Increase operator agility and effectiveness to improve business performance

Proficy Webspace from GE Digital offers an easy-to-use, full-featured Web and mobile client that enables you to extend, expand, and enhance your new or existing iFIX or CIMPLICITY applications systems from GE Digital. It enables full control and visualization over your company Intranet or secure Internet without the need to change or alter your software application and can be set up within minutes.

With Proficy Webspace, you can reduce costs, improve time to action, and expand analytic capability—driving sustainable advantages across all levels of your business, including management, operators, engineering, and IT levels.

Outcomes

- Increase information sharing across teams with a full-featured, secure-by-design Web and mobile client for iFIX or CIMPLICITY
- Speed the right actions with model-based navigation and quick access to information over the Internet, anywhere
- Save time with zero client configuration and the ability to port screens instantly
- Decrease costs with one server that renders three applications on your choice of client, including iOS, Android, and browser access
- Boost flexibility by dynamically adjusting control points on-the-fly and viewing multiple systems simultaneously
- Improve analytical and planning abilities with real-time data and information viewing

01 Extend your HMI/SCADA with the power of the Industrial Internet

Proficy Webspace extends 100% of your iFIX and CIMPLICITY system viewing and control abilities into a Web browser or tablet. A “zero-install” HTML5 client allows you to your applications from popular Web browsers on Windows, Mac, and Linux computers. For MAC OS X users, a dedicated app multi-monitor support, client sound, and Max OS X Gatekeeper support

Proficy Webspace doesn’t compromise your proven applications, graphics, or functionality— providing a full-featured client and delivering comprehensive functionality over a browser.

02 Increase information sharing with flexible, secure-by-design technology

With support for up to 70 simultaneous clients, Proficy Webspace enables new and existing systems to be dynamically expanded across the facility or globe. The solution enhances your user experience with the ability to run multiple Webspace clients and view many systems from one point. Additionally, Webspace allows you to manually configure a sandbox and whitelist entries for files and programs.

03 Gain full-featured mobility with the SCADA app

Easily and quickly harness the power of your HMI/SCADA on iPad or Android devices with minimal engineering effort. Download the free SCADA app and instantly connect to your runtime projects, and leverage the same full-featured capabilities of a standard client with full HMI/SCADA functionality, including third-party app support with no screen conversions required.

Thanks to the Mobile Sense technology, your application accessed from mobile devices, behave and respond more like mobile apps.

04 Increased security

Your application deserves the best protection. For that matter, Proficy Webspace leverages SSL/TLS Encryption (up to 256-bit AES) to ensure the security of the data that is transmitted over the network.
Proficy Webspace Version 6.2 from GE Digital
Deliver advanced control and visualization over iPad, Android, and a Web browser

Features

- New Zero-install HTML5 client, no third-party software required
- New option for strong encryption
- New App for MAC OS X - simplified installation, multi-monitor support, client sound, and Mac OS X Gatekeeper support
- Client-side scaling support for high-resolution devices
- Mobile Sense Technology Mobile for a better UX on mobile devices
- Load balancing and high availability
- Full-featured Web and mobile client for iFIX or CIMPLICITY—with one server and real-time data updates

- No restrictions on secure containment of third-party controls; launch third-party apps triggered in iFIX or CIMPLICITY, control elements operable within Webspace and inherit security setup
- External access over the Internet, multi-tab browser support, remote access for debug and support
- E-signature enhances security and audit trail
- Support displays with animations
- View, acknowledge, and silence alarms and warnings
- Administration: Client disconnect, client session shadowing, SSL 56 bit encryption, port selection, maximum client limit

Now available, Proficy Webspace 6.2 improves the way operators receive and react to insights through real-time visualization and control - anywhere, anytime.

Version 6.0/6.2 offers enhanced encryption for better security, a new zero-install HTML5 client, new OS compatibility, and touchscreen improvements.

For Hardware and Software Requirements information, please consult the online product documentation.

Speed response to HMI/SCADA events and data by sharing information anywhere, anytime with Proficy Webspace for iPad, Android, and a browser.

Speed the right actions with model-based navigation and quick access to information over the Internet, anywhere.
Proficy Webspace Version 6.2 from GE Digital
Deliver advanced control and visualization over iPad, Android, and a Web browser

Services
In the world of Industrial Internet of Things (IIoT), organizations are able to optimize productivity, reduce costs, and achieve Operational Excellence. While this is an exciting time for opportunity and growth, it can also bring on new challenges, questions, and uncertainty. No matter where you are on your IIoT journey, GE Digital has the right services offering for you.

Advisory Services We can help you plan and start your IIoT journey in a way that aligns to your specific business outcomes.

Managed Services We can help you maintain your critical machines from one of our remote locations around the world using model-based predictive analytic technology.

Implementation Services Our experienced global Automation partners can implement a collaborative, multi-generational program that marries your existing investments to the right enhancements and technology.

Education Services We specialize in education services to ensure that you’re leveraging our solutions to the fullest extent with our training and certificate programs.

Acceleration Plans Let us help by ensuring that your business continues to operate at its highest efficiency, all while mitigating risks to your investments.

Unified and Integrated Proficy Products for Your Digital Transformation Journey
GE Digital’s unified and integrated Proficy suite helps you precisely monitor, control, and visualize every aspect of your operations, enabling operators to make the best decisions faster. Transforming your business requires foundational innovations that lay the groundwork for future success.

Proficy Operations Hub
A centralized environment for aggregating and visualizing contextual and situational information for industrial applications – supporting rapid application development and rich displays for faster operational response and better decision making.

Proficy Batch Execution
With Batch Execution, gain the security, flexibility, and ease of use you need to reduce costs, increase quality, and boost profitability.

Proficy Historian
Optimize asset and plant performance through time-series and A&E industrial data collection and aggregation. Improve decision-making with advanced trend analysis.

Proficy CSense
Optimize with 5-in-1 industrial analytics capabilities in a closed-loop solution, allowing process engineers to analyze, monitor, predict, simulate, and optimize and control setpoints in real time.

Proficy Plant Applications
Maximize overall equipment effectiveness (OEE), improve production scheduling, and ensure product quality by leveraging real-time production data.

Proficy Workflow
Guide operators with dynamic, interactive electronic work instructions and eSOPs for more consistent operations and optimized processes.

About GE
GE (NYSE: GE) is the world’s Digital Industrial Company, transforming industry with software-defined machines and solutions that are connected, responsive and predictive. GE is organized around a global exchange of knowledge, the “GE Store,” through which each business shares and accesses the same technology, markets, structure and intellect. Each invention further fuels innovation and application across our industrial sectors. With people, services, technology and scale, GE delivers better outcomes for customers by speaking the language of industry.
