

# Field Vantage™

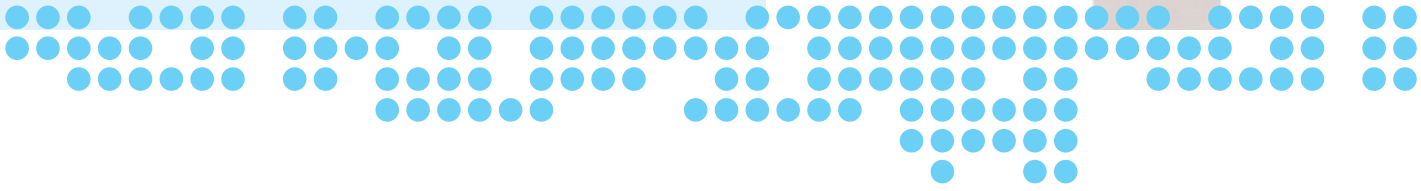

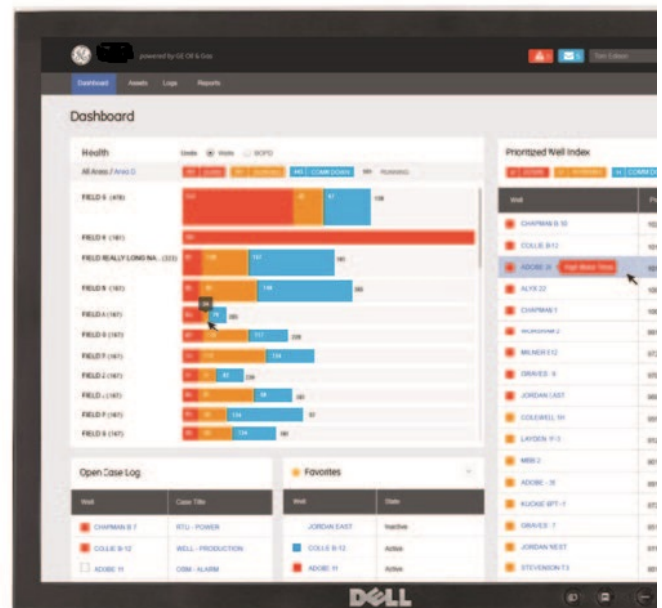

## Stay on top of your field and in control of your wells.

Stay connected to your data, anytime, anywhere. Stay up to speed on performance and productivity. So you can prioritize. Make better decisions faster. Minimize downtime and maximize profitability. Go farther. Go faster. Go smarter with Field Vantage.™

### Visibility across your entire field

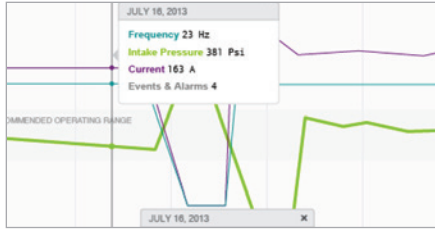

Field Vantage, a GE Predictivity™ offering, gives you exactly that. Clarity. Consistency. A 360-degree view of your wells—real-time data and information, all in one format, all in one place. The result? Data-driven insights that empower you to make better decisions faster. Prioritize repairs. Respond quickly and proactively to potential issues. Prevent downtime. Maximize productivity. And increase profitability.

With better visibility into the past, present and future of your wells and fields, Field Vantage powers entirely new levels of performance.

# The big picture

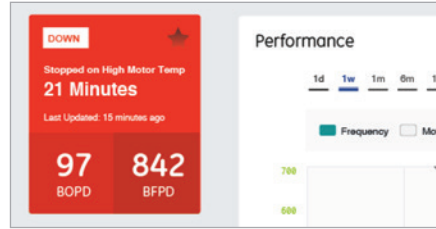

Field Vantage empowers you with the insights you need to be more productive.

## PRIORITIZE & RESPOND

Go smarter, with visibility across your field. Respond quickly and proactively. Identify and escalate environment issues before they flare up. Prioritize and optimize maintenance, and avoid costly downtime.

- Prioritized well index ranked by status and production
- Customizable watch lists that alert you to problems on high-priority wells
- Production data on the entire field

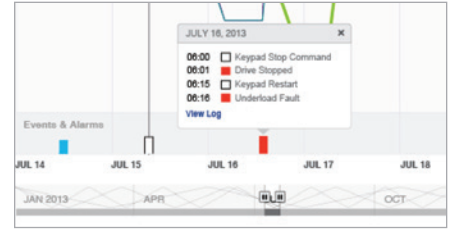

## KNOW, NOW

Go now, with a real-time snapshot of your field. Safely monitor your wells remotely and minimize drive time. Know the status of your wells so you can make decisions that maximize field production.

Real-time, at-a-glance well and field information, including:

- Well operational status
- Estimated daily production and fluid production data
- Historical well event information
- Ability to store well downhole configuration data all in one place

## COLLABORATE ON THE GO

Go anywhere, with information at your fingertips. Communicate and collaborate with your team. Know which problems have been addressed so you can move on to the next—anytime, from anywhere.

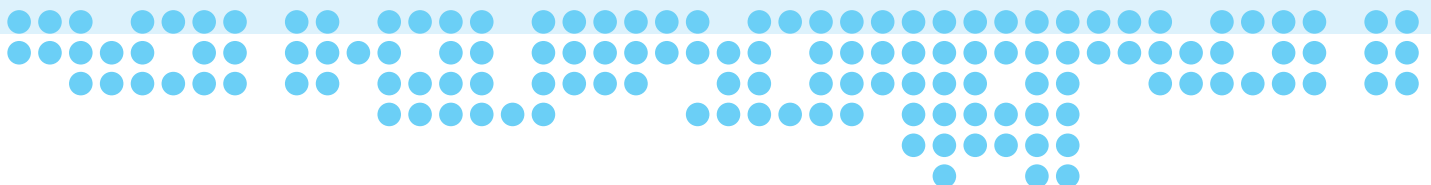

- Comprehensive well view, with alarms, messages and prioritized route lists that allow you to drill down to the well level to analyze events and alerts in an easy view
- Widget view of open cases across wells, with a log that lets everyone see them
- Team contact information

## Never lose sight of your data

Field Vantage features a communication On-Site Monitor option that uses cellular and satellite communications to transmit field data to our secure data centers. It can also receive data from other controller brands. Even if there's a break in communication, this feature will allow your data to stay intact and complete, with absolutely no gaps in collection.

### Additional data security features

- Application and data deployed to, and resides in, GE's secure Hosted Cloud Services environment
- Features NEMA 3R-rated enclosure with circuit breaker and surge protection for AC input to increase weather resistance
- Undergoes rigorous IT tests and numerous reviews to increase data security

#### **About GE**

GE (NYSE: GE) is the world's Digital Industrial Company, transforming industry with software-defined machines and solutions that are connected, responsive and predictive. GE is organized around a global exchange of knowledge, the "GE Store," through which each business shares and accesses the same technology, markets, structure and intellect. Each invention further fuels innovation and application across our industrial sectors. With people, services, technology and scale, GE delivers better outcomes for customers by speaking the language of industry. [www.ge.com](http://www.ge.com)
