

U.N. Global Compact Principles Index

WE SUPPORT

The United Nations Global Compact (UNGC) is both a policy platform and a practical framework for companies that are committed to sustainability and responsible business practices.

As a multi-stakeholder leadership initiative, it seeks to align business operations and strategies with 10 principles in the areas of human rights, labor, environment and anti-corruption, and to catalyze actions in support of broader UN goals.

GE became a signatory to the UNGC in 2008. Business signatories to the UNGC are required to annually submit a Communication On Progress (COP) for the UNGC website and to share the COP widely with their stakeholders. GE's COP can be viewed here. Also, referenced below are links to relevant portions of GE's Sustainability website that support the corresponding UNGC principles.
