

Project Template

1. Challenge Options:

Please choose your preferred option:

- **Challenge Option 1:** Provide innovative ideas to increase electricity supply and decarbonize Taiwan's power sector
- **Challenge Option 2:** Present solutions to reduce energy demand/ consumption in Taiwan

2. Cover Page: includes the name of your challenge option, project title, team and the finish date

Please indicate the "Challenge Option", "Project Title", "Team Name" and "Finish Date" on the cover page. There are no restrictions to your submission layout.

3. Problem Analysis

Elaborate the problem statement as described in the challenge option (s). Analyze the background, audience, or timelines. Evaluate your hypothesis and identify the core problems.

4. Purpose Statement and Action Plan

Propose an idea to address the challenge with specific steps, methods, processes, or products etc.

5. Anticipated Effect

How would your proposed idea impact the overall energy landscape and support sustainable development in Taiwan?

6. Self/Team Introduction

Elite Group: introduce your name (and your team members), occupation, company/ unit, or the organization you represent.

Student Group: introduce your school/ college, the name of your instructor/ teacher, or the organization you represent.

7. Reference

List the relevant references.
