# Putting Industrial Data to Work

We're transforming how industry solves its toughest challenges

Our customers are on the front line of the world's toughest industrial challenges – from enabling more renewable energy on the grid, to reducing emissions, increasing plant productivity, adapting to demand and keeping their teams safe. Our years of hard-won insights in **power generation**, **utilities**, **oil & gas**, and **manufacturing** mean we're uniquely positioned to help our customers better operate, optimize and analyze their work to deliver greater results today – and in the future.

## Driving Digital Transformation of Industry

### SPEED

Deploy faster optimization technologies across the enterprise to achieve ROI more quickly.

### SCALE

Seamlessly increase output and efficiencies across multiple facilities and business units.

### SIMPLICITY

Adopt intuitive turnkey solutions that don't require extensive training or technological savvy to implement.

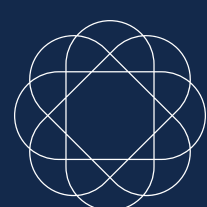

## Power Generation

“ With GE's hardware and software solutions, we can now react more quickly to market conditions while reducing operating costs and improving the plant's environmental footprint.

**Valerio Camerano**  
CEO of A2A

## Grid

“ We are just beginning to scratch the surface on the value of analytics, and when we look at Distributed Energy Resources and the Internet of Things, it becomes increasingly important for the future.

**Brian Hurst**  
VP and Chief Analytics Officer for Exelon Utilities

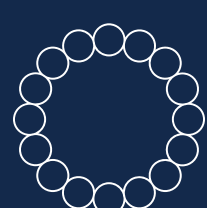

## Manufacturing

“ This year is the third year that we had GE Digital's MES in place for our engine facility and so far we had zero downtime.

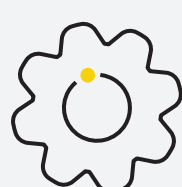

**Larry Shen**  
IT Senior Director, Chery Jaguar Land Rover

## Oil & Gas

“ We wanted to make better, data-driven decisions. We wanted to be purpose driven, people focused, data informed and technology enabled.

**Brooke Cox**  
Maintenance and Reliability Leader, Suncor Energy

### Operate

Through our depth of experience and expertise, we guide customers toward more efficient and impactful operations.

### Optimize

We co-innovate with our customers to implement new solutions and optimizations, helping them forge into the future with confidence and clarity.

### Analyze

The data is already there. We help empower customers to use it by making the complex simple, at unparalleled speed and scale.

As part of GE, we have a unique opportunity to change the way industry works.

Driven by people, process and proven technology, we help industry work better.
