Accelerate your digital transformation to remain competitive in automotive manufacturing

**Focus on the fastest opportunities**

- Deliver tangible outcomes
- **2-6%** increase in equipment availability
- **38%** increase in engine production
- **8 years of YoY quality increases at one global auto OEM**

**The Path to Success Starts Here**

- Create a continuous loop of improvement across processes
  - Real-time visibility into data silos
  - Optimize throughput, yield, and quality
  - Improve reliability and decrease risk
- **Zero unplanned downtime in 3 years**
- **108 facilities’ data silos eliminated at one global auto OEM**
- **70%** reduction in maintenance training
- **99%** increase in first-time-right of AS/9900 certifications per year

**Manufacturing Execution System (MES)**

- **Pro/flux Plant Applications**, **Tracker, Predix Manufacturing Data Cloud**
- **CIMPLICITY and iFIX**

**Analytics and Machine Learning**

- **Pro/flux Unique Knowledge**
- **HMI/SCADA**

**Digitizing factories could drive**

- Despite the potential, only 40% of auto manufacturers have reached digital excellence each year in global productivity by 2023

**Accelerate your digital transformation with proven automotive software solutions from GE Digital**

- **Accumulate** = **160 billion**
- **13%** of auto manufacturers have been nothing short of digital excellence
