

# Global Pet Food Processor Improves Quality and Yield

## Challenges

- Multi-plant manufacturer with lack of tools to understand what was happening on the plant floor
- Quality data entered on spreadsheets and operator logs leading to information gaps and errors
- Opportunity to improve system quality and efficiency

## Results

- *Operators able to make decisions based on real-time data and input information at the point of production*
- *Increased uptime, reliability and productivity*
- *Visibility to quality data by SKU enabled formula adjustments that resulted in cost savings of \$0.01 per case on one SKU*
- *The ability to make data driven process adjustments resulted in a cost reduction of more than **\$200,000 per year on one SKU in one plant***

## Products

- iFIX HMI/SCADA
- Proficy Historian
- Proficy Plant Applications
- Proficy Webpace
- IGS
- GE Digital's Professional Services

## About GE

GE (NYSE: GE) is the world's Digital Industrial Company, transforming industry with software-defined machines and solutions that are connected, responsive and predictive. GE is organized around a global exchange of knowledge, the "GE Store," through which each business shares and accesses the same technology, markets, structure and intellect. Each invention further fuels innovation and application across our industrial sectors. With people, services, technology and scale, GE delivers better outcomes for customers by speaking the language of industry.
