About CIMPLICITY

Based on decades of research and development and part of the Pro/f_icy family from GE Digital, CIMPLICITY is the HMI/SCADA of choice for the world’s largest manufacturers and utilities. For applications of all sizes, CIMPLICITY can help deliver faster response, reduced costs, and increased pro/f_itability.

IIoT Technology

CIMPLICITY boasts a standards-based open ecosystem for interoperability including:

- OPC UA, MQTT: Discovery, Configuration & Data Exchange
- ISA 18.2, ISA 101: Operator performance and safety
- Web-based technologies, Cloud, Docker: Deployment, Product updates, Accessibility / Mobility, Collaboration & IT Cost
- APIs (REST, OPC UA, MQTT): Extensibility, Integration, Bridging
- Machine Learning/AI: Prescriptive Intelligence

CIMPLICITY’s OPC UA auto discovery feature saving significant development time.

New in Version 11

- 40% reduction in development and operating cost
- 70% reduction in maintenance training time
- 45% reduction in energy costs
- Eliminate data silos across network of 108 facilities
- 1.95% increase in overall productivity
- Lead response times increased by 30%
- Enabled plant run time to 24/7 even during upgrades
- 15% uptick in milling machine utilization over 5 months

CUSTOMER HIGHLIGHTS:

CIMPLICITY is used by thousands of industrial organizations around the world
