

## How to Order ControlST\* Software Media and License Keys

Beginning with ControlST\* V05.00.00, ControlST software is licensed using the same methods as other GE Digital and GE Automation & Controls software, such as CIMPLICITY\*, Proficy® Historian, Proficy Machine Edition (PME), and Proficy Device Management. Although a license key is not required to install ControlST products, in order to use the ToolboxST\* and WorkstationST\* applications a valid license key (hardware or software) must be purchased and installed or activated.

The following ordering processes and procedures are provided this document:

- Software media ordering process
- License key ordering process

### Software Media (ControlST, OSI PI Historian, eTCSS, GECSS, and OSM3) Ordering Process

➤ **To order ControlST software media (CD/DVD):** fill out and submit a [Support Central Software Ordering Workflow](#).

---

**Note** ControlST license keys are ordered separately from ControlST software media.

---

### License Key Ordering Process

The license key you order depends on the following criteria:

- ControlST version you need to license
- Whether you are ordering a new ControlST license or upgrading an existing license
- Type of license key (Legacy hardware key or Advantage software license) you are ordering
- License key user (GE customer or GE internal-use)

### License Key Types

- **Hardware Key:** A computer with several software products installed must have license keys for *all* of those products on a single hardware key.
- **Software License:** Project Advantage licensing uses a software activation key per product (ControlST, CIMPLICITY, Proficy Historian) as needed. The activation codes can be applied directly to a computer or to the SSL Key (USB storage device) by the user. The pre-programmed, non-configurable license is programmed by GE on a software license or the M5 hardware key. An example of the user-configurable license is three license keys for ControlST, CIMPLICITY, and Proficy Historian can be activated on one computer, or on three separate computers. Additional information and troubleshooting for Advantage software license activation is available at [GE Customer Care support website](#).

---

**Note** The Proficy License Client (or Manager or Viewer, depending on version) will only recognize one license key type at a time.

---

## License Key Ordering Procedure

**Note** For a license key ordering process flow diagram with detailed instructions, refer to *ControlST Software Suite License Key Ordering* ([GHT-200060](#)).

### ➤ To order ControlST license keys

1. Determine which ControlST version you need to license. There are multiple license keys and you need to know which version of the software product to license.
2. Determine if you need to order a new license or upgrade an existing license.
  - a. For an upgrade, determine if you can upgrade your existing key or if you need to order a new key (based on your existing ControlST version). Refer to the following chart.
  - b. For a new license key, refer to the following chart.

Legacy ControlST		GEIP/GE Digital/GE A&C						
Color	Green Dongle	Blue Dongle	Proficy Licensing		Advantage Licensing			
Part #	IC647CSTPRE369...	IC647CSTPRE50...	White	Solution Provider	Customer Licenses		Solution Provider Licenses	
Key Type	Hardware Only	Hardware Only	Hardware / Keyless	Internal Development	Software / USB		Software / USB	
ControlST Versions	V01.x - V03.06.09	V03.06.09 - V04.07.x	V05.x - Current	1 year renewable	V05.x - Current		V05.x - Current	
			<b>No Longer Available!</b>		Software Key	Pre-Programmed	Software Key	User Programmed
	Keylock Non-ROHS	Keylock ROHS	M4 key	M4 key		M5 Key		SSL Key
								

**Hardware and Software Keys**

**Note** The Legacy ControlST license key (V04.07.xx and older) can be used with any other Proficy or Advantage license keys.

However, you cannot use two of the same type of license keys on a single computer (applies to Legacy, Proficy, or Advantage hardware keys). Proficy Common Licensing will only recognize one type of license. Hardware keys have the highest priority. For example, the license software will only recognize a single hardware key, or an Advantage activation code; it will not recognize both at the same time.

3. Determine which license key part number(s) you need to order. For assistance with determining your ControlST versions and license key part numbers, quantity, and cost, refer to the following resources:
  - Tables provided in the section [ControlST Version Part Numbers and Cost](#)
  - *ControlST Software Suite License Key Ordering* (GHT-200060)
  - Customer Care

4. For GE internal-use licenses, contact one of the following resources:

- Customer Care for Legacy licenses: [CustomerCare.ip@ge.com](mailto:CustomerCare.ip@ge.com)

---

**Note** If you have a CSN or SAP from a previous software purchase, provide it to Customer Care. If you do not have one, one will be created for you.

---

- Inside Sales for Solution Provider licenses: [insidesales.ip@ge.com](mailto:insidesales.ip@ge.com)

5. Determine if there is an applicable *blanket* purchase order (PO) in place for your organization (Power, Power Services, Wind USA, Wind Europe, and Control Solutions).

If you do not have an applicable blanket PO and need to create a PO, GE Automation & Controls may be listed in your GSL as

GE Intelligent Platforms with one of the following addresses:

GE Automation & Controls Inc.  
325 Foxborough Blvd  
Foxboro, MA 02035

GE Automation & Controls Inc.  
PO Box 8106 RT 29N and RT 606  
Charlottesville, VA 22906

GE Automation & Controls Inc.  
2500 Austin Dr  
Charlottesville, VA 22911-8319

6. To place an order, send an email to Customer Care with all of the following information:

- Part numbers
- Quantities
- Cost
- CSN or SAP number
- PO (or PO information)
- Ship To address and contact information

---

**Note** For an example email, refer to the section [Example Order Request Emails](#).

---

To expedite your order, organize your license key request by computer. For example:

a. Computer 1, 3, and 4 need licenses for CIMPLICITY V08.02 and ControlST V07.00.

b. Computer 2 needs licenses for only ControlST V07.00.

c. Computer 5 needs licenses for Proficiency Historian with 5,000 tags and WorkstationST for Historian.

*This order would result in five license keys, one license key for each computer.*

---

**Note** For assistance with license key activation, installation, use, and updates, refer to *How to Install, Activate, Update, and Troubleshoot ControlST Licenses* ([GHT-200049](#)).

---

## Example Order Request Emails

In the following examples, insert your specific information in place of the content within the brackets [ ].

### For a New License Order Request:

**Email Subject:** ControlST License New Order Request for [project name/person]

**Email Body:**

Please find attached a PO to order the following:

[Qty 3 – ControlST Version 7.0 — ST70GE + KEY M5 AC (for hardware key)]

- Ship To Address: [Physical shipping address for hardware key; email address for software activation only]
  
- End User Info:
  - End User Name: [End User Name]
  - End User Address: [End User Address]
  - End User Contact Name: [End User Contact Name]
  - End User Contact Email address: [End User Email Address]

### For an Upgrade License Order Request:

**Email Subject:** ControlST License Upgrade Order Request for [project name/person]

**Email Body:**

Please find attached a PO to upgrade the following [CIMPLICITY Serial Number license keys with ControlST Version 7.0 — ST70GE]:

---

**Note** M4 hardware keys programmed by the Siebel system have been replaced with either software activation codes or the M5 hardware key.

---

- [123456789]
- [123456790]
- [123456791]
- [123456792]
  
- Ship To Address (Internet): [Your.name@ge.com; email address for software activation only]
  
- End User Info:
  - End User Name: [End User Name]
  - End User Address: [End User Address]
  - End User Contact Name: [End User Contact Name]
  - End User Contact Email address: [End User Email Address]

**For a New License Order Request with an Applicable Blanket PO:**

**Email Subject:** ControlST License New Order Request for [project name/person]

**Email Body:**

Please order the following part numbers at No Charge, Reference [GE business name] blanket PO [Blanket PO Number]:

[Qty 3 – ControlST Version 7.0 — ST70GE + KEY M5 AC (for hardware key)]

- Ship To Address: [Physical shipping address]
  
- End User Info:
  - End User Name: [End User Name]
  - End User Address: [End User Address]
  - End User Contact Name: [End User Contact Name]
  - End User Contact Email address: [End User Email Address]

**For an Upgrade License Order Request with an Applicable Blanket PO:**

**Email Subject:** ControlST License Upgrade Order Request for [project name/person]

**Email Body:**

Please upgrade the following [CIMPLICITY Serial Number license keys with ControlST Version 7.0 — ST70GE], at No Charge, Reference [GE business name] blanket PO [blanket PO Number]:

---

**Note** M4 hardware keys programmed by the Siebel system will be replaced with either software activation codes or the M5 hardware key.

---

- [123456789]
- [123456790]
- [123456791]
- [123456792]
  
- Ship To Address (Internet): [Your.name@ge.com; email address for software activation only]
  
- End User Info:
  - End User Name: [End User Name]
  - End User Address: [End User Address]
  - End User Contact Name: [End User Contact Name]
  - End User Contact Email address: [End User Email Address]

## Example ControlST Versions, Part Numbers, and Cost

### ControlST V07.xx

**Advantage M5 Hardware License Key**

**Note** In the following table, xxx/yyy/zzz/aaa/bbb = 0–255 (qty).

**Example ControlST V07.xx License Key Part Numbers and Cost**

Item	Qty	Siebel Part Number <i>No longer available as of April 7, 2017</i>	Salesforce.com Software Part Number†	Cost
Complete ControlST Software Suite V07.00.00C	1	IC647CST-700	ST70GE	\$5,300 ea
