

## Caution Concerning Forward-Looking Statements

This section contains important information about our forward-looking statements. Please also see our annual reports on Form 10-K and quarterly reports on Form 10-Q that we file with the SEC and that you can find on our website by clicking [here](#).

(for communications dated on or after April 29, 2022)

### Caution Concerning Forward Looking Statements

Our public communications and SEC filings may contain statements related to future, not past, events. These forward-looking statements often address our expected future business and financial performance and financial condition, and often contain words such as "expect," "anticipate," "intend," "plan," "believe," "seek," "see," "will," "would," "estimate," "forecast," "target," "preliminary," or "range." Forward-looking statements by their nature address matters that are, to different degrees, uncertain, such as statements about the impacts of the COVID-19 pandemic on our business operations, financial results and financial position and on the global supply chain and world economy; our expected financial performance, including cash flows, revenues, organic growth, margins, earnings and earnings per share; macroeconomic and market conditions and volatility; planned and potential transactions, including our plan to pursue spin-offs of our Healthcare business and our combined Renewable Energy, Power and Digital businesses; our de-leveraging plans, including leverage ratios and targets, the timing and nature of actions to reduce indebtedness and our credit ratings and outlooks; our funding and liquidity; our businesses' cost structures and plans to reduce costs; restructuring, goodwill impairment or other financial charges; or tax rates.

For us, particular uncertainties that could cause our actual results to be materially different than those expressed in our forward-looking statements include:

- our success in executing and completing asset dispositions or other transactions, including our plan to pursue spin-offs of our Healthcare business and our combined Renewable Energy, Power and Digital businesses, and our plans to exit our equity ownership positions in Baker Hughes and AerCap, the timing of closing for such transactions, the ability to satisfy closing conditions, and the expected proceeds, consideration and benefits to GE;
- the continuing severity, magnitude and duration of the COVID-19 pandemic, including impacts of the pandemic and virus variants and resurgences; of businesses' and governments' responses to the pandemic, such as continued or new government-imposed regional lockdowns and travel restrictions; and of individual factors such as aviation passenger confidence on our operations and personnel, on commercial activity and demand across our and our customers' businesses, and on global supply chains;
- the extent to which the COVID-19 pandemic and related impacts, including global supply chain disruptions and price inflation, will continue to adversely impact our business operations, financial performance, results of operations, cash flows, financial position, the prices of our securities and the achievement of our strategic objectives;
- changes in macroeconomic and market conditions and market volatility (including developments and volatility arising from the COVID-19 pandemic), including inflation, supply chain constraints, interest rates, the value of securities and other financial assets (including our equity ownership positions in Baker Hughes and AerCap, and expected equity interest in the Healthcare business after its spin-off), oil, natural gas and other commodity prices and

exchange rates, and the impact of such changes and volatility on our financial position and performance;

- our de-leveraging and capital allocation plans, including with respect to actions to reduce our indebtedness, the timing and amount of GE dividends, stock buybacks, organic investments, and other priorities;
- downgrades of our current short- and long-term credit ratings or ratings outlooks, or changes in rating application or methodology, and the related impact on our liquidity, funding profile, costs and competitive position;
- our liquidity and the amount and timing of our cash flows and earnings, which may be impacted by customer, supplier, competitive, contractual and other dynamics and conditions;
- capital and liquidity needs associated with our financial services operations, including in connection with run-off insurance operations and Bank BPH, the amount and timing of any required capital contributions and any strategic actions that we may pursue;
- global economic trends, competition and geopolitical risks, including impacts from the ongoing conflict between Russia and Ukraine and the related sanctions and other measures, changes in the rates of investment or economic growth in key markets we serve, or an escalation of sanctions, tariffs or other trade tensions between the U.S. and China or other countries, and related impacts on our businesses' global supply chains and strategies;
- market developments or customer actions that may affect demand and the financial performance of major industries and customers we serve, such as secular, cyclical and competitive pressures in our Power business; pricing, the timing of customer investment and other factors in renewable energy markets; demand for air travel and other dynamics related to the COVID-19 pandemic; conditions in key geographic markets; and other shifts in the competitive landscape for our products and services;
- operational execution by our businesses, including the success in improving operational performance at our Renewable Energy business, and the performance of our Aviation business amidst the ongoing market recovery;
- changes in law, regulation or policy that may affect our businesses, such as trade policy and tariffs, regulation and incentives related to climate change (including extension of the U.S. wind Production Tax Credit), and the effects of tax law changes;
- our decisions about investments in research and development, and new products, services and platforms, and our ability to launch new products in a cost-effective manner;
- our ability to increase margins through implementation of operational changes, restructuring and other cost reduction measures;
- the impact of regulation and regulatory, investigative and legal proceedings and legal compliance risks, including the impact of Alstom and other investigative and legal proceedings;
- the impact of actual or potential failures of our products or third-party products with which our products are integrated, and related reputational effects;

- the impact of potential information technology, cybersecurity or data security breaches at GE or third parties; and
- the other factors that are described in the "Risk Factors" section of our Quarterly Report on Form 10-Q for the Quarter Ended March 31, 2022 and our Annual Report on Form 10-K for the year ended December 31, 2021, as such descriptions may be updated or amended in any future reports we file with the SEC.

These or other uncertainties may cause our actual future results to be materially different than those expressed in our forward-looking statements. We do not undertake to update our forward-looking statements.

Our public communications and SEC filings may include forward-looking projected financial information that is based on current estimates and forecasts. Actual results could differ materially.

GE's Investor Relations website at [www.ge.com/investor-relations](http://www.ge.com/investor-relations) and our corporate blog at [www.ge.com/reports](http://www.ge.com/reports), as well as GE's Facebook page and Twitter accounts, contain a significant amount of information about GE, including financial and other information for investors. GE encourages investors to visit these websites from time to time, as information is updated and new information is posted.
