise modify your copy of this Package in any way, provided:
   a) place your modifications in the Public Domain or otherwise make them Freely Available, such as by posting said modifications to Usenet or an equivalent medium, or placing the modifications on a major archive site such as uunet.uu.net, or by allowing the Copyright Holder to include your modifications in the Standard Version of the Package.
   b) use the modified Package only within your corporation or organization.
   c) rename any non-standard executables so the names do not conflict with standard executables, which must also be provided, and provide a separate manual page for each non-standard executable that clearly documents how it differs from the Standard Version.

libxtables11/copyright:  d) make other distribution arrangements with the Copyright Holder.
libxtables11/copyright: .

libxtables11/copyright: 4. You may distribute the programs of this Package in object code or
libxtables11/copyright: executable form, provided that you do at least ONE of the following:
libxtables11/copyright: .

libxtables11/copyright:  a) distribute a Standard Version of the executables and library files,
libxtables11/copyright: together with instructions (in the manual page or equivalent) on where
libxtables11/copyright: to get the Standard Version.
libxtables11/copyright: .

libxtables11/copyright:  b) accompany the distribution with the machine-readable source of
libxtables11/copyright: the Package with your modifications.
libxtables11/copyright: .

libxtables11/copyright:  c) give non-standard executables non-standard names, and clearly
libxtables11/copyright: document the differences in manual pages (or equivalent), together
libxtables11/copyright: with instructions on where to get the Standard Version.
libxtables11/copyright: .

libxtables11/copyright:  d) make other distribution arrangements with the Copyright Holder.

libxtables11/copyright: 5. You may charge a reasonable copying fee for any distribution of this
libxtables11/copyright: Package. You may charge any fee you choose for support of this
libxtables11/copyright: Package. You may not charge a fee for this Package itself. However,
libxtables11/copyright: you may distribute this Package in aggregate with other (possibly
libxtables11/copyright: commercial) programs as part of a larger (possibly commercial) software
libxtables11/copyright: distribution provided that you do not advertise this Package as a
libxtables11/copyright: product of your own. You may embed this Package's interpreter within
libxtables11/copyright: an executable of yours (by linking); this shall be construed as a mere
libxtables11/copyright: form of aggregation, provided that the complete Standard Version of the
libxtables11/copyright: interpreter is so embedded.

libxtables11/copyright: 6. The scripts and library files supplied as input to or produced as
libxtables11/copyright: output from the programs of this Package do not automatically fall
libxtables11/copyright: under the copyright of this Package, but belong to whoever generated
libxtables11/copyright: them, and may be sold commercially, and may be aggregated with this
libxtables11/copyright: Package. If such scripts or library files are aggregated with this
libxtables11/copyright: Package via the so-called "undump" or "unexec" methods of producing a
libxtables11/copyright: binary executable image, then distribution of such an image shall
libxtables11/copyright: neither be construed as a distribution of this Package nor shall it
libxtables11/copyright: fall under the restrictions of Paragraphs 3 and 4, provided that you do
libxtables11/copyright: not represent such an executable image as a Standard Version of this
libxtables11/copyright: Package.

libxtables11/copyright: regression tests for the language.
libxtables11/copyright:.
libxtables11/copyright: 8. Aggregation of this Package with a commercial distribution is always
libxtables11/copyright: permitted provided that the use of this Package is embedded; that is,
libxtables11/copyright: when no overt attempt is made to make this Package's interfaces visible
libxtables11/copyright: to the end user of the commercial distribution. Such use shall not be

IMPORTANT - PLEASE READ BEFORE INSTALLING OR USING THIS INTEL® SOFTWARE
From Ubuntu 16.04 LTS

Do not use or load this firmware (the "Software") until you have carefully read the following terms and conditions. By loading or using the Software, you agree to the terms of this Agreement. If you are an End-User, only Exhibit A, the SOFTWARE LICENSE AGREEMENT, applies. If you are an Original Equipment Manufacturer (OEM), Independent Hardware Vendor (IHV), or Independent Software Vendor (ISV), this complete Agreement applies

License. This Software is licensed for use only in conjunction with Intel component products. Use of the Software in conjunction with non-Intel component products is not licensed hereunder. Subject to the terms of this Agreement, Intel grants to you a nonexclusive, nontransferable, worldwide, fully paid-up license under Intel's copyrights to: (i) copy the Software internally for your own development and maintenance purposes; (ii) copy and distribute the Software to your end-users, but only under a license agreement with terms at least as restrictive as those contained in Intel's Final, Single User License Agreement, and (iii) if you are not the final manufacturer or vendor of a computer system or software program incorporating the Software, then you may transfer a copy of the Software, including any related documentation (modified or unmodified) to your recipient for use in accordance with the terms of this Agreement, provided such recipient agrees to be fully bound by the terms hereof. You shall not otherwise assign, sublicense, lease, or in any other way transfer or disclose Software to any third party. You may not, nor may you assist any other person or entity to modify, translate, convert to another programming language, decompile, reverse engineer, or disassemble any portion of the Software or otherwise attempt to derive source code from any object code modules of the Software or any internal data files generated by the Software. Your ownership of software and copyrights. Software and accompanying materials, if any, are owned by Intel or its suppliers and licensors and may be protected by copyright, trademark, patent and trade secret law and international treaties. Any rights, express or implied, in the intellectual property embodied in the foregoing, other than those specified in this Agreement, are reserved by Intel and its suppliers and licensors or otherwise as set forth in any applicable open source license agreement. You will keep the Software free of liens, attachments, and other encumbrances. You agree not to remove any proprietary notices.
LIMITATION OF LIABILITY. IN NO EVENT SHALL INTEL OR ITS SUPPLIERS AND LICENSORS BE LIABLE FOR ANY DAMAGES WHATSOEVER FROM ANY CAUSE OF ACTION OF ANY KIND (INCLUDING, WITHOUT LIMITATION, LOST PROFITS, BUSINESS INTERRUPTION, OR LOST INFORMATION) ARISING OUT OF THE USE, MODIFICATION, OR INABILITY TO USE THE INTEL SOFTWARE, OR OTHERWISE, NOR FOR PUNITIVE, INCIDENTAL, CONSEQUENTIAL, OR SPECIAL DAMAGES OF ANY KIND, EVEN IF INTEL OR ITS SUPPLIERS AND LICENSORS HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. SOME JURISDICTIONS PROHIBIT EXCLUSION OR LIMITATION OF LIABILITY FOR IMPLIED WARRANTIES, CONSEQUENTIAL OR INCIDENTAL DAMAGES.

EXCLUSION OF WARRANTIES. THE SOFTWARE IS PROVIDED "AS IS" AND POSSIBLY WITH FAULTS. UNLESS EXPRESSLY AGREED OTHERWISE, INTEL AND ITS SUPPLIERS AND LICENSORS DISCLAIM ANY AND ALL WARRANTIES AND GUARANTEES, EXPRESS, IMPLIED OR OTHERWISE, INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY, NONINFRINGEMENT, OR FITNESS FOR A PARTICULAR PURPOSE. Intel does not warrant or assume responsibility for the accuracy or completeness of any information, text, graphics, links or other items contained within the Software. You assume all liability, financial or otherwise.

WAIVER AND AMENDMENT. No modification, amendment or waiver of any provision of this Agreement shall be effective unless in writing and signed by an officer of Intel. No failure or delay in exercising any right, power, or remedy under this Agreement shall operate as a waiver of any such right, power or remedy. Without limiting the foregoing, terms and conditions on any purchase orders or similar materials submitted by you to Intel, and any terms contained in Intel's standard acknowledgment form that are in this Agreement shall be effective unless expressly agreed otherwise, Intel and its suppliers and licensors disclaim any and all warranties and guarantees, express, implied or otherwise, including but not limited to the warranties of merchantability, noninfringement, or fitness for a particular purpose. Intel does not warrant or assume responsibility for the accuracy or completeness of any information, text, graphics, links or other items contained within the Software. You assume all liability, financial or otherwise.

SEVERABILITY. If any provision of this Agreement is held by a court of competent jurisdiction to be contrary to law, such provision shall be changed and interpreted so as to best accomplish the objectives of the original provision to the fullest extent allowed by law and the remaining provisions of this Agreement shall remain in full force and effect.

EXPORT RESTRICTIONS. Each party acknowledges that the Software is subject to applicable import and export regulations of the United States and of the countries in which each party transacts business, specifically including U.S. Export Administration Act and Export Administration Regulations. Each party shall comply with such laws and regulations, as well as all other laws and regulations applicable to the Software. Without limiting the generality of the foregoing, each party agrees that it will not export, re-export, transfer or divert any of the Software or the direct programs thereof to any restricted place or party in accordance with applicable law.

GOVERNMENT RESTRICTED RIGHTS. The Software is provided with "RESTRICTED RIGHTS." Use, duplication, or disclosure by the Government is subject to restrictions as set forth in FAR 52.227-14 and DFAR 227.7013 et seq. or their successors. Use of the Software by the Government constitutes acknowledgment of Intel's proprietary rights therein. Contractor or Manufacturer is Intel Corporation, 2200

TERMINATION OF THE AGREEMENT. Intel may terminate this Agreement if you violate its terms. Upon termination, you will immediately destroy the Software or return all copies of the Software to Intel.

EXHIBIT "A"

SOFTWARE LICENSE AGREEMENT (Final, Single User)
From Ubuntu 16.04 LTS

IMPORTANT - READ BEFORE COPYING, INSTALLING OR USING.

Do not use or load this firmware image (the "Software") until you have carefully read the following terms and conditions. By loading or using the Software, you agree to the terms of this Agreement. If you do not wish to so agree, do not install or use the Software.

LICENSE. You may copy and use the Software, subject to these conditions:

1. This Software is licensed for use only in conjunction with Intel component products. Use of the Software in conjunction with non-Intel component products is not licensed hereunder.

2. You may not copy, modify, rent, sell, distribute or transfer any part of the Software except as provided in this Agreement, and you agree to prevent unauthorized copying of the Software.

3. You may not reverse engineer, decompile, or disassemble the Software.

4. You may not sublicense the Software.

5. The Software may contain the software or other property of third party suppliers.

OWNERSHIP OF SOFTWARE AND COPYRIGHTS. Title to all copies of the Software remains with Intel or its suppliers. The Software is copyrighted and protected by the laws of the United States and other countries, and international treaty provisions. You may not remove any copyright notices from the Software. Intel may make changes to the Software, or items referenced therein, at any time without notice, but is not obligated to support or update the Software. Except as otherwise expressly provided, Intel grants no express or implied right under Intel patents, copyrights, trademarks, or other intellectual property rights. You

EXCLUSION OF OTHER WARRANTIES EXCEPT AS PROVIDED ABOVE, THE SOFTWARE IS PROVIDED "AS IS" WITHOUT ANY EXPRESS OR IMPLIED WARRANTY OF ANY KIND INCLUDING WARRANTIES OF MERCHANTABILITY, NONINFRINGEMENT, OR FITNESS FOR A PARTICULAR PURPOSE. Intel does not warrant or assume responsibility for the accuracy or completeness of any information, text, graphics, links or other items

LIMITATION OF LIABILITY. IN NO EVENT SHALL INTEL OR ITS SUPPLIERS BE LIABLE FOR ANY DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, LOST PROFITS, BUSINESS INTERRUPTION, OR LOST INFORMATION) ARISING OUT OF THE USE OF OR INABILITY TO USE THE SOFTWARE, EVEN IF INTEL HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. SOME JURISDICTIONS PROHIBIT EXCLUSION OR LIMITATION OF LIABILITY FOR IMPLIED WARRANTIES OR CONSEQUENTIAL OR INCIDENTAL DAMAGES, SO THE

TERMINATION OF THIS AGREEMENT. Intel may terminate this Agreement at any time if you violate its terms. Upon termination, you will immediately destroy the Software.

APPLICABLE LAWS. Claims arising under this Agreement shall be governed by the laws of California, excluding its principles of conflict of laws and the United Nations Convention on Contracts for the Sale of Goods. You may not export the Software in violation of applicable export laws and regulations. Intel is not obligated under any other agreements unless they are in writing and signed by an authorized representative

GOVERNMENT RESTRICTED RIGHTS. The Software is provided with "RESTRICTED RIGHTS." Use, duplication, or disclosure by the Government is subject to restrictions as set forth in FAR52.227-14 and DFAR252.227-7013 et seq. or their successors. Use of the Software by the Government constitutes acknowledgment of Intel's proprietary rights therein. Contractor or Manufacturer is Intel Corporation, 2200

This License is granted by Adaptec, Inc., referred to in this License as "ADAPTEC" or "we" or "us." ADAPTEC reserves the right to record all activities and to use any information obtained in accordance with the privacy policy which you can access below.

Directions to Obtain Your File:

CAREFULLY READ THE FOLLOWING TERMS AND CONDITIONS AS WELL AS THE EXPORT COMPLIANCE REQUIREMENTS SET OUT BELOW. YOU MUST ANSWER THE REQUIRED QUESTION TRUTHFULLY TO LET US KNOW WHETHER YOU HAVE READ AND UNDERSTOOD THE TERMS AND CONDITIONS AND EXPORT COMPLIANCE REQUIREMENTS AND WHETHER YOU AGREE TO COMPLY. YOU MUST CLICK A FURTHER BUTTON TO CONFIRM YOUR ANSWER AND IF YOU ANSWER IN THE AFFIRMATIVE, A BINDING LICENSE AGREEMENT ("LICENSE") WILL BE CONCLUDED BETWEEN US. YOU MAY THEN PROCEED TO DOWNLOAD THE SOFTWARE.

IF YOU DO NOT AGREE TO THESE TERMS, CONDITIONS, AND EXPORT COMPLIANCE REQUIREMENTS THEN DO NOT DOWNLOAD THE SOFTWARE. IF YOU WISH TO CANCEL THIS LICENSE AT ANY TIME YOU MAY DO SO BY DESTROYING ALL COPIES AND PARTIAL COPIES OF THE SOFTWARE WHICH YOU HAVE DOWNLOADED.

YOU ALSO AGREE THAT YOU HAVE ALL NECESSARY INFORMATION IN ORDER TO ENTER INTO THIS LICENSE WHETHER UNDER AN APPLICABLE EUROPEAN E-COMMERCE DIRECTIVE OR OTHERWISE. IF YOU DO NOT AGREE TO THESE TERMS, CONDITIONS, AND REQUIREMENTS, DO NOT DOWNLOAD ANY FILES.

Please retain a copy of the License for your files or you may contact ADAPTEC's Legal Department at the address listed below for a further copy. This license may be concluded in English or the language in which it is drafted by ADAPTEC and appears to you online, as applicable. If you are a consumer residing in Europe (a "European Consumer") then this License shall not affect your statutory rights under the local laws in Europe.

This License grants you a non-exclusive license to use the ADAPTEC Software and related documentation ("Software") on the following terms, conditions, and export compliance requirements:

If you are NOT an individual consumer residing in Europe then the following terms, conditions and export compliance requirements apply and are a part of your license: ALL SECTIONS EXCEPT AS SPECIFIED HEREIN.
From Ubuntu 16.04 LTS

1. Your right to use the Software. You may use the Software in machine readable form (i.e. the form you download from us) within a single working location. You may copy the Software in the same form solely for back-up purposes or use within a single working location. You must reproduce ADAPTEC's copyright notice and proprietary legends. These requirements apply to European Consumers.

2. Restrictions. This Software contains trade secrets and in order to protect them you may not: (1) distribute copies of the Software in any manner, including, but not limited to, distribution through web site posting; (2) decompile, reverse engineer, disassemble, or otherwise reduce the Software to a human perceivable form; (3) MODIFY, ADAPT OR TRANSLATE THE SOFTWARE INTO ANY OTHER FORM; (4) RENT, LEASE, LOAN, RESELL FOR PROFIT, OR CREATE DERIVATIVE WORKS BASED UPON THE SOFTWARE OR ANY PART OF IT. These requirements apply to European Consumers.

3. Ownership. The Software is copyrighted by, proprietary to and a trade secret of ADAPTEC. ADAPTEC retains the title, ownership and intellectual property rights in and to the Software and all subsequent copies regardless of the form or media. The Software is protected by the copyright laws of the United States, the European Union, and international copyright treaties. This License is not a sale of the Software. These terms apply to European Consumers.

4. Termination. This License is effective until terminated. This License will terminate automatically without notice if you fail to comply with any of the provisions. Upon termination you shall destroy all copies of the Software including any partial copies. This provision applies to European Consumers.

5. Disclaimer of Warranty. IF YOU ARE A EUROPEAN CONSUMER THEN THIS SECTION 5 DOES NOT APPLY TO YOU AND DOES NOT FORM PART OF YOUR LICENSE WITH US. PROCEED TO SECTION 6. THE SOFTWARE IS LICENSED TO YOU "AS IS." YOU ACCEPT ALL RISKS WHICH MAY ARISE FROM THE DOWNLOADING OF THE SOFTWARE, INCLUDING BUT NOT LIMITED TO ERRORS IN TRANSMISSION OR CORRUPTION OF EXISTING DATA OR SOFTWARE. ADAPTEC MAKES NO WARRANTIES, EXPRESS OR IMPLIED, AND SPECIFICALLY DISCLAIMS ANY WARRANTY OF NON INFRINGEMENT OF THIRD PARTIES' RIGHTS, WARRANTIES OF SATISFACTORY QUALITY AND OF FITNESS FOR A PARTICULAR PURPOSE. Some states do not allow the

**linux-firmware/copyright:** exclusion of implied warranties or limitations of how long an implied warranty may last, so the above exclusion may not apply to you. You may also have other rights which vary from state to state.

6. Limitation of Liability. FOR EUROPEAN CONSUMERS: WE WILL NOT BE LIABLE TO YOU WHERE YOU SUFFER LOSS WHICH WAS NOT FORESEEABLE TO YOU AND TO US WHEN YOU DOWNLOADED THE SOFTWARE (EVEN IF IT RESULTS FROM OUR FAILURE TO COMPLY WITH THIS LICENSE OR OUR NEGLIGENCE); WHERE YOU SUFFER ANY BUSINESS LOSS INCLUDING LOSS OF REVENUE, PROFITS OR ANTICIPATED SAVINGS (WHETHER THOSE LOSSES ARE THE DIRECT OR INDIRECT RESULT OF OUR DEFAULT); OR WHERE YOUR LOSS DOES NOT RESULT FROM OUR FAILURE TO COMPLY WITH THIS LICENSE OR OUR NEGLIGENCE. THE SOFTWARE HAS BEEN MADE AVAILABLE TO YOU FREE OF CHARGE. YOU MAY AT ANY TIME DOWNLOAD A FURTHER COPY OF THE SOFTWARE FREE OF CHARGE TO REPLACE YOUR ORIGINAL COPY OF THE SOFTWARE (CONSEQUENTLY, WE AND OUR SUPPLIERS WILL ONLY BE LIABLE TO YOU UP TO A MAXIMUM TOTAL LIMIT OF TWO THOUSAND DOLLARS U.S. OR ITS EURO EQUIVALENT AT THE TIME A CLAIM IS MADE). OUR MAXIMUM FINANCIAL RESPONSIBILITY TO YOU AND THAT OF OUR SUPPLIERS WILL NOT EXCEED THIS LIMIT EVEN IF THE ACTUAL LOSS YOU SUFFER IS MORE THAN THAT. HOWEVER, NOTHING IN THIS LICENSE SHALL RESTRICT ANY PARTY'S LIABILITY FOR FRAUD, DEATH OR PERSONAL INJURY ARISING FROM ITS NEGLIGENCE OR FOR FRAUD OR ANY FRAUDULENT MISREPRESENTATION.

7. Export. By downloading, you acknowledge that the laws and regulations of the United States and relevant countries within the European Union, restrict the export and re-export of the Software. Further, you agree that you will not export or re-export the Software or media in any form without the appropriate United States and foreign government approval. If you are a European Consumer you must not export Software outside the country in
From Ubuntu 16.04 LTS

which you download it without our prior written permission. (See below for details on Export Compliance Requirements.)

8. U.S. Government Restricted Rights. IF YOU ARE A EUROPEAN CONSUMER THEN THIS CLAUSE WILL NOT APPLY TO YOU AND DOES NOT FORM PART OF YOUR LICENSE AGREEMENT WITH US. PLEASE PROCEED TO SECTION 9. If the Software is acquired under the terms of a United States GSA contract, use, reproduction or disclosure is subject to the restrictions set forth in the applicable ADP Schedule contract. If the Software is acquired under the terms of a DoD or civilian agency contract, use, duplication or disclosure by the Government is subject to the restrictions of this License in accordance with 48 C.F.R. 12.212 of the Federal Acquisition Regulations and its successors and 48 C.F.R. 227.7202-1 of the DoD FAR Supplement and its successors. (See below for details on Export Compliance Requirements.)

9. General. California residents entered into and to be performed within California, except as governed by Federal law. Should any provision of this License be declared unenforceable in any jurisdiction, then such provision shall be deemed to be severable from this License and shall not affect the remainder hereof. All rights in the Software not specifically granted in this License are reserved by Adaptec.

EXPORT COMPLIANCE REQUIREMENTS

Export of any information from the Adaptec web site (including Confidential Information obtained through Adaptec Access) outside the United States is subject to all U.S. export control laws. You will abide by such laws and also to the provision of the U.S. Export-Re-export Requirements and Enhanced Proliferation Control Initiative set forth here. You and your organization will not sell, license, or otherwise provide or ship Adaptec products or technical data (or the direct product thereof) for export or re-export to the embargoed or restricted* countries listed below:

Afghanistan (Taliban controlled area), Cuba, Iran, Iraq, North Korea*, Sudan, and Syria*

You agree not to transfer, export or re-export Adaptec products, technology or software to your customers or any intermediate entity in the chain of supply if our products will be used in the design, development, production, stockpiling or use of missiles, chemical or biological weapons or for nuclear end uses without obtaining prior authorization from the U.S. Government.
From Ubuntu 16.04 LTS

You also agree that unless you receive prior authorization from the U.S. Department of Commerce, you shall not transfer, export or re-export, directly or indirectly, any Adaptec technology or software (or the direct product of such technology or software or any part thereof, or any process or service which is the direct product of such technology or software) to any Sanctioned and/or Embargoed entity listed on:

lsow/copyright:Comment: The following changes were made to the upstream tarball:
lsow/copyright: 1.) The directory dialects/uw was removed for being non-DFSG
lsow/copyright: 2.) The main source was a tarball within a tarball. Only the innermost
lsow/copyright: tarball has been retained.
lsow/copyright: 3.) The top-level directory has been stripped away as it embedded the
lsow/copyright: version number making packaging more difficult.

From Ubuntu 16.04 LTS

lsclf/copyright: 1. Redistributions qualify as "freeware" or "Open Source Software" under one of the following terms:

lsclf/copyright: (a) Redistributions are made at no charge beyond the reasonable cost of materials and delivery.

lsclf/copyright: (b) Redistributions are accompanied by a copy of the Source Code or by an irrevocable offer to provide a copy of the Source Code for up to three years at the cost of materials and delivery. Such redistributions must allow further use, modification, and redistribution of the Source Code under substantially the same terms as this license. For the purposes of redistribution "Source Code" means the complete source code of sendmail including all modifications.

lsclf/copyright: Other forms of redistribution are allowed only under a separate royalty-free agreement permitting such redistribution subject to standard commercial terms and conditions. A copy of such agreement may be obtained from Sendmail, Inc. at the above address.

lsclf/copyright: 2. Redistributions of source code must retain the copyright notices as they appear in each source code file, these license terms, and the disclaimer/limitation of liability set forth as paragraph 6 below.

lsclf/copyright: 3. Redistributions in binary form must reproduce the Copyright Notice, these license terms, and the disclaimer/limitation of liability set forth as paragraph 6 below, in the documentation and/or other materials provided with the distribution. For the purposes of binary distribution the "Copyright Notice" refers to the following language:

lsclf/copyright: "Copyright (c) 1998 Sendmail, Inc. All rights reserved."

lsclf/copyright: 4. Neither the name of Sendmail, Inc. nor the University of California nor the names of their contributors may be used to endorse or promote products derived from this software without specific prior written permission. The name "sendmail" is a trademark of Sendmail, Inc.

makedev/copyright:
makedev/copyright: It was never explicitly released as GPL, as that would have required
makedev/copyright: including the file COPYING which would have been much larger than the
makedev/copyright: actual MAKEDEV script (I was also too lazy to find out what incantations
makedev/copyright: needed to be made). However, it is intended to be used as anyone sees
makedev/copyright: fit, and the statement under "Copying Policy" is "Freely Redistributable"
makedev/copyright: (see MAKEDEV.lsm from any of the releases I made).
makedev/copyright:
makedev/copyright: The more recent modifications were done by Michael K. Johnson at
makedev/copyright: Redhat. I think the understanding was that he would be taking over the
makedev/copyright: maintenance of MAKEDEV (our discussion took place last September).
makedev/copyright:
makedev/copyright: The only previous history was (according to an old posting to
makedev/copyright: comp.os.linux) that I started with Jim Winstead's script.
makedev/copyright:
makedev/copyright: So, as far as I am concerned, it is consistent with the Debian FSG.

   Regular expression support is provided by the PCRE library package, which is open source software, written by Philip Hazel, and copyright by the University of Cambridge, England.

   somewhere reasonably visible in your documentation and in any relevant files or online help data or similar. A reference to the ftp site for the source, that is, to

   ftp://ftp.csx.cam.ac.uk/pub/software/programming/pcre/

   should also be given in the documentation. However, this condition is not intended to apply to whole chains of software. If package A includes PCRE, it must acknowledge it, but if package B is software that includes package A, the condition is not imposed on package B (unless it uses PCRE independently).

3. Altered versions must be plainly marked as such, and must not be misrepresented as being the original software.

4. If PCRE is embedded in any software that is released under the GNU General Purpose Licence (GPL), or Lesser General Purpose Licence (LGPL), then the terms of that licence shall supersede any condition above with which it is incompatible.

nodejs/copyright: Comment: ./src/CNNICHashWhitelist.inc has an unclear status as
nodejs/copyright: it is generated by a script from data that is not available in
nodejs/copyright: debian. Note nodejs is patched to use ca-certificates root certs
nodejs/copyright: instead of upstream ones. If the root CNNIC ca is not in
nodejs/copyright: ca-certificates, the white list is useless.

nodejs/copyright: 1. Definitions
nodejs/copyright: 1.1. "Contributor"
nodejs/copyright: means each individual or legal entity that creates, contributes to
nodejs/copyright: the creation of, or owns Covered Software.
nodejs/copyright: 1.2. "Contributor Version"
nodejs/copyright: means the combination of the Contributions of others (if any) used
nodejs/copyright: by a Contributor and that particular Contributor's Contribution.
nodejs/copyright: 1.3. "Contribution"
nodejs/copyright: means Covered Software of a particular Contributor.
nodejs/copyright: 1.4. "Covered Software"
nodejs/copyright: means Source Code Form to which the initial Contributor has attached
nodejs/copyright: the notice in Exhibit A, the Executable Form of such Source Code
nodejs/copyright: Form, and Modifications of such Source Code Form, in each case
nodejs/copyright: including portions thereof.
nodejs/copyright: 1.5. "Incompatible With Secondary Licenses"
nodejs/copyright: means
nodejs/copyright: (a) that the initial Contributor has attached the notice described
nodejs/copyright: (b) that the Covered Software was made available under the terms of
nodejs/copyright: .
nodejs/copyright: 1.6. "Executable Form"
nodejs/copyright: means any form of the work other than Source Code Form.
From Ubuntu 16.04 LTS

nodejs/copyright: 1.7. "Larger Work"
nodejs/copyright: means a work that combines Covered Software with other material, in
nodejs/copyright: a separate file or files, that is not Covered Software.

nodejs/copyright: 1.8. "License"
nodejs/copyright: means this document.

nodejs/copyright: 1.9. "Licensable"
nodejs/copyright: means having the right to grant, to the maximum extent possible,
nodejs/copyright: whether at the time of the initial grant or subsequently, any and
nodejs/copyright: all of the rights conveyed by this License.

nodejs/copyright: 1.10. "Modifications"
nodejs/copyright: means any of the following:

nodejs/copyright: (a) any file in Source Code Form that results from an addition to,
nodejs/copyright:

nodejs/copyright: (b) any new file in Source Code Form that contains any Covered
nodejs/copyright:

nodejs/copyright: 1.11. "Patent Claims" of a Contributor
nodejs/copyright: means any patent claim(s), including without limitation, method,
nodejs/copyright: process, and apparatus claims, in any patent Licensable by such
nodejs/copyright: Contributor that would be infringed, but for the grant of the
nodejs/copyright: License, by the making, using, selling, offering for sale, having
nodejs/copyright: made, import, or transfer of either its Contributions or its
nodejs/copyright: Contributor Version.

nodejs/copyright: 1.12. "Secondary License"
nodejs/copyright: means either the GNU General Public License, Version 2.0, the GNU
nodejs/copyright: Lesser General Public License, Version 2.1, the GNU Affero General
nodejs/copyright: Public License, Version 3.0, or any later versions of those
nodejs/copyright: licenses.

nodejs/copyright: 1.13. "Source Code Form"
nodejs/copyright: means the form of the work preferred for making modifications.

nodejs/copyright: 1.14. "You" (or "Your")
nodejs/copyright: means an individual or a legal entity exercising rights under this
nodejs/copyright: License. For legal entities, "You" includes any entity that
nodejs/copyright: controls, is controlled by, or is under common control with You. For
nodejs/copyright: purposes of this definition, "control" means (a) the power, direct

Each Contributor hereby grants You a world-wide, royalty-free, non-exclusive license:

(a) under intellectual property rights (other than patent or trademark) Licensable by such Contributor to use, reproduce, make available, modify, display, perform, distribute, and otherwise exploit its Contributions, either on an unmodified basis, with Modifications, or as part of a Larger Work; and

(b) under Patent Claims of such Contributor to make, use, sell, offer for sale, have made, import, and otherwise transfer either its Contributions or its Contributor Version.

The licenses granted in this Section 2 are the only rights granted under this License. No additional rights or licenses will be implied from the distribution or licensing of Covered Software under this License. Notwithstanding Section 2.1(b) above, no patent license is granted by a Contributor:

(a) for any code that a Contributor has removed from Covered Software;

or

(b) for infringements caused by: (i) Your and any other third party's modifications of Covered Software, or (ii) the combination of its Contributions with other software (except as part of its Contributor Version); or

copyright: 3. Responsibilities
copyright: ------------
copyright: 3.1. Distribution of Source Form
copyright: .
copyright: All distribution of Covered Software in Source Code Form, including any Modifications that You create or to which You contribute, must be under the terms of this License. You must inform recipients that the Source Code Form of the Covered Software is governed by the terms of this License, and how they can obtain a copy of this License. You may not attempt to alter or restrict the recipients' rights in the Source Code Form.
copyright: .
copyright: 3.2. Distribution of Executable Form
nodejs/copyright: If You distribute Covered Software in Executable Form then:
nodejs/copyright: (a) such Covered Software must also be made available in Source Code
nodejs/copyright: Form, as described in Section 3.1, and You must inform recipients of
nodejs/copyright: the Executable Form how they can obtain a copy of such Source Code
nodejs/copyright: Form by reasonable means in a timely manner, at a charge no more
nodejs/copyright: than the cost of distribution to the recipient; and
nodejs/copyright: (b) You may distribute such Executable Form under the terms of this
nodejs/copyright: License, or sublicense it under different terms, provided that the
nodejs/copyright: license for the Executable Form does not attempt to limit or alter
nodejs/copyright: the recipients' rights in the Source Code Form under this License.

nodejs/copyright: 3.3. Distribution of a Larger Work
nodejs/copyright: You may create and distribute a Larger Work under terms of Your choice,
nodejs/copyright: provided that You also comply with the requirements of this License for
nodejs/copyright: the Covered Software. If the Larger Work is a combination of Covered
nodejs/copyright: Software with a work governed by one or more Secondary Licenses, and the
nodejs/copyright: Covered Software is not Incompatible With Secondary Licenses, this
nodejs/copyright: License permits You to additionally distribute such Covered Software
nodejs/copyright: under the terms of such Secondary License(s), so that the recipient of
nodejs/copyright: the Larger Work may, at their option, further distribute the Covered
nodejs/copyright: Software under the terms of either this License or such Secondary
nodejs/copyright: License(s).

nodejs/copyright: 3.4. Notices
nodejs/copyright: You may not remove or alter the substance of any license notices
nodejs/copyright: (including copyright notices, patent notices, disclaimers of warranty,
nodejs/copyright: or limitations of liability) contained within the Source Code Form of
nodejs/copyright: the Covered Software, except that You may alter any license notices to
nodejs/copyright: the extent required to remedy known factual inaccuracies.

nodejs/copyright: 3.5. Application of Additional Terms
nodejs/copyright: You may choose to offer, and to charge a fee for, warranty, support,
nodejs/copyright: indemnity or liability obligations to one or more recipients of Covered
nodejs/copyright: Software. However, You may do so only on Your own behalf, and not on
nodejs/copyright: behalf of any Contributor. You must make it absolutely clear that any
nodejs/copyright: such warranty, support, indemnity, or liability obligation is offered by
nodejs/copyright: You alone, and You hereby agree to indemnify every Contributor for any
nodejs/copyright: liability incurred by such Contributor as a result of warranty, support,
nodejs/copyright: indemnity or liability terms You offer. You may include additional

nodejs/copyright: disclaimers of warranty and limitations of liability specific to any
nodejs/copyright: jurisdiction.
nodejs/copyright: 4. Inability to Comply Due to Statute or Regulation
nodejs/copyright: ---------------------------------------------------
nodejs/copyright: If it is impossible for You to comply with any of the terms of this
nodejs/copyright: License with respect to some or all of the Covered Software due to
nodejs/copyright: statute, judicial order, or regulation then You must: (a) comply with
nodejs/copyright: the terms of this License to the maximum extent possible; and (b)
nodejs/copyright: describe the limitations and the code they affect. Such description must
nodejs/copyright: be placed in a text file included with all distributions of the Covered
nodejs/copyright: Software under this License. Except to the extent prohibited by statute
nodejs/copyright: or regulation, such description must be sufficiently detailed for a
nodejs/copyright: recipient of ordinary skill to be able to understand it.
nodejs/copyright: 5. Termination
nodejs/copyright: --------------
nodejs/copyright: 5.1. The rights granted under this License will terminate automatically
nodejs/copyright: if You fail to comply with any of its terms. However, if You become
nodejs/copyright: compliant, then the rights granted under this License from a particular
nodejs/copyright: Contributor are reinstated (a) provisionally, unless and until such
nodejs/copyright: Contributor explicitly and finally terminates Your grants, and (b) on an
nodejs/copyright: ongoing basis, if such Contributor fails to notify You of the
nodejs/copyright: non-compliance by some reasonable means prior to 60 days after You have
nodejs/copyright: come back into compliance. Moreover, Your grants from a particular
nodejs/copyright: Contributor are reinstated on an ongoing basis if such Contributor
nodejs/copyright: notifies You of the non-compliance by some reasonable means, this is the
nodejs/copyright: first time You have received notice of non-compliance with this License
nodejs/copyright: from such Contributor, and You become compliant prior to 30 days after
nodejs/copyright: Your receipt of the notice.
nodejs/copyright: 5.2. If You initiate litigation against any entity by asserting a patent
nodejs/copyright: infringement claim (excluding declaratory judgment actions,
nodejs/copyright: counter-claims, and cross-claims) alleging that a Contributor Version
nodejs/copyright: directly or indirectly infringes any patent, then the rights granted to
nodejs/copyright: You by any and all Contributors for the Covered Software under Section
nodejs/copyright: 2.1 of this License shall terminate.
nodejs/copyright: 5.3. In the event of termination under Sections 5.1 or 5.2 above, all
nodejs/copyright: end user license agreements (excluding distributors and resellers) which
nodejs/copyright: have been validly granted by You or Your distributors under this License
nodejs/copyright: prior to termination shall survive termination.
nodejs/copyright: 6. Disclaimer of Warranty

nodejs/copyright: 7. Limitation of Liability
nodejs/copyright: Any litigation relating to this License may be brought only in the
courts of a jurisdiction where the defendant maintains its principal
place of business and such litigation shall be governed by laws of that
jurisdiction, without reference to its conflict-of-law provisions.
Nothing in this Section shall prevent a party's ability to bring
cross-claims or counter-claims.

9. Miscellaneous

This License represents the complete agreement concerning the subject
matter hereof. If any provision of this License is held to be
unenforceable, such provision shall be reformed only to the extent
necessary to make it enforceable. Any law or regulation which provides
that the language of a contract shall be construed against the drafter
shall not be used to construe this License against a Contributor.

10. Versions of the License

Mozilla Foundation is the license steward. Except as provided in Section
10.3, no one other than the license steward has the right to modify or
publish new versions of this License. Each version will be given a
distinguishing version number.

10.1. New Versions

You may distribute the Covered Software under the terms of the version
of the License under which You originally received the Covered Software,
or under the terms of any subsequent version published by the license
steward.

10.2. Effect of New Versions

You may distribute the Covered Software under the terms of the version
of the License under which You originally received the Covered Software,
or under the terms of any subsequent version published by the license
steward.

10.3. Modified Versions

If you create software not governed by this License, and you want to
create a new license for such software, you may create and use a
modified version of this License if you rename the license and remove
any references to the name of the license steward (except to note that
such modified license differs from this License).

10.4. Distributing Source Code Form that is Incompatible With Secondary
Licenses
nodejs/copyright: If You choose to distribute Source Code Form that is Incompatible With Secondary Licenses under the terms of this version of the License, the notice described in Exhibit B of this License must be attached.

nodejs/copyright: Exhibit A - Source Code Form License Notice

nodejs-dev/copyright:Comment: ./src/CNNICHashWhitelist.inc has an unclear status as
nodejs-dev/copyright: it is generated by a script from data that is not available in
nodejs-dev/copyright: debian. Note nodejs is patched to use ca-certificates root certs
nodejs-dev/copyright: instead of upstream ones. If the root CNNIC ca is not in
nodejs-dev/copyright: ca-certificates, the white list is useless.

nodejs-dev/copyright: the creation of, or owns Covered Software.
From Ubuntu 16.04 LTS

nodejs-dev/copyright: means the combination of the Contributions of others (if any) used
nodejs-dev/copyright: by a Contributor and that particular Contributor's Contribution.
nodejs-dev/copyright:.
nodejs-dev/copyright: 1.3. "Contribution"
nodejs-dev/copyright: means Covered Software of a particular Contributor.
nodejs-dev/copyright:.
nodejs-dev/copyright: 1.4. "Covered Software"
nodejs-dev/copyright: means Source Code Form to which the initial Contributor has attached
nodejs-dev/copyright: the notice in Exhibit A, the Executable Form of such Source Code
nodejs-dev/copyright: Form, and Modifications of such Source Code Form, in each case
nodejs-dev/copyright: including portions thereof.
nodejs-dev/copyright:.
nodejs-dev/copyright: 1.5. "Incompatible With Secondary Licenses"
nodejs-dev/copyright: means
nodejs-dev/copyright: (a) that the initial Contributor has attached the notice described
nodejs-dev/copyright: (b) that the Covered Software was made available under the terms of

nodejs-dev/copyright: 1.6. "Executable Form"
nodejs-dev/copyright: means any form of the work other than Source Code Form.
nodejs-dev/copyright:.
nodejs-dev/copyright: 1.7. "Larger Work"
nodejs-dev/copyright: means a work that combines Covered Software with other material, in
nodejs-dev/copyright: a separate file or files, that is not Covered Software.
nodejs-dev/copyright:.
nodejs-dev/copyright: 1.8. "License"
nodejs-dev/copyright: means this document.
nodejs-dev/copyright:.
nodejs-dev/copyright: 1.9. "Licensable"
nodejs-dev/copyright: means having the right to grant, to the maximum extent possible,
nodejs-dev/copyright: whether at the time of the initial grant or subsequently, any and
nodejs-dev/copyright: all of the rights conveyed by this License.
nodejs-dev/copyright:.
nodejs-dev/copyright: 1.10. "Modifications"
nodejs-dev/copyright: means any of the following:

nodejs-dev/copyright:

nodejs-dev/copyright: From Ubuntu 16.04 LTS
nodejs-dev/copyright: 1.11. "Patent Claims" of a Contributor
nodejs-dev/copyright: means any patent claim(s), including without limitation, method,
nodejs-dev/copyright: process, and apparatus claims, in any patent Licensable by such
nodejs-dev/copyright: Contributor that would be infringed, but for the grant of the
nodejs-dev/copyright: License, by the making, using, selling, offering for sale, having
nodejs-dev/copyright: made, import, or transfer of either its Contributions or its
nodejs-dev/copyright: Contributor Version.
nodejs-dev/copyright:

nodejs-dev/copyright: 1.12. "Secondary License"
nodejs-dev/copyright: means either the GNU General Public License, Version 2.0, the GNU
nodejs-dev/copyright: Lesser General Public License, Version 2.1, the GNU Affero General

nodejs-dev/copyright: 2. License Grants and Conditions
nodejs-dev/copyright: ------------------------------------------
nodejs-dev/copyright:

nodejs-dev/copyright: 2.1. Grants
nodejs-dev/copyright: Each Contributor hereby grants You a world-wide, royalty-free,
nodejs-dev/copyright: non-exclusive license:
nodejs-dev/copyright: (a) under intellectual property rights (other than patent or trademark)
nodejs-dev/copyright: Licensable by such Contributor to use, reproduce, make available,
nodejs-dev/copyright: modify, display, perform, distribute, and otherwise exploit its
nodejs-dev/copyright: Contributions, either on an unmodified basis, with Modifications, or
nodejs-dev/copyright: as part of a Larger Work; and
nodejs-dev/copyright: (b) under Patent Claims of such Contributor to make, use, sell, offer

nodejs-dev/copyright: Contributions or its Contributor Version.
nodejs-dev/copyright: .
nodejs-dev/copyright: 2.2. Effective Date
nodejs-dev/copyright: .
nodejs-dev/copyright: The licenses granted in Section 2.1 with respect to any Contribution
nodejs-dev/copyright: become effective for each Contribution on the date the Contributor first
nodejs-dev/copyright: distributes such Contribution.
nodejs-dev/copyright: .
nodejs-dev/copyright: 2.3. Limitations on Grant Scope
nodejs-dev/copyright: .
nodejs-dev/copyright: The licenses granted in this Section 2 are the only rights granted under
nodejs-dev/copyright: this License. No additional rights or licenses will be implied from the
nodejs-dev/copyright: distribution or licensing of Covered Software under this License.
nodejs-dev/copyright: Notwithstanding Section 2.1(b) above, no patent license is granted by a
nodejs-dev/copyright: Contributor:
nodejs-dev/copyright: .
nodejs-dev/copyright: (a) for any code that a Contributor has removed from Covered Software;
nodejs-dev/copyright: or
nodejs-dev/copyright: .
nodejs-dev/copyright: (b) for infringements caused by: (i) Your and any other third party's
nodejs-dev/copyright: modifications of Covered Software, or (ii) the combination of its
nodejs-dev/copyright: Contributions with other software (except as part of its Contributor
nodejs-dev/copyright: Version); or
nodejs-dev/copyright: .
nodejs-dev/copyright: (c) under Patent Claims infringed by Covered Software in the absence of
nodejs-dev/copyright: its Contributions.
nodejs-dev/copyright: .
nodejs-dev/copyright: This License does not grant any rights in the trademarks, service marks,
nodejs-dev/copyright: or logos of any Contributor (except as may be necessary to comply with
nodejs-dev/copyright: the notice requirements in Section 3.4).
nodejs-dev/copyright: .
nodejs-dev/copyright: 2.4. Subsequent Licenses
nodejs-dev/copyright: .
nodejs-dev/copyright: No Contributor makes additional grants as a result of Your choice to
nodejs-dev/copyright: distribute the Covered Software under a subsequent version of this
nodejs-dev/copyright: License (see Section 10.2) or under the terms of a Secondary License (if
nodejs-dev/copyright: permitted under the terms of Section 3.3).
nodejs-dev/copyright: .
nodejs-dev/copyright: 2.5. Representation
nodejs-dev/copyright: .
nodejs-dev/copyright: Each Contributor represents that the Contributor believes its
nodejs-dev/copyright: Contributions are its original creation(s) or it has sufficient rights
nodejs-dev/copyright: to grant the rights to its Contributions conveyed by this License.
nodejs-dev/copyright: .
nodejs-dev/copyright: 2.6. Fair Use
From Ubuntu 16.04 LTS

nodejs-dev/copyright: This License is not intended to limit any rights You have under applicable copyright doctrines of fair use, fair dealing, or other equivalents.

nodejs-dev/copyright: 2.7. Conditions

Section 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted in Section 2.1.

nodejs-dev/copyright: 3. Responsibilities

3.1. Distribution of Source Form

All distribution of Covered Software in Source Code Form, including any Modifications that You create or to which You contribute, must be under the terms of this License. You must inform recipients that the Source Code Form of the Covered Software is governed by the terms of this License, and how they can obtain a copy of this License. You may not attempt to alter or restrict the recipients' rights in the Source Code Form.

3.2. Distribution of Executable Form

If You distribute Covered Software in Executable Form then:

(a) such Covered Software must also be made available in Source Code Form, as described in Section 3.1, and You must inform recipients of the Executable Form how they can obtain a copy of such Source Code Form by reasonable means in a timely manner, at a charge no more than the cost of distribution to the recipient; and

(b) You may distribute such Executable Form under the terms of this License, or sublicense it under different terms, provided that the license for the Executable Form does not attempt to limit or alter the recipients' rights in the Source Code Form under this License.

3.3. Distribution of a Larger Work

You may create and distribute a Larger Work under terms of Your choice, provided that You also comply with the requirements of this License for the Covered Software. If the Larger Work is a combination of Covered Software with a work governed by one or more Secondary Licenses, and the Covered Software is not Incompatible With Secondary Licenses, this

From Ubuntu 16.04 LTS

License permits You to additionally distribute such Covered Software under the terms of such Secondary License(s), so that the recipient of the Larger Work may, at their option, further distribute the Covered Software under the terms of either this License or such Secondary License(s).

You may not remove or alter the substance of any license notices (including copyright notices, patent notices, disclaimers of warranty, or limitations of liability) contained within the Source Code Form of the Covered Software, except that You may alter any license notices to the extent required to remedy known factual inaccuracies.

You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, You may do so only on Your own behalf, and not on behalf of any Contributor. You must make it absolutely clear that any such warranty, support, indemnity, or liability obligation is offered by You alone, and You hereby agree to indemnify every Contributor for any liability incurred by such Contributor as a result of warranty, support, indemnity or liability terms You offer. You may include additional disclaimers of warranty and limitations of liability specific to any jurisdiction.

If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Software due to statute, judicial order, or regulation then You must: (a) comply with the terms of this License to the maximum extent possible; and (b) describe the limitations and the code they affect. Such description must be placed in a text file included with all distributions of the Covered Software under this License. Except to the extent prohibited by statute or regulation, such description must be sufficiently detailed for a recipient of ordinary skill to be able to understand it.

The rights granted under this License will terminate automatically if You fail to comply with any of its terms. However, if You become
From Ubuntu 16.04 LTS

nodejs-dev/copyright: compliant, then the rights granted under this License from a particular
nodejs-dev/copyright: Contributor are reinstated (a) provisionally, unless and until such
nodejs-dev/copyright: Contributor explicitly and finally terminates Your grants, and (b) on an
nodejs-dev/copyright: ongoing basis, if such Contributor fails to notify You of the
nodejs-dev/copyright: non-compliance by some reasonable means prior to 60 days after You have
nodejs-dev/copyright: come back into compliance. Moreover, Your grants from a particular
nodejs-dev/copyright: Contributor are reinstated on an ongoing basis if such Contributor
nodejs-dev/copyright: notifies You of the non-compliance by some reasonable means, this is the
nodejs-dev/copyright: first time You have received notice of non-compliance with this License
nodejs-dev/copyright: from such Contributor, and You become compliant prior to 30 days after
nodejs-dev/copyright: Your receipt of the notice.

nodejs-dev/copyright: 5.2. If You initiate litigation against any entity by asserting a patent
nodejs-dev/copyright: infringement claim (excluding declaratory judgment actions,
nodejs-dev/copyright: counter-claims, and cross-claims) alleging that a Contributor Version
nodejs-dev/copyright: directly or indirectly infringes any patent, then the rights granted to
nodejs-dev/copyright: You by any and all Contributors for the Covered Software under Section
nodejs-dev/copyright: 2.1 of this License shall terminate.

nodejs-dev/copyright: 5.3. In the event of termination under Sections 5.1 or 5.2 above, all
nodejs-dev/copyright: end user license agreements (excluding distributors and resellers) which
nodejs-dev/copyright: have been validly granted by You or Your distributors under this License
nodejs-dev/copyright: prior to termination shall survive termination.

nodejs-dev/copyright: 6. Disclaimer of Warranty

nodejs-dev/copyright: Covered Software is provided under this License on an "as is"
nodejs-dev/copyright: basis, without warranty of any kind, either expressed, implied, or
nodejs-dev/copyright: statutory, including, without limitation, warranties that the
nodejs-dev/copyright: Covered Software is free of defects, merchantable, fit for a
nodejs-dev/copyright: particular purpose or non-infringing. The entire risk as to the
nodejs-dev/copyright: quality and performance of the Covered Software is with You.
nodejs-dev/copyright: Should any Covered Software prove defective in any respect, You
nodejs-dev/copyright: (not any Contributor) assume the cost of any necessary servicing,
nodejs-dev/copyright: repair, or correction. This disclaimer of warranty constitutes an
nodejs-dev/copyright: essential part of this License. No use of any Covered Software is
nodejs-dev/copyright: authorized under this License except under this disclaimer.
7. Limitation of Liability

Under no circumstances and under no legal theory, whether tort (including negligence), contract, or otherwise, shall any Contributor, or anyone who distributes Covered Software as permitted above, be liable to You for any direct, indirect, special, incidental, or consequential damages of any character including, without limitation, damages for lost profits, loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses, even if such party shall have been informed of the possibility of such damages. This limitation of liability shall not apply to liability for death or personal injury resulting from such party's negligence to the extent applicable law prohibits such limitation. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so this exclusion and limitation may not apply to You.

8. Litigation

Any litigation relating to this License may be brought only in the courts of a jurisdiction where the defendant maintains its principal place of business and such litigation shall be governed by laws of that jurisdiction, without reference to its conflict-of-law provisions. Nothing in this Section shall prevent a party's ability to bring cross-claims or counter-claims.

9. Miscellaneous

This License represents the complete agreement concerning the subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not be used to construe this License against a Contributor.

nodejs-dev/copyright: distinguishing version number.
nodejs-dev/copyright: .
nodejs-dev/copyright: 10.2. Effect of New Versions
nodejs-dev/copyright: .
nodejs-dev/copyright: You may distribute the Covered Software under the terms of the version

npm/copyright: License: Artistic-2.0
npm/copyright: The Artistic License 2.0
npm/copyright: .
npm/copyright: Copyright (c) 2000-2006, The Perl Foundation.
npm/copyright: .
npm/copyright: Everyone is permitted to copy and distribute verbatim copies
npm/copyright: of this license document, but changing it is not allowed.
npm/copyright: .
npm/copyright: Preamble
npm/copyright: .
npm/copyright: This license establishes the terms under which a given free software
npm/copyright: Package may be copied, modified, distributed, and/or redistributed.
npm/copyright: The intent is that the Copyright Holder maintains some artistic
npm/copyright: control over the development of that Package while still keeping the
npm/copyright: Package available as open source and free software.
npm/copyright: .
npm/copyright: You are always permitted to make arrangements wholly outside of this
npm/copyright: license directly with the Copyright Holder of a given Package. If the
npm/copyright: terms of this license do not permit the full use that you propose to
npm/copyright: make of the Package, you should contact the Copyright Holder and seek
npm/copyright: a different licensing arrangement.

npm/copyright: Definitions
npm/copyright: .

npm/copyright: "Copyright Holder" means the individual(s) or organization(s)
npm/copyright: named in the copyright notice for the entire Package.

npm/copyright: "Contributor" means any party that has contributed code or other
npm/copyright: material to the Package, in accordance with the Copyright Holder's
npm/copyright: procedures.

npm/copyright: "You" and "your" means any person who would like to copy,
npm/copyright: distribute, or modify the Package.

npm/copyright: "Package" means the collection of files distributed by the
npm/copyright: Copyright Holder, and derivatives of that collection and/or of
npm/copyright: those files. A given Package may consist of either the Standard
npm/copyright: Version, or a Modified Version.

npm/copyright: "Distribute" means providing a copy of the Package or making it
npm/copyright: accessible to anyone else, or in the case of a company or
npm/copyright: organization, to others outside of your company or organization.
From Ubuntu 16.04 LTS

npm/copyright: "Distributor Fee" means any fee that you charge for Distributing
this Package or providing support for this Package to another
party. It does not mean licensing fees.

npm/copyright: "Standard Version" refers to the Package if it has not been
modified, or has been modified only in ways explicitly requested
by the Copyright Holder.

npm/copyright: "Modified Version" means the Package, if it has been changed, and
such changes were not explicitly requested by the Copyright
Holder.

npm/copyright: "Original License" means this Artistic License as Distributed with
the Standard Version of the Package, in its current version or as
it may be modified by The Perl Foundation in the future.

npm/copyright: "Source" form means the source code, documentation source, and
configuration files for the Package.

npm/copyright: "Compiled" form means the compiled bytecode, object code, binary,
or any other form resulting from mechanical transformation or
translation of the Source form.

Permission for Use and Modification Without Distribution

npm/copyright: (1) You are permitted to use the Standard Version and create and use
Modified Versions for any purpose without restriction, provided that
you do not Distribute the Modified Version.

Permissions for Redistribution of the Standard Version

npm/copyright: (2) You may Distribute verbatim copies of the Source form of the
Standard Version of this Package in any medium without restriction,
either gratis or for a Distributor Fee, provided that you duplicate
all of the original copyright notices and associated disclaimers. At
your discretion, such verbatim copies may or may not include a
Compiled form of the Package.

npm/copyright: (3) You may apply any bug fixes, portability changes, and other
modifications made available from the Copyright Holder. The resulting
Package will still be considered the Standard Version, and as such
will be subject to the Original License.
npm/copyright: Distribution of Modified Versions of the Package as Source

npm/copyright: (4) You may Distribute your Modified Version as Source (either gratis or for a Distributor Fee, and with or without a Compiled form of the Modified Version) provided that you clearly document how it differs from the Standard Version, including, but not limited to, documenting any non-standard features, executables, or modules, and provided that you do at least ONE of the following:

(a) make the Modified Version available to the Copyright Holder of the Standard Version, under the Original License, so that the Copyright Holder may include your modifications in the Standard Version.

(b) ensure that installation of your Modified Version does not prevent the user installing or running the Standard Version. In addition, the Modified Version must bear a name that is different from the name of the Standard Version.

(c) allow anyone who receives a copy of the Modified Version to make the Source form of the Modified Version available to others under

(i) the Original License or

(ii) a license that permits the licensee to freely copy, modify and redistribute the Modified Version using the same licensing terms that apply to the copy that the licensee received, and requires that the Source form of the Modified Version, and of any works derived from it, be made freely available in that license fees are prohibited but Distributor Fees are allowed.

npm/copyright: Distribution of Compiled Forms of the Standard Version or Modified Versions without the Source

npm/copyright: (5) You may Distribute Compiled forms of the Standard Version without the Source, provided that you include complete instructions on how to get the Source of the Standard Version. Such instructions must be valid at the time of your distribution. If these instructions, at any time while you are carrying out such distribution, become invalid, you must provide new instructions on demand or cease further distribution.
From Ubuntu 16.04 LTS

npm/copyright: If you provide valid instructions or cease distribution within thirty
npm/copyright: days after you become aware that the instructions are invalid, then
npm/copyright: you do not forfeit any of your rights under this license.

npm/copyright: (6) You may Distribute a Modified Version in Compiled form without
npm/copyright: the Source, provided that you comply with Section 4 with respect to
npm/copyright: the Source of the Modified Version.

npm/copyright: (7) You may aggregate the Package (either the Standard Version or
npm/copyright: Modified Version) with other packages and Distribute the resulting
npm/copyright: aggregation provided that you do not charge a licensing fee for the
npm/copyright: Package. Distributor Fees are permitted, and licensing fees for other
npm/copyright: components in the aggregation are permitted. The terms of this license
npm/copyright: apply to the use and Distribution of the Standard or Modified Versions
npm/copyright: as included in the aggregation.

npm/copyright: (8) You are permitted to link Modified and Standard Versions with
npm/copyright: other works, to embed the Package in a larger work of your own, or to
npm/copyright: build stand-alone binary or bytecode versions of applications that
npm/copyright: include the Package, and Distribute the result without restriction,
npm/copyright: provided the result does not expose a direct interface to the Package.

npm/copyright: (9) Works (including, but not limited to, modules and scripts) that
npm/copyright: merely extend or make use of the Package, do not, by themselves, cause
npm/copyright: the Package to be a Modified Version. In addition, such works are not
npm/copyright: considered parts of the Package itself, and are not subject to the
npm/copyright: terms of this license.

npm/copyright: (10) Any use, modification, and distribution of the Standard or
npm/copyright: Modified Versions is governed by this Artistic License. By using,
npm/copyright: modifying or distributing the Package, you accept this license. Do not
npm/copyright: use, modify, or distribute the Package, if you do not accept this
npm/copyright: license.

npm/copyright: (11) If your Modified Version has been derived from a Modified
npm/copyright: Version made by someone other than you, you are nevertheless required
npm/copyright: to ensure that your Modified Version complies with the requirements of
npm/copyright: this license.
npm/copyright: (12) This license does not grant you the right to use any trademark,
npm/copyright: service mark, tradename, or logo of the Copyright Holder.
npm/copyright: (13) This license includes the non-exclusive, worldwide,
npm/copyright: free-of-charge patent license to make, have made, use, offer to sell,
npm/copyright: sell, import and otherwise transfer the Package with respect to any
npm/copyright: patent claims licensable by the Copyright Holder that are necessarily
npm/copyright: infringed by the Package. If you institute patent litigation
npm/copyright: (including a cross-claim or counterclaim) against any party alleging
npm/copyright: that the Package constitutes direct or contributory patent
npm/copyright: infringement, then this Artistic License to you shall terminate on the
npm/copyright: date that such litigation is filed.

npm/copyright: (14) Disclaimer of Warranty:
npm/copyright: THE PACKAGE IS PROVIDED BY THE COPYRIGHT HOLDER AND CONTRIBUTORS "AS
npm/copyright: IS' AND WITHOUT ANY EXPRESS OR IMPLIED WARRANTIES. THE IMPLIED
npm/copyright: WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR
npm/copyright: NON-INFRINGEMENT ARE DISCLAIMED TO THE EXTENT PERMITTED BY YOUR LOCAL
npm/copyright: LAW. UNLESS REQUIRED BY LAW, NO COPYRIGHT HOLDER OR CONTRIBUTOR WILL
npm/copyright: BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL
npm/copyright: DAMAGES ARISING IN ANY WAY OUT OF THE USE OF THE PACKAGE, EVEN IF
npm/copyright: ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

opencryptoki/copyright:
1. DEFINITIONS

"Contribution" means:

a) in the case of the initial Contributor, the initial code and documentation distributed under this Agreement, and

b) in the case of each subsequent Contributor:

i) changes to the Program, and

ii) additions to the Program;

where such changes and/or additions to the Program originate from and are distributed by that particular Contributor. A Contribution 'originates' from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor’s behalf. Contributions do not include additions to the Program which: (i) are separate modules of software distributed in conjunction with the Program under their own license agreement, and (ii) are not derivative works of the Program.

"Contributor" means any person or entity that distributes the Program.

"Licensed Patents " mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.

"Program" means the Contributions distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement, including all Contributors.

2. GRANT OF RIGHTS

a) Subject to the terms of this Agreement, each Contributor hereby grants...
From Ubuntu 16.04 LTS

Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form.

b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c) Recipient understands that although each Contributor grants the licenses to its Contributions set forth herein, no assurances are provided by any Contributor that the Program does not infringe the patent or other intellectual property rights of any other entity. Each Contributor disclaims any liability to Recipient for claims brought by any other entity based on infringement of intellectual property rights or otherwise. As a condition to exercising the rights and licenses granted hereunder, each Recipient hereby assumes sole responsibility to secure any other intellectual property rights needed, if any.

For example, if a third party patent license is required to allow Recipient to distribute the Program, it is Recipient's responsibility to acquire that license before distributing the Program.

d) Each Contributor represents that to its knowledge it has sufficient copyright rights in its Contribution, if any, to grant the copyright license set forth in this Agreement.

3. REQUIREMENTS

A Contributor may choose to distribute the Program in object code form under its own license agreement, provided that:

a) it complies with the terms and conditions of this Agreement; and

b) its license agreement:

i) effectively disclaims on behalf of all Contributors all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose;
From Ubuntu 16.04 LTS

ii) effectively excludes on behalf of all Contributors all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits;

iii) states that any provisions which differ from this Agreement are offered by that Contributor alone and not by any other party; and

iv) states that source code for the Program is available from such Contributor, and informs licensees how to obtain it in a reasonable manner on or through a medium customarily used for software exchange.

When the Program is made available in source code form:

a) it must be made available under this Agreement; and

b) a copy of this Agreement must be included with each copy of the Program.

Contributors may not remove or alter any copyright notices contained within the Program.

Each Contributor must identify itself as the originator of its Contribution, if any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor (“Commercial Contributor”) hereby agrees to defend and indemnify every other Contributor (“Indemnified Contributor”) against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may
From Ubuntu 16.04 LTS

openencryptoki/copyright: participate in any such claim at its own expense.
openencryptoki/copyright: 
openencryptoki/copyright: For example, a Contributor might include the Program in a commercial product
openencryptoki/copyright: offering, Product X. That Contributor is then a Commercial Contributor. If that
openencryptoki/copyright: Commercial Contributor then makes performance claims, or offers warranties
openencryptoki/copyright: related to Product X, those performance claims and warranties are such
openencryptoki/copyright: Commercial Contributor’s responsibility alone. Under this section, the
openencryptoki/copyright: Commercial Contributor would have to defend claims against the other
openencryptoki/copyright: Contributors related to those performance claims and warranties, and if a court
openencryptoki/copyright: requires any other Contributor to pay any damages as a result, the Commercial
openencryptoki/copyright: Contributor must pay those damages.
openencryptoki/copyright: 
openencryptoki/copyright: 5. NO WARRANTY
openencryptoki/copyright: 
openencryptoki/copyright: EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, THE PROGRAM IS PROVIDED
openencryptoki/copyright: "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, EITHER EXPRESS
openencryptoki/copyright: IMPLIED INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OR CONDITIONS OF
openencryptoki/copyright: NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.
openencryptoki/copyright: 
openencryptoki/copyright: Recipient is solely responsible for determining the appropriateness of using
openencryptoki/copyright: and distributing the Program and assumes all risks associated with its exercise
openencryptoki/copyright: of rights under this Agreement, including but not limited to the risks and
openencryptoki/copyright: costs of program errors, compliance with applicable laws, damage to or loss of
openencryptoki/copyright: data, programs or equipment, and unavailability or interruption of operations.
openencryptoki/copyright: 
openencryptoki/copyright: 6. DISCLAIMER OF LIABILITY
openencryptoki/copyright: 
openencryptoki/copyright: EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY
openencryptoki/copyright: CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL,
openencryptoki/copyright: SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT
openencryptoki/copyright: PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN
openencryptoki/copyright: STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY
openencryptoki/copyright: WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY
openencryptoki/copyright: GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.
openencryptoki/copyright: 
openencryptoki/copyright: 7. GENERAL
openencryptoki/copyright: 
openencryptoki/copyright: If any provision of this Agreement is invalid or unenforceable under applicable
openencryptoki/copyright: law, it shall not affect the validity or enforceability of the remainder of the
openencryptoki/copyright: terms of this Agreement, and without further action by the parties hereto, such
openencryptoki/copyright: provision shall be reformed to the minimum extent necessary to make such
openencryptoki/copyright: provision valid and enforceable.
openencryptoki/copyright: 
openencryptoki/copyright: If Recipient institutes patent litigation against a Contributor with respect to
openencryptoki/copyright: a patent applicable to software (including a cross-claim or counterclaim in a
openencryptoki/copyright: lawsuit), then any patent licenses granted by that Contributor to such
opencryptoki/copyright: Recipient under this Agreement shall terminate as of the date such litigation is filed. In addition, if Recipient institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Program itself (excluding combinations of the Program with other software or hardware) infringes such Recipient's patent(s), then such Recipient's rights granted under Section 2(b) shall terminate as of the date such litigation is filed.

opencryptoki/copyright: All Recipient's rights under this Agreement shall terminate if it fails to comply with any of the material terms or conditions of this Agreement and does not cure such failure in a reasonable period of time after becoming aware of such noncompliance. If all Recipient's rights under this Agreement terminate, Recipient agrees to cease use and distribution of the Program as soon as reasonably practicable. However, Recipient's obligations under this Agreement and any licenses granted by Recipient relating to the Program shall continue and survive.

opencryptoki/copyright: Everyone is permitted to copy and distribute copies of this Agreement, but in order to avoid inconsistency the Agreement is copyrighted and may only be modified in the following manner. The Agreement Steward reserves the right to publish new versions (including revisions) of this Agreement from time to time. No one other than the Agreement Steward has the right to modify this Agreement. IBM is the initial Agreement Steward. IBM may assign the responsibility to serve as the Agreement Steward to a suitable separate entity. Each new version of the Agreement will be given a distinguishing version number. The Program (including Contributions) may always be distributed subject to the version of the Agreement under which it was received. In addition, after a new version of the Agreement is published, Contributor may elect to distribute the Program (including its Contributions) under the new version. Except as expressly stated in Sections 2(a) and 2(b) above, Recipient receives no rights or licenses to the intellectual property of any Contributor under this Agreement, whether expressly, by implication, estoppel or otherwise. All rights in the Program not expressly granted under this Agreement are reserved.

opencryptoki/copyright: This Agreement is governed by the laws of the State of New York and the intellectual property laws of the United States of America. No party to this Agreement will bring a legal action under this Agreement more than one year after the cause of action arose. Each party waives its rights to a jury trial in any resulting litigation.

openjdk-8-jre-headless/copyright:A Note About License Headers
openjdk-8-jre-headless/copyright:-----------------------------
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:Some sources downloaded from openjdk.java.net do not display the GPL
openjdk-8-jre-headless/copyright:license header. Instances are:
From Ubuntu 16.04 LTS

openjdk-8-jre-headless/copyright: - The files in openjdk/j2se/src/share/classes/javax/xml/stream/ seem to comprise the BEA-StAX source code
openjdk-8-jre-headless/copyright: with some Sun-specific modifications. We’re assuming that Sun is bundling BEA-StAX under the terms of the Apache License 2.0 and that the modifications are owned by Sun.
openjdk-8-jre-headless/copyright: - We are assuming that these files are owned by Sun:
openjdk-8-jre-headless/copyright: openjdk/j2se/src/share/classes/**/resources/*.properties
openjdk-8-jre-headless/copyright: The downloaded sources include a script that inserts proprietary license headers into the source files it generates. The script itself is GPL’d so we patched them to emit the GPL header. The file is:
openjdk-8-jre-headless/copyright: openjdk/j2se/make/java/nio/genExceptions.sh
openjdk-8-jre-headless/copyright:------------------------------------------------------------------------------
openjdk-8-jre-headless/copyright:OPENJDK ASSEMBLY EXCEPTION

openjdk-8-jre-headless/copyright: Certain source files distributed by Sun Microsystems, Inc. are subject to the following clarification and special exception to the GPL, but only where Sun has expressly included in the particular source file's header the words "Sun designates this particular file as subject to the "Classpath" exception as provided by Sun in the LICENSE file that accompanied this code."
openjdk-8-jre-headless/copyright:------------------------------------------------------------------------------
openjdk-8-jre-headless/copyright:CLAASPATH" EXCEPTION TO THE GPL
openjdk-8-jre-headless/copyright: Linking this library statically or dynamically with other modules is making a combined work based on this library. Thus, the terms and conditions of the GNU General Public License cover the whole combination.
openjdk-8-jre-headless/copyright: As a special exception, the copyright holders of this library give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you may extend this exception to your version of the library, but you are not obligated to do so. If you do not wish to do so, delete this exception statement from your version.
openjdk-8-jre-headless/copyright:------------------------------------------------------------------------------

From Ubuntu 16.04 LTS

openjdk-8-jre-headless/copyright: The OpenJDK source code made available by Sun at openjdk.java.net and openjdk-8-jre-headless/copyright:openjdk.dev.java.net ("OpenJDK Code") is distributed under the terms of the openjdk-8-jre-headless/copyright:GNU General Public License <http://www.gnu.org/copyleft/gpl.html> version 2 openjdk-8-jre-headless/copyright:only ("GPL2"), with the following clarification and special exception.

openjdk-8-jre-headless/copyright: Linking this OpenJDK Code statically or dynamically with other code openjdk-8-jre-headless/copyright:is making a combined work based on this library. Thus, the terms openjdk-8-jre-headless/copyright:and conditions of GPL2 cover the whole combination.
openjdk-8-jre-headless/copyright:As a special exception, Sun gives you permission to link this openjdk-8-jre-headless/copyright:OpenJDK Code with certain code licensed by Sun as indicated at openjdk-8-jre-headless/copyright:http://openjdk.java.net/legal/exception-modules-2007-05-08.html openjdk-8-jre-headless/copyright: ("Designated Exception Modules") to produce an executable, openjdk-8-jre-headless/copyright:regardless of the license terms of the Designated Exception Modules, openjdk-8-jre-headless/copyright:and to copy and distribute the resulting executable under GPL2, openjdk-8-jre-headless/copyright:provided that the Designated Exception Modules continue to be openjdk-8-jre-headless/copyright: governed by the licenses under which they were offered by Sun.
openjdk-8-jre-headless/copyright:As such, it allows licensees and sublicensees of Sun's GPL2 OpenJDK Code to openjdk-8-jre-headless/copyright:build an executable that includes those portions of necessary code that Sun openjdk-8-jre-headless/copyright:could not provide under GPL2 (or that Sun has provided under GPL2 with the openjdk-8-jre-headless/copyright:Classpath exception). If you modify or add to the OpenJDK code, that new openjdk-8-jre-headless/copyright:GPL2 code may still be combined with Designated Exception Modules if the openjdk-8-jre-headless/copyright:new code is made subject to this exception by its copyright holder.

openjdk-8-jre-headless/copyright:that ERCIM is now a host of the W3C, includes references to this specific

openjdk-8-jre-headless/copyright:51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA
openjdk-8-jre-headless/copyright:Everyone is permitted to copy and distribute verbatim copies
openjdk-8-jre-headless/copyright:of this license document, but changing it is not allowed.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:[This is the first released version of the Lesser GPL. It also counts
openjdk-8-jre-headless/copyright:as the successor of the GNU Library Public License, version 2, hence
openjdk-8-jre-headless/copyright:the version number 2.1.]
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:Preamble
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:The licenses for most software are designed to take away your
openjdk-8-jre-headless/copyright:freedom to share and change it. By contrast, the GNU General Public
openjdk-8-jre-headless/copyright:licenses are intended to guarantee your freedom to share and change
openjdk-8-jre-headless/copyright:free software--to make sure the software is free for all its users.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:This license, the Lesser General Public License, applies to some
openjdk-8-jre-headless/copyright:specially designated software packages--typically libraries--of the
openjdk-8-jre-headless/copyright:Free Software Foundation and other authors who decide to use it. You
openjdk-8-jre-headless/copyright:can use it too, but we suggest you first think carefully about whether
openjdk-8-jre-headless/copyright:this license or the ordinary General Public License is the better
openjdk-8-jre-headless/copyright:strategy to use in any particular case, based on the explanations below.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:When we speak of free software, we are referring to freedom of use,
openjdk-8-jre-headless/copyright:not price. Our General Public Licenses are designed to make sure that
openjdk-8-jre-headless/copyright:you have the freedom to distribute copies of free software (and charge
From Ubuntu 16.04 LTS

openjdk-8-jre-headless/copyright:for this service if you wish); that you receive source code or can get
openjdk-8-jre-headless/copyright:it if you want it; that you can change the software and use pieces of
openjdk-8-jre-headless/copyright:it in new free programs; and that you are informed that you can do
openjdk-8-jre-headless/copyright:these things.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: To protect your rights, we need to make restrictions that forbid
openjdk-8-jre-headless/copyright:distributors to deny you these rights or to ask you to surrender these
openjdk-8-jre-headless/copyright:rights. These restrictions translate to certain responsibilities for
openjdk-8-jre-headless/copyright:you if you distribute copies of the library or if you modify it.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: For example, if you distribute copies of the library, whether gratis
openjdk-8-jre-headless/copyright:or for a fee, you must give the recipients all the rights that we gave
openjdk-8-jre-headless/copyright:you. You must make sure that they, too, receive or can get the source
openjdk-8-jre-headless/copyright:code. If you link other code with the library, you must provide
openjdk-8-jre-headless/copyright:complete object files to the recipients, so that they can relink them
openjdk-8-jre-headless/copyright:with the library after making changes to the library and recompiling
openjdk-8-jre-headless/copyright:it. And you must show them these terms so they know their rights.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: We protect your rights with a two-step method: (1) we copyright the
openjdk-8-jre-headless/copyright:library, and (2) we offer you this license, which gives you legal
openjdk-8-jre-headless/copyright:permission to copy, distribute and/or modify the library.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: To protect each distributor, we want to make it very clear that
openjdk-8-jre-headless/copyright:there is no warranty for the free library. Also, if the library is
openjdk-8-jre-headless/copyright:modified by someone else and passed on, the recipients should know
openjdk-8-jre-headless/copyright:that what they have is not the original version, so that the original
openjdk-8-jre-headless/copyright:author’s reputation will not be affected by problems that might be
openjdk-8-jre-headless/copyright:introduced by others.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: Finally, software patents pose a constant threat to the existence of
openjdk-8-jre-headless/copyright:any free program. We wish to make sure that a company cannot
openjdk-8-jre-headless/copyright:effectively restrict the users of a free program by obtaining a
openjdk-8-jre-headless/copyright:restrictive license from a patent holder. Therefore, we insist that
openjdk-8-jre-headless/copyright:any patent license obtained for a version of the library must be
openjdk-8-jre-headless/copyright:consistent with the full freedom of use specified in this license.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: Most GNU software, including some libraries, is covered by the
openjdk-8-jre-headless/copyright:ordinary GNU General Public License. This license, the GNU Lesser
openjdk-8-jre-headless/copyright:General Public License, applies to certain designated libraries, and
openjdk-8-jre-headless/copyright:is quite different from the ordinary General Public License. We use
openjdk-8-jre-headless/copyright:this license for certain libraries in order to permit linking those
openjdk-8-jre-headless/copyright:libraries into non-free programs.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: When a program is linked with a library, whether statically or using
openjdk-8-jre-headless/copyright:a shared library, the combination of the two is legally speaking a
openjdk-8-jre-headless/copyright:combined work, a derivative of the original library. The ordinary
openjdk-8-jre-headless/copyright:General Public License therefore permits such linking only if the
openjdk-8-jre-headless/copyright:entire combination fits its criteria of freedom. The Lesser General
openjdk-8-jre-headless/copyright:Public License permits more lax criteria for linking other code with
openjdk-8-jre-headless/copyright:the library.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: We call this license the "Lesser" General Public License because it
openjdk-8-jre-headless/copyright:does Less to protect the user's freedom than the ordinary General
openjdk-8-jre-headless/copyright:Public License. It also provides other free software developers Less
openjdk-8-jre-headless/copyright:of an advantage over competing non-free programs. These disadvantages
openjdk-8-jre-headless/copyright:are the reason we use the ordinary General Public License for many
openjdk-8-jre-headless/copyright:libraries. However, the Lesser license provides advantages in certain
openjdk-8-jre-headless/copyright:special circumstances.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: For example, on rare occasions, there may be a special need to
openjdk-8-jre-headless/copyright:encourage the widest possible use of a certain library, so that it becomes
openjdk-8-jre-headless/copyright:a de-facto standard. To achieve this, non-free programs must be
openjdk-8-jre-headless/copyright:allowed to use the library. A more frequent case is that a free
openjdk-8-jre-headless/copyright:library does the same job as widely used non-free libraries. In this
openjdk-8-jre-headless/copyright:case, there is little to gain by limiting the free library to free
openjdk-8-jre-headless/copyright:software only, so we use the Lesser General Public License.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: In other cases, permission to use a particular library in non-free
openjdk-8-jre-headless/copyright:programs enables a greater number of people to use a large body of
openjdk-8-jre-headless/copyright:free software. For example, permission to use the GNU C Library in
openjdk-8-jre-headless/copyright:non-free programs enables many more people to use the whole GNU
openjdk-8-jre-headless/copyright:operating system, as well as its variant, the GNU/Linux operating
openjdk-8-jre-headless/copyright:system.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: Although the Lesser General Public License is Less protective of the
openjdk-8-jre-headless/copyright:users' freedom, it does ensure that the user of a program that is
openjdk-8-jre-headless/copyright:linked with the Library has the freedom and the wherewithal to run
openjdk-8-jre-headless/copyright:that program using a modified version of the Library.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: The precise terms and conditions for copying, distribution and
openjdk-8-jre-headless/copyright:modification follow. Pay close attention to the difference between a
openjdk-8-jre-headless/copyright:"work based on the library" and a "work that uses the library". The
openjdk-8-jre-headless/copyright:former contains code derived from the library, whereas the latter must
openjdk-8-jre-headless/copyright:be combined with the library in order to run.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: GNU LESSER GENERAL PUBLIC LICENSE
openjdk-8-jre-headless/copyright: TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: 0. This License Agreement applies to any software library or other
openjdk-8-jre-headless/copyright:program which contains a notice placed by the copyright holder or
From Ubuntu 16.04 LTS

openjdk-8-jre-headless/copyright:other authorized party saying it may be distributed under the terms of
openjdk-8-jre-headless/copyright:this Lesser General Public License (also called "this License").
openjdk-8-jre-headless/copyright:Each licensee is addressed as "you".
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: A "library" means a collection of software functions and/or data
openjdk-8-jre-headless/copyright:prepared so as to be conveniently linked with application programs
openjdk-8-jre-headless/copyright:(which use some of those functions and data) to form executables.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: The "Library", below, refers to any such software library or work
openjdk-8-jre-headless/copyright:which has been distributed under these terms. A "work based on the
openjdk-8-jre-headless/copyright:Library" means either the Library or any derivative work under
openjdk-8-jre-headless/copyright:copyright law: that is to say, a work containing the Library or a
openjdk-8-jre-headless/copyright:portion of it, either verbatim or with modifications and/or translated
openjdk-8-jre-headless/copyright:straightforwardly into another language. (Hereinafter, translation is
openjdk-8-jre-headless/copyright:included without limitation in the term "modification").
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: "Source code" for a work means the preferred form of the work for
openjdk-8-jre-headless/copyright:making modifications to it. For a library, complete source code means
openjdk-8-jre-headless/copyright:all the source code for all modules it contains, plus any associated
openjdk-8-jre-headless/copyright:interface definition files, plus the scripts used to control compilation
openjdk-8-jre-headless/copyright:and installation of the library.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: Activities other than copying, distribution and modification are not
openjdk-8-jre-headless/copyright:covered by this License; they are outside its scope. The act of
openjdk-8-jre-headless/copyright:running a program using the Library is not restricted, and output from
openjdk-8-jre-headless/copyright:such a program is covered only if its contents constitute a work based
openjdk-8-jre-headless/copyright:on the Library (independent of the use of the Library in a tool for
openjdk-8-jre-headless/copyright:writing it). Whether that is true depends on what the Library does
openjdk-8-jre-headless/copyright:and what the program that uses the Library does.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: 1. You may copy and distribute verbatim copies of the Library's
openjdk-8-jre-headless/copyright:complete source code as you receive it, in any medium, provided that
openjdk-8-jre-headless/copyright:you conspicuously and appropriately publish on each copy an
openjdk-8-jre-headless/copyright:appropriate copyright notice and disclaimer of warranty; keep intact
openjdk-8-jre-headless/copyright:all the notices that refer to this License and to the absence of any
openjdk-8-jre-headless/copyright:warranty; and distribute a copy of this License along with the
openjdk-8-jre-headless/copyright:Library.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: You may charge a fee for the physical act of transferring a copy,
openjdk-8-jre-headless/copyright:and you may at your option offer warranty protection in exchange for a
openjdk-8-jre-headless/copyright:fee.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: 2. You may modify your copy or copies of the Library or any portion
openjdk-8-jre-headless/copyright:of it, thus forming a work based on the Library, and copy and
openjdk-8-jre-headless/copyright:distribute such modifications or work under the terms of Section 1
From Ubuntu 16.04 LTS

openjdk-8-jre-headless/copyright:above, provided that you also meet all of these conditions:
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:  a) The modified work must itself be a software library.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:  b) You must cause the files modified to carry prominent notices
openjdk-8-jre-headless/copyright:    stating that you changed the files and the date of any change.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:  c) You must cause the whole of the work to be licensed at no
openjdk-8-jre-headless/copyright:    charge to all third parties under the terms of this License.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:  d) If a facility in the modified Library refers to a function or a
openjdk-8-jre-headless/copyright:    table of data to be supplied by an application program that uses
openjdk-8-jre-headless/copyright:    the facility, other than as an argument passed when the facility
openjdk-8-jre-headless/copyright:    is invoked, then you must make a good faith effort to ensure that,
openjdk-8-jre-headless/copyright:    in the event an application does not supply such function or
openjdk-8-jre-headless/copyright:    table, the facility still operates, and performs whatever part of
openjdk-8-jre-headless/copyright:    its purpose remains meaningful.
openjdk-8-jre-headless/copyright: (For example, a function in a library to compute square roots has
openjdk-8-jre-headless/copyright:    a purpose that is entirely well-defined independent of the
openjdk-8-jre-headless/copyright:    application. Therefore, Subsection 2d requires that any
openjdk-8-jre-headless/copyright:    application-supplied function or table used by this function must
openjdk-8-jre-headless/copyright:    be optional: if the application does not supply it, the square
openjdk-8-jre-headless/copyright:    root function must still compute square roots.)
openjdk-8-jre-headless/copyright:These requirements apply to the modified work as a whole. If
openjdk-8-jre-headless/copyright:identifiable sections of that work are not derived from the Library,
openjdk-8-jre-headless/copyright:and can be reasonably considered independent and separate works in
openjdk-8-jre-headless/copyright:themselves, then this License, and its terms, do not apply to those
openjdk-8-jre-headless/copyright:sections when you distribute them as separate works. But when you
openjdk-8-jre-headless/copyright:distribute the same sections as part of a whole which is a work based
openjdk-8-jre-headless/copyright:on the Library, the distribution of the whole must be on the terms of
openjdk-8-jre-headless/copyright:this License, whose permissions for other licensees extend to the
openjdk-8-jre-headless/copyright:entire whole, and thus to each and every part regardless of who wrote
openjdk-8-jre-headless/copyright:it.
openjdk-8-jre-headless/copyright:Thus, it is not the intent of this section to claim rights or contest
openjdk-8-jre-headless/copyright:your rights to work written entirely by you; rather, the intent is to
openjdk-8-jre-headless/copyright:exercise the right to control the distribution of derivative or
openjdk-8-jre-headless/copyright:collective works based on the Library.
openjdk-8-jre-headless/copyright:In addition, mere aggregation of another work not based on the Library
openjdk-8-jre-headless/copyright:with the Library (or with a work based on the Library) on a volume of
openjdk-8-jre-headless/copyright:a storage or distribution medium does not bring the other work under
openjdk-8-jre-headless/copyright:the scope of this License.
openjdk-8-jre-headless/copyright: 3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do so, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

openjdk-8-jre-headless/copyright: Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

openjdk-8-jre-headless/copyright: This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

openjdk-8-jre-headless/copyright: 4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

openjdk-8-jre-headless/copyright: If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

openjdk-8-jre-headless/copyright: 5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

openjdk-8-jre-headless/copyright: However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License.

openjdk-8-jre-headless/copyright: Section 6 states terms for distribution of such executables.

openjdk-8-jre-headless/copyright: When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not.
From Ubuntu 16.04 LTS

openjdk-8-jre-headless/copyright: Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

openjdk-8-jre-headless/copyright: If such an object file uses only numerical parameters, data structures layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

openjdk-8-jre-headless/copyright: Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6.

openjdk-8-jre-headless/copyright: Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

openjdk-8-jre-headless/copyright: As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

openjdk-8-jre-headless/copyright: You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a
openjdk-8-jre-headless/copyright: copy of the library already present on the user’s computer system,
openjdk-8-jre-headless/copyright: rather than copying library functions into the executable, and (2)
openjdk-8-jre-headless/copyright: will operate properly with a modified version of the library, if
openjdk-8-jre-headless/copyright: the user installs one, as long as the modified version is
openjdk-8-jre-headless/copyright: interface-compatible with the version that the work was made with.
openjdk-8-jre-headless/copyright: c) Accompany the work with a written offer, valid for at
openjdk-8-jre-headless/copyright: least three years, to give the same user the materials
openjdk-8-jre-headless/copyright: specified in Subsection 6a, above, for a charge no more
openjdk-8-jre-headless/copyright: than the cost of performing this distribution.
openjdk-8-jre-headless/copyright: d) If distribution of the work is made by offering access to copy
openjdk-8-jre-headless/copyright: from a designated place, offer equivalent access to copy the above
openjdk-8-jre-headless/copyright: specified materials from the same place.
openjdk-8-jre-headless/copyright: e) Verify that the user has already received a copy of these
openjdk-8-jre-headless/copyright: materials or that you have already sent this user a copy.
openjdk-8-jre-headless/copyright: For an executable, the required form of the "work that uses the
openjdk-8-jre-headless/copyright:Library" must include any data and utility programs needed for
openjdk-8-jre-headless/copyright:reproducing the executable from it. However, as a special exception,
openjdk-8-jre-headless/copyright:the materials to be distributed need not include anything that is
openjdk-8-jre-headless/copyright:normally distributed (in either source or binary form) with the major
openjdk-8-jre-headless/copyright:components (compiler, kernel, and so on) of the operating system on
openjdk-8-jre-headless/copyright:which the executable runs, unless that component itself accompanies
openjdk-8-jre-headless/copyright:the executable.
openjdk-8-jre-headless/copyright: It may happen that this requirement contradicts the license
openjdk-8-jre-headless/copyright:restrictions of other proprietary libraries that do not normally
openjdk-8-jre-headless/copyright:accompany the operating system. Such a contradiction means you cannot
openjdk-8-jre-headless/copyright:use both them and the Library together in an executable that you
openjdk-8-jre-headless/copyright:distribute.
openjdk-8-jre-headless/copyright: 7. You may place library facilities that are a work based on the
openjdk-8-jre-headless/copyright:Library side-by-side in a single library together with other library
openjdk-8-jre-headless/copyright:facilities not covered by this License, and distribute such a combined
openjdk-8-jre-headless/copyright:library, provided that the separate distribution of the work based on
openjdk-8-jre-headless/copyright:the Library and of the other library facilities is otherwise
openjdk-8-jre-headless/copyright:permitted, and provided that you do these two things:
openjdk-8-jre-headless/copyright: a) Accompany the combined library with a copy of the same work
openjdk-8-jre-headless/copyright: based on the Library, uncombined with any other library
openjdk-8-jre-headless/copyright: facilities. This must be distributed under the terms of the
openjdk-8-jre-headless/copyright: Sections above.
b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.
From Ubuntu 16.04 LTS

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.
openjdk-8-jre-headless/copyright: NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

Copyright (C) <year> <name of author>

This library is free software; you can redistribute it and/or modify it under the terms of the GNU Lesser General Public License as published by the Free Software Foundation; either version 2.1 of the License, or (at your option) any later version.

openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:1. Definitions
openjdk-8-jre-headless/copyright:--------------
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:1.1. "Contributor"
openjdk-8-jre-headless/copyright: means each individual or legal entity that creates, contributes to
openjdk-8-jre-headless/copyright: the creation of, or owns Covered Software.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:1.2. "Contributor Version"
openjdk-8-jre-headless/copyright: means the combination of the Contributions of others (if any) used
openjdk-8-jre-headless/copyright: by a Contributor and that particular Contributor's Contribution.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:1.3. "Contribution"
openjdk-8-jre-headless/copyright: means Covered Software of a particular Contributor.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:1.4. "Covered Software"
openjdk-8-jre-headless/copyright: means Source Code Form to which the initial Contributor has attached
openjdk-8-jre-headless/copyright: the notice in Exhibit A, the Executable Form of such Source Code
openjdk-8-jre-headless/copyright: Form, and Modifications of such Source Code Form, in each case
openjdk-8-jre-headless/copyright: including portions thereof.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:1.5. "Incompatible With Secondary Licenses"
openjdk-8-jre-headless/copyright: means
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:1.6. "Executable Form"
openjdk-8-jre-headless/copyright: means any form of the work other than Source Code Form.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:1.7. "Larger Work"
openjdk-8-jre-headless/copyright: means a work that combines Covered Software with other material, in
openjdk-8-jre-headless/copyright: a separate file or files, that is not Covered Software.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:1.8. "License"
openjdk-8-jre-headless/copyright: means this document.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright:1.9. "Licensable"
From Ubuntu 16.04 LTS

openjdk-8-jre-headless/copyright: means having the right to grant, to the maximum extent possible,
openjdk-8-jre-headless/copyright: whether at the time of the initial grant or subsequently, any and
openjdk-8-jre-headless/copyright: all of the rights conveyed by this License.

openjdk-8-jre-headless/copyright:1.10. "Modifications"
openjdk-8-jre-headless/copyright: means any of the following:
openjdk-8-jre-headless/copyright: (a) any file in Source Code Form that results from an addition to,
openjdk-8-jre-headless/copyright: deletion from, or modification of the contents of Covered
openjdk-8-jre-headless/copyright: Software; or
openjdk-8-jre-headless/copyright: (b) any new file in Source Code Form that contains any Covered
openjdk-8-jre-headless/copyright: Software.

openjdk-8-jre-headless/copyright:1.11. "Patent Claims" of a Contributor
openjdk-8-jre-headless/copyright: means any patent claim(s), including without limitation, method,
openjdk-8-jre-headless/copyright: process, and apparatus claims, in any patent Licensable by such
openjdk-8-jre-headless/copyright: Contributor that would be infringed, but for the grant of the
openjdk-8-jre-headless/copyright: License, by the making, using, selling, offering for sale, having
openjdk-8-jre-headless/copyright: made, import, or transfer of either its Contributions or its
openjdk-8-jre-headless/copyright: Contributor Version.

openjdk-8-jre-headless/copyright:1.12. "Secondary License"
openjdk-8-jre-headless/copyright: means either the GNU General Public License, Version 2.0, the GNU
openjdk-8-jre-headless/copyright: Lesser General Public License, Version 2.1, the GNU Afferro General
openjdk-8-jre-headless/copyright: Public License, Version 3.0, or any later versions of those
openjdk-8-jre-headless/copyright: licenses.

openjdk-8-jre-headless/copyright:1.13. "Source Code Form"
openjdk-8-jre-headless/copyright: means the form of the work preferred for making modifications.

openjdk-8-jre-headless/copyright:1.14. "You" (or "Your")
openjdk-8-jre-headless/copyright: means an individual or a legal entity exercising rights under this
openjdk-8-jre-headless/copyright: License. For legal entities, "You" includes any entity that
openjdk-8-jre-headless/copyright: controls, is controlled by, or is under common control with You. For
openjdk-8-jre-headless/copyright: purposes of this definition, "control" means (a) the power, direct
openjdk-8-jre-headless/copyright: or indirect, to cause the direction or management of such entity,
openjdk-8-jre-headless/copyright: whether by contract or otherwise, or (b) ownership of more than
openjdk-8-jre-headless/copyright: fifty percent (50%) of the outstanding shares or beneficial
openjdk-8-jre-headless/copyright: ownership of such entity.

openjdk-8-jre-headless/copyright:2. License Grants and Conditions
openjdk-8-jre-headless/copyright:---------------------------------
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: Each Contributor hereby grants You a world-wide, royalty-free,
openjdk-8-jre-headless/copyright: non-exclusive license:
openjdk-8-jre-headless/copyright: (a) under intellectual property rights (other than patent or trademark)
openjdk-8-jre-headless/copyright: Licensable by such Contributor to use, reproduce, make available,
openjdk-8-jre-headless/copyright: modify, display, perform, distribute, and otherwise exploit its
openjdk-8-jre-headless/copyright: Contributions, either on an unmodified basis, with Modifications, or
openjdk-8-jre-headless/copyright: as part of a Larger Work; and
openjdk-8-jre-headless/copyright: (b) under Patent Claims of such Contributor to make, use, sell, offer
openjdk-8-jre-headless/copyright: for sale, have made, import, and otherwise transfer either its
openjdk-8-jre-headless/copyright: Contributions or its Contributor Version.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: 2.2. Effective Date
openjdk-8-jre-headless/copyright: The licenses granted in Section 2.1 with respect to any Contribution
openjdk-8-jre-headless/copyright: become effective for each Contribution on the date the Contributor first
openjdk-8-jre-headless/copyright: distributes such Contribution.
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: 2.3. Limitations on Grant Scope
openjdk-8-jre-headless/copyright: The licenses granted in this Section 2 are the only rights granted under
openjdk-8-jre-headless/copyright: this License. No additional rights or licenses will be implied from the
openjdk-8-jre-headless/copyright: distribution or licensing of Covered Software under this License.
openjdk-8-jre-headless/copyright: Notwithstanding Section 2.1(b) above, no patent license is granted by a
openjdk-8-jre-headless/copyright: Contributor:
openjdk-8-jre-headless/copyright: (a) for any code that a Contributor has removed from Covered Software;
openjdk-8-jre-headless/copyright: or
openjdk-8-jre-headless/copyright: (b) for infringements caused by: (i) Your and any other third party’s
openjdk-8-jre-headless/copyright: modifications of Covered Software, or (ii) the combination of its
openjdk-8-jre-headless/copyright: Contributions with other software (except as part of its Contributor
openjdk-8-jre-headless/copyright: Version); or
openjdk-8-jre-headless/copyright: (c) under Patent Claims infringed by Covered Software in the absence of
openjdk-8-jre-headless/copyright: its Contributions.
openjdk-8-jre-headless/copyright: This License does not grant any rights in the trademarks, service marks,
openjdk-8-jre-headless/copyright: or logos of any Contributor (except as may be necessary to comply with
openjdk-8-jre-headless/copyright: the notice requirements in Section 3.4).
openjdk-8-jre-headless/copyright:
openjdk-8-jre-headless/copyright: 2.4. Subsequent Licenses
openjdk-8-jre-headless/copyright:
From Ubuntu 16.04 LTS

openjdk-8-jre-headless/copyright: No Contributor makes additional grants as a result of Your choice to distribute the Covered Software under a subsequent version of this License (see Section 10.2) or under the terms of a Secondary License (if permitted under the terms of Section 3.3).

openjdk-8-jre-headless/copyright: Each Contributor represents that the Contributor believes its Contributions are its original creation(s) or it has sufficient rights to grant the rights to its Contributions conveyed by this License.

openjdk-8-jre-headless/copyright: This License is not intended to limit any rights You have under applicable copyright doctrines of fair use, fair dealing, or other equivalents.

openjdk-8-jre-headless/copyright: Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted in Section 2.1.

openjdk-8-jre-headless/copyright: All distribution of Covered Software in Source Code Form, including any Modifications that You create or to which You contribute, must be under the terms of this License. You must inform recipients that the Source Code Form of the Covered Software is governed by the terms of this License, and how they can obtain a copy of this License. You may not attempt to alter or restrict the recipients' rights in the Source Code Form.

openjdk-8-jre-headless/copyright: If You distribute Covered Software in Executable Form then:

openjdk-8-jre-headless/copyright: (a) such Covered Software must also be made available in Source Code Form, as described in Section 3.1, and You must inform recipients of the Executable Form how they can obtain a copy of such Source Code Form by reasonable means in a timely manner, at a charge no more than the cost of distribution to the recipient; and
From Ubuntu 16.04 LTS

(b) You may distribute such Executable Form under the terms of this License, or sublicense it under different terms, provided that the license for the Executable Form does not attempt to limit or alter the recipients' rights in the Source Code Form under this License.

3.3. Distribution of a Larger Work

You may create and distribute a Larger Work under terms of Your choice, provided that You also comply with the requirements of this License for the Covered Software. If the Larger Work is a combination of Covered Software with a work governed by one or more Secondary Licenses, and the Covered Software is not Incompatible With Secondary Licenses, this License permits You to additionally distribute such Covered Software under the terms of such Secondary License(s), so that the recipient of the Larger Work may, at their option, further distribute the Covered Software under the terms of either this License or such Secondary License(s).

3.4. Notices

You may not remove or alter the substance of any license notices (including copyright notices, patent notices, disclaimers of warranty, or limitations of liability) contained within the Source Code Form of the Covered Software, except that You may alter any license notices to the extent required to remedy known factual inaccuracies.

3.5. Application of Additional Terms

You may choose to offer, and to charge a fee for, warranty, support, indemnity or liability obligations to one or more recipients of Covered Software. However, You may do so only on Your own behalf, and not on behalf of any Contributor. You must make it absolutely clear that any such warranty, support, indemnity, or liability obligation is offered by You alone, and You hereby agree to indemnify every Contributor for any liability incurred by such Contributor as a result of warranty, support, indemnity or liability terms You offer. You may include additional disclaimers of warranty and limitations of liability specific to any jurisdiction.

4. Inability to Comply Due to Statute or Regulation

If it is impossible for You to comply with any of the terms of this License with respect to some or all of the Covered Software due to statute, judicial order, or regulation then You must: (a) comply with
From Ubuntu 16.04 LTS

The rights granted under this License will terminate automatically if You fail to comply with any of its terms. However, if You become compliant, then the rights granted under this License from a particular Contributor are reinstated (a) provisionally, unless and until such Contributor explicitly and finally terminates Your grants, and (b) on an ongoing basis, if such Contributor notifies You of the non-compliance by some reasonable means, this is the first time You have received notice of non-compliance with this License from such Contributor, and You become compliant prior to 30 days after Your receipt of the notice.

If You initiate litigation against any entity by asserting a patent infringement claim (excluding declaratory judgment actions, counter-claims, and cross-claims) alleging that a Contributor Version directly or indirectly infringes any patent, then the rights granted to You by any and all Contributors for the Covered Software under Section 2.1 of this License shall terminate.

In the event of termination under Sections 5.1 or 5.2 above, all end user license agreements (excluding distributors and resellers) which have been validly granted by You or Your distributors under this License prior to termination shall survive termination.

Covered Software is provided under this License on an "as is" basis, without warranty of any kind, either expressed, implied, or statutory, including, without limitation, warranties that the Covered Software is free of defects, merchantable, fit for a

particular purpose or non-infringing. The entire risk as to the quality and performance of the Covered Software is with You. Should any Covered Software prove defective in any respect, You (not any Contributor) assume the cost of any necessary servicing, repair, or correction. This disclaimer of warranty constitutes an essential part of this License. No use of any Covered Software is authorized under this License except under this disclaimer.

7. Limitation of Liability

Under no circumstances and under no legal theory, whether tort (including negligence), contract, or otherwise, shall any Contributor, or anyone who distributes Covered Software as permitted above, be liable to You for any direct, indirect, special, incidental, or consequential damages of any character including, without limitation, damages for lost profits, loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses, even if such party shall have been informed of the possibility of such damages. This limitation of liability shall not apply to liability for death or personal injury resulting from such party's negligence to the extent applicable law prohibits such limitation. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so this exclusion and limitation may not apply to You.

8. Litigation

Any litigation relating to this License may be brought only in the courts of a jurisdiction where the defendant maintains its principal place of business and such litigation shall be governed by laws of that jurisdiction, without reference to its conflict-of-law provisions. Nothing in this Section shall prevent a party's ability to bring cross-claims or counter-claims.

9. Miscellaneous
This License represents the complete agreement concerning the subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not be used to construe this License against a Contributor.

Mozilla Foundation is the license steward. Except as provided in Section 10.3, no one other than the license steward has the right to modify or publish new versions of this License. Each version will be given a distinguishing version number.

You may distribute the Covered Software under the terms of the version of the License under which You originally received the Covered Software, or under the terms of any subsequent version published by the license steward.

You may create software not governed by this License, and you want to create a new license for such software, you may create and use a modified version of this License if you rename the license and remove any references to the name of the license steward (except to note that such modified license differs from this License).

If you choose to distribute Source Code Form that is Incompatible With Secondary Licenses under the terms of this version of the License, the notice described in Exhibit B of this License must be attached.

openjdk-8-jre-headless/copyright:SPECIAL EXCEPTION FOR COMPRESSED EXECUTABLES
The stub which is imbedded in each UPX compressed program is part of UPX and UCL, and contains code that is under our copyright. The terms of the GNU General Public License still apply as compressing a program is a special form of linking with our stub.

Hereby Markus F.X.J. Oberhumer and Laszlo Molnar grant you special permission to freely use and distribute all UPX compressed programs (including commercial ones), subject to the following restrictions:

1. You must compress your program with a completely unmodified UPX version; either with our precompiled version, or (at your option) with a self compiled version of the unmodified UPX sources as distributed by us.

2. This also implies that the UPX stub must be completely unmodified, i.e. the stub imbedded in your compressed program must be byte-identical to the stub that is produced by the official unmodified UPX version.

3. The decompressor and any other code from the stub must exclusively get used by the unmodified UPX stub for decompressing your program at program startup. No portion of the stub may get read, copied, called or otherwise get used or accessed by your program.

- You can use a modified UPX version or modified UPX stub only for programs that are compatible with the GNU General Public License.

- We grant you special permission to freely use and distribute all UPX compressed programs. But any modification of the UPX stub (such as, but not limited to, removing our copyright string or making your program non-decompressible) will immediately revoke your right to use and distribute a UPX compressed program.

- UPX is not a software protection tool; by requiring that you use the unmodified UPX version for your proprietary programs we make sure that any user can decompress your program. This protects both you and your users as nobody can hide malicious code - any program that cannot be decompressed is highly suspicious by definition.

- You can integrate all or part of UPX and UCL into projects that are compatible with the GNU GPL, but obviously you cannot grant

1. Definitions.

(a) "Original Software" means source code of computer software code which is described in Exhibit A as Original Software.

(b) "Modifications" means any addition to or deletion from the substance or structure of either the Original Software or any previous Modifications. When Subject Software is released as a series of files, a Modification means (i) any addition to or deletion from the contents of a file containing Original Software or previous Modifications and (ii) any new file that contains any part of the Original Code or previous Modifications.

(c) "Subject Software" means the Original Software or Modifications or the combination of the Original Software and Modifications, or portions of any of the foregoing.

(d) "Recipient" means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License. For legal entities, "Recipient" includes any entity which controls, is controlled by, or is under common control with Recipient. For purposes of this definition, "control" of an entity means (a) the power, direct or indirect, to direct or manage such entity, or (b) ownership of fifty percent (50%) or more of the outstanding shares or beneficial ownership of such entity.

2. Redistribution of Source Code Subject to These Terms. Redistributions of Subject Software in source code form must retain the notice set forth in Exhibit A, below, in every file. A copy of this License must be included in any documentation for such Subject Software where the recipients' rights relating to Subject Software are described. Recipient may distribute the source code version of Subject Software under a license of Recipient's choice, which may contain terms different from this License, provided that (i) Recipient is in compliance with the terms of this License, and (ii) the license terms include this Section 2 and Sections 3, 4, 7, 8, 10, 12 and 13 of this License, which terms may not be modified or superseded by any other license of such license. From Ubuntu 16.04 LTS

Recipient must make it absolutely clear that any terms which differ from this License are offered by Recipient alone, not by SGI. Recipient hereby agrees to indemnify SGI for any liability incurred by SGI as a result of any such terms Recipient offers.

3. Redistribution in Executable Form. The notice set forth in Exhibit A must be conspicuously included in any notice in an executable version of Subject Software, related documentation or collateral in which Recipient describes the user's rights relating to the Subject Software. Recipient may distribute the executable version of Subject Software under a license of Recipient's choice, which may contain terms different from this License, provided that (i) the license terms include this Section 3 and Sections 4, 7, 8, 10, 12 and 13 of this License, which terms may not be modified or superseded by any other of such license. If Recipient distributes the executable version under a different license Recipient must make it absolutely clear that any terms which differ from this License are offered by Recipient alone, not by SGI. Recipient hereby agrees to indemnify SGI for any liability incurred by SGI as a result of any such terms Recipient offers.

4. Termination. This License and the rights granted hereunder will terminate automatically if Recipient fails to comply with terms herein and fails to cure such breach within 30 days of the breach. Any sublicense to the Subject Software which is properly granted shall survive any termination of this License absent termination by the terms of such sublicense. Provisions which, by their nature, must remain in effect beyond the termination of this License shall survive.

5. No Trademark Rights. This License does not grant any rights to use any trade name, trademark or service mark whatsoever. No trade name, service mark of SGI may be used to endorse or promote products derived from the Subject Software without prior written permission of SGI.

6. No Other Rights. This License does not grant any rights with respect to the OpenGL API or to any software or hardware implementation thereof or to any software whatsoever, nor shall any other rights or licenses not expressly granted hereunder arise by implication, estoppel or otherwise with respect to the Subject Software. Title to and ownership of the Original Software at all times remains with SGI. All rights in the Original Software not expressly granted under this License are reserved.

The Original Software is GLX version 1.2 source code, released February, 1999. The developer of the Original Software is Silicon Graphics, Inc. Those portions of the Subject Software created by Silicon Graphics, Inc. are Copyright (c) 1991-9 Silicon Graphics, Inc. All Rights Reserved.

3.5. CID Font Code Public License

CID FONT CODE PUBLIC LICENSE (Version 1.0 (3/31/99)) ("License")

Subject to any applicable third party claims, Silicon Graphics, Inc. ("SGI") hereby grants permission to Recipient (defined below), under SGI's copyrights in the Original Software (defined below), to use, copy, modify, merge, publish, distribute, sublicense and/or sell copies of Subject Software (defined below) in both source code and executable form, and to permit to whom the Subject Software is furnished in accordance with this License to do the same, subject to all of the following terms and conditions, which Recipient accepts by engaging in any such use, copying, modifying, merging, publication, distributing, sublicensing or selling:

1. Definitions.

   a. "Original Software" means source code of computer software code that is described in Exhibit A as Original Software.
   b. "Modifications" means any addition to or deletion from the substance or structure of either the Original Software or any previous Modifications. When Subject Software is released as a series of files, a Modification means (i) any addition to or deletion from the contents of a file containing Original Software or previous Modifications and (ii) any new file that contains any part of the Original Code or previous Modifications.
   c. "Subject Software" means the Original Software or Modifications or the combination of the Original Software and Modifications, or portions of any of the foregoing.
   d. "Recipient" means an individual or a legal entity exercising rights under the terms of this License. For legal entities, "Recipient" includes any entity that controls, is controlled by, or is under common control with Recipient. For purposes of this definition, "control" of an entity means (i) the power, direct or indirect, to direct or manage such entity,
From Ubuntu 16.04 LTS

openjdk-8-jre-headless/copyright: or (ii) ownership of fifty percent (50%) or more of the outstanding shares
openjdk-8-jre-headless/copyright: or beneficial ownership of such entity.
openjdk-8-jre-headless/copyright: e. "Required Notice" means the notice set forth in Exhibit A to this
openjdk-8-jre-headless/copyright: License.
openjdk-8-jre-headless/copyright: f. "Accompanying Technology" means any software or other technology that
openjdk-8-jre-headless/copyright: is not a Modification and that is distributed or made publicly available
openjdk-8-jre-headless/copyright: by Recipient with the Subject Software. Separate software files that do not contain any Original Software or any previous Modification shall not
openjdk-8-jre-headless/copyright: be deemed a Modification, even if such software files are aggregated as part of a product, or in any medium of storage, with any file that does contain Original Software or any previous Modification.
openjdk-8-jre-headless/copyright: 2. License Terms. All distribution of the Subject Software must be made subject to the terms of this License. A copy of this License and the Required Notice must be included in any documentation for Subject Software where Recipient's rights relating to Subject Software and/or any Accompanying Technology are described. Distributions of Subject Software in source code form must also include the Required Notice in every file distributed. In addition, a ReadMe file entitled "Important Legal Notice" must be distributed with each distribution of one or more files that incorporate Subject Software. That file must be included with distributions made in both source code and executable form. A copy of the License and the Required Notice must be included in that file. Recipient may distribute Accompanying Technology under a license of Recipient's choice, which may contain terms different from this License, provided that (i) Recipient is in compliance with the terms of this License, (ii) such other license terms do not modify or supersede the terms of this License as applicable to the Subject Software, (iii) Recipient hereby indemnifies SGI for any liability incurred by SGI as a result of the distribution of Accompanying Technology or the use of other license terms.
openjdk-8-jre-headless/copyright: 3. Termination. This License and the rights granted hereunder will terminate automatically if Recipient fails to comply with terms herein and fails to cure such breach within 30 days of the breach. Any sublicense to the Subject Software that is properly granted shall survive any termination of this License absent termination by the terms of such sublicense. Provisions which, by their nature, must remain in effect beyond the termination of this License shall survive.
openjdk-8-jre-headless/copyright: 4. Trademark Rights. This License does not grant any rights to use any trade name, trademark or service mark whatsoever. No trade name, trademark or service mark of SGI may be used to endorse or promote products derived incorporating any Subject Software without prior written permission of SGI.
From Ubuntu 16.04 LTS

openjdk-8-jre-headless/copyright:5. No Other Rights. No rights or licenses not expressly granted hereunder shall arise by implication, estoppel or otherwise. Title to and ownership of the Original Software at all times remains with SGI. All rights in the Original Software not expressly granted under this License are reserved.

openjdk-8-jre-headless/copyright:6. Compliance with Laws; Non-Infringement. Recipient shall comply with all applicable laws and regulations in connection with use and distribution of the Subject Software, including but not limited to, all export and import control laws and regulations of the U.S. government and other countries. Recipient not distribute Subject Software that (i) in any way infringes (directly or contributorily) the rights (including patent, copyright, trade secret, trademark or other intellectual property rights of any kind) of any other person or entity, or (ii) breaches any representation or warranty, express, implied or statutory, which under any applicable law it might be deemed to have been distributed.

openjdk-8-jre-headless/copyright:7. Claims of Infringement. If Recipient at any time has knowledge of any one or more third party claims that reproduction, modification, use, distribution, import or sale of Subject Software (including particular functionality or code incorporated in Subject Software) infringes the third party’s intellectual property rights, Recipient must place in a well-identified web page bearing the title "LEGAL" a description of each such claim and a description of the party making each such claim in sufficient detail that a user of the Subject Software will know whom to contact regarding the claim. Also, upon gaining such knowledge of any such claim, Recipient must conspicuously include the for such web page in the Required Notice, and in the text of any related documentation, license agreement or collateral in which Recipient describes such knowledge of any such claim, Recipient must conspicuously include the end user's rights relating to the Subject Software. If Recipient obtains such knowledge after it makes Subject Software available to any other person or entity, Recipient shall take other steps (such as notifying appropriate mailing lists or newsgroups) reasonably calculated to provide such knowledge to those who received the Subject Software.

openjdk-8-jre-headless/copyright:8. DISCLAIMER OF WARRANTY. SUBJECT SOFTWARE IS PROVIDED ON AN "AS IS" BASIS WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, LIMITATION, WARRANTIES THAT THE SUBJECT SOFTWARE IS FREE OF DEFECTS, MERCHANTABLE, FIT FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT. Recipient will defend, indemnify and hold SGI and its successors and assigns harmless from and against any loss, liability, damages, costs or expenses including the payment of reasonable attorneys fees arising out of Recipient's use, modification, reproduction and distribution of the Subject Software or out of any representation or warranty made by Recipient.

11. U.S. Government End Users. The Subject Software is a "commercial item" consisting of "commercial computer software" as such terms are defined in title 48 of the Code of Federal Regulations and all U.S. Government End Users acquire only the rights set forth in this License and are subject to the terms of this License.

12. Miscellaneous. This License represents the complete agreement subject matter hereof. If any provision of this License is held to be unenforceable by any judicial or administrative authority having proper jurisdiction with respect thereto, such provision shall be reformed so as to achieve as nearly as possible the same economic effect as the original provision and the remainder of this License will remain in effect. A.1 GNU Free Documentation License

Version 1.1, March 2000

Copyright (C) 2000 Free Software Foundation, Inc.

51 Franklin St, Fifth Floor, Boston, MA 02110-1301, USA

Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.

0. PREAMBLE

The purpose of this License is to make a manual, textbook, or other
written document "free" in the sense of freedom: to assure everyone
the effective freedom to copy and redistribute it, with or without
modifying it, either commercially or noncommercially.  Secondarily,
this License preserves for the author and publisher a way to get
credit for their work, while not being considered responsible for
modifications made by others.

This License is a kind of "copyleft", which means that derivative
works of the document must themselves be free in the same sense.
It complements the GNU General Public License, which is a copyleft
license designed for free software.

We have designed this License in order to use it for manuals for
free software, because free software needs free documentation: a
free program should come with manuals providing the same freedoms
that the software does.  But this License is not limited to
software manuals; it can be used for any textual work, regardless
of subject matter or whether it is published as a printed book.
We recommend this License principally for works whose purpose is
instruction or reference.

1. APPLICABILITY AND DEFINITIONS

This License applies to any manual or other work that contains a
notice placed by the copyright holder saying it can be distributed
under the terms of this License.  The "Document", below, refers to
any such manual or work.  Any member of the public is a licensee,
A "Modified Version" of the Document means any work containing the Document or a portion of it, either copied verbatim, or with modifications and/or translated into another language.

A "Secondary Section" is a named appendix or a front-matter section of the Document that deals exclusively with the relationship of the publishers or authors of the Document to the Document's overall subject (or to related matters) and contains nothing that could fall directly within that overall subject. (For example, if the Document is in part a textbook of mathematics, a Secondary Section may not explain any mathematics.)

The relationship could be a matter of historical connection with the subject or with related matters, or of legal, commercial, philosophical, ethical or political position regarding them.

The "Invariant Sections" are certain Secondary Sections whose titles are designated, as being those of Invariant Sections, in the notice that says that the Document is released under this License.

The "Cover Texts" are certain short passages of text that are listed, as Front-Cover Texts or Back-Cover Texts, in the notice that says that the Document is released under this License.

A "Transparent" copy of the Document means a machine-readable copy, represented in a format whose specification is available to the general public, whose contents can be viewed and edited directly and straightforwardly with generic text editors or (for images composed of pixels) generic paint programs or (for drawings) some widely available drawing editor, and that is suitable for input to text formatters or for automatic translation to a variety of formats suitable for input to text formatters. A copy made in an otherwise Transparent file format whose markup has been designed to thwart or discourage subsequent modification by readers is not Transparent. A copy that is not "Transparent" is called "Opaque".

Examples of suitable formats for Transparent copies include plain ASCII without markup, Texinfo input format, LaTeX input format, SGML or XML using a publicly available DTD, and standard-conforming simple HTML designed for human modification. Opaque formats include PostScript, PDF, proprietary formats that can be read and edited only by proprietary word processors, SGML or XML for which the DTD and/or processing tools are not generally
From Ubuntu 16.04 LTS

2. VERBATIM COPYING

You may copy and distribute the Document in any medium, either commercially or noncommercially, provided that this License, the copyright notices, and the license notice saying this License applies to the Document are reproduced in all copies, and that you add no other conditions whatsoever to those of this License. You may not use technical measures to obstruct or control the reading or further copying of the copies you make or distribute. However, you may accept compensation in exchange for copies. If you distribute a large enough number of copies you must also follow the conditions in section 3.

You may also lend copies, under the same conditions stated above, and you may publicly display copies.

3. COPYING IN QUANTITY

If you publish printed copies of the Document numbering more than 100, and the Document's license notice requires Cover Texts, you must enclose the copies in covers that carry, clearly and legibly, all these Cover Texts: Front-Cover Texts on the front cover, and Back-Cover Texts on the back cover. Both covers must also clearly and legibly identify you as the publisher of these copies. The front cover must present the full title with all words of the title equally prominent and visible. You may add other material on the covers in addition. Copying with changes limited to the covers, as long as they preserve the title of the Document and satisfy these conditions, can be treated as verbatim copying in other respects.

If the required texts for either cover are too voluminous to fit legibly, you should put the first ones listed (as many as fit reasonably) on the actual cover, and continue the rest onto adjacent pages.
4. MODIFICATIONS

You may copy and distribute a Modified Version of the Document under the conditions of sections 2 and 3 above, provided that you release the Modified Version under precisely this License, with the Modified Version filling the role of the Document, thus licensing distribution and modification of the Modified Version to whoever possesses a copy of it. In addition, you must do these things in the Modified Version:

A. Use in the Title Page (and on the covers, if any) a title distinct from that of the Document, and from those of previous versions (which should, if there were any, be listed in the History section of the Document). You may use the same title as a previous version if the original publisher of that version gives permission.

B. List on the Title Page, as authors, one or more persons or entities responsible for authorship of the modifications in the Modified Version, together with at least five of the principal authors of the Document (all of its principal authors, if it has less than five).

C. State on the Title page the name of the publisher of the

parted/copyright: M. Delete any section entitled "Endorsements". Such a section may not be included in the Modified Version.

parted/copyright: N. Do not retitle any existing section as "Endorsements" or to conflict in title with any Invariant Section.

parted/copyright: If the Modified Version includes new front-matter sections or appendices that qualify as Secondary Sections and contain no material copied from the Document, you may at your option designate some or all of these sections as invariant. To do this, add their titles to the list of Invariant Sections in the Modified Version's license notice. These titles must be distinct from any other section titles.

parted/copyright: You may add a section entitled "Endorsements", provided it contains nothing but endorsements of your Modified Version by various parties--for example, statements of peer review or that the text has been approved by an organization as the authoritative definition of a standard.

parted/copyright: You may add a passage of up to five words as a Front-Cover Text, and a passage of up to 25 words as a Back-Cover Text, to the end of the list of Cover Texts in the Modified Version. Only one passage of Front-Cover Text and one of Back-Cover Text may be added by (or through arrangements made by) any one entity. If the Document already includes a cover text for the same cover, previously added by you or by arrangement made by the same entity you are acting on behalf of, you may not add another; but you may replace the old one, on explicit permission from the previous publisher that added the old one.

parted/copyright: The author(s) and publisher(s) of the Document do not by this License give permission to use their names for publicity for or to assert or imply endorsement of any Modified Version.

5. COMBINING DOCUMENTS

parted/copyright: You may combine the Document with other documents released under this License, under the terms defined in section 4 above for modified versions, provided that you include in the combination all of the Invariant Sections of all of the original documents, unmodified, and list them all as Invariant Sections of your combined work in its license notice.
From Ubuntu 16.04 LTS

The combined work need only contain one copy of this License, and multiple identical Invariant Sections may be replaced with a single copy. If there are multiple Invariant Sections with the same name but different contents, make the title of each such section unique by adding at the end of it, in parentheses, the name of the original author or publisher of that section if known, or else a unique number. Make the same adjustment to the section titles in the list of Invariant Sections in the license notice of the combined work.

In the combination, you must combine any sections entitled "History" in the various original documents, forming one section entitled "History"; likewise combine any sections entitled "Acknowledgments", and any sections entitled "Dedications". You must delete all sections entitled "Endorsements."

6. COLLECTIONS OF DOCUMENTS

You may make a collection consisting of the Document and other documents released under this License, and replace the individual copies of this License in the various documents with a single copy that is included in the collection, provided that you follow the rules of this License for verbatim copying of each of the documents in all other respects.

You may extract a single document from such a collection, and distribute it individually under this License, provided you insert a copy of this License into the extracted document, and follow this License in all other respects regarding verbatim copying of that document.

7. AGGREGATION WITH INDEPENDENT WORKS

A compilation of the Document or its derivatives with other separate and independent documents or works, in or on a volume of a storage or distribution medium, does not as a whole count as a Modified Version of the Document, provided no compilation copyright is claimed for the compilation. Such a compilation is called an "aggregate", and this License does not apply to the other self-contained works thus compiled with the Document, on account of their being thus compiled, if they are not themselves derivative works of the Document.

If the Cover Text requirement of section 3 is applicable to these copies of the Document, then if the Document is less than one
From Ubuntu 16.04 LTS

parted/copyright: quarter of the entire aggregate, the Document’s Cover Texts may be placed on covers that surround only the Document within the aggregate. Otherwise they must appear on covers around the whole aggregate.

parted/copyright: 8. TRANSLATION

parted/copyright: Translation is considered a kind of modification, so you may distribute translations of the Document under the terms of section 4. Replacing Invariant Sections with translations requires special permission from their copyright holders, but you may include translations of some or all Invariant Sections in addition to the original versions of these Invariant Sections. You may include a translation of this License provided that you also include the original English version of this License. In case of a disagreement between the translation and the original English version of this License, the original English version will prevail.

parted/copyright: 9. TERMINATION

parted/copyright: You may not copy, modify, sublicense, or distribute the Document except as expressly provided for under this License. Any other attempt to copy, modify, sublicense or distribute the Document is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

parted/copyright: 10. FUTURE REVISIONS OF THIS LICENSE

parted/copyright: The Free Software Foundation may publish new, revised versions of the GNU Free Documentation License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. See `http://www.gnu.org/copyleft/`.

parted/copyright: Each version of the License is given a distinguishing version number. If the Document specifies that a particular numbered version of this License "or any later version" applies to it, you have the option of following the terms and conditions either of that specified version or of any later version that has been published (not as a draft) by the Free Software Foundation. If the Document does not specify a version number of this License, you may choose any version ever published (not as a draft) by the Free Software Foundation.

perl-base/copyright: a) the GNU General Public License as published by the Free Software Foundation; either version 1, or (at your option) any later version, or b) the "Artistic License" which comes with Perl.
perl-base/copyright: The directories ext/, dist/, and cpan/ contain separate distributions that have been bundled with the Perl core. The copyright and license status of these have been detailed separately below.
perl-base/copyright: It is assumed that all the other files are part of Perl and share the copyright and license information unless explicitly specified differently. Only the exceptions have been detailed below.
perl-base/copyright: As a small portion of the files are indeed licensed differently from the above, all the other licenses have been collected and/or duplicated at the end of this file to facilitate review.

perl-base/copyright: It is by Paul Hsieh (c) 2004 and is analysed here
perl-base/copyright: license terms are here:
From Ubuntu 16.04 LTS

perl-base/copyright: As of Thu, 09 May 2013 00:02:53 +0300, the "weblicense.html" document

perl-base/copyright: states:

perl-base/copyright: Unless otherwise accompanied by another included license, the text

perl-base/copyright: and explicitly rendered exposition of all content under this website

perl-base/copyright: is covered by the Paul Hsieh exposition license.

perl-base/copyright: For the specific coverage of raw source code (only) obtained from

perl-base/copyright: this website, you have the option of using the old-style BSD license

perl-base/copyright: to use the code instead of other the licenses. This option has been

perl-base/copyright: provided for people who can't figure out what I talking about with my

perl-base/copyright: derivative license, or who are using a old-style BSD compatible license.

perl-base/copyright: Unless otherwise accompanied by another included license, derivative

perl-base/copyright: work by taking portions or ideas from the above mentioned exposition

perl-base/copyright: are covered by the Paul Hsieh derivative license.

perl-base/copyright: Examples: Unless covered by another accompanying license, source code

perl-base/copyright: shown on my website can be used freely under the derivative license,

perl-base/copyright: (and may be distributed under a public domain license, whether compiled

perl-base/copyright: into another program or not, for example) however the font, comments,

perl-base/copyright: colors or any layout details associated to that source code in its

perl-base/copyright: exposition are covered by the exposition license.

perl-base/copyright: The entire English text describing the code is also covered under the

perl-base/copyright: exposition license and thus cannot be copied at all outside the limits

perl-base/copyright: of fair use.

perl-base/copyright: Images and graphics shown on this website are entirely covered by the

perl-base/copyright: exposition license.

perl-base/copyright: If a proprietary vendor wishes to create a closed source object code

perl-base/copyright: based product using source covered by the derivative license they may

perl-base/copyright: do so. However if this vendor then wished to distribute the original

perl-base/copyright: source code, they may not apply any licensing terms which contradict

perl-base/copyright: the original derivative license covering the derivative code.

perl-base/copyright: If your code is compatible with the old style BSD license and you

perl-base/copyright: wish to avoid the burden of explicitly protecting code you obtained

perl-base/copyright: from here from misrepresentation then you can simply cover it with

perl-base/copyright: the old-style BSD license.

perl-base/copyright: It is therefore assumed that the relevant part of the Perl source

perl-base/copyright: is licensed under either the "Paul Hsieh derivative license" or

perl-base/copyright: the "the old-style BSD license", which have been included at
perl-base/copyright: the end of file with the codenames HSIEH-DERIVATIVE and HSIEH-BSD.
perl-base/copyright: .
perl-base/copyright: Additionally, the "hash.html" document has this statement for the
perl-base/copyright: relevant source code:
perl-base/copyright: .
perl-base/copyright: IMPORTANT NOTE: Since there has been a lot of interest for the code
perl-base/copyright: below, I have decided to additionally provide it under the LGPL 2.1
perl-base/copyright: license. This provision applies to the code below only and not to any
perl-base/copyright: other code including other source archives or listings from this site
perl-base/copyright: unless otherwise specified.
perl-base/copyright: .
perl-base/copyright: The LGPL 2.1 is not necessarily a more liberal license than my
perl-base/copyright: derivative license, but this additional licensing makes the code
perl-base/copyright: available to more developers. Note that this does not give you
perl-base/copyright: multi-licensing rights. You can only use the code under one of the
perl-base/copyright: licenses at a time.

perl-base/copyright: "Package" means the collection of files distributed by the Copyright
perl-base/copyright: Holder, and derivatives of that collection and/or of those files. A
perl-base/copyright: given Package may consist of either the Standard Version, or a
perl-base/copyright: Modified Version.
perl-base/copyright: .
perl-base/copyright: "Distribute" means providing a copy of the Package or making it
perl-base/copyright: accessible to anyone else, or in the case of a company or
perl-base/copyright: organization, to others outside of your company or organization.
perl-base/copyright: .
perl-base/copyright: "Distributor Fee" means any fee that you charge for Distributing this
perl-base/copyright: Package or providing support for this Package to another party. It
perl-base/copyright: does not mean licensing fees.
perl-base/copyright: .
perl-base/copyright: "Standard Version" refers to the Package if it has not been modified,
perl-base/copyright: or has been modified only in ways explicitly requested by the
perl-base/copyright: Copyright Holder.
perl-base/copyright: .
perl-base/copyright: "Modified Version" means the Package, if it has been changed, and such
perl-base/copyright: changes were not explicitly requested by the Copyright Holder.
perl-base/copyright: .
perl-base/copyright: "Original License" means this Artistic License as Distributed with the
perl-base/copyright: Standard Version of the Package, in its current version or as it may
perl-base/copyright: be modified by The Perl Foundation in the future.
perl-base/copyright: .
perl-base/copyright: "Source" form means the source code, documentation source, and
perl-base/copyright: configuration files for the Package.
perl-base/copyright: .
perl-base/copyright: "Compiled" form means the compiled bytecode, object code, binary, or
perl-base/copyright: any other form resulting from mechanical transformation or translation
perl-base/copyright: of the Source form.
perl-base/copyright: .
perl-base/copyright: Permission for Use and Modification Without Distribution
perl-base/copyright: .
From Ubuntu 16.04 LTS

perl-base/copyright: (1) You are permitted to use the Standard Version and create and use Modified Versions for any purpose without restriction, provided that you do not Distribute the Modified Version.

perl-base/copyright: Permissions for Redistribution of the Standard Version

perl-base/copyright: (2) You may Distribute verbatim copies of the Source form of the Standard Version of this Package in any medium without restriction, either gratis or for a Distributor Fee, provided that you duplicate all of the original copyright notices and associated disclaimers. At your discretion, such verbatim copies may or may not include a Compiled form of the Package.

perl-base/copyright: (3) You may apply any bug fixes, portability changes, and other modifications made available from the Copyright Holder. The resulting Package will still be considered the Standard Version, and as such will be subject to the Original License.

perl-base/copyright: Distribution of Modified Versions of the Package as Source

perl-base/copyright: (4) You may Distribute your Modified Version as Source (either gratis or for a Distributor Fee, and with or without a Compiled form of the Modified Version) provided that you clearly document how it differs from the Standard Version, including, but not limited to, documenting any non-standard features, executables, or modules, and provided that: (a) make the Modified Version available to the Copyright Holder of the Standard Version, under the Original License, so that the Copyright Holder may include your modifications in the Standard Version. (b) ensure that installation of your Modified Version does not prevent the user installing or running the Standard Version. In addition, the Modified Version must bear a name that is different from the name of the Standard Version. (c) allow anyone who receives a copy of the Modified Version to make the Source form of the Modified Version available to others under (i) the Original License or (ii) a license that permits the licensee to freely copy, modify and redistribute the Modified Version using the same licensing terms that apply to the copy that the licensee received, and requires that the Source form of the Modified Version, and of any works derived from it, be made freely available in that license fees are prohibited but Distributor Fees are allowed.

perl-base/copyright: Distribution of Compiled Forms of the Standard Version or Modified Versions without the Source
From Ubuntu 16.04 LTS

perl-base/copyright: (5) You may Distribute Compiled forms of the Standard Version without
perl-base/copyright: the Source, provided that you include complete instructions on how to
perl-base/copyright: get the Source of the Standard Version. Such instructions must be
perl-base/copyright: valid at the time of your distribution. If these instructions, at any
perl-base/copyright: time while you are carrying out such distribution, become invalid, you
perl-base/copyright: must provide new instructions on demand or cease further distribution.
perl-base/copyright: If you provide valid instructions or cease distribution within thirty
perl-base/copyright: days after you become aware that the instructions are invalid, then
perl-base/copyright: you do not forfeit any of your rights under this license.
perl-base/copyright: (6) You may Distribute a Modified Version in Compiled form without the
perl-base/copyright: Source, provided that you comply with Section 4 with respect to the
perl-base/copyright: Source of the Modified Version.
perl-base/copyright: Aggregating or Linking the Package
perl-base/copyright: (7) You may aggregate the Package (either the Standard Version or
perl-base/copyright: Modified Version) with other packages and Distribute the resulting
perl-base/copyright: aggregation provided that you do not charge a licensing fee for the
perl-base/copyright: Package. Distributor Fees are permitted, and licensing fees for other
perl-base/copyright: components in the aggregation are permitted. The terms of this license
perl-base/copyright: apply to the use and Distribution of the Standard or Modified Versions
perl-base/copyright: as included in the aggregation.
perl-base/copyright: (8) You are permitted to link Modified and Standard Versions with
perl-base/copyright: other works, to embed the Package in a larger work of your own, or to
perl-base/copyright: build stand-alone binary or bytecode versions of applications that
perl-base/copyright: include the Package, and Distribute the result without restriction,
perl-base/copyright: provided the result does not expose a direct interface to the Package.
perl-base/copyright: Items That are Not Considered Part of a Modified Version
perl-base/copyright: (9) Works (including, but not limited to, modules and scripts) that
perl-base/copyright: merely extend or make use of the Package, do not, by themselves, cause
perl-base/copyright: the Package to be a Modified Version. In addition, such works are not
perl-base/copyright: considered parts of the Package itself, and are not subject to the
perl-base/copyright: terms of this license.
perl-base/copyright: General Provisions
perl-base/copyright: (10) Any use, modification, and distribution of the Standard or
perl-base/copyright: Modified Versions is governed by this Artistic License. By using,
perl-base/copyright: modifying or distributing the Package, you accept this license. Do not
perl-base/copyright: use, modify, or distribute the Package, if you do not accept this
From Ubuntu 16.04 LTS

perl-base/copyright: license.
perl-base/copyright: [11] If your Modified Version has been derived from a Modified Version
perl-base/copyright: made by someone other than you, you are nevertheless required to
perl-base/copyright: ensure that your Modified Version complies with the requirements of
perl-base/copyright: this license.
perl-base/copyright: [12] This license does not grant you the right to use any trademark,
perl-base/copyright: service mark, tradename, or logo of the Copyright Holder.
perl-base/copyright: [13] This license includes the non-exclusive, worldwide,
perl-base/copyright: free-of-charge patent license to make, have made, use, offer to sell,
perl-base/copyright: sell, import and otherwise transfer the Package with respect to any
perl-base/copyright: patent claims licensable by the Copyright Holder that are necessarily
perl-base/copyright: infringed by the Package. If you institute patent litigation
perl-base/copyright: (including a cross-claim or counterclaim) against any party alleging
perl-base/copyright: that the Package constitutes direct or contributory patent
perl-base/copyright: infringement, then this Artistic License to you shall terminate on the
perl-base/copyright: date that such litigation is filed.

perl-base/copyright: HOLDER OR CONTRIBUTOR WILL BE LIABLE FOR ANY DIRECT, INDIRECT,

perl-base/copyright: Statement of Purpose
perl-base/copyright: .
perl-base/copyright: The laws of most jurisdictions throughout the world automatically confer
perl-base/copyright: exclusive Copyright and Related Rights (defined below) upon the creator
perl-base/copyright: and subsequent owner(s) (each and all, an "owner") of an original work
perl-base/copyright: of authorship and/or a database (each, a "Work").
perl-base/copyright: .
perl-base/copyright: Certain owners wish to permanently relinquish those rights to a Work
perl-base/copyright: for the purpose of contributing to a commons of creative, cultural and
perl-base/copyright: scientific works ("Commons") that the public can reliably and without
perl-base/copyright: fear of later claims of infringement build upon, modify, incorporate in
perl-base/copyright: other works, reuse and redistribute as freely as possible in any form
perl-base/copyright: whatsoever and for any purposes, including without limitation commercial
From Ubuntu 16.04 LTS

perl-base/copyright: purposes. These owners may contribute to the Commons to promote the ideal
perl-base/copyright: of a free culture and the further production of creative, cultural and
perl-base/copyright: scientific works, or to gain reputation or greater distribution for
perl-base/copyright: their Work in part through the use and efforts of others.

perl-base/copyright: For these and/or other purposes and motivations, and without any
perl-base/copyright: expectation of additional consideration or compensation, the person
perl-base/copyright: associating CC0 with a Work (the "Affirmer"), to the extent that
perl-base/copyright: he or she is an owner of Copyright and Related Rights in the Work,
perl-base/copyright: voluntarily elects to apply CC0 to the Work and publicly distribute
perl-base/copyright: the Work under its terms, with knowledge of his or her Copyright and
perl-base/copyright: Related Rights in the Work and the meaning and intended legal effect
perl-base/copyright: of CC0 on those rights.

perl-base/copyright: 1. Copyright and Related Rights. A Work made available under CC0 may be
perl-base/copyright: protected by copyright and related or neighboring rights ("Copyright
perl-base/copyright: and Related Rights"). Copyright and Related Rights include, but are
perl-base/copyright: not limited to, the following:

perl-base/copyright: the right to reproduce, adapt, distribute, perform, display,
perl-base/copyright: communicate, and translate a Work;
perl-base/copyright: moral rights retained by the original author(s) and/or performer(s);
perl-base/copyright: publicity and privacy rights pertaining to a person's image or
perl-base/copyright: likeness depicted in a Work;
perl-base/copyright: rights protecting against unfair competition in regards to a Work,
perl-base/copyright: subject to the limitations in paragraph 4(a), below;
perl-base/copyright: rights protecting the extraction, dissemination, use and reuse of data in a Work;
perl-base/copyright: database rights (such as those arising under Directive 96/9/EC
perl-base/copyright: on the legal protection of databases, and under any national
perl-base/copyright: implementation thereof, including any amended or successor version
perl-base/copyright: of such directive); and
perl-base/copyright: other similar, equivalent or corresponding rights throughout the world
perl-base/copyright: based on applicable law or treaty, and any national implementations
perl-base/copyright: thereof.

perl-base/copyright: 2. Waiver. To the greatest extent permitted by, but not in contravention
perl-base/copyright: of, applicable law, Affirmer hereby overtly, fully, permanently,
perl-base/copyright: irrevocably and unconditionally waives, abandons, and surrenders all
From Ubuntu 16.04 LTS

perl-base/copyright: of Affirmer's Copyright and Related Rights and associated claims and
perl-base/copyright: causes of action, whether now known or unknown (including existing
perl-base/copyright: as well as future claims and causes of action), in the Work (i) in
perl-base/copyright: all territories worldwide, (ii) for the maximum duration provided by
perl-base/copyright: applicable law or treaty (including future time extensions), (iii)
perl-base/copyright: in any current or future medium and for any number of copies, and (iv)
perl-base/copyright: for any purpose whatsoever, including without limitation commercial,
perl-base/copyright: advertising or promotional purposes (the "Waiver"). Affirmer makes the
perl-base/copyright: Waiver for the benefit of each member of the public at large and to the
perl-base/copyright: detriment of Affirmer's heirs and successors, fully intending that such
perl-base/copyright: Waiver shall not be subject to revocation, rescission, cancellation,
perl-base/copyright: termination, or any other legal or equitable action to disrupt the
perl-base/copyright: quiet enjoyment of the Work by the public as contemplated by Affirmer's
perl-base/copyright: express Statement of Purpose.

perl-base/copyright: 3. Public License Fallback. Should any part of the Waiver for any
perl-base/copyright: reason be judged legally invalid or ineffective under applicable law,
perl-base/copyright: then the Waiver shall be preserved to the maximum extent permitted
perl-base/copyright: taking into account Affirmer's express Statement of Purpose. In
perl-base/copyright: addition, to the extent the Waiver is so judged Affirmer hereby
perl-base/copyright: grants to each affected person a royalty-free, non transferable, non
perl-base/copyright: sublicensable, non exclusive, irrevocable and unconditional license
perl-base/copyright: to exercise Affirmer's Copyright and Related Rights in the Work (i)
perl-base/copyright: in all territories worldwide, (ii) for the maximum duration provided
perl-base/copyright: by applicable law or treaty (including future time extensions), (iii)
perl-base/copyright: in any current or future medium and for any number of copies, and (iv)
perl-base/copyright: for any purpose whatsoever, including without limitation commercial,
perl-base/copyright: advertising or promotional purposes (the "License"). The License shall
perl-base/copyright: be deemed effective as of the date CC0 was applied by Affirmer to the
perl-base/copyright: Work. Should any part of the License for any reason be judged legally
perl-base/copyright: invalid or ineffective under applicable law, such partial invalidity
perl-base/copyright: or ineffectiveness shall not invalidate the remainder of the License,
perl-base/copyright: and in such case Affirmer hereby affirms that he or she will not (i)
perl-base/copyright: exercise any of his or her remaining Copyright and Related Rights in
perl-base/copyright: the Work or (ii) assert any associated claims and causes of action
perl-base/copyright: with respect to the Work, in either case contrary to Affirmer's express
perl-base/copyright: Statement of Purpose.

perl-base/copyright: 4. Limitations and Disclaimers.

perl-base/copyright: No trademark or patent rights held by Affirmer are waived,
perl-base/copyright: abandoned, surrendered, licensed or otherwise affected by this
perl-base/copyright: document.
From Ubuntu 16.04 LTS

perl-base/copyright: warranties of any kind concerning the Work, express, implied,
perl-base/copyright: statutory or otherwise, including without limitation warranties

perl-base/copyright: infringement, or the absence of latent or other defects, accuracy,
perl-base/copyright: or the present or absence of errors, whether or not discoverable,
perl-base/copyright: all to the greatest extent permissible under applicable law.
perl-base/copyright: .
perl-base/copyright: Affirmer disclaims responsibility for clearing rights of other
perl-base/copyright: persons that may apply to the Work or any use thereof, including
perl-base/copyright: without limitation any person's Copyright and Related Rights in the
perl-base/copyright: Work. Further, Affirmer disclaims responsibility for obtaining any
perl-base/copyright: necessary consents, permissions or other rights required for any
perl-base/copyright: use of the Work.
perl-base/copyright: .
perl-base/copyright: Affirmer understands and acknowledges that Creative Commons is not
perl-base/copyright: a party to this document and has no duty or obligation with respect

perl/copyright: states:
perl/copyright:.
perl/copyright:Unless otherwise accompanied by another included license, the text

perl/copyright: is covered by the Paul Hsieh exposition license.
perl/copyright:.
perl/copyright:For the specific coverage of raw source code (only) obtained from
perl/copyright: this website, you have the option of using the old-style BSD license
perl/copyright: to use the code instead of other the licenses. This option has been
perl/copyright: provided for people who can't figure out what I talking about with my

perl/copyright:.
perl/copyright:The entire English text describing the code is also covered under the

From Ubuntu 16.04 LTS

If a proprietary vendor wishes to create a closed source object code based product using source covered by the derivative license they may do so. However if this vendor then wished to distribute the original source code, they may not apply any licensing terms which contradict the original derivative license covering the derivative code.

If your code is compatible with the old style BSD license and you wish to avoid the burden of explicitly protecting code you obtained from here from misrepresentation then you can simply cover it with the old-style BSD license.

It is therefore assumed that the relevant part of the Perl source is licensed under either the "Paul Hsieh derivative license" or the "old-style BSD license", which have been included at the end of file with the codenames HSIEH-DERIVATIVE and HSIEH-BSID.

Additionally, the "hash.html" document has this statement for the relevant source code:

IMPORTANT NOTE: Since there has been a lot of interest for the code below, I have decided to additionally provide it under the LGPL 2.1 license. This provision applies to the code below only and not to any other code including other source archives or listings from this site unless otherwise specified.

The LGPL 2.1 is not necessarily a more liberal license than my derivative license, but this additional licensing makes the code available to more developers. Note that this does not give you multi-licensing rights. You can only use the code under one of the licenses at a time.

perl/copyright: .
perl/copyright: Everyone is permitted to copy and distribute verbatim copies of this
perl/copyright: license document, but changing it is not allowed.
perl/copyright: .
perl/copyright: Preamble
perl/copyright: .
perl/copyright: This license establishes the terms under which a given free software
perl/copyright: Package may be copied, modified, distributed, and/or redistributed.
perl/copyright: The intent is that the Copyright Holder maintains some artistic
perl/copyright: control over the development of that Package while still keeping the
perl/copyright: Package available as open source and free software.
perl/copyright: .
perl/copyright: You are always permitted to make arrangements wholly outside of this
perl/copyright: license directly with the Copyright Holder of a given Package. If the
perl/copyright: terms of this license do not permit the full use that you propose to
perl/copyright: make of the Package, you should contact the Copyright Holder and seek
perl/copyright: a different licensing arrangement.
perl/copyright: .
perl/copyright: Definitions
perl/copyright: .
perl/copyright: "Copyright Holder" means the individual(s) or organization(s) named in
perl/copyright: the copyright notice for the entire Package.
perl/copyright: .
perl/copyright: "Contributor" means any party that has contributed code or other
perl/copyright: material to the Package, in accordance with the Copyright Holder's
perl/copyright: procedures.
perl/copyright: .
perl/copyright: "You" and "your" means any person who would like to copy, distribute,
perl/copyright: or modify the Package.
perl/copyright: .
perl/copyright: "Package" means the collection of files distributed by the Copyright
perl/copyright: Holder, and derivatives of that collection and/or of those files. A
given Package may consist of either the Standard Version, or a
Modified Version.
perl/copyright: .
perl/copyright: "Distribute" means providing a copy of the Package or making it
accessible to anyone else, or in the case of a company or
organization, to others outside of your company or organization.
perl/copyright: .
perl/copyright: "Distributor Fee" means any fee that you charge for Distributing this
Package or providing support for this Package to another party. It
does not mean licensing fees.
perl/copyright: .
perl/copyright: "Standard Version" refers to the Package if it has not been modified,
From Ubuntu 16.04 LTS

perl/copyright: or has been modified only in ways explicitly requested by the
perl/copyright: Copyright Holder.
perl/copyright: 
perl/copyright: "Modified Version" means the Package, if it has been changed, and such
perl/copyright: changes were not explicitly requested by the Copyright Holder.
perl/copyright: 
perl/copyright: "Original License" means this Artistic License as Distributed with the
perl/copyright: Standard Version of the Package, in its current version or as it may
perl/copyright: be modified by The Perl Foundation in the future.
perl/copyright: 
perl/copyright: "Source" form means the source code, documentation source, and
perl/copyright: configuration files for the Package.
perl/copyright: 
perl/copyright: "Compiled" form means the compiled bytecode, object code, binary, or
perl/copyright: any other form resulting from mechanical transformation or translation
perl/copyright: of the Source form.
perl/copyright: 
perl/copyright: Permission for Use and Modification Without Distribution
perl/copyright: 
perl/copyright: (1) You are permitted to use the Standard Version and create and use
perl/copyright: Modified Versions for any purpose without restriction, provided that
perl/copyright: you do not Distribute the Modified Version.
perl/copyright: 
perl/copyright: Permissions for Redistribution of the Standard Version
perl/copyright: 
perl/copyright: (2) You may Distribute verbatim copies of the Source form of the
perl/copyright: Standard Version of this Package in any medium without restriction, provided that
perl/copyright: you duplicate all of the original copyright notices and associated disclaimers. At
perl/copyright: your discretion, such verbatim copies may or may not include a
perl/copyright: Compiled form of the Package.
perl/copyright: 
perl/copyright: (3) You may apply any bug fixes, portability changes, and other
perl/copyright: modifications made available from the Copyright Holder. The resulting
perl/copyright: Package will still be considered the Standard Version, and as such
perl/copyright: will be subject to the Original License.
perl/copyright: 
perl/copyright: Distribution of Modified Versions of the Package as Source
perl/copyright: 
perl/copyright: (4) You may Distribute your Modified Version as Source (either gratis
perl/copyright: or for a Distributor Fee, and with or without a Compiled form of the
perl/copyright: Modified Version) provided that you clearly document how it differs
perl/copyright: from the Standard Version, including, but not limited to, documenting
perl/copyright: any non-standard features, executables, or modules, and provided that
perl/copyright: you do at least ONE of the following:
From Ubuntu 16.04 LTS

perl/copyright: (a) make the Modified Version available to the Copyright Holder of the
perl/copyright: Standard Version, under the Original License, so that the Copyright
perl/copyright: Holder may include your modifications in the Standard Version. (b)
perl/copyright: ensure that installation of your Modified Version does not prevent the
perl/copyright: user installing or running the Standard Version. In addition, the
perl/copyright: Modified Version must bear a name that is different from the name of
perl/copyright: the Standard Version. (c) allow anyone who receives a copy of the
perl/copyright: Modified Version to make the Source form of the Modified Version
perl/copyright: available to others under (i) the Original License or (ii) a license
perl/copyright: that permits the licensee to freely copy, modify and redistribute the
perl/copyright: Modified Version using the same licensing terms that apply to the copy
perl/copyright: that the licensee received, and requires that the Source form of the
perl/copyright: Modified Version, and of any works derived from it, be made freely
perl/copyright: available in that license fees are prohibited but Distributor Fees are
perl/copyright: allowed.

perl/copyright: Distribution of Compiled Forms of the Standard Version or Modified
perl/copyright: Versions without the Source

perl/copyright: (5) You may Distribute Compiled forms of the Standard Version without
perl/copyright: the Source, provided that you include complete instructions on how to
perl/copyright: get the Source of the Standard Version. Such instructions must be
perl/copyright: valid at the time of your distribution. If these instructions, at any
perl/copyright: time while you are carrying out such distribution, become invalid, you
perl/copyright: must provide new instructions on demand or cease further distribution.
perl/copyright: If you provide valid instructions or cease distribution within thirty
perl/copyright: days after you become aware that the instructions are invalid, then
perl/copyright: you do not forfeit any of your rights under this license.

perl/copyright: (6) You may Distribute a Modified Version in Compiled form without the
perl/copyright: Source, provided that you comply with Section 4 with respect to the
perl/copyright: Source of the Modified Version.

perl/copyright: Aggregating or Linking the Package

perl/copyright: (7) You may aggregate the Package (either the Standard Version or
perl/copyright: Modified Version) with other packages and Distribute the resulting
perl/copyright: aggregation provided that you do not charge a licensing fee for the
perl/copyright: Package. Distributor Fees are permitted, and licensing fees for other
perl/copyright: components in the aggregation are permitted. The terms of this license
perl/copyright: apply to the use and Distribution of the Standard or Modified Versions
perl/copyright: as included in the aggregation.

perl/copyright: (8) You are permitted to link Modified and Standard Versions with
From Ubuntu 16.04 LTS

perl/copyright: other works, to embed the Package in a larger work of your own, or to
perl/copyright: build stand-alone binary or bytecode versions of applications that
perl/copyright: include the Package, and Distribute the result without restriction,
perl/copyright: provided the result does not expose a direct interface to the Package.
perl/copyright: .
perl/copyright: Items That are Not Considered Part of a Modified Version
perl/copyright: .
perl/copyright: (9) Works (including, but not limited to, modules and scripts) that
perl/copyright: merely extend or make use of the Package, do not, by themselves, cause
perl/copyright: the Package to be a Modified Version. In addition, such works are not
perl/copyright: considered parts of the Package itself, and are not subject to the
perl/copyright: terms of this license.
perl/copyright: .
perl/copyright: General Provisions
perl/copyright: .
perl/copyright: (10) Any use, modification, and distribution of the Standard or
perl/copyright: Modified Versions is governed by this Artistic License. By using,
perl/copyright: modifying or distributing the Package, you accept this license. Do not
perl/copyright: use, modify, or distribute the Package, if you do not accept this
perl/copyright: license.

As such, the author is not responsible for the consequences of use of this software, no matter how awful, even if they arise from defects in it. There is no expressed or implied warranty for the sdbm library.

Since the sdbm library package is in the public domain, this original release or any additional public-domain releases of the modified original cannot possibly (by definition) be withheld from you. Also by definition, You (singular) have all the rights to this code (including the right to sell without permission, the right to hoard[3] and the right to do other icky things as you see fit) but those rights are also granted to everyone else.

Please note that all previous distributions of this software contained a copyright (which is now dropped) to protect its origins and its current public domain status against any possible claims and/or challenges.

From Ubuntu 16.04 LTS

The laws of most jurisdictions throughout the world automatically confer exclusive Copyright and Related Rights (defined below) upon the creator and subsequent owner(s) (each and all, an "owner") of an original work of authorship and/or a database (each, a "Work").

Certain owners wish to permanently relinquish those rights to a Work for the purpose of contributing to a commons of creative, cultural and scientific works ("Commons") that the public can reliably and without fear of later claims of infringement build upon, modify, incorporate in other works, reuse and redistribute as freely as possible in any form whatsoever and for any purposes, including without limitation commercial purposes. These owners may contribute to the Commons to promote the ideal of a free culture and the further production of creative, cultural and scientific works, or to gain reputation or greater distribution for their Work in part through the use and efforts of others.

For these and/or other purposes and motivations, and without any expectation of additional consideration or compensation, the person associating CC0 with a Work (the "Affirmer"), to the extent that he or she is an owner of Copyright and Related Rights in the Work, voluntarily elects to apply CC0 to the Work and publicly distribute the Work under its terms, with knowledge of his or her Copyright and Related Rights in the Work and the meaning and intended legal effect of CC0 on those rights.

1. Copyright and Related Rights. A Work made available under CC0 may be protected by copyright and related or neighboring rights ("Copyright and Related Rights"). Copyright and Related Rights include, but are not limited to, the following:

- the right to reproduce, adapt, distribute, perform, display,
- communicate, and translate a Work;
- moral rights retained by the original author(s) and/or performer(s);
- publicity and privacy rights pertaining to a person's image or likeness depicted in a Work;
From Ubuntu 16.04 LTS

perl/copyright: 2. Waiver. To the greatest extent permitted by, but not in contravention perl/copyright: of, applicable law, Affirmer hereby overtly, fully, permanently, perl/copyright: irrevocably and unconditionally waives, abandons, and surrenders all perl/copyright: of Affirmer's Copyright and Related Rights and associated claims and perl/copyright: causes of action, whether now known or unknown (including existing perl/copyright: as well as future claims and causes of action), in the Work (i) in perl/copyright: all territories worldwide, (ii) for the maximum duration provided by perl/copyright: applicable law or treaty (including future time extensions), (iii) perl/copyright: in any current or future medium and for any number of copies, and (iv) perl/copyright: for any purpose whatsoever, including without limitation commercial, perl/copyright: advertising or promotional purposes (the "Waiver"). Affirmer makes the perl/copyright: Waiver for the benefit of each member of the public at large and to the perl/copyright: detriment of Affirmer's heirs and successors, fully intending that such perl/copyright: Waiver shall not be subject to revocation, rescission, cancellation, perl/copyright: termination, or any other legal or equitable action to disrupt the perl/copyright: quiet enjoyment of the Work by the public as contemplated by Affirmer's perl/copyright: express Statement of Purpose.

perl/copyright: 3. Public License Fallback. Should any part of the Waiver for any perl/copyright: reason be judged legally invalid or ineffective under applicable law, perl/copyright: then the Waiver shall be preserved to the maximum extent permitted perl/copyright: taking into account Affirmer's express Statement of Purpose. In perl/copyright: addition, to the extent the Waiver is so judged Affirmer hereby perl/copyright: grants to each affected person a royalty-free, non transferable, non perl/copyright: sublicensable, non exclusive, irrevocable and unconditional license perl/copyright: to exercise Affirmer's Copyright and Related Rights in the Work (i) perl/copyright: in all territories worldwide, (ii) for the maximum duration provided perl/copyright: by applicable law or treaty (including future time extensions), (iii) perl/copyright: in any current or future medium and for any number of copies, and (iv)

perl/copyright: invalid or ineffective under applicable law, such partial invalidity

perl-modules-5.22/copyright: .
perl-modules-5.22/copyright: Examples: Unless covered by another accompanying license, source code
perl-modules-5.22/copyright: shown on my website can be used freely under the derivative license,
perl-modules-5.22/copyright: (and may be distributed under a public domain license, whether compiled

perl-modules-5.22/copyright: If a proprietary vendor wishes to create a closed source object code
perl-modules-5.22/copyright: based product using source covered by the derivative license they may
perl-modules-5.22/copyright: do so. However if this vendor then wished to distribute the original
perl-modules-5.22/copyright: source code, they may not apply any licensing terms which contradict
perl-modules-5.22/copyright: the original derivative license covering the derivative code.

perl-modules-5.22/copyright: the old-style BSD license.
perl-modules-5.22/copyright: .

perl-modules-5.22/copyright: relevant source code:
perl-modules-5.22/copyright: .
perl-modules-5.22/copyright: IMPORTANT NOTE: Since there has been a lot of interest for the code

perl-modules-5.22/copyright:  other code including other source archives or listings from this site
perl-modules-5.22/copyright:  unless otherwise specified.
perl-modules-5.22/copyright: .
perl-modules-5.22/copyright:  The LGPL 2.1 is not necessarily a more liberal license than my

perl-modules-5.22/copyright: .
perl-modules-5.22/copyright: "Standard Version" refers to the Package if it has not been modified,
perl-modules-5.22/copyright: or has been modified only in ways explicitly requested by the
perl-modules-5.22/copyright: Copyright Holder.
perl-modules-5.22/copyright: .
perl-modules-5.22/copyright: "Modified Version" means the Package, if it has been changed, and such
perl-modules-5.22/copyright: changes were not explicitly requested by the Copyright Holder.
perl-modules-5.22/copyright: .
perl-modules-5.22/copyright: "Original License" means this Artistic License as Distributed with the
perl-modules-5.22/copyright: Standard Version of the Package, in its current version or as it may
perl-modules-5.22/copyright: be modified by The Perl Foundation in the future.
perl-modules-5.22/copyright: .

perl-modules-5.22/copyright: Permission for Use and Modification Without Distribution
perl-modules-5.22/copyright: .
perl-modules-5.22/copyright: (1) You are permitted to use the Standard Version and create and use
perl-modules-5.22/copyright: Modified Versions for any purpose without restriction, provided that
perl-modules-5.22/copyright: you do not Distribute the Modified Version.
perl-modules-5.22/copyright: .
perl-modules-5.22/copyright: Permissions for Redistribution of the Standard Version
perl-modules-5.22/copyright: .
perl-modules-5.22/copyright: (2) You may Distribute verbatim copies of the Source form of the
(3) You may apply any bug fixes, portability changes, and other modifications made available from the Copyright Holder. The resulting Package will still be considered the Standard Version, and as such will be subject to the Original License.

(4) You may Distribute your Modified Version as Source (either gratis or for a Distributor Fee, and with or without a Compiled form of the Modified Version) provided that you clearly document how it differs from the Standard Version, including, but not limited to, documenting any non-standard features, executables, or modules, and provided that you do at least ONE of the following:

(a) make the Modified Version available to the Copyright Holder of the Standard Version, under the Original License, so that the Copyright Holder may include your modifications in the Standard Version.
(b) ensure that installation of your Modified Version does not prevent the user installing or running the Standard Version. In addition, the Modified Version must bear a name that is different from the name of the Standard Version.
(c) allow anyone who receives a copy of the Modified Version to make the Source form of the Modified Version available to others under (i) the Original License or (ii) a license that permits the licensee to freely copy, modify and redistribute the Modified Version using the same licensing terms that apply to the copy received, and requires that the Source form of the Modified Version, and of any works derived from it, be made freely available in that license.

(5) You may Distribute Compiled forms of the Standard Version without the Source, provided that you include complete instructions on how to get the Source of the Standard Version. Such instructions must be valid at the time of your distribution. If these instructions, at any time while you are carrying out such distribution, become invalid, you must provide new instructions on demand or cease further distribution.
From Ubuntu 16.04 LTS

perl-modules-5.22/copyright: If you provide valid instructions or cease distribution within thirty days after you become aware that the instructions are invalid, then you do not forfeit any of your rights under this license.

perl-modules-5.22/copyright: (6) You may Distribute a Modified Version in Compiled form without the Source, provided that you comply with Section 4 with respect to the Source of the Modified Version.

perl-modules-5.22/copyright: Aggregating or Linking the Package

perl-modules-5.22/copyright: (7) You may aggregate the Package (either the Standard Version or Modified Version) with other packages and Distribute the resulting aggregation provided that you do not charge a licensing fee for the Package. Distributor Fees are permitted, and licensing fees for other components in the aggregation are permitted. The terms of this license apply to the use and Distribution of the Standard or Modified Versions as included in the aggregation.

perl-modules-5.22/copyright: (8) You are permitted to link Modified and Standard Versions with other works, to embed the Package in a larger work of your own, or to build stand-alone binary or bytecode versions of applications that include the Package, and Distribute the result without restriction, provided the result does not expose a direct interface to the Package.

perl-modules-5.22/copyright: Items That are Not Considered Part of a Modified Version

perl-modules-5.22/copyright: (9) Works (including, but not limited to, modules and scripts) that merely extend or make use of the Package, do not, by themselves, cause the Package to be a Modified Version. In addition, such works are not considered parts of the Package itself, and are not subject to the terms of this license.

perl-modules-5.22/copyright: General Provisions

perl-modules-5.22/copyright: (10) Any use, modification, and distribution of the Standard or Modified Versions is governed by this Artistic License. By using, modifying or distributing the Package, you accept this license. Do not use, modify, or distribute the Package, if you do not accept this license.

perl-modules-5.22/copyright: (11) If your Modified Version has been derived from a Modified Version made by someone other than you, you are nevertheless required to ensure that your Modified Version complies with the requirements of this license.
perl-modules-5.22/copyright: (12) This license does not grant you the right to use any trademark,
perl-modules-5.22/copyright: service mark, tradename, or logo of the Copyright Holder.
perl-modules-5.22/copyright: (13) This license includes the non-exclusive, worldwide,
perl-modules-5.22/copyright: free-of-charge patent license to make, have made, use, offer to sell,
perl-modules-5.22/copyright: sell, import and otherwise transfer the Package with respect to any
perl-modules-5.22/copyright: patent claims licensable by the Copyright Holder that are necessarily
perl-modules-5.22/copyright: infringed by the Package. If you institute patent litigation
perl-modules-5.22/copyright: (including a cross-claim or counterclaim) against any party alleging
perl-modules-5.22/copyright: that the Package constitutes direct or contributory patent
perl-modules-5.22/copyright: infringement, then this Artistic License to you shall terminate on the
perl-modules-5.22/copyright: date that such litigation is filed.

perl-modules-5.22/copyright: Statement of Purpose

perl-modules-5.22/copyright: The laws of most jurisdictions throughout the world automatically confer exclusive Copyright and Related Rights (defined below) upon the creator and subsequent owner(s) (each and all, an "owner") of an original work of authorship and/or a database (each, a "Work").

perl-modules-5.22/copyright: Certain owners wish to permanently relinquish those rights to a Work for the purpose of contributing to a commons of creative, cultural and scientific works ("Commons") that the public can reliably and without fear of later claims of infringement build upon, modify, incorporate in other works, reuse and redistribute as freely as possible in any form whatsoever and for any purposes, including without limitation commercial purposes. These owners may contribute to the Commons to promote the ideal of a free culture and the further production of creative, cultural and scientific works, or to gain reputation or greater distribution for their Work in part through the use and efforts of others.

perl-modules-5.22/copyright: For these and/or other purposes and motivations, and without any expectation of additional consideration or compensation, the person
perl-modules-5.22/copyright: associating CC0 with a Work (the "Affirmer"), to the extent that
perl-modules-5.22/copyright: he or she is an owner of Copyright and Related Rights in the Work,
perl-modules-5.22/copyright: voluntarily elects to apply CC0 to the Work and publicly distribute
perl-modules-5.22/copyright: the Work under its terms, with knowledge of his or her Copyright and
perl-modules-5.22/copyright: Related Rights in the Work and the meaning and intended legal effect
perl-modules-5.22/copyright: of CC0 on those rights.
perl-modules-5.22/copyright: 1. Copyright and Related Rights. A Work made available under CC0 may be
perl-modules-5.22/copyright: protected by copyright and related or neighboring rights ("Copyright
perl-modules-5.22/copyright: and Related Rights"). Copyright and Related Rights include, but are
perl-modules-5.22/copyright: not limited to, the following:
perl-modules-5.22/copyright:  the right to reproduce, adapt, distribute, perform, display,
perl-modules-5.22/copyright:  communicate, and translate a Work;
perl-modules-5.22/copyright:  moral rights retained by the original author(s) and/or performer(s);
perl-modules-5.22/copyright:  publicity and privacy rights pertaining to a person's image or
perl-modules-5.22/copyright:  likeness depicted in a Work;
perl-modules-5.22/copyright:  rights protecting against unfair competition in regards to a Work,
perl-modules-5.22/copyright:  subject to the limitations in paragraph 4(a), below;
perl-modules-5.22/copyright:  rights protecting the extraction, dissemination, use and reuse of data in a Work;
perl-modules-5.22/copyright:  database rights (such as those arising under Directive 96/9/EC
perl-modules-5.22/copyright:  on the legal protection of databases, and under any national
perl-modules-5.22/copyright:  implementation thereof, including any amended or successor version
perl-modules-5.22/copyright:  of such directive); and
perl-modules-5.22/copyright:  other similar, equivalent or corresponding rights throughout the world
perl-modules-5.22/copyright:  based on applicable law or treaty, and any national implementations
perl-modules-5.22/copyright:  thereof.
perl-modules-5.22/copyright: 2. Waiver. To the greatest extent permitted by, but not in contravention
perl-modules-5.22/copyright: of, applicable law, Affirmer hereby overtly, fully, permanently,
perl-modules-5.22/copyright: irrevocably and unconditionally waives, abandons, and surrenders all
perl-modules-5.22/copyright: of Affirmer's Copyright and Related Rights and associated claims and
perl-modules-5.22/copyright: causes of action, whether now known or unknown (including existing
perl-modules-5.22/copyright: as well as future claims and causes of action), in the Work (i) in
perl-modules-5.22/copyright: all territories worldwide, (ii) for the maximum duration provided by
perl-modules-5.22/copyright: applicable law or treaty (including future time extensions), (iii)
perl-modules-5.22/copyright: in any current or future medium and for any number of copies, and (iv)
perl-modules-5.22/copyright: for any purpose whatsoever, including without limitation commercial,
From Ubuntu 16.04 LTS

Perl-modules-5.22/copyright: advertising or promotional purposes (the "Waiver"). Affirmer makes the
Perl-modules-5.22/copyright: Waiver for the benefit of each member of the public at large and to the
Perl-modules-5.22/copyright: detriment of Affirmer's heirs and successors, fully intending that such
Perl-modules-5.22/copyright: Waiver shall not be subject to revocation, rescission, cancellation,
Perl-modules-5.22/copyright: termination, or any other legal or equitable action to disrupt the
Perl-modules-5.22/copyright: quiet enjoyment of the Work by the public as contemplated by Affirmer's
Perl-modules-5.22/copyright: express Statement of Purpose.

Perl-modules-5.22/copyright: 3. Public License Fallback. Should any part of the Waiver for any
Perl-modules-5.22/copyright: reason be judged legally invalid or ineffective under applicable law,
Perl-modules-5.22/copyright: then the Waiver shall be preserved to the maximum extent permitted
Perl-modules-5.22/copyright: taking into account Affirmer's express Statement of Purpose. In
Perl-modules-5.22/copyright: addition, to the extent the Waiver is so judged Affirmer hereby
Perl-modules-5.22/copyright: grants to each affected person a royalty-free, non transferable, non
Perl-modules-5.22/copyright: sublicensable, non exclusive, irrevocable and unconditional license
Perl-modules-5.22/copyright: to exercise Affirmer's Copyright and Related Rights in the Work (i)
Perl-modules-5.22/copyright: in all territories worldwide, (ii) for the maximum duration provided
Perl-modules-5.22/copyright: by applicable law or treaty (including future time extensions), (iii)
Perl-modules-5.22/copyright: in any current or future medium and for any number of copies, and (iv)
Perl-modules-5.22/copyright: for any purpose whatsoever, including without limitation commercial,
Perl-modules-5.22/copyright: advertising or promotional purposes (the "License"). The License shall
Perl-modules-5.22/copyright: be deemed effective as of the date CC0 was applied by Affirmer to the
Perl-modules-5.22/copyright: Work. Should any part of the License for any reason be judged legally
Perl-modules-5.22/copyright: invalid or ineffective under applicable law, such partial invalidity
Perl-modules-5.22/copyright: or ineffectiveness shall not invalidate the remainder of the License,
Perl-modules-5.22/copyright: and in such case Affirmer hereby affirms that he or she will not (i)
Perl-modules-5.22/copyright: exercise any of his or her remaining Copyright and Related Rights in
Perl-modules-5.22/copyright: the Work or (ii) assert any associated claims and causes of action
Perl-modules-5.22/copyright: with respect to the Work, in either case contrary to Affirmer's express
Perl-modules-5.22/copyright: Statement of Purpose.

Perl-modules-5.22/copyright: 4. Limitations and Disclaimers.

Perl-modules-5.22/copyright: No trademark or patent rights held by Affirmer are waived,
Perl-modules-5.22/copyright: abandoned, surrendered, licensed or otherwise affected by this
Perl-modules-5.22/copyright: document.

Perl-modules-5.22/copyright: Affirmer offers the Work as-is and makes no representations or
Perl-modules-5.22/copyright: warranties of any kind concerning the Work, express, implied,
Perl-modules-5.22/copyright: statutory or otherwise, including without limitation warranties
Perl-modules-5.22/copyright: of title, merchantability, fitness for a particular purpose, non
Perl-modules-5.22/copyright: infringement, or the absence of latent or other defects, accuracy,
Perl-modules-5.22/copyright: or the present or absence of errors, whether or not discoverable,
Perl-modules-5.22/copyright: all to the greatest extent permissible under applicable law.

perl-modules-5.22/copyright:  Affirmer disclaims responsibility for clearing rights of other
perl-modules-5.22/copyright:  persons that may apply to the Work or any use thereof, including
perl-modules-5.22/copyright:  without limitation any person’s Copyright and Related Rights in the
perl-modules-5.22/copyright:  Work. Further, Affirmer disclaims responsibility for obtaining any
perl-modules-5.22/copyright:  necessary consents, permissions or other rights required for any
perl-modules-5.22/copyright:  use of the Work.
perl-modules-5.22/copyright:  
perl-modules-5.22/copyright:  Affirmer understands and acknowledges that Creative Commons is not
perl-modules-5.22/copyright:  a party to this document and has no duty or obligation with respect
perl-modules-5.22/copyright:  to this CC0 or use of the Work.

A. HISTORY OF THE SOFTWARE

Python was created in the early 1990s by Guido van Rossum at Stichting Mathematisch Centrum (CWI, see http://www.cwi.nl) in the Netherlands as a successor of a language called ABC. Guido remains Python’s principal author, although it includes many contributions from others.

In 1995, Guido continued his work on Python at the Corporation for National Research Initiatives (CNRI, see http://www.cnri.reston.va.us) in Reston, Virginia where he released several versions of the software.

In May 2000, Guido and the Python core development team moved to BeOpen.com to form the BeOpen PythonLabs team. In October of the same year, the PythonLabs team moved to Digital Creations (now Zope Corporation, see http://www.zope.com). In 2001, the Python Software Foundation (PSF, see http://www.python.org/psf/) was formed, a non-profit organization created specifically to own Python-related Intellectual Property. Zope Corporation is a sponsoring member of the PSF.

All Python releases are Open Source (see http://www.opensource.org for the Open Source Definition). Historically, most, but not all, Python releases have also been GPL-compatible; the table below summarizes the various releases.

**Footnotes:**

(1) GPL-compatible doesn't mean that we're distributing Python under the GPL. All Python licenses, unlike the GPL, let you distribute a modified version without making your changes open source. The GPL-compatible licenses make it possible to combine Python with other software that is released under the GPL; the others don't.
From Ubuntu 16.04 LTS

According to Richard Stallman, 1.6.1 is not GPL-compatible, because its license has a choice of law clause. According to CNRI, however, Stallman's lawyer has told CNRI's lawyer that 1.6.1 is "not incompatible" with the GPL.

Thanks to the many outside volunteers who have worked under Guido's direction to make these releases possible.

Licenses for Software linked to

Note that the choice of GPL compatibility outlined above doesn't extend to modules linked to particular libraries, since they change the effective License of the module binary.

GNU Readline
------------

The 'readline' module makes use of GNU Readline.

The GNU Readline Library is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2, or (at your option) any later version.

On Debian systems, you can find the complete statement in readline-common/copyright'. A copy of the GNU General Public License is available in /usr/share/common-licenses/GPL-2'.

OpenSSL
-------

The '_ssl' module makes use of OpenSSL.

The OpenSSL toolkit stays under a dual license, i.e. both the conditions of the OpenSSL License and the original SSLeay license apply to the toolkit. Actually both licenses are BSD-style Open Source licenses. Note that both licenses are incompatible with the GPL.

On Debian systems, you can find the complete license text in openssl/copyright'.

Mathematisch Centrum (CWI, see http://www.cwi.nl) in the Netherlands
as a successor of a language called ABC. Guido remains Python's
principal author, although it includes many contributions from others.

In 1995, Guido continued his work on Python at the Corporation for
National Research Initiatives (CNRI, see http://www.cnri.reston.va.us)
in Reston, Virginia where he released several versions of the
Python software.

This package was put together by Klee Dienes <klee@debian.org> from
sources from ftp.python.org:/pub/python, based on the Debianization by
the previous maintainers Bernd S. Breitrup <bsb@uni-muenster.de> and
Bruce Perens. Current maintainer is Matthias Klose <doko@debian.org>.

It was downloaded from http://python.org/

In May 2000, Guido and the Python core development team moved to BeOpen.com to form the BeOpen PythonLabs team. In October of the same year, the PythonLabs team moved to Digital Creations (now Zope Foundation, see http://www.zope.com). In 2001, the Python Software Foundation (PSF, see http://www.python.org/psf/) was formed, a non-profit organization created specifically to own Python-related Intellectual Property. Zope Corporation is a sponsoring member of the PSF.

All Python releases are Open Source (see http://www.opensource.org for the Open Source Definition). Historically, most, but not all, Python releases have also been GPL-compatible; the table below summarizes the various releases.

Footnotes:

(1) GPL-compatible doesn't mean that we're distributing Python under the GPL. All Python licenses, unlike the GPL, let you distribute a modified version without making your changes open source. The GPL-compatible licenses make it possible to combine Python with other software that is released under the GPL; the others don't.

(2) According to Richard Stallman, 1.6.1 is not GPL-compatible, because its license has a choice of law clause. According to CNRI, however, Stallman's lawyer has told CNRI's lawyer that 1.6.1 is "not incompatible" with the GPL.

Thanks to the many outside volunteers who have worked under Guido's direction to make these releases possible.

The '__ssl' module makes use of OpenSSL.

The OpenSSL toolkit stays under a dual license, i.e. both the conditions of the OpenSSL License and the original SSLeay license apply to the toolkit. Actually both licenses are BSD-style Open Source licenses. Note that both licenses are incompatible with the GPL.

On Debian systems, you can find the complete license text in openssl/copyright'.

A. HISTORY OF THE SOFTWARE
python3.5/copyright:=========================

Python was created in the early 1990s by Guido van Rossum at Stichting
Mathematisch Centrum (CWI, see http://www.cwi.nl) in the Netherlands
as a successor of a language called ABC. Guido remains Python's
principal author, although it includes many contributions from others.

In 1995, Guido continued his work on Python at the Corporation for
National Research Initiatives (CNRI, see http://www.cnri.reston.va.us) in Reston, Virginia where he released several versions of the
software.

In May 2000, Guido and the Python core development team moved to
BeOpen.com to form the BeOpen PythonLabs team. In October of the same
year, the PythonLabs team moved to Digital Creations (now Zope
Corporation, see http://www.zope.com). In 2001, the Python Software
Foundation (PSF, see http://www.python.org/psf/) was formed, a
non-profit organization created specifically to own Python-related
intellectual property. Zope Corporation is a sponsoring member of
the PSF.

All Python releases are Open Source (see http://www.opensource.org for
the Open Source Definition). Historically, most, but not all, Python
releases have also been GPL-compatible; the table below summarizes
the various releases.

**Footnotes:**

1. GPL-compatible doesn't mean that we're distributing Python under the GPL. All Python licenses, unlike the GPL, let you distribute a modified version without making your changes open source. The GPL-compatible licenses make it possible to combine Python with other software that is released under the GPL; the others don't.

2. According to Richard Stallman, 1.6.1 is not GPL-compatible, because its license has a choice of law clause. According to CNRI, however, Stallman's lawyer has told CNRI's lawyer that 1.6.1 is "not incompatible" with the GPL.

Modified by Jack Jansen, CWI, July 1995:
- Use binascii module to do the actual line-by-line conversion
between ascii and binary. This results in a 1000-fold speedup. The C
version is still 5 times faster, though.
- Arguments more compliant with python standard

python3.5/copyright:Licenses for Software linked to

Note that the choice of GPL compatibility outlined above doesn't extend

to modules linked to particular libraries, since they change the
effective License of the module binary.

GNU Readline

The 'readline' module makes use of GNU Readline.

The GNU Readline Library is free software; you can redistribute it
and/or modify it under the terms of the GNU General Public License as
published by the Free Software Foundation; either version 2, or (at
your option) any later version.

On Debian systems, you can find the complete statement in
readline-common/copyright'. A copy of the GNU General
Public License is available in /usr/share/common-licenses/GPL-2'.

OpenSSL

The '_ssl' module makes use of OpenSSL.

The OpenSSL toolkit stays under a dual license, i.e. both the
conditions of the OpenSSL License and the original SSLeay license
apply to the toolkit. Actually both licenses are BSD-style Open
Source licenses. Note that both licenses are incompatible with
the GPL.

On Debian systems, you can find the complete license text in
openssl/copyright'.

python3.5-minimal/copyright:A. HISTORY OF THE SOFTWARE
python3.5-minimal/copyright:==============================
From Ubuntu 16.04 LTS

Python was created in the early 1990s by Guido van Rossum at Stichting Mathematisch Centrum (CWI, see http://www.cwi.nl) in the Netherlands as a successor of a language called ABC. Guido remains Python's principal author, although it includes many contributions from others.

In 1995, Guido continued his work on Python at the Corporation for National Research Initiatives (CNRI, see http://www.cnri.reston.va.us) in Reston, Virginia where he released several versions of the software.

All Python releases are Open Source (see http://www.opensource.org for the Open Source Definition). Historically, most, but not all, Python releases have also been GPL-compatible; the table below summarizes the various releases.

### Footnotes:

1. GPL-compatible doesn't mean that we're distributing Python under the GPL. All Python licenses, unlike the GPL, let you distribute a modified version without making your changes open source. The GPL-compatible licenses make it possible to combine Python with other software that is released under the GPL; the others don't.

2. According to Richard Stallman, 1.6.1 is not GPL-compatible, because its license has a choice of law clause. According to CNRI, however, Stallman's lawyer has told CNRI's lawyer that 1.6.1 is "not incompatible" with the GPL.

Thanks to the many outside volunteers who have worked under Guido's direction to make these releases possible.

GNU Readline

-----------

The 'readline' module makes use of GNU Readline.

The GNU Readline Library is free software; you can redistribute it
and/or modify it under the terms of the GNU General Public License as
published by the Free Software Foundation; either version 2, or (at
your option) any later version.

On Debian systems, you can find the complete statement in
readline-common/copyright'. A copy of the GNU General
Public License is available in /usr/share/common-licenses/GPL-2'.

OpenSSL

-------

The '_ssl' module makes use of OpenSSL.

The OpenSSL toolkit stays under a dual license, i.e. both the
conditions of the OpenSSL License and the original SSLeay license
apply to the toolkit. Actually both licenses are BSD-style Open
Source licenses. Note that both licenses are incompatible with
the GPL.

On Debian systems, you can find the complete license text in
openssl/copyright'.

language. Python was written by Guido van Rossum <guido@cwi.nl> and others.
From Ubuntu 16.04 LTS

This package was put together by Klee Dienes <klee@debian.org> from sources from ftp.python.org:/pub/python, based on the Debianization by the previous maintainers Bernd S. Brentrup <bsb@uni-muenster.de> and Bruce Perens.

Current maintainer is Matthias Klose <doko@debian.org> until the final 2.3 version is released.

A. HISTORY OF THE SOFTWARE

Python was created in the early 1990s by Guido van Rossum at Stichting Mathematisch Centrum (CWI, see http://www.cwi.nl) in the Netherlands as a successor of a language called ABC. Guido remains Python's principal author, although it includes many contributions from others.

In 1995, Guido continued his work on Python at the Corporation for National Research Initiatives (CNRI, see http://www.cnri.reston.va.us) in Reston, Virginia where he released several versions of the software.

In May 2000, Guido and the Python core development team moved to BeOpen.com to form the BeOpen PythonLabs team. In October of the same year, the PythonLabs team moved to Digital Creations (now Zope Corporation, see http://www.zope.com). In 2001, the Python Software Foundation (PSF, see http://www.python.org/psf/) was formed, a non-profit organization created specifically to own Python-related Intellectual Property. Zope Corporation is a sponsoring member of the PSF.

All Python releases are Open Source (see http://www.opensource.org for the Open Source Definition). Historically, most, but not all, Python releases have also been GPL-compatible; the table below summarizes the various releases.

Footnotes:

(1) GPL-compatible doesn't mean that we're distributing Python under the GPL. All Python licenses, unlike the GPL, let you distribute a modified version without making your changes open source. The GPL-compatible licenses make it possible to combine Python with other software that is released under the GPL; the others don't.
(2) According to Richard Stallman, 1.6.1 is not GPL-compatible, because its license has a choice of law clause. According to CNRI, however, Stallman's lawyer has told CNRI's lawyer that 1.6.1 is "not incompatible" with the GPL.

Thanks to the many outside volunteers who have worked under Guido's direction to make these releases possible.

PYTHON SOFTWARE FOUNDATION LICENSE VERSION 2

1. This LICENSE AGREEMENT is between the Python Software Foundation ("PSF"), and the Individual or Organization ("Licensee") accessing and otherwise using this software ("Python") in source or binary form and its associated documentation.

2. Subject to the terms and conditions of this License Agreement, PSF hereby grants Licensee a nonexclusive, royalty-free, world-wide license to reproduce, analyze, test, perform and/or display publicly, prepare derivative works, distribute, and otherwise use Python alone or in any derivative version, provided, however, that PSF's License Agreement and PSF's notice of copyright, i.e., "Copyright (c) 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010 Python Software Foundation; All Rights Reserved" are retained in Python alone or in any derivative version prepared by Licensee.

3. In the event Licensee prepares a derivative work that is based on or incorporates Python or any part thereof, and wants to make the derivative work available to others as provided herein, then Licensee hereby agrees to include in any such work a brief summary of the changes made to Python.

4. PSF is making Python available to Licensee on an "AS IS" basis. PSF MAKES NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED. BY WAY OF EXAMPLE, BUT NOT LIMITATION, PSF MAKES NO AND DISCLAIMS ANY REPRESENTATION OR WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR THAT THE USE OF PYTHON WILL NOT INFRINGE ANY THIRD PARTY RIGHTS.

5. PSF SHALL NOT BE LIABLE TO LICENSEE OR ANY OTHER USERS OF PYTHON FOR ANY INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES OR LOSS AS A RESULT OF MODIFYING, DISTRIBUTING, OR OTHERWISE USING PYTHON,

python3-gdbm/copyright:A. HISTORY OF THE SOFTWARE
python3-gdbm/copyright:==================================
python3-gdbm/copyright:
python3-gdbm/copyright:Python was created in the early 1990s by Guido van Rossum at Stichting
python3-gdbm/copyright:Mathematisch Centrum (CWI, see http://www.cwi.nl) in the Netherlands
python3-gdbm/copyright:as a successor of a language called ABC. Guido remains Python's
python3-gdbm/copyright:principal author, although it includes many contributions from others.
python3-gdbm/copyright:
python3-gdbm/copyright:In 1995, Guido continued his work on Python at the Corporation for
python3-gdbm/copyright:National Research Initiatives (CNRI, see http://www.cnri.reston.va.us)
python3-gdbm/copyright:in Reston, Virginia where he released several versions of the
python3-gdbm/copyright:software.
python3-gdbm/copyright:
python3-gdbm/copyright:In May 2000, Guido and the Python core development team moved to
python3-gdbm/copyright:BeOpen.com to form the BeOpen PythonLabs team. In October of the same
python3-gdbm/copyright:year, the PythonLabs team moved to Digital Creations (now Zope
python3-gdbm/copyright:Corporation, see http://www.zope.com). In 2001, the Python Software
python3-gdbm/copyright:Foundation (PSF, see http://www.python.org/psf/) was formed, a
python3-gdbm/copyright:non-profit organization created specifically to own Python-related
python3-gdbm/copyright:Intellectual Property. Zope Corporation is a sponsoring member of
python3-gdbm/copyright:the PSF.

python3-gdbm/copyright:Footnotes:
python3-gdbm/copyright:(1) GPL-compatible doesn't mean that we're distributing Python under
python3-gdbm/copyright:    the GPL. All Python licenses, unlike the GPL, let you distribute
python3-gdbm/copyright:    a modified version without making your changes open source. The
python3-gdbm/copyright:    GPL-compatible licenses make it possible to combine Python with
python3-gdbm/copyright:    other software that is released under the GPL; the others don't.
python3-gdbm/copyright:(2) According to Richard Stallman, 1.6.1 is not GPL-compatible,
python3-gdbm/copyright:    because its license has a choice of law clause. According to
python3-gdbm/copyright:    CNRI, however, Stallman's lawyer has told CNRI's lawyer that 1.6.1
python3-gdbm/copyright:    is "not incompatible" with the GPL.
python3-gdbm/copyright:Thanks to the many outside volunteers who have worked under Guido's
python3-gdbm/copyright:direction to make these releases possible.

**Footnotes:**

1. GPL-compatible doesn't mean that we're distributing Python under the GPL. All Python licenses, unlike the GPL, let you distribute a modified version without making your changes open source. The GPL-compatible licenses make it possible to combine Python with other software that is released under the GPL; the others don't.

2. According to Richard Stallman, 1.6.1 is not GPL-compatible, because its license has a choice of law clause. According to CNRI, however, Stallman's lawyer has told CNRI's lawyer that 1.6.1 is "not incompatible" with the GPL.

Thanks to the many outside volunteers who have worked under Guido's direction to make these releases possible.

Python was created in the early 1990s by Guido van Rossum at Stichting
Mathematisch Centrum (CWI, see http://www.cwi.nl) in the Netherlands
as a successor of a language called ABC. Guido remains Python’s
principal author, although it includes many contributions from others.

In 1995, Guido continued his work on Python at the Corporation for
National Research Initiatives (CNRI, see http://www.cnri.reston.va.us)
in Reston, Virginia where he released several versions of the
software.

In May 2000, Guido and the Python core development team moved to
BeOpen.com to form the BeOpen PythonLabs team. In October of the same
year, the PythonLabs team moved to Digital Creations (now Zope

Footnotes:

(1) GPL-compatible doesn't mean that we're distributing Python under the GPL. All Python licenses, unlike the GPL, let you distribute a modified version without making your changes open source. The GPL-compatible licenses make it possible to combine Python with other software that is released under the GPL; the others don't.

(2) According to Richard Stallman, 1.6.1 is not GPL-compatible, because its license has a choice of law clause. According to CNRI, however, Stallman's lawyer has told CNRI's lawyer that 1.6.1 is "not incompatible" with the GPL.

Thanks to the many outside volunteers who have worked under Guido's direction to make these releases possible.
This LICENSE AGREEMENT is between the Python Software Foundation ("PSF"), and the Individual or Organization ("Licensee") accessing and otherwise using Python 2.3 software in source or binary form and its associated documentation.

Subject to the terms and conditions of this License Agreement, PSF hereby grants Licensee a nonexclusive, royalty-free, world-wide license to reproduce, analyze, test, perform and/or display publicly, prepare derivative works, distribute, and otherwise use Python 2.3 alone or in any derivative version, provided, however, that PSF's License Agreement and PSF's notice of copyright, i.e., "Copyright (c) 2001, 2002 Python Software Foundation; All Rights Reserved" are retained in Python 2.3 alone or in any derivative version prepared by Licensee.

In the event Licensee prepares a derivative work that is based on or incorporates Python 2.3 or any part thereof, and wants to make the derivative work available to others as provided herein, then Licensee hereby agrees to include in any such work a brief summary of the changes made to Python 2.3.

PSF is making Python 2.3 available to Licensee on an "AS IS" basis. PSF MAKES NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED. BY WAY OF EXAMPLE, BUT NOT LIMITATION, PSF MAKES NO AND DISCLAIMS ANY REPRESENTATION OR WARRANTY OF MERCHANTABILITY OR FOR ANY PARTICULAR PURPOSE OR THAT THE USE OF PYTHON 2.3 WILL NOT INFRINGE ANY THIRD PARTY RIGHTS.

PSF SHALL NOT BE LIABLE TO LICENSEE OR ANY OTHER USERS OF PYTHON 2.3 FOR ANY INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES OR LOSS A RESULT OF MODIFYING, DISTRIBUTING, OR OTHERWISE USING PYTHON 2.3, OR ANY DERIVATIVE THEREOF, EVEN IF ADVISED OF THE POSSIBILITY THEREOF.

This License Agreement will automatically terminate upon a material breach of its terms and conditions.

Nothing in this License Agreement shall be deemed to create any relationship of agency, partnership, or joint venture between PSF and Licensee. This License Agreement does not grant permission to use PSF trademarks or trade name in a trademark sense to endorse or promote products or services of Licensee, or any third party.

python3-requests/copyright: means either the GNU General Public License, Version 2.0, the GNU
python3-requests/copyright: Lesser General Public License, Version 2.1, the GNU Affero General
python3-requests/copyright: Public License, Version 3.0, or any later versions of those
python3-requests/copyright: licenses.
python3-requests/copyright:.
python3-requests/copyright: 1.13. "Source Code Form"
python3-requests/copyright: means the form of the work preferred for making modifications.
python3-requests/copyright:.
python3-requests/copyright: 1.14. "You" (or "Your")
python3-requests/copyright: means an individual or a legal entity exercising rights under this
python3-requests/copyright: License. For legal entities, "You" includes any entity that
python3-requests/copyright: controls, is controlled by, or is under common control with You. For
python3-requests/copyright: purposes of this definition, "control" means (a) the power, direct
python3-requests/copyright: or indirect, to cause the direction or management of such entity,
python3-requests/copyright: whether by contract or otherwise, or (b) ownership of more than
python3-requests/copyright: fifty percent (50%) of the outstanding shares or beneficial
python3-requests/copyright: ownership of such entity.
python3-requests/copyright:.
python3-requests/copyright: 2. License Grants and Conditions
python3-requests/copyright: -------------------------------------
python3-requests/copyright:.
python3-requests/copyright: 2.1. Grants
python3-requests/copyright: Each Contributor hereby grants You a world-wide, royalty-free,
python3-requests/copyright: non-exclusive license:
python3-requests/copyright: (a) under intellectual property rights (other than patent or trademark)
python3-requests/copyright: Licensable by such Contributor to use, reproduce, make available,
python3-requests/copyright: modify, display, perform, distribute, and otherwise exploit its
python3-requests/copyright: Contributions, either on an unmodified basis, with Modifications, or
python3-requests/copyright: as part of a Larger Work; and
python3-requests/copyright: (b) under Patent Claims of such Contributor to make, use, sell, offer
python3-requests/copyright: for sale, have made, import, and otherwise transfer either its
python3-requests/copyright: Contributions or its Contributor Version.
python3-requests/copyright: 2.2. Effective Date
From Ubuntu 16.04 LTS

python3-requests/copyright: The licenses granted in Section 2.1 with respect to any Contribution
python3-requests/copyright: become effective for each Contribution on the date the Contributor first
python3-requests/copyright: distributes such Contribution.
python3-requests/copyright: 

python3-requests/copyright: 2.3. Limitations on Grant Scope

python3-requests/copyright: The licenses granted in this Section 2 are the only rights granted under
python3-requests/copyright: this License. No additional rights or licenses will be implied from the
python3-requests/copyright: distribution or licensing of Covered Software under this License.
python3-requests/copyright: Notwithstanding Section 2.1(b) above, no patent license is granted by a
python3-requests/copyright: Contributor:

python3-requests/copyright: (a) for any code that a Contributor has removed from Covered Software;
python3-requests/copyright: or
python3-requests/copyright: (b) for infringements caused by: (i) Your and any other third party's
python3-requests/copyright: modifications of Covered Software, or (ii) the combination of its
python3-requests/copyright: Contributions with other software (except as part of its Contributor
python3-requests/copyright: Version); or
python3-requests/copyright: (c) under Patent Claims infringed by Covered Software in the absence of
python3-requests/copyright: its Contributions.

python3-requests/copyright: This License does not grant any rights in the trademarks, service marks,
python3-requests/copyright: or logos of any Contributor (except as may be necessary to comply with
python3-requests/copyright: the notice requirements in Section 3.4).

python3-requests/copyright: 2.4. Subsequent Licenses

python3-requests/copyright: No Contributor makes additional grants as a result of Your choice to
python3-requests/copyright: distribute the Covered Software under a subsequent version of this
python3-requests/copyright: License (see Section 10.2) or under the terms of a Secondary License (if
python3-requests/copyright: permitted under the terms of Section 3.3).

python3-requests/copyright: 2.5. Representation

python3-requests/copyright: Each Contributor represents that the Contributor believes its
python3-requests/copyright: Contributions are its original creation(s) or it has sufficient rights
python3-requests/copyright: to grant the rights to its Contributions conveyed by this License.

python3-requests/copyright: 2.6. Fair Use

python3-requests/copyright: This License is not intended to limit any rights You have under
python3-requests/copyright: applicable copyright doctrines of fair use, fair dealing, or other
From Ubuntu 16.04 LTS

python3-requests/copyright: equivalents.
python3-requests/copyright: 2.7. Conditions
python3-requests/copyright: Sections 3.1, 3.2, 3.3, and 3.4 are conditions of the licenses granted
python3-requests/copyright: in Section 2.1.
python3-requests/copyright: 3. Responsibilities
python3-requests/copyright: -------------------
python3-requests/copyright: 3.1. Distribution of Source Form
python3-requests/copyright: All distribution of Covered Software in Source Code Form, including any
python3-requests/copyright: Modifications that You create or to which You contribute, must be under
python3-requests/copyright: the terms of this License. You must inform recipients that the Source
python3-requests/copyright: Code Form of the Covered Software is governed by the terms of this
python3-requests/copyright: License, and how they can obtain a copy of this License. You may not
python3-requests/copyright: attempt to alter or restrict the recipients' rights in the Source Code
python3-requests/copyright: Form.
python3-requests/copyright: 3.2. Distribution of Executable Form
python3-requests/copyright: If You distribute Covered Software in Executable Form then:
python3-requests/copyright: (a) such Covered Software must also be made available in Source Code
python3-requests/copyright: Form, as described in Section 3.1, and You must inform recipients of
python3-requests/copyright: the Executable Form how they can obtain a copy of such Source Code
python3-requests/copyright: Form by reasonable means in a timely manner, at a charge no more
python3-requests/copyright: than the cost of distribution to the recipient; and
python3-requests/copyright: (b) You may distribute such Executable Form under the terms of this
python3-requests/copyright: license for the Executable Form does not attempt to limit or alter
python3-requests/copyright: the recipients' rights in the Source Code Form under this License.
python3-requests/copyright: 3.3. Distribution of a Larger Work
python3-requests/copyright: You may create and distribute a Larger Work under terms of Your choice,
python3-requests/copyright: provided that You also comply with the requirements of this License for
python3-requests/copyright: the Covered Software. If the Larger Work is a combination of Covered
python3-requests/copyright: Software with a work governed by one or more Secondary Licenses, and the
python3-requests/copyright: Covered Software is not Incompatible With Secondary Licenses, this
python3-requests/copyright: License permits You to additionally distribute such Covered Software
python3-requests/copyright: under the terms of such Secondary License(s), so that the recipient of
python3-requests/copyright: the Larger Work may, at their option, further distribute the Covered

Page 2344 of 2534
python3-requests/copyright: Software under the terms of either this License or such Secondary
python3-requests/copyright: License(s).
python3-requests/copyright: .
python3-requests/copyright: 3.4. Notices
python3-requests/copyright: You may not remove or alter the substance of any license notices
python3-requests/copyright: (including copyright notices, patent notices, disclaimers of warranty,
python3-requests/copyright: or limitations of liability) contained within the Source Code Form of
python3-requests/copyright: the Covered Software, except that You may alter any license notices to
python3-requests/copyright: the extent required to remedy known factual inaccuracies.
python3-requests/copyright: .
python3-requests/copyright: 3.5. Application of Additional Terms
python3-requests/copyright: You may choose to offer, and to charge a fee for, warranty, support,
python3-requests/copyright: indemnity or liability obligations to one or more recipients of Covered
python3-requests/copyright: Software. However, You may do so only on Your own behalf, and not on
python3-requests/copyright: behalf of any Contributor. You must make it absolutely clear that any
python3-requests/copyright: such warranty, support, indemnity, or liability obligation is offered by
python3-requests/copyright: You alone, and You hereby agree to indemnify every Contributor for any
python3-requests/copyright: liability incurred by such Contributor as a result of warranty, support,
python3-requests/license: indemnity or liability terms You offer. You may include additional
python3-requests/license: disclaimers of warranty and limitations of liability specific to any
python3-requests/license: jurisdiction.
python3-requests/license: .
python3-requests/license: 4. Inability to Comply Due to Statute or Regulation
python3-requests/license: If it is impossible for You to comply with any of the terms of this
python3-requests/license: License with respect to some or all of the Covered Software due to
python3-requests/license: statute, judicial order, or regulation then You must: (a) comply with
python3-requests/license: the terms of this License to the maximum extent possible; and (b)
python3-requests/license: describe the limitations and the code they affect. Such description must
python3-requests/license: be placed in a text file included with all distributions of the Covered
python3-requests/license: Software under this License. Except to the extent prohibited by statute
python3-requests/license: or regulation, such description must be sufficiently detailed for a
python3-requests/license: recipient of ordinary skill to be able to understand it.
python3-requests/license: .
python3-requests/license: 5. Termination
python3-requests/license: 5.1. The rights granted under this License will terminate automatically
python3-requests/license: if You fail to comply with any of its terms. However, if You become
python3-requests/license: compliant, then the rights granted under this License from a particular
python3-requests/license: Contributor are reinstated (a) provisionally, unless and until such
python3-requests/license: Contributor explicitly and finally terminates Your grants, and (b) on an
From Ubuntu 16.04 LTS

python3-requests/copyright: ongoing basis, if such Contributor fails to notify You of the
python3-requests/copyright: non-compliance by some reasonable means prior to 60 days after You have
python3-requests/copyright: come back into compliance. Moreover, Your grants from a particular
python3-requests/copyright: Contributor are reinstated on an ongoing basis if such Contributor
python3-requests/copyright: notifies You of the non-compliance by some reasonable means, this is the
python3-requests/copyright: first time You have received notice of non-compliance with this License
python3-requests/copyright: from such Contributor, and You become compliant prior to 30 days after
python3-requests/copyright: Your receipt of the notice.
python3-requests/copyright: 5.2. If You initiate litigation against any entity by asserting a patent
python3-requests/copyright: infringement claim (excluding declaratory judgment actions,
python3-requests/copyright: counter-claims, and cross-claims) alleging that a Contributor Version
python3-requests/copyright: directly or indirectly infringes any patent, then the rights granted to
python3-requests/copyright: You by any and all Contributors for the Covered Software under Section
python3-requests/copyright: 2.1 of this License shall terminate.
python3-requests/copyright: 5.3. In the event of termination under Sections 5.1 or 5.2 above, all
python3-requests/copyright: end user license agreements (excluding distributors and resellers) which
python3-requests/copyright: have been validly granted by You or Your distributors under this License
python3-requests/copyright: prior to termination shall survive termination.

* 6. Disclaimer of Warranty
* Covered Software is provided under this License on an "as is" basis, without warranty of any kind, either expressed, implied, or statutory, including, without limitation, warranties that the Covered Software is free of defects, merchantable, fit for a particular purpose or non-infringing. The entire risk as to the quality and performance of the Covered Software is with You. Should any Covered Software prove defective in any respect, You (not any Contributor) assume the cost of any necessary servicing, repair, or correction. This disclaimer of warranty constitutes an essential part of this License. No use of any Covered Software is authorized under this License except under this disclaimer.

* 7. Limitation of Liability
From Ubuntu 16.04 LTS

Under no circumstances and under no legal theory, whether tort (including negligence), contract, or otherwise, shall any Contributor, or anyone who distributes Covered Software as permitted above, be liable to You for any direct, indirect, special, incidental, or consequential damages of any character including, without limitation, damages for lost profits, loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses, even if such party shall have been informed of the possibility of such damages. This limitation of liability shall not apply to liability for death or personal injury resulting from such party's negligence to the extent applicable law prohibits such limitation. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so this exclusion and limitation may not apply to You.

Any litigation relating to this License may be brought only in the courts of a jurisdiction where the defendant maintains its principal place of business and such litigation shall be governed by laws of that jurisdiction, without reference to its conflict-of-law provisions. Nothing in this Section shall prevent a party's ability to bring cross-claims or counter-claims.

This License represents the complete agreement concerning the subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable. Any law or regulation which provides that the language of a contract shall be construed against the drafter shall not be used to construe this License against a Contributor.

Mozilla Foundation is the license steward. Except as provided in Section 10.3, no one other than the license steward has the right to modify or
python3-requests/copyright: publish new versions of this License. Each version will be given a
distinguishing version number.

10.2. Effect of New Versions
You may distribute the Covered Software under the terms of the version of the License under which You originally received the Covered Software, or under the terms of any subsequent version published by the license steward.

10.3. Modified Versions
If you create software not governed by this License, and you want to create a new license for such software, you may create and use a modified version of this License if you rename the license and remove any references to the name of the license steward (except to note that such modified license differs from this License).

10.4. Distributing Source Code Form that is Incompatible With Secondary Licenses
If you choose to distribute Source Code Form that is Incompatible With Secondary Licenses under the terms of this version of the License, the notice described in Exhibit B of this License must be attached.

Exhibit A - Source Code Form License Notice
This Source Code Form is subject to the terms of the Mozilla Public License, v. 2.0. If a copy of the MPL was not distributed with this file, You can obtain one at http://mozilla.org/MPL/2.0/.

If it is not possible or desirable to put the notice in a particular file, you may include the notice in a location (such as a LICENSE file in a relevant directory) where a recipient would be likely to look for such a notice.
You may add additional accurate notices of copyright ownership.

Exhibit B - "Incompatible With Secondary Licenses" Notice
This Source Code Form is "Incompatible With Secondary Licenses", as defined by the Mozilla Public License, v. 2.0.

This is the Debian GNU/Linux prepackaged version of the Python programming language. Python was written by Guido van Rossum <guido@cwi.nl> and others.

This package was put together by Klee Dienes <klee@debian.org> from sources from ftp.python.org:/pub/python, based on the Debianization by the previous maintainers Bernd S. Brentrup <brentrup@uni-muenster.de> and Bruce Perens.

Current maintainer is Matthias Klose <doko@debian.org> until the final 2.3 version is released.
python/copyright:A. HISTORY OF THE SOFTWARE
python/copyright:========================================
python/copyright:
python/copyright:Python was created in the early 1990s by Guido van Rossum at Stichting Mathematisch Centrum (CWI, see http://www.cwi.nl) in the Netherlands as a successor of a language called ABC. Guido remains Python's principal author, although it includes many contributions from others.
python/copyright:
python/copyright:In 1995, Guido continued his work on Python at the Corporation for National Research Initiatives (CNRI, see http://www.cnri.reston.va.us) in Reston, Virginia where he released several versions of the software.
python/copyright:
python/copyright:In May 2000, Guido and the Python core development team moved to BeOpen.com to form the BeOpen PythonLabs team. In October of the same year, the PythonLabs team moved to Digital Creations (now Zope Corporation, see http://www.zope.com). In 2001, the Python Software Foundation (PSF, see http://www.python.org/psf/) was formed, a non-profit organization created specifically to own Python-related Intellectual Property. Zope Corporation is a sponsoring member of the PSF.
python/copyright:
python/copyright:All Python releases are Open Source (see http://www.opensource.org for the Open Source Definition). Historically, most, but not all, Python releases have also been GPL-compatible; the table below summarizes the various releases.

**Footnotes:**

(1) GPL-compatible doesn't mean that we're distributing Python under the GPL. All Python licenses, unlike the GPL, let you distribute a modified version without making your changes open source. The GPL-compatible licenses make it possible to combine Python with other software that is released under the GPL; the others don't.

(2) According to Richard Stallman, 1.6.1 is not GPL-compatible, because its license has a choice of law clause. According to CNRI, however, Stallman's lawyer has told CNRI's lawyer that 1.6.1 is "not incompatible" with the GPL.

Thanks to the many outside volunteers who have worked under Guido's direction to make these releases possible.

python-minimal/copyright: This is the Debian GNU/Linux prepackaged version of the Python programming
python-minimal/copyright: language. Python was written by Guido van Rossum <guido@cwi.nl> and others.
python-minimal/copyright: This package was put together by Klee Dienes <klee@debian.org> from
python-minimal/copyright: sources from ftp.python.org:/pub/python, based on the Debianization by
python-minimal/copyright: the previous maintainers Bernd S. Brentrup <bsb@uni-muenster.de> and
python-minimal/copyright: Bruce Perens.
python-minimal/copyright: Current maintainer is Matthias Klose <doko@debian.org> until the final
python-minimal/copyright: 2.3 version is released.
python-minimal/copyright: Copyright notice (as found in LICENSE in the original source).
python-minimal/copyright: A. HISTORY OF THE SOFTWARE
python-minimal/copyright: Python was created in the early 1990s by Guido van Rossum at Stichting
python-minimal/copyright: Mathematisch Centrum (CWI, see http://www.cwi.nl) in the Netherlands
python-minimal/copyright: as a successor of a language called ABC. Guido remains Python's
python-minimal/copyright: principal author, although it includes many contributions from others.
python-minimal/copyright: In 1995, Guido continued his work on Python at the Corporation for
python-minimal/copyright: National Research Initiatives (CNRI, see http://www.cnri.reston.va.us)
python-minimal/copyright: in Reston, Virginia where he released several versions of the
python-minimal/copyright: software.
python-minimal/copyright: In May 2000, Guido and the Python core development team moved to
python-minimal/copyright: BeOpen.com to form the BeOpen PythonLabs team. In October of the same
python-minimal/copyright: year, the PythonLabs team moved to Digital Creations (now Zope
python-minimal/copyright: Corporation, see http://www.zope.com). In 2001, the Python Software
python-minimal/copyright: Foundation (PSF, see http://www.python.org/psf/) was formed, a
python-minimal/copyright: non-profit organization created specifically to own Python-related
python-minimal/copyright: Intellectual Property. Zope Corporation is a sponsoring member of
python-minimal/copyright: the PSF.
python-minimal/copyright: All Python releases are Open Source (see http://www.opensource.org for
python-minimal/copyright: the Open Source Definition). Historically, most, but not all, Python
python-minimal/copyright: releases have also been GPL-compatible; the table below summarizes
python-minimal/copyright: the various releases.

Footnotes:

(1) GPL-compatible doesn't mean that we're distributing Python under the GPL. All Python licenses, unlike the GPL, let you distribute a modified version without making your changes open source. The GPL-compatible licenses make it possible to combine Python with
python-minimal/copyright: other software that is released under the GPL; the others don't.
python-minimal/copyright:
python-minimal/copyright:(2) According to Richard Stallman, 1.6.1 is not GPL-compatible,
python-minimal/copyright: because its license has a choice of law clause. According to
python-minimal/copyright: CNRI, however, Stallman's lawyer has told CNRI's lawyer that 1.6.1
python-minimal/copyright: is "not incompatible" with the GPL.
python-minimal/copyright:
python-minimal/copyright:Thanks to the many outside volunteers who have worked under Guido's

python-pkg-resources/copyright:A. HISTORY OF THE SOFTWARE
python-pkg-resources/copyright:==========================================
python-pkg-resources/copyright:
python-pkg-resources/copyright:Python was created in the early 1990s by Guido van Rossum at Stichting
python-pkg-resources/copyright:Mathematisch Centrum (CWI, see http://www.cwi.nl) in the Netherlands
python-pkg-resources/copyright:as a successor of a language called ABC. Guido remains Python’s
python-pkg-resources/copyright:principal author, although it includes many contributions from others.
python-pkg-resources/copyright:
python-pkg-resources/copyright:In 1995, Guido continued his work on Python at the Corporation for
python-pkg-resources/copyright:National Research Initiatives (CNRI, see http://www.cnri.reston.va.us)
python-pkg-resources/copyright:in Reston, Virginia where he released several versions of the
python-pkg-resources/copyright:software.
python-pkg-resources/copyright:
python-pkg-resources/copyright:In May 2000, Guido and the Python core development team moved to
python-pkg-resources/copyright:BeOpen.com to form the BeOpen PythonLabs team. In October of the same
python-pkg-resources/copyright:year, the PythonLabs team moved to Digital Creations (now Zope
python-pkg-resources/copyright:Corporation, see http://www.zope.com). In 2001, the Python Software
python-pkg-resources/copyright:Foundation (PSF, see http://www.python.org/psf/) was formed, a
python-pkg-resources/copyright:non-profit organization created specifically to own Python-related
python-pkg-resources/copyright:Intellectual Property. Zope Corporation is a sponsoring member of
python-pkg-resources/copyright:the PSF.
python-pkg-resources/copyright:
python-pkg-resources/copyright:All Python releases are Open Source (see http://www.opensource.org for
python-pkg-resources/copyright:the Open Source Definition). Historically, most, but not all, Python
python-pkg-resources/copyright:releases have also been GPL-compatible; the table below summarizes
python-pkg-resources/copyright:the various releases.
python-pkg-resources/copyright:

From Ubuntu 16.04 LTS

Footnotes:

(1) GPL-compatible doesn't mean that we're distributing Python under the GPL. All Python licenses, unlike the GPL, let you distribute a modified version without making your changes open source. The GPL-compatible licenses make it possible to combine Python with other software that is released under the GPL; the others don't.

(2) According to Richard Stallman, 1.6.1 is not GPL-compatible, because its license has a choice of law clause. According to CNRI, however, Stallman's lawyer has told CNRI's lawyer that 1.6.1 is "not incompatible" with the GPL.

Thanks to the many outside volunteers who have worked under Guido's direction to make these releases possible.

B. TERMS AND CONDITIONS FOR ACCESSING OR OTHERWISE USING PYTHON

PSF LICENSE AGREEMENT FOR PYTHON 2.3

1. This LICENSE AGREEMENT is between the Python Software Foundation ("PSF"), and the Individual or Organization ("Licensee") accessing and otherwise using Python 2.3 software in source or binary form and its associated documentation.
Subject to the terms and conditions of this License Agreement, PSF hereby grants Licensee a nonexclusive, royalty-free, world-wide license to reproduce, analyze, test, perform and/or display publicly, prepare derivative works, distribute, and otherwise use Python 2.3 alone or in any derivative version, provided, however, that PSF's License Agreement and PSF's notice of copyright, i.e., "Copyright (c) 2001, 2002 Python Software Foundation; All Rights Reserved" are retained in Python 2.3 alone or in any derivative version prepared by Licensee.

In the event Licensee prepares a derivative work that is based on or incorporates Python 2.3 or any part thereof, and wants to make the derivative work available to others as provided herein, then Licensee hereby agrees to include in any such work a brief summary of the changes made to Python 2.3.

PSF is making Python 2.3 available to Licensee on an "AS IS" basis. PSF MAKES NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED. BY WAY OF EXAMPLE, BUT NOT LIMITATION, PSF MAKES NO AND DISCLAIMS ANY REPRESENTATION OR WARRANTY OF MERCHANTABILITY OR FOR ANY PARTICULAR PURPOSE OR THAT THE USE OF PYTHON 2.3 WILL NOT INFRINGE ANY THIRD PARTY RIGHTS.

PSF SHALL NOT BE LIABLE TO LICENSEE OR ANY OTHER USERS OF PYTHON 2.3 FOR ANY INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES OR LOSS AS A RESULT OF MODIFYING, DISTRIBUTING, OR OTHERWISE USING PYTHON 2.3, OR ANY DERIVATIVE THEREOF, EVEN IF ADVISED OF THE POSSIBILITY THEREOF.

This License Agreement will automatically terminate upon a material breach of its terms and conditions.

Nothing in this License Agreement shall be deemed to create any relationship of agency, partnership, or joint venture between PSF and Licensee. This License Agreement does not grant permission to use PSF trademarks or trade name in a trademark sense to endorse or promote products or services of Licensee, or any third party.

By copying, installing or otherwise using Python 2.3, Licensee agrees to be bound by the terms and conditions of this License Agreement.

rsync/copyright: This package provides the rsync program, which is a replacement

rsync/copyright: This package was put together by Philip Hands <phil@hands.com>,

rsync/copyright: on 2013-09-30 by Paul Slootman <paul@debian.org>.
rsync/copyright: The changes were very minimal - merely adding support for the Debian
rsync/copyright: package maintenance scheme by adding various debian/* files.
rsync/copyright: The only significant change is passing the -4 / -6 options through to ssh.
rsync/copyright: See the debian/patches/ directory.

Licensed under the Academic Free License version 3.0:

http://www.opensource.org/licenses/academic.php

Academic Free License ("AFL") v. 3.0

This Academic Free License (the "License") applies to any original work of authorship (the "Original Work") whose owner (the "Licensor") has placed the following licensing notice adjacent to the copyright notice for the Original Work:

Licensed under the Academic Free License version 3.0

1) Grant of Copyright License. Licensor grants You a worldwide, royalty-free, non-exclusive, sublicensable license, for the duration of the copyright, to do the following:

a) to reproduce the Original Work in copies, either alone or as part of a collective work;

b) to translate, adapt, alter, transform, modify, or arrange the Original Work, thereby creating derivative works ("Derivative Works") based upon the Original Work;

c) to distribute or communicate copies of the Original Work and Derivative Works to the public, under any license of your choice that does not contradict the terms and conditions, including Licensor's reserved rights and remedies, in this Academic Free License;

d) to perform the Original Work publicly; and

e) to display the Original Work publicly.

2) Grant of Patent License. Licensor grants You a worldwide, royalty-free, non-exclusive, sublicensable license, under patent claims owned or controlled by the Licensor that are embodied in
From Ubuntu 16.04 LTS

3) Grant of Source Code License. The term "Source Code" means the preferred form of the Original Work for making modifications to it and all available documentation describing how to modify the Original Work. Licensor agrees to provide a machine-readable copy of the Source Code of the Original Work along with each copy of the Original Work that Licensor distributes. Licensor reserves the right to satisfy this obligation by placing a machine-readable copy of the Source Code in an information repository reasonably calculated to permit inexpensive and convenient access by You for as long as Licensor continues to distribute the Original Work.

4) Exclusions From License Grant. Neither the names of Licensor, nor the names of any contributors to the Original Work, nor any of their trademarks or service marks, may be used to endorse or promote products derived from this Original Work without express prior permission of the Licensor. Except as expressly stated herein, nothing in this License grants any license to Licensor's trademarks, copyrights, patents, trade secrets or any other intellectual property. No patent license is granted to make, use, sell, offer for sale, have made, or import embodiments of any patent claims other than the licensed claims defined in Section 2. No license is granted to the trademarks of Licensor even if such marks are included in the Original Work. Nothing in this License shall be interpreted to prohibit Licensor from licensing under terms different from this License any Original Work that Licensor otherwise would have a right to license.

5) External Deployment. The term "External Deployment" means the use, distribution, or communication of the Original Work or Derivative Works in any way such that the Original Work or Derivative Works may be used by anyone other than You, whether those works are distributed or communicated to those persons or made available as an application intended for use over a network. As an express condition for the grants of license hereunder, You must treat any External Deployment by You of the Original Work or a Derivative Work as a distribution under section 1(c).

6) Attribution Rights. You must retain, in the Source Code of any Derivative Works that You create, all copyright, patent, or trademark notices from the Source Code of the Original Work, as well as any notices of licensing and any descriptive text.
7) Warranty of Provenance and Disclaimer of Warranty. Licensor warrants that the copyright in and to the Original Work and the patent rights granted herein by Licensor are owned by the Licensor or are sublicensed to You under the terms of this License with the permission of the contributor(s) of those copyrights and patent rights. Except as expressly stated in the immediately preceding sentence, the Original Work is provided under this License on an "AS IS" BASIS and WITHOUT WARRANTY, either express or implied, including, without limitation, the warranties of non-infringement, merchantability or fitness for a particular purpose. THE ENTIRE RISK AS TO THE QUALITY OF THE ORIGINAL WORK IS WITH YOU. This DISCLAIMER OF WARRANTY constitutes an essential part of this License. No license to the Original Work is granted by this License except under this disclaimer.

8) Limitation of Liability. Under no circumstances and under no legal theory, whether in tort (including negligence), contract, or otherwise, shall the Licensor be liable to anyone for any indirect, special, incidental, or consequential damages of any character arising as a result of this License or the use of the Original Work including, without limitation, damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses. This limitation of liability shall not apply to the extent applicable law prohibits such limitation.

9) Acceptance and Termination. If, at any time, You expressly assented to this License, that assent indicates your clear and irrevocable acceptance of this License and all of its terms and conditions. If You distribute or communicate copies of the Original Work or a Derivative Work, You must make a reasonable effort under the circumstances to obtain the express assent of recipients to the terms of this License. This License conditions your rights to undertake the activities listed in Section 1, including your right to create Derivative Works based upon the Original Work, and doing so without honoring these terms and conditions is prohibited by copyright law and international treaty. Nothing in this License is intended to affect copyright exceptions and limitations (including "fair use" or "fair dealing"). This License shall terminate immediately and You may no
From Ubuntu 16.04 LTS

10) Termination for Patent Action. This License shall terminate automatically and You may no longer exercise any of the rights granted to You by this License as of the date You commence an action, including a cross-claim or counterclaim, against Licensor or any licensee alleging that the Original Work infringes a patent. This termination provision shall not apply for an action alleging patent infringement by combinations of the Original Work with other software or hardware.

11) Jurisdiction, Venue and Governing Law. Any action or suit relating to this License may be brought only in the courts of a jurisdiction wherein the Licensor resides or in which Licensor conducts its primary business, and under the laws of that jurisdiction excluding its conflict-of-law provisions. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any use of the Original Work outside the scope of this License or after its termination shall be subject to the requirements and penalties of copyright or patent law in the appropriate jurisdiction. This section shall survive the termination of this License.

12) Attorneys' Fees. In any action to enforce the terms of this License or seeking damages relating thereto, the prevailing party shall be entitled to recover its costs and expenses, including, without limitation, reasonable attorneys' fees and costs incurred in connection with such action, including any appeal of such action. This section shall survive the termination of this License.

13) Miscellaneous. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable.

14) Definition of "You" in This License. "You" throughout this License, whether in upper or lower case, means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License. For legal entities, "You" includes any entity that controls, is controlled by, or is under common control with you. For purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii)
From Ubuntu 16.04 LTS

15) Right to Use. You may use the Original Work in all ways not otherwise restricted or conditioned by this License or by law, and Licensor promises not to interfere with or be responsible for such uses by You.

16) Modification of This License. This License is Copyright © 2005 Lawrence Rosen. Permission is granted to copy, distribute, or communicate this License without modification. Nothing in this License permits You to modify this License as applied to the Original Work or to Derivative Works. tpm-tools/copyright:THE ACCOMPANYING PROGRAM IS PROVIDED UNDER THE TERMS OF THIS COMMON
tpm-tools/copyright:LICENSE ("AGREEMENT"). ANY USE, REPRODUCTION OR DISTRIBUTION OF THE PROGRAM
tpm-tools/copyright:CONSTITUTES RECIPIENT'S ACCEPTANCE OF THIS AGREEMENT.

tpm-tools/copyright: 1. DEFINITIONS

tpm-tools/copyright: "Contribution" means:

tpm-tools/copyright: a) in the case of the initial Contributor, the initial code and documentation
tpm-tools/copyright: distributed under this Agreement, and

tpm-tools/copyright: b) in the case of each subsequent Contributor:
From Ubuntu 16.04 LTS

tpm-tools/copyright: i) changes to the Program, and
tpm-tools/copyright: ii) additions to the Program;

where such changes and/or additions to the Program originate from and are distributed by that particular Contributor. A Contribution 'originates' from a Contributor if it was added to the Program by such Contributor itself or anyone acting on such Contributor's behalf. Contributions do not include additions to the Program which: (i) are separate modules of software distributed in conjunction with the Program under their own license agreement, and (ii) are not derivative works of the Program.

"Contributor" means any person or entity that distributes the Program.

"Licensed Patents " mean patent claims licensable by a Contributor which are necessarily infringed by the use or sale of its Contribution alone or when combined with the Program.

"Program" means the Contributions distributed in accordance with this Agreement.

"Recipient" means anyone who receives the Program under this Agreement, including all Contributors.

2. GRANT OF RIGHTS

a) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free copyright license to reproduce, prepare derivative works of, publicly display, publicly perform, distribute and sublicense the Contribution of such Contributor, if any, and such derivative works, in source code and object code form.

b) Subject to the terms of this Agreement, each Contributor hereby grants Recipient a non-exclusive, worldwide, royalty-free patent license under Licensed Patents to make, use, sell, offer to sell, import and otherwise transfer the Contribution of such Contributor, if any, in source code and object code form. This patent license shall apply to the combination of the Contribution and the Program if, at the time the Contribution is added by the Contributor, such addition of the Contribution causes such combination to be covered by the Licensed Patents. The patent license shall not apply to any other combinations which include the Contribution. No hardware per se is licensed hereunder.

c) Recipient understands that although each Contributor grants the licenses to
From Ubuntu 16.04 LTS

tpm-tools/copyright: its Contributions set forth herein, no assurances are provided by any

tpm-tools/copyright: Contributor that the Program does not infringe the patent or other intellectual

tpm-tools/copyright: property rights of any other entity. Each Contributor disclaims any liability

tpm-tools/copyright: to Recipient for claims brought by any other entity based on infringement of

tpm-tools/copyright: intellectual property rights or otherwise. As a condition to exercising the

tpm-tools/copyright: rights and licenses granted hereunder, each Recipient hereby assumes sole

tpm-tools/copyright: responsibility to secure any other intellectual property rights needed, if any.

tpm-tools/copyright: For example, if a third party patent license is required to allow Recipient to

tpm-tools/copyright: distribute the Program, it is Recipient’s responsibility to acquire that

tpm-tools/copyright: license before distributing the Program.

tpm-tools/copyright: d) Each Contributor represents that to its knowledge it has sufficient

tpm-tools/copyright: copyright rights in its Contribution, if any, to grant the copyright license

tpm-tools/copyright: set forth in this Agreement.

tpm-tools/copyright: 3. REQUIREMENTS

tpm-tools/copyright: A Contributor may choose to distribute the Program in object code form under

tpm-tools/copyright: its own license agreement, provided that:

tpm-tools/copyright: a) it complies with the terms and conditions of this Agreement; and

tpm-tools/copyright: b) its license agreement:

tpm-tools/copyright: i) effectively disclaims on behalf of all Contributors all warranties and

tpm-tools/copyright: conditions, express and implied, including warranties or conditions of title

tpm-tools/copyright: and non-infringement, and implied warranties or conditions of merchantability

tpm-tools/copyright: and fitness for a particular purpose;

tpm-tools/copyright: ii) effectively excludes on behalf of all Contributors all liability for

tpm-tools/copyright: damages, including direct, indirect, special, incidental and consequential

tpm-tools/copyright: damages, such as lost profits;

tpm-tools/copyright: iii) states that any provisions which differ from this Agreement are offered by

tpm-tools/copyright: that Contributor alone and not by any other party; and

tpm-tools/copyright: iv) states that source code for the Program is available from such Contributor,

tpm-tools/copyright: and informs licensees how to obtain it in a reasonable manner on or through a

tpm-tools/copyright: medium customarily used for software exchange.

tpm-tools/copyright: When the Program is made available in source code form:

tpm-tools/copyright: a) it must be made available under this Agreement; and

tpm-tools/copyright: b) a copy of this Agreement must be included with each copy of the Program.
From Ubuntu 16.04 LTS

tpm-tools/copyright: Contributors may not remove or alter any copyright notices contained within the
program.

Each Contributor must identify itself as the originator of its Contribution, if any, in a manner that reasonably allows subsequent Recipients to identify the originator of the Contribution.

4. COMMERCIAL DISTRIBUTION

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. Therefore, if a Contributor includes the Program in a commercial product offering, such Contributor ("Commercial Contributor") hereby agrees to defend and indemnify every other Contributor ("Indemnified Contributor") against any losses, damages and costs (collectively "Losses") arising from claims, lawsuits and other legal actions brought by a third party against the Indemnified Contributor to the extent caused by the acts or omissions of such Commercial Contributor in connection with its distribution of the Program in a commercial product offering. The obligations in this section do not apply to any claims or Losses relating to any actual or alleged intellectual property infringement. In order to qualify, an Indemnified Contributor must: a) promptly notify the Commercial Contributor in writing of such claim, and b) allow the Commercial Contributor to control, and cooperate with the Commercial Contributor in, the defense and any related settlement negotiations. The Indemnified Contributor may participate in any such claim at its own expense.

For example, a Contributor might include the Program in a commercial product offering, Product X. That Contributor is then a Commercial Contributor. If that Commercial Contributor then makes performance claims, or offers warranties related to Product X, those performance claims and warranties are such Contributor’s responsibility alone. Under this section, the Commercial Contributor would have to defend claims against the other Contributors related to those performance claims and warranties, and if a court requires any other Contributor to pay any damages as a result, the Commercial Contributor must pay those damages.

5. NO WARRANTY

tpm-tools/copyright: 6. DISCLAIMER OF LIABILITY

tpm-tools/copyright: EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, NEITHER RECIPIENT NOR ANY tpm-tools/copyright: CONTRIBUTORS SHALL HAVE ANY LIABILITY FOR ANY DIRECT, INDIRECT, INCIDENTAL, tpm-tools/copyright: SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING WITHOUT LIMITATION tpm-tools/copyright: PROFITS), HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, tpm-tools/copyright: STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY tpm-tools/copyright: WAY OUT OF THE USE OR DISTRIBUTION OF THE PROGRAM OR THE EXERCISE OF ANY tpm-tools/copyright: GRANTED HEREUNDER, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

tpm-tools/copyright: 7. GENERAL

tpm-tools/copyright: If any provision of this Agreement is invalid or unenforceable under applicable tpm-tools/copyright: law, it shall not affect the validity or enforceability of the remainder of the tpm-tools/copyright: terms of this Agreement, and without further action by the parties hereto, such tpm-tools/copyright: provision shall be reformed to the minimum extent necessary to make such tpm-tools/copyright: provision valid and enforceable.

tpm-tools/copyright: If Recipient institutes patent litigation against a Contributor with respect to tpm-tools/copyright: a patent applicable to software (including a cross-claim or counterclaim in a tpm-tools/copyright: lawsuit), then any patent licenses granted by that Contributor to such tpm-tools/copyright: Recipient under this Agreement shall terminate as of the date such litigation tpm-tools/copyright: is filed. In addition, if Recipient institutes patent litigation against any tpm-tools/copyright: entity (including a cross-claim or counterclaim in a lawsuit) alleging that the tpm-tools/copyright: Program itself (excluding combinations of the Program with other software or tpm-tools/copyright: hardware) infringes such Recipient's patent(s), then such Recipient's rights tpm-tools/copyright: granted under Section 2(b) shall terminate as of the date such litigation is tpm-tools/copyright: filed.

tpm-tools/copyright: All Recipient's rights under this Agreement shall terminate if it fails to tpm-tools/copyright: comply with any of the material terms or conditions of this Agreement and does tpm-tools/copyright: not cure such failure in a reasonable period of time after becoming aware of tpm-tools/copyright: such noncompliance. If all Recipient's rights under this Agreement terminate, tpm-tools/copyright: Recipient agrees to cease use and distribution of the Program as soon as tpm-tools/copyright: reasonably practicable. However, Recipient's obligations under this Agreement tpm-tools/copyright: and any licenses granted by Recipient relating to the Program shall continue tpm-tools/copyright: and survive.

Commercial distributors of software may accept certain responsibilities with respect to end users, business partners and the like. While this license is intended to facilitate the commercial use of the Program, the Contributor who includes the Program in a commercial product offering should do so in a manner which does not create potential liability for other Contributors. 6. DISCLAIMER OF LIABILITY

Except as expressly set forth in this Agreement, neither Recipient nor any Contributor shall have any liability for any direct, indirect, incidental, special, exemplary, or consequential damages (including without limitation profits), however caused and on any theory of liability, whether in contract, strict liability, or tort (including negligence or otherwise) arising in any way out of the use or distribution of the Program or the exercise of any granted hereunder, even if advised of the possibility of such damages.

7. GENERAL

If any provision of this Agreement is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this Agreement, and without further action by the parties hereto, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

Special thanks are due to Chip Rosenthal for his fine testing efforts; to Steve Simmons for his work in porting this code to BSD; and to Bill Kennedy for his contributions of LaserJet printer time and energies. Also, thanks for Dennis L. Mumaugh for the initial shadow password information and to Tony Walton (olapw@olgb1.oliv.co.uk) for the SystemV Release 4 changes. Effort in porting to SunOS has been contributed by Dr. Michael Newberry (miken@cs.adfa.oz.au) and Micheal J. Miller, Jr. (mke@kaberd.rain.com). Effort in porting to AT&T UNIX System V Release 4 has been provided by Andrew Herbert (andrew@werple.pub.uu.oz.au). Special thanks to Marek Michalkiewicz (marekm@i17linuxb.ists.pwr.wroc.pl) for taking over the Linux port of this software.

vim-common/copyright:
vim-common/copyright:    The following license terms apply to all Open Publication works, unless
vim-common/copyright:otherwise explicitly stated in the document.
vim-common/copyright:
vim-common/copyright:    Mere aggregation of Open Publication works or a portion of an Open Publication

vim-common/copyright:jurisdiction, the remaining portions of the license remain in force.
vim-common/copyright:
vim-common/copyright:    NO WARRANTY. Open Publication works are licensed and provided "as is" without
vim-common/copyright:warranty of any kind, express or implied, including, but not limited to, the
vim-common/copyright:implied warranties of merchantability and fitness for a particular purpose or a
vim-common/copyright:warranty of non-infringement.
IV. REQUIREMENTS ON MODIFIED WORKS

All modified versions of documents covered by this license, including translations, anthologies, compilations and partial documents, must meet the following requirements:

1. The modified version must be labeled as such.
2. The person making the modifications must be identified and the modifications dated.
3. Acknowledgement of the original author and publisher if applicable must be retained according to normal academic citation practices.
4. The location of the original unmodified document must be identified.
5. The original author's (or authors') name(s) may not be used to assert or imply endorsement of the resulting document without the original author's (or authors') permission.

V. GOOD-PRACTICE RECOMMENDATIONS

In addition to the requirements of this license, it is requested from and strongly recommended of redistributors that:

1. If you are distributing Open Publication works on hardcopy or CD-ROM, you provide email notification to the authors of your intent to redistribute at least thirty days before your manuscript or media freeze, to give the authors time to provide updated documents. This notification should describe modifications, if any, made to the document.
2. All substantive modifications (including deletions) be either clearly marked up in the document or else described in an attachment to the document.
3. Finally, while it is not mandatory under this license, it is considered good form to offer a free copy of any hardcopy and CD-ROM expression of an Open Publication-licensed work to its author(s).

VI. LICENSE OPTIONS

The author(s) and/or publisher of an Open Publication-licensed document may elect certain options by appending language to the reference to or copy of the license. These options are considered part of the license instance and must be included with the license (or its incorporation by reference) in derived works.

A. To prohibit distribution of substantively modified versions without the explicit permission of the author(s). "Substantive modification" is defined as

vim/copyright: IV. REQUIREMENTS ON MODIFIED WORKS

vim/copyright: All modified versions of documents covered by this license, including
vim/copyright: translations, anthologies, compilations and partial documents, must meet the
vim/copyright: following requirements:

vim/copyright: 1. The modified version must be labeled as such.

vim/copyright: 2. The person making the modifications must be identified and the
vim/copyright: modifications dated.

vim/copyright: 3. Acknowledgement of the original author and publisher if applicable must
vim/copyright: be retained according to normal academic citation practices.
From Ubuntu 16.04 LTS

4. The location of the original unmodified document must be identified.
5. The original author's (or authors') name(s) may not be used to assert or imply endorsement of the resulting document without the original author's (or authors') permission.

V. GOOD-PRACTICE RECOMMENDATIONS

In addition to the requirements of this license, it is requested from and strongly recommended of redistributors that:

1. If you are distributing Open Publication works on hardcopy or CD-ROM, you provide email notification to the authors of your intent to redistribute at least thirty days before your manuscript or media freeze, to give the authors time to provide updated documents. This notification should describe modifications, if any, made to the document.
2. All substantive modifications (including deletions) be either clearly marked up in the document or else described in an attachment to the document.
3. Finally, while it is not mandatory under this license, it is considered good form to offer a free copy of any hardcopy and CD-ROM expression of an Open Publication-licensed work to its author(s).

VI. LICENSE OPTIONS

The author(s) and/or publisher of an Open Publication-licensed document may elect certain options by appending language to the reference to or copy of the license. These options are considered part of the license instance and must be included with the license (or its incorporation by reference) in derived works.

A. To prohibit distribution of substantively modified versions without the explicit permission of the author(s). "Substantive modification" is defined as a change to the semantic content of the document, and excludes mere changes in format or typographical corrections.

To accomplish this, add the phrase `Distribution of substantively modified versions of this document is prohibited without the explicit permission of the copyright holder.' to the license reference or copy.

B. To prohibit any publication of this work or derivative works in whole or in part in standard (paper) book form for commercial purposes is prohibited unless prior permission is obtained from the copyright holder.

To accomplish this, add the phrase 'Distribution of the work or derivative of

I. REQUIREMENTS ON BOTH UNMODIFIED AND MODIFIED VERSIONS

The Open Publication works may be reproduced and distributed in whole or in
part, in any medium physical or electronic, provided that the terms of this
license are adhered to, and that this license or an incorporation of it by
reference (with any options elected by the author(s) and/or publisher) is
displayed in the reproduction.

Proper form for an incorporation by reference is as follows:

Copyright (c) <year> by <author's name or designee>. This material may be
distributed only subject to the terms and conditions set forth in the Open
Publication License, vX.Y or later (the latest version is presently
available at http://www.opencontent.org/openpub/).

The reference must be immediately followed with any options elected by the
author(s) and/or publisher of the document (see section VI).

Commercial redistribution of Open Publication-licensed material is permitted.

Any publication in standard (paper) book form shall require the citation of the
original publisher and author. The publisher and author’s names shall appear on
all outer surfaces of the book. On all outer surfaces of the book the original
publisher’s name shall be as large as the title of the work and cited as
possessive with respect to the title.

xz-utils/copyright: Source: http://git.tukaani.org/xz.git
xz-utils/copyright: Comment:
xz-utils/copyright: XZ Utils is developed and maintained upstream by Lasse Collin. Major
xz-utils/copyright: portions are based on code by other authors; see AUTHORS for details.
xz-utils/copyright: Most of the source has been put into the public domain, but some files
xz-utils/copyright: have not (details below).
xz-utils/copyright: This file describes the source package. The binary packages contain
xz-utils/copyright: some files derived from other works: for example, images in the API
xz-utils/copyright: documentation come from Doxygen.
xz-utils/copyright: License:
xz-utils/copyright: Different licenses apply to different files in this package. Here
xz-utils/copyright: is a rough summary of which licenses apply to which parts of this
xz-utils/copyright: package (but check the individual files to be sure!):
xz-utils/copyright: - liblzma is in the public domain.
xz-utils/copyright: - xz, xzdec, and lzmadec command line tools are in the public
xz-utils/copyright: domain unless GNU getopt_long had to be compiled and linked
xz-utils/copyright: in from the lib directory. The getopt_long code is under
xz-utils/copyright: GNU LGPLv2.1+.
xz-utils/copyright: - The scripts to grep, diff, and view compressed files have been
xz-utils/copyright: adapted from gzip. These scripts and their documentation are
xz-utils/copyright: under GNU GPLv2+.
xz-utils/copyright: - All the documentation in the doc directory and most of the
xz-utils/copyright: XZ Utils specific documentation files in other directories
xz-utils/copyright: are in the public domain.
xz-utils/copyright: - Translated messages are in the public domain.
From Ubuntu 16.04 LTS

xz-utils/copyright:  - The build system contains public domain files, and files that
xz-utils/copyright:    are under GNU GPLv2+ or GNU GPLv3+. None of these files end up
xz-utils/copyright:    in the binaries being built.

xz-utils/copyright:  - Test files and test code in the tests directory, and debugging
xz-utils/copyright:    utilities in the debug directory are in the public domain.

xz-utils/copyright:  - The extra directory may contain public domain files, and files
xz-utils/copyright:    that are under various free software licenses.

xz-utils/copyright:  You can do whatever you want with the files that have been put into
xz-utils/copyright:    the public domain. If you find public domain legally problematic,
xz-utils/copyright:    take the previous sentence as a license grant. If you still find
xz-utils/copyright:    the lack of copyright legally problematic, you have too many
xz-utils/copyright:    lawyers.

xz-utils/copyright:  As usual, this software is provided "as is", without any warranty.

xz-utils/copyright:  If you copy significant amounts of public domain code from XZ Utils
xz-utils/copyright:    into your project, acknowledging this somewhere in your software is
xz-utils/copyright:    polite (especially if it is proprietary, non-free software), but
xz-utils/copyright:    naturally it is not legally required. Here is an example of a good
xz-utils/copyright:    notice to put into "about box" or into documentation:

xz-utils/copyright:    This software includes code from XZ Utils <http://tukaani.org/xz/>.

xz-utils/copyright:  The following license texts are included in the following files:

xz-utils/copyright:    COPYING.LGPLv2.1: GNU Lesser General Public License version 2.1
xz-utils/copyright:    COPYING.GPLv2: GNU General Public License version 2
xz-utils/copyright:    COPYING.GPLv3: GNU General Public License version 3

xz-utils/copyright:  Note that the toolchain (compiler, linker etc.) may add some code
xz-utils/copyright:    pieces that are copyrighted. Thus, it is possible that e.g. liblzma
xz-utils/copyright:    binary wouldn't actually be in the public domain in its entirety
xz-utils/copyright:    even though it contains no copyrighted code from the XZ Utils source
xz-utils/copyright:    package.

xz-utils/copyright:  If you have questions, don't hesitate to ask the author(s) for more
xz-utils/copyright:    information.

xz-utils/copyright: COPYING says that most docs are in the public domain. Maybe that's not
xz-utils/copyright: clear enough, but on the other hand it looks a bit stupid to put
xz-utils/copyright: copyright information in tiny and relatively small docs like README.
xz-utils/copyright: [...]
xz-utils/copyright: I don't dare to say that _all_ XZ Utils specific docs are in the public
xz-utils/copyright: domain unless otherwise mentioned in the file. I'm including PDF files
xz-utils/copyright: generated by groff + ps2pdf, and some day I might include Doxygen-
xz-utils/copyright: generated HTML docs too. Those don't include any copyright notices, but
xz-utils/copyright: it seems likely that groff + ps2pdf or at least Doxygen put some
xz-utils/copyright: copyrighted content into the generated files.

xz-utils/copyright: Recreated the BCJ test files for x86 and SPARC. The old files
xz-utils/copyright: were linked with crt*.o, which are copyrighted, and thus the
xz-utils/copyright: old test files were not in the public domain as a whole. They
xz-utils/copyright: are freely distributable though, but it is better to be careful

xz-utils/copyright: The new files are just compiled and assembled object files,

This is the pre-packaged Debian Linux version of the zlib compression library. It was packaged by Michael Alan Dorman <mdorman@debian.org> from sources originally retrieved from ftp.uu.net in the directory pub/archiving/zip/zlib as the file zlib-1.0.4.tar.gz.
The deflate format used by zlib was defined by Phil Katz. The deflate and zlib specifications were written by Peter Deutsch. Thanks to all the people who reported problems and suggested various improvements in zlib; they are too numerous to cite here.
