

GE: 2022 BERNSTEIN STRATEGIC DECISIONS CONFERENCE

June 1, 2022

CAUTION CONCERNING FORWARD-LOOKING STATEMENTS:

This document contains "forward-looking statements" – that is, statements related to future events that by their nature address matters that are, to different degrees, uncertain. For details on the uncertainties that may cause our actual future results to be materially different than those expressed in our forward-looking statements, see <https://www.ge.com/investor-relations/important-forward-looking-statement-information> as well as our annual reports on Form 10-K and quarterly reports on Form 10-Q. We do not undertake to update our forward-looking statements. This document also includes certain forward-looking projected financial information that is based on estimates and forecasts. Actual results could differ materially.

NON-GAAP FINANCIAL MEASURES:

In this document, we sometimes use information derived from consolidated financial data but not presented in our financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP). Certain of these data are considered "non-GAAP financial measures" under the U.S. Securities and Exchange Commission rules. These non-GAAP financial measures supplement our GAAP disclosures and should not be considered an alternative to the GAAP measure. The reasons we use these non-GAAP financial measures and the reconciliations to their most directly comparable GAAP financial measures are included in our earnings releases.

Amounts shown on subsequent pages may not add due to rounding.

GE's Investor Relations website at www.ge.com/investor and our corporate blog at www.gereports.com, as well as GE's Facebook page and Twitter accounts, contain a significant amount of information about GE, including financial and other information for investors. GE encourages investors to visit these websites from time to time, as information is updated and new information is posted.

Taking action in today's operating environment

Healthcare: implemented pull replenishment on Ultrasound probes

Delivery: meeting high demand across multiple businesses

GE wide: increased data visibility, pricing analytics, and bid selectivity

Price: continuing to implement to mitigate higher costs

Aviation: taking cost out of turbine airfoils through its lean journey

Cost out: leveraging lean to support margin

Lean & decentralization critical to navigating macro headwinds

Delivery

ACTIONS TO IMPROVE DELIVERY AT GE

Make delivery performance a competitive advantage ...
increase on time delivery & reduce overdue backlog

Shorten lead times... improved speed to customer

Root cause analysis... upstream processes & controls

Supplier actions... partnering to increase output via lean;
assurance agreements, dual sources

Redesigns ... for example, HC ~5,800 alternate
subcomponents / design changes since March '20

SPOTLIGHT: HEALTHCARE

Open Red Flags

- Inventory missing a component to ship... line will be down in less than 10 days if material not received
- Daily management ... highlighting key issues to drive resolution
- Signs of stabilizing in 2Q... pockets of improvement in labor & metals availability

Working to fulfill strong demand enabling growth in '22 & '23

Price

PRICE DYNAMICS AT GE

% of GE adjusted revenue*

Equipment: underwriting & selectivity on bespoke projects; orders price traction in shorter-cycle, standard products

Long-term service agreements: escalation in ~95% of contracts; recognized via contract margin review

Transactional services: increasing list prices & price floors

SPOTLIGHT: GAS POWER

- **Equipment...** improving backlog margins; continuous cost updates & price escalation
- **Long-term service agreements...** backlog well protected with escalation, working additional opportunities
- **Transactional services...** more frequently increasing list prices, implementing logistics surcharges

Positive momentum... targeting >\$0.5B price in '22 with further benefits in '23

Cost out

ACTIONS WE'RE TAKING TO DRIVE COST OUT

Direct material

- Sourcing actions: Best cost, nearshore & dual sources
- Value analysis & value engineering of components ... should-cost deployment

Labor & overhead^{-b)}

- Standard work & waste removal to drive outage/cycles efficiency & factory rationalization
- Product reliability with systematic root-cause analysis ... focus on suppliers' quality and design for durability

Operating expense^{-b)}

- Organizational streamlining, decentralization
- Strategic refocusing

Targeting ~\$2B gross cost out in '22 through productivity, restructuring & sourcing actions

(a- 2021 actuals, cost excluding NCI and EFS benefit from taxes

(b- Some plans may be subject to the outcome of legally mandated information & consultation with employee representatives

Driving lasting improvements for the long term

SCALING LEAN & DECENTRALIZATION
