Embrace Digital Trends to Remain Competitive in the Automotive Industry

The automotive industry is entering a period of intense change. The next generation of products and services, combined with new manufacturing technologies and business models such as ride-sharing and shared ownership, is transforming the way people think about transportation. Any one of those trends is disruptive enough to warrant adjustments.

**Challenges**

**Operational Responsiveness**

- Better planning and forecasting
- Optimize resource consumption
- Reduce risk of upgrades and changes
- Optimize throughput

**Solutions & Outcomes**

- Better planning and forecasting
- Optimize resource consumption
- Reduce risk of upgrades and changes
- Optimize throughput

**IT & OT / Maintenance Manager**

**Challenges**

- Integration of legacy systems
- Safe roll-out of information in line between ERP and manufacturing
- Total cost of ownership (TCO)

**Solutions & Outcomes**

- Integration of legacy systems
- Safe roll-out of information in line between ERP and manufacturing
- Total cost of ownership (TCO)

**Head of Manufacturing**

**Challenges**

- Plant consolidations
- Major changes in efficiency
- Drive consistent behavior across the company

**Solutions & Outcomes**

- Plant consolidations
- Major changes in efficiency
- Drive consistent behavior across the company

**Plant Manager**

**Challenges**

- Better planning and forecasting
- Optimize resource consumption
- Reduce risk of upgrades and changes
- Optimize throughput

**Solutions & Outcomes**

- Better planning and forecasting
- Optimize resource consumption
- Reduce risk of upgrades and changes
- Optimize throughput

**Team Leader**

**Challenges**

- Performance planning agency
- Estimate volume of archives
- Reduce time spent reporting
- Getting information on time
- Acting locally and centrally

**Solutions & Outcomes**

- Performance planning agency
- Estimate volume of archives
- Reduce time spent reporting
- Getting information on time
- Acting locally and centrally

**Operator**

**Challenges**

- Automate work management
- Instant feedback to station
- Validate forecast for a particular shift
- Organize error identification
- Auto-generated reports, including quality data, end of shift report

**Solutions & Outcomes**

- Automate work management
- Instant feedback to station
- Validate forecast for a particular shift
- Organize error identification
- Auto-generated reports, including quality data, end of shift report
