

# U.N. Global Compact Principles Index

**WE SUPPORT**

Updated May 2020

The United Nations Global Compact (UNGC) is both a policy platform and a practical framework for companies that are committed to sustainability and responsible business practices.

As a multi-stakeholder leadership initiative, it seeks to align business operations and strategies with 10 principles in the areas of human rights, labor, environment and anti-corruption, and to catalyze actions in support of broader UN goals.

GE became a signatory to the UNGC in 2008. Business signatories to the UNGC are required to annually submit a Communication On Progress (COP) for the UNGC website and to share the COP widely with their stakeholders. GE's COP can be viewed [here](#). Also, referenced below are links to relevant portions of GE's Sustainability website that support the corresponding UNGC principles.
