Dear Sir,

Sub: **Updates**

As part of the ongoing steps being taken by the Company to optimise the level of costs and to further improve the competitiveness in the Transformer business, it has been decided to right size the scale of operations in one of the factories which manufactures transformers at Naini, Uttar Pradesh.

This will include rationalising the work force of the Naini factory to match with the current order backlog and the need for the operating level required in the Naini factory, and in the process optimise the utilisation level of the transformer manufacturing factories in the Company.

Such rationalisation is not expected to disrupt or adversely affect the commercial operations of any unit of the Company.

This is for your information and records.

Thanking you,

Yours faithfully,
For GE T&D India Limited

Manoj Prasad Singh
Company Secretary
