

Enterprise Acceleration Plans

Realize the most value from your Asset Performance Management (APM) investment.

Subscribe to Enterprise Acceleration Plans and gain access to a range of technical, advisory and education services designed to help your organization deliver more value and maximize your investment in APM.

Enterprise support
made easy, scalable
and value oriented to
maximize your APM
return on investment

Enterprise Acceleration Plans are Ideal for:

- Organizations operating multiple sites and more than one type of asset
- Organizations that are developing a digital-first culture to increase engagement and decrease risk
- Organizations that have multiple users of APM, or planning to add more, that require consistent training and access to APMs latest innovations
- Organizations that want to supplement asset/engineering expertise with more insights from GE's deep industry background

How it works

Under an easy-to-manage subscription model, organizations have three options to accelerate the success of APM programs:

Optional Add-Ons discounts	5%	10%	15%

Key Benefits

Outcome Services

- Disruption Escalation: Process for on-going non-technical issue management and escalation.
- Account Health Review: Provides you the opportunity to review issue remediation progress, identify possible barriers to success, and agree on path forward.
- Governance/Adoption Readiness: GE outlines appropriate stakeholders at each hierarchy layer and defines regular operating mechanisms for each group. Also, assesses and identifies outcome barriers prior to go-live.
- Outcome Solution Roadmap: GE translates desired outcomes into an attainment plan and multi-generation roadmap establishing pathway to success.
- Solution Release Readiness: Provides an overview of upcoming releases and best-practices. Early input on upcoming changes and feedback into roadmap.

Enhanced Education Services

- Personalized Education Portal: Offer you continuous access to eLearning courses, users' profiles details and useful metrics for each assigned training completion.
- Education Strategy Workshop: Consulting workshop to develop a long-term education journey aligned with your business goals.
- Exclusive On-Line education content: Access to Enterprise education content and GE experts leading new and upcoming features and updates.

Value Services

- Education Credits: Provides maximum flexibility to purchase and redeem training. Applicable to several GE training offering.
- Consulting Hours: Provides access to GE experts in a timely fashion to increase the value and adoption of our GE's APM.
