

BROAD FLEXIBILITY ACROSS GAS PLANT OPERATING DEMANDS

7F Gas Turbine DLN2.6+ Flex combustion solution

THE INDUSTRY'S WIDEST
LOAD RANGE IN ITS CLASS

UP TO
25%

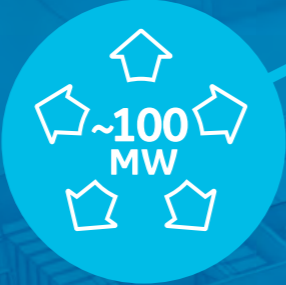

Minimum load fuel burn
reduction up to 25%

MAKE THE MOST OF
MARKET OPPORTUNITIES

- Stay online longer and start faster
- Capture more spinning reserve/peak price bids
- Reduce variable fuel costs
- Complement shifting demands in renewable markets

Load range
expansion by
~100MW

Emissions-compliant
turndown as low as 25%

- As low as 5 ppm NO_x operation
- Additional sub - 9ppm NO_x peaking power
