

iSupplier Registration

iSupplier allows suppliers to receive Purchase Orders and submit invoices electronically. To register for iSupplier, you will also be required to register for an SSO (single sign on) number

Once you have registered your SSO and logged in, you will be able to request access to the Nuclear iSupplier Application. You will be prompted for some additional information once you select your applications.

Please Note: For Supplier Merges, a new account must be created when merging to a different Legal Entity Name.

It may take several days to complete all the application setups.

You will get the below message:

Thank You!

***Your account is active, and you have successfully requested access to GE's applications!
You will receive an access notification from each of your requested applications within five business days.***

You requested access for the below applications:

Nuclear_iSupplier_Access
